

**EXPLANATORY MEMORANDUM TO**  
**THE FOOD AND FEED IMPORTS (AMENDMENT) (EU EXIT) REGULATIONS**  
**2019**

**2019 No. [XXXX]**

**1. Introduction**

- 1.1 This explanatory memorandum has been prepared by the Food Standards Agency and is laid before Parliament by Act.

**2. Purpose of the instrument**

- 2.1 The Food and Feed Imports (Amendment) (EU Exit) Regulations 2019 (the ‘instrument’) amends European legislation relating to import controls on food and feed, from outside of the United Kingdom (UK), to ensure its operability following the UK’s departure from the European Union (EU). Imports legislation sets rules for the verification of food and feed law by competent authorities in the UK such as the Food Standards Agency (FSA). This instrument amends references to European institutions and systems in order that the legislation is operable in the UK following our departure from the EU. It is intended to provide continuity for operators and trade whilst protecting public health.

*Explanations*

What did any relevant EU law do before exit day?

- 2.2 Prior to exit day the purpose of import controls legislation was to ensure that Member States of the EU were performing and organising import controls on goods entering the territory of the EU in a uniform way. This better facilitates movement of goods between countries within the single market once they have been cleared for free circulation within the EU. To do this the legislation set out rules for the performance of competent authorities responsible for undertaking the import controls at the border of the EU on products both of animal and plant origin for human consumption. The instrument also amends deficiencies in the domestic secondary legislation which implements these Regulations in England.
- 2.3 As a responsible government, we will continue to proportionately prepare to ensure readiness on exit day in all scenarios. The purpose of this instrument therefore, is to ensure that there will continue to be a functioning statute book on exit day which maintains continuity in relation to the imported food and feed Regulations.

Why is it being changed?

- 2.4 As a result of EU Exit, the UK will cease to be a Member State of the EU. This instrument amends the legislation so that references to other European Member States, the European Commission and associated elements are removed or replaced by appropriate wording. This ensures that inoperabilities and deficiencies are addressed and that all the correct powers to maintain a control system responsive to emerging threats will be repatriated to the appropriate UK authorities.

What will it now do?

- 2.5 The instrument means that the retained European legislation and its powers will continue to operate satisfactorily once the UK leaves the EU. This will provide the legal basis for a domestic import controls system in the UK with powers shared amongst the devolved administrations where appropriate.

**3. Matters of special interest to Parliament**

*Matters of special interest to the Joint Committee on Statutory Instruments.*

- 3.1 None.

*Matters relevant to Standing Orders Nos. 83P and 83T of the Standing Orders of the House of Commons relating to Public Business (English Votes for English Laws)*

- 3.2 The territorial application of this instrument includes Scotland and Northern Ireland.
- 3.3 The powers under which this instrument is made cover the entire United Kingdom (see The European Union (Withdrawal) Act 2018 ('the Act').) This instrument is being enacted under powers afforded by section 8 of the Act to correct deficiencies in the retained legislation and the territorial application of this instrument is not limited either by the Act or by the instrument.

**4. Extent and Territorial Application**

- 4.1 The territorial extent of this instrument is the United Kingdom.
- 4.2 The territorial application of this instrument is the entirety of the United Kingdom for those aspects amending deficiencies in retained EU law. The elements of the instrument addressing deficiencies in the Plastic Kitchenware (Conditions on Import from China) (England) Regulations 2011 will only apply in England, and equivalent measures to amend the respective legislation in the devolved administrations will be made there.

**5. European Convention on Human Rights**

- 5.1 The Parliamentary Under Secretary of State for Public Health and Primary Care, Steve Brine has made the following statement regarding Human Rights:

“In my view the provisions of the Food and Feed Imports (Amendment) (EU Exit) Regulations 2019 are compatible with the Convention rights.”

**6. Legislative Context**

- 6.1 The European Union (Withdrawal) Act 2018 (The Act) repeals the European Communities Act 1972 on exit day. It maintains all domestic law and retains previously directly applicable EU legislation provided it is in the English language. Sections 8(1) and 8(2) of the Act enable UK Ministers to fix deficiencies in retained EU law enabling retained legislation and the safeguards it provides to operate effectively following the UK's exit from the EU.
- 6.2 This instrument amends retained EU law detailed in paragraph 2.2 above.
- 6.3 Article 9 of Regulation (EC) No. 178/2002 states that there will be open and transparent public consultation during the preparation, evaluation and revision of food law, except in urgent circumstances. Following EU exit, this will continue to be the

case with all future revisions of food law. Public consultation has been completed, as shown below, in accordance with this.

## **7. Policy background**

### *What is being done and why?*

- 7.1 Imported food can be susceptible to known or emerging risks linked to specific feed or food both of animal and non-animal origin. Data resulting from notifications, reports from third countries and scientific assessments, enables an increased level of imported food controls.
- 7.2 This instrument will fix the inoperabilities in retained direct EU legislation which establishes controls in imported food and feed following known or emerging risks.
- 7.3 The changes introduced in this instrument and listed below will ensure that the legislation remains operable.
- Functions currently undertaken by the European Commission in adopting some implementing regulations rendering applicable the controls on imported food will in the future be the responsibility of the ‘appropriate authority’ who must prescribe measures which apply the applicable maximum permitted levels;  
“appropriate authority” means:
    - (a) in relation to England, the Secretary of State;
    - (b) in relation to Wales, the Welsh Ministers;
    - (c) in relation to Scotland, the Scottish Ministers;
    - (d) in relation to Northern Ireland, the Northern Ireland devolved authority.
  - References to “Member States” or “Community” at various places will be replaced with UK relevant references, e.g. “The Member States shall maintain and make publicly available on the Internet for each of the products listed in Annex I an up-to-date list of the designated points of entry. The Member States shall communicate the Internet addresses of these lists to the Commission.” will become “The Food Safety Authority must maintain and make publicly available for each of the products listed in Annex 1 an up to date list of the designated points of entry.”.
  - The “Food Safety Authority” means
    - (a) as regards England, Wales and Northern Ireland, the Food Standards Agency (FSA);
    - (b) as regards Scotland, Food Standards Scotland (FSS)

## **8. European Union (Withdrawal) Act/Withdrawal of the United Kingdom from the European Union**

- 8.1 This instrument is being made using the power in section 8 of the EU (Withdrawal) Act 2018 in order to address failures of retained EU law to operate effectively or other deficiencies arising from the withdrawal of the UK from the EU. This instrument is being enacted on a UK wide basis. Amendments made through this instrument will

enable the retained law to operate effectively across the UK. In accordance with the requirements of that Act the Minister has made the relevant statements as detailed in Part 2 of the Annex to this Explanatory Memorandum.

## **9. Consolidation**

9.1 No consolidation is required.

## **10. Consultation outcome**

10.1 A full public consultation was carried out from 4 September until 14 October 2018 on the FSA's proposed approach to retained EU law for food and feed safety and hygiene. This approach proposed making a number of corrections to the retained EU law which includes the Food and Feed Imports (Amendment) (EU Exit) Regulations 2019, using powers under the European Union Withdrawal Act. It was proposed in our approach that the corrections would be made by way of statutory instruments of which 15 had been prepared. Key corrections would provide a suitable replacement for the risk management function currently undertaken by the European Commission and for the risk assessment function currently undertaken by the European Food Safety Authority (EFSA), amongst other minor, non-controversial amendments. The corrections would not result in any material change in the level of protection to human or animal health, or to the high standard of domestic or imported food and feed which consumers expect. The statutory instruments which would make the corrections will be subject to review and approval by Parliament.

10.2 The consultation covered the proposed approach used for all of the FSA's Statutory Instruments in relation to EU Exit. It received 50 responses of which 82% supported or did not disagree with the proposed approach being outlined by the Food Standards Agency. 16% of replies contain mixed comments. The main concerns regarding the FSA approach in general were related to the communication of change and ensuring sufficient lead time is given. A more detailed analysis of the responses can be seen at the published link below.

10.3 One respondent raised concerns around the timeframe for delivering the legislation needed for day one readiness.

## **11. Guidance**

11.1 It is considered that guidance is not required for this instrument as it generally maintains existing regulations and does not introduce new requirements.

## **12. Impact**

12.1 The impact on business, charities or voluntary bodies is minimal. According to the ONS Inter Departmental Business Register (IDBR) there were 214,175 businesses active in the agri-food sector in 2017. The FSA envisages minimal one-off familiarisation costs to businesses, charities and voluntary bodies; where we estimate

that it will take each organisation less than 60 minutes<sup>1</sup> to read and understand the proposed regulations and then disseminate the information to key staff within their organisation. However, it is unlikely that the envisaged changes will present any other impact on businesses', charities or voluntary bodies' day to day operations as the rules are not changing as a result of this instrument. The associated direct cost for businesses has been calculated by applying the 2017 median annual wage for "production managers and directors" of £22.05 and uprating it by 20% to account for overheads<sup>2</sup>. Multiplying this wage rate with the expected familiarisation time gives an estimated total one-off cost to businesses of £5.7m. After adjusting for inflation and applying a discount rate of 3.5% as per HMT Green Book guidance, this translates to an Equivalent Annual Net Direct Cost to Business (EANDCB) of approximately £600,000.

- 12.2 In terms of the impact on the public sector, there are approximately 419 Local Authorities (LAs) and 35 Port Health Authorities (PHAs) in the UK, which enforce existing food and feed law and will continue to enforce the retained EU law after the UK's EU Exit. The FSA envisages minimal one-off familiarisation time costs to LAs and PHAs; where we estimated that it will take authorities less than 60 minutes to read and familiarise themselves with the EU Regulations and then disseminate to staff and key stakeholders. It is estimated that one officer in each of these authorities (one Food/Feed Officer from each local authority; and one 'Port Health Officer' from each PHA) will need to undertake this task. The instrument is not considered to add additional or new burdens on enforcement bodies, other than those identified here.
- 12.3 An impact assessment has not been produced for these Regulations which the FSA has certified as being below the *de minimis* threshold of +/- £5m equivalent annual net direct cost to business. The Regulations are designed only to fix the inoperability of retained EU legislation (detailed in Section 6) and ensure the continued safety of food and feed after the UK exits the EU. The Regulations provide continuity for stakeholders and the FSA has not identified any significant impact on stakeholders other than in relation to a negligible one-off familiarisation cost from the legislative change.

### **13. Regulating small business**

- 13.1 The legislation applies to activities that are undertaken by small businesses.
- 13.2 Over 90% of the UK food industry sector comprises small and micro businesses and EU legislation generally applies to food and feed businesses regardless of size, as requirements are intended to be risk based to reflect the activities undertaken by business. Due to the high ratio of small and micro food businesses in the UK, it is often not feasible to exempt smaller businesses from new food measures, as this would fail to achieve the intended effect of reducing risks to public health. The FSA makes every effort to identify the impacts and minimise burdens on small and micro businesses where possible.
- 13.3 The changes made to the legislation will provide continuity for business and should not impact on the day-to-day workload of small and micro businesses as all food and feed safety standards and legal definitions are maintained.

## **Part 2**

### **Statements required when using enabling powers under the European Union (Withdrawal) 2018 Act**

#### **1. Appropriateness statement**

- 1.1 The Parliamentary Under Secretary of State for Public Health and Primary Care, Steve Brine has made the following statement regarding use of legislative powers in the European Union (Withdrawal) Act 2018:

“In my view the Food and Feed Imports (Amendment) (EU Exit) Regulations 2019 does no more than is appropriate”.

- 1.2 This is the case because: the instrument only fixes the inoperabilities detailed in section 2 of this Explanatory Memorandum and adds no additional legislative measures.

#### **2. Good reasons**

“In my view there are good reasons for the provisions in this instrument, and I have concluded they are a reasonable course of action”.

- 2.2 These are: because the legislation will create a level playing field in the area of importing foods preventing UK businesses from being placed in a disadvantageous position when trading overseas.

#### **3. Equalities**

- 3.1 The Parliamentary Under Secretary of State for Public Health and Primary Care, Steve Brine has made the following statement(s):
