All such mains as last above mentioned (unless already laid down) shall be laid down by the Undertakers within six months after any requisition in that behalf served upon them in accordance with the provisions of this Order has become binding upon them or such further time as may in any case be approved of by the Board of Trade. —

(3.) When any such requisition is made in respect of any street not repairable by the local authority which is not mentioned in the Third Schedule the Undertakers shall (unless the authority or person by whom such street is repairable consent to the breaking up thereof) forthwith apply to the Board of Trade under section thirteen of the Electric Lighting Act 1882 for the written consent of the Board authorising and empowering the Undertakers to break up such street and the requisition shall not be binding upon them if the Board of Trade refuse their consent in that behalf.

18. If the Undertakers make default in laying down any distributing mains in accordance with the provisions of this Order within the periods prescribed in that behalf respectively the Board of Trade may after considering any representations of the Undertakers either revoke this Order as to the whole or any part of the area of supply or if the Undertakers so desire suffer the same to remain in force as to such area or part thereof subject to such conditions as they may think fit to impose and any conditions so imposed shall be binding on and observed by the Undertakers and shall be of the like force and effect in every respect as though they were contained in this Order. If any question arises between the Undertakers and the owner of any such wire or line as to whether the Undertakers have constructed laid down or placed their electric lines or other works or worked their undertaking in contravention of this subsection and as to whether the working of such wire or line or the current therein is or is not injuriously affected thereby such question shall be determined by arbitration and the arbitrator (unless he is of opinion that such wire or line not having been so in existence at such time as aforesaid has been placed in unreasonable proximity to the electric lines or works of the Undertakers) may direct the Undertakers to make any alterations in or additions to their system so as to comply with the provisions of this section and the Undertakers shall make such alterations or additions accordingly.

Where any such requisition is made by any such owners or occupiers as aforesaid the Undertakers (if they think fit) may within fourteen days after the service of the requisition upon them serve a notice on all the persons by whom the requisition is signed stating that they decline to be bound by such requisition unless such persons or some of them will bind themselves to take or will guarantee that there shall be taken a supply of energy for three years of such amount in the aggregate (to be specified by the Undertakers in such notice) as will at the rates of charge for the time being charged by the Undertakers for a supply of energy from distributing mains to ordinary consumers within the area of supply produce annually such reasonable sum as shall be specified by the Undertakers in such notice. Provided that in such notice the Undertakers shall not without the authority of the Board of Trade specify any sum exceeding twenty per centum upon the expense of providing and laying down the required distributing mains and any other mains or additions to existing mains which may be necessary for the purpose of connecting such distributing mains with the nearest available source of supply.

Where such notice is served the requisition shall not be binding on the Undertakers unless within fourteen days after the service of such notice on all the persons signing the requisition has been effected or in case of difference the delivery of the arbitrator's award there be tendered to the Undertakers an agreement severally executed by such persons or some of them binding

them to take or guaranteeing that there shall be taken for a period of three years at the least such specified amounts of energy respectively as will in the aggregate at the rates of charge above specified produce an annual sum amounting to the sum specified in the notice or determined by arbitration under this section nor unless sufficient security for the payment to the Undertakers of all moneys which may become due to them from such persons under such agreement is offered to the Undertakers (if required by them by such notice as aforesaid) within the period limited for the tender of the agreement as aforesaid.

If the Undertakers consider that the requisition is unreasonable or that under the circumstances of the case the provisions of this section ought to be varied they may within fourteen days after the service of the requisition upon them appeal to the Board of Trade who after such inquiry if any as they shall think fit may by order either determine that the requisition is unreasonable and shall not be binding upon the Undertakers or may authorise the Undertakers by their notice to require a supply of energy to be taken for such longer period than three years and to specify such sum or percentage whether calculated as herein-before provided or otherwise as shall be fixed or directed by the order and the terms of the above-mentioned agreement shall be varied accordingly.

In case of any such appeal to the Board of Trade any notice by the Undertakers under this section may be served by them within fourteen days after the decision of the Board of Trade.

Provided also that the Undertakers shall not be compelled to give a supply of energy to any premises unless they are reasonably satisfied that the electric lines fittings and apparatus therein are in good order and condition and not calculated to affect injuriously the use of energy by the Undertakers or by other persons.

If any difference arises under this section as to any improper use of energy or as to any alleged defect in any electric lines fittings or apparatus such difference shall be determined by arbitration.

Maximum  
power.

22. The maximum power with which any consumer shall be entitled to be supplied shall be of such amount as he may require to be supplied with not exceeding what may be reasonably anticipated as the maximum consumption on his premises. Provided that where any consumer has required the Undertakers to supply him with a maximum power of any specified amount he shall not be entitled to alter that maximum except upon one month's notice to the Undertakers and any expenses reasonably incurred by the Undertakers

in respect of the service lines by which energy is supplied to the premises of such consumer or any fittings or apparatus of the Undertakers upon such premises consequent upon such alteration shall be paid by him to the Undertakers and may be recovered summarily as a civil debt.

If any difference arises between any such owner or occupier and the Undertakers as to what may be reasonably anticipated as the consumption on his premises or as to the reasonableness of any expenses under this section such difference shall be determined by arbitration.
