THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 92/118/EEC of 17 December 1992, laying down animal health and public health requirements governing trade in and imports into the Community of products not subject to the said requirements laid down in specific Community rules referred to in Annex A(1) to Directive 89/662/EEC and, as regards pathogens, to Directive 90/425/EEC⁽¹⁾, and in particular Article 10(2)(c) thereof,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption⁽²⁾, and in particular the introductory phrase of Article 8, the first paragraph of Article 8(1), Article 8(4), Article 9(2)(b), Article 9(4)(b) and (c) thereof,

Whereas:

- (1) Commission Decision 97/41/EC of 18 December 1996 establishing health conditions and a public health certificate for the importation from third countries of meat products obtained from poultry meat, farmed game meat, wild game meat, and rabbit meat⁽³⁾ lays down public health conditions for the importation into the Community of certain meat products.
- (2) Commission Decision 97/221/EC of 28 February 1997 laying down the animal health conditions and model veterinary certificates in respect of imports of meat products from third countries and revoking Decision 91/449/EEC⁽⁴⁾ lays down animal health conditions and certification rules for the importation into the Community of certain meat products.

Status: Point in time view as at 01/07/2006.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 3 June 2005 laying down the animal and public health conditions and model certificates for imports of meat products for human consumption from third countries and repealing Decisions 97/41/EC, 97/221/EC and 97/222/EC (notified under document number C(2005) 1616) (Text with EEA relevance) (2005/432/EC) (repealed). (See end of Document for details)

- (3) Commission Decision 97/222/EC of 28 February 1997 laying down the list of third countries from which the Member States authorise the importation of meat products⁽⁵⁾ provides for the importation into the Community of certain meat products provided that such products have undergone the appropriate treatment and comply with Community veterinary certification requirements.
- (4) Council Directive 72/462/EEC of 12 December 1972 on health and veterinary inspection problems upon importation of bovine, ovine and caprine animals and swine, fresh meat or meat products from third countries⁽⁶⁾ lays down animal health requirements for the importation into the Community of certain meat products. Council Directive 2004/68/EC⁽⁷⁾ provides for the repeal of Directive 72/462/EEC from 1 January 2006.
- (5) Directive 2002/99/EC lays down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption. That Directive is to be implemented by the Member States before 1 January 2005.
- (6) Council Directive 77/99/EEC of 21 December 1976 on health problems affecting the production and marketing of meat products and certain other products of animal origin⁽⁸⁾ will be in force till 1 January 2006 when it will be repealed and any definition of meat based products in acts adopted before 1 January 2006 must refer to Directive 77/99/EEC.
- (7) In view of the entry into force of Directive 2002/99/EC, it is necessary to amend and update Community public and animal health conditions and certification requirements for the importation into the Community of meat products derived from domestic bovines, porcines, ovines, caprines, equidae, poultry, farmed game, domestic rabbits and wild game.
- (8) In addition, in the interests of clarity and consistency of Community legislation, it is appropriate to lay down the public and animal health conditions in a single model health certificate for importation of meat products into the Community.
- (9) Due to differences in the animal health situation in third countries, it is appropriate to lay down rules concerning treatments for meat products from third countries or parts of third countries prior to their importation into the Community.
- (10) In the interests of clarity and consistency of Community legislation, it is appropriate to repeal Decisions 97/41/EC, 97/221/EC and 97/222/EC and replace them by this Decision. Accordingly, this Decision should contain the animal and public health conditions and certification requirements, together with the list of third countries and the treatments required for the importation of various categories of meat products into the Community.
- (11) Health conditions and veterinary certification should apply without prejudice to the requirement of Commission Decision 2004/432/EC of 29 April 2004 on the approval of residue monitoring plans submitted by third countries in accordance with Directive 96/23/EC⁽⁹⁾.

Status: Point in time view as at 01/07/2006.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 3 June 2005 laying down the animal and public health conditions and model certificates for imports of meat products for human consumption from third countries and repealing Decisions 97/41/EC, 97/221/EC and 97/222/EC (notified under document number C(2005) 1616) (Text with EEA relevance) (2005/432/EC) (repealed). (See end of Document for details)

- (12) Council Directive 97/78/EC of 18 December 1997 laying down the principles governing the organisation of veterinary checks on products entering the Community from third countries⁽¹⁰⁾ lays down rules concerning veterinary checks on animal products introduced into the Community from third countries for the importation and transit of products of animal origin in the Community, including certain certification requirements.
- (13) In the interests of animal and public health and in order to prevent the spread of animal diseases in the Community, a new specific model public and animal health certificate should be established in this Decision. In addition, it should be provided that transit through the Community of consignments of meat products is only permitted where those products come from third countries or parts of third countries whose products are not prohibited for introduction into the Community.
- (14) It is necessary to lay down specific conditions for transit via the Community of consignments of meat products to and from Russia due to the geographical situation of Kaliningrad and taking into account climatic problems impeding the use of some ports at certain times of the year.
- (15) Commission Decision 2001/881/EC of 7 December 2001 drawing up a list of border inspection posts agreed for veterinary checks on animals and animal products from third countries and updating the detailed rules concerning the checks to be carried out by the experts of the Commission⁽¹¹⁾, specifies the Border Inspection Posts authorised to control the transit of consignments of meat products to and from Russia via the Community
- (16) The treatments provided for poultry meat products originating in Bulgaria and Israel and for wild swine meat products originating in Switzerland should be reviewed in order to bring them into line with the current import conditions for fresh meat of the concerned species from those countries.
- (17) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Subject matter and scope

1 This Decision lays down animal and public health rules for the importation into the Community of consignments of certain meat products, including the lists of third countries and parts of third countries from which the importation of such products shall be authorised, the model public and animal health certificates and rules on treatments required for those products.

2 This Decision shall apply without prejudice to Decision 2004/432/EC.

Status: Point in time view as at 01/07/2006.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 3 June 2005 laying down the animal and public health conditions and model certificates for imports of meat products for human consumption from third countries and repealing Decisions 97/41/EC, 97/221/EC and 97/222/EC (notified under document number C(2005) 1616) (Text with EEA relevance) (2005/432/EC) (repealed). [^{F1}ANNEX I

1. Meat products originating in the third countries or parts of third countries referred to in Article 4(a) shall contain meat eligible for import into the Community as fresh meat and/or meat products derived from one or more of the species or animals which have undergone a non-specific treatment as set out in Part 4 of Annex II.
2. Meat products originating in the third countries or parts of third countries referred to in Article 4(b) shall comply with the following conditions set out in (a), (b) or (c).
 - (a) the meat products must:
 - (i) contain meat and/or meat products derived from a single species or animal as set out under the relevant column in Parts 2 and 3 of Annex II indicating the species or animal concerned; and
 - (ii) have undergone at least the specific treatment required for meat of that species or animal as set out in Part 4 of Annex II; or
 - (b) the meat products must:
 - (i) contain fresh, processed or partly processed meat of more than one species or animal as set out under the relevant column of Parts 2 and 3 of Annex II which are mixed prior to undergoing their final treatment as set out in Part 4 of Annex II; and
 - (ii) the final treatment referred to in (i) must be at least as severe as the most severe treatment set out in Part 4 of Annex II for meat of the species or animals concerned as set out under the relevant column in Parts 2 and 3 of Annex II; or
 - (c) the final meat products must:
 - (i) be prepared by mixing previously treated meat of more than one species or animal; and
 - (ii) the previous treatment referred to in (i) which each meat component of the meat product has undergone must have been at least as severe as the relevant treatment set out in Part 4 of Annex II for the species or animal concerned as set out under the relevant column.
3. The treatments set out in Part 4 of Annex II shall constitute the minimum acceptable processing conditions for animal health purposes for meat derived from the relevant species or animal originating in the third countries or parts of third countries listed in Annex II. However, in cases where offal is not authorised owing to animal health restrictions, it may be used in a meat product provided the relevant treatment referred to in Part 2 of Annex II is carried out. In addition, an establishment may be authorised to produce meat products that have undergone treatments B, C or D as referred to in Part 4 of Annex II, even where that establishment is located in a third country or part of a third country that is not authorised for imports into the Community of fresh meat.

Status: Point in time view as at 01/07/2006.

TREATMENTS REFERRED TO IN ANNEX I

Non-specific treatment:

- A = No minimum specified temperature or other treatment is established for animal health purposes for the meat product. However, the meat must have undergone a treatment such that its cut surface shows that it no longer has the characteristics of fresh meat and the fresh meat used must also satisfy the animal health rules applicable to exports of fresh meat into the Community.

Specific treatments listed in descending order of severity:

- B = Treatment in a hermetically sealed container to an F_0 value of three or more.
- C = A minimum temperature of 80 °C which must be reached throughout the meat during the processing of the meat product.
- D = A minimum temperature of 70 °C which must be reached throughout the meat during the processing of meat products, or for raw ham, a treatment consisting of natural fermentation and maturation of not less than nine months and resulting in the following characteristics:

(See end of Document for details)

- A_w value of not more than 0,93,
- pH value of not more than 6,0.
- E = In the case of 'biltong'-type products, a treatment to achieve:
 - A_w value of not more than 0,93,
 - pH value of not more than 6,0.
- F = A heat treatment ensuring that a centre temperature of at least 65 °C is reached for a period of time as necessary to achieve a pasteurisation value (pv) equal to or above 40.

9.5.	the meat product:
9.5.1.	[consists of meat and/or meat products derived from a single species and has undergone the treatment satisfying the relevant conditions laid down in Annex II to Decision 2005/432/EC]
or ⁽⁶⁾	9.5.1. [consists of meat of more than one species and, after such meat has been mixed, the entire product has subsequently undergone a treatment at least as severe as that required for the meat components of the meat product as laid down in Annex II to Commission Decision 2005/432/EC]
or ⁽⁶⁾	9.5.1. [has been prepared from meat of more than one species and each meat component has previously undergone a treatment prior to mixing which meets the relevant treatment requirements for meat of that species as laid down in Annex II to 2005/432/EC]; ⁽⁵⁾
9.6.	after treatment all precautions to avoid contamination have been taken.
⁽⁵⁾ 9.7.	Additional guarantees: in the case of poultrymeat products which have not undergone a specific treatment and are destined for Member States or regions thereof which have been recognised in accordance with Article 12 of Council Directive 90/539/EEC, the poultrymeat has been derived from poultry which was not vaccinated with a live vaccine against Newcastle disease in the 30 days prior to slaughter]
10. ⁽⁵⁾ ⁽⁹⁾	Public Health Attestation
10.1.	the label affixed to the packaging of the meat products described above bears a mark to the effect that the meat products come wholly from fresh meat of animals slaughtered in slaughterhouses approved for export to the European Community or of animals slaughtered in a slaughterhouse designated for the delivery of meat for the required treatment as laid down in Parts 2 and 3 of Annex II to Decision 2005/432/EC;
10.2.	the meat products have as such been passed as fit for human consumption following a veterinary inspection carried out in accordance with Directive 72/462/EEC;
10.3.	the meat products have been obtained from pig meat which [has][has not] undergone an examination for trichinosis and, where it has not undergone the latter, has undergone cold treatment;
10.4.	the means of transport and the loading conditions for meat products in this consignment meet the hygiene requirements laid down for exports to the European Community;
10.5.	the meat products have been obtained from meat which satisfies the requirements in Chapter III of Directive 72/462/EEC and those in Article 3 of Directive 77/99/EEC, or have been obtained by virtue of the derogation provided for in Article 21a(2) of Directive 72/462/EEC.
11. ⁽⁵⁾ ⁽¹⁰⁾	I have read and understood Annex II, Chapter I , to Directive 92/118/EEC (as last amended), including the specific provisions in that Chapter applying to the meat products described in 9.1, and certify that the products described in 9.1 meet the requirements provided for in that Chapter.
