

Directive 2009/42/EC of the European Parliament and of the Council of 6 May 2009 on statistical returns in respect of carriage of goods and passengers by sea (Recast) (Text with EEA relevance)

DIRECTIVE 2009/42/EC OF THE EUROPEAN
PARLIAMENT AND OF THE COUNCIL

of 6 May 2009

on statistical returns in respect of carriage of goods and passengers by sea

(Recast)

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 285(1) thereof,

Having regard to the proposal from the Commission,

Acting in accordance with the procedure laid down in Article 251 of the Treaty⁽¹⁾,

Whereas:

- (1) Council Directive 95/64/EC of 8 December 1995 on statistical returns in respect of carriage of goods and passengers by sea⁽²⁾ has been substantially amended several times⁽³⁾. Since further amendments are to be made, it should be recast in the interests of clarity.
- (2) To carry out the tasks entrusted to it in the context of the common maritime transport policy, the Commission (Eurostat) should have at its disposal comparable, reliable, synchronised and regular statistical data on the scale and development of the carriage of goods and passengers by sea to and from the Community, between Member States and for domestic sea transport.
- (3) It is also important for Member States and economic operators to have a good knowledge of the maritime transport market.
- (4) The collection of Community statistical data on a comparable or harmonised basis makes it possible to establish an integrated system providing reliable, consistent and up-to-date information.
- (5) The data on the transport of goods and passengers by sea have to be made comparable between Member States and between the different modes of transport.
- (6) In accordance with the principle of subsidiarity, the creation of common statistical standards enabling harmonised information to be produced can only be tackled efficiently at Community level. Data will be collected in each Member State under the authority of the bodies and institutions in charge of compiling official statistics.

- (7) The measures necessary for the implementation of this Directive should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission⁽⁴⁾.
- (8) In particular, the Commission should be empowered to adopt certain detailed rules for implementing this Directive. Since those measures are of general scope and are designed to amend non-essential elements of this Directive, *inter alia*, by supplementing it with new non-essential elements, they must be adopted in accordance with the regulatory procedure with scrutiny provided for in Article 5a of Decision 1999/468/EC.
- (9) The new elements introduced into this Directive only concern the committee procedures. They therefore do not need to be transposed by the Member States.
- (10) This Directive should be without prejudice to the obligations of the Member States relating to the time limits for transposition into national law of the Directive set out in Annex IX, Part B,

HAVE ADOPTED THIS DIRECTIVE:

Article 1

Collection of statistical data

Member States shall collect Community statistics on the carriage of goods and passengers by seagoing vessels calling at ports in their territories.

Article 2

- 3 The data collection shall be based, in so far as possible, on available sources, limiting the burden on respondents.

- 4 The Commission shall adapt the data collection characteristics and the content of Annexes I to VIII to economic and technical developments in so far as such adaptation does not involve a substantial increase in cost for the Member States and/or in the burden on respondents.

Those measures, designed to amend non-essential elements of this Directive by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 10(3).

Article 4

Ports

- 1 For the purposes of this Directive, the Commission shall draw up a list of ports, coded and classified according to countries and maritime coastal areas.

For each port selected, detailed data are to be provided, in conformity with Annex VIII, for the domains (goods and passengers) in which that port meets the selection criterion, and with summary data, if appropriate, for the other domain.

3 For the ports which are not selected from the list, summary data are to be provided in conformity with Annex VIII, data set A3.

Article 5

Accuracy of statistics

The methods of collecting data shall be such that Community sea transport statistics display the precision required for the statistical data sets described in Annex VIII.

The Commission shall draw up the standards of accuracy.

Those measures, designed to amend non-essential elements of this Directive by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 10(3).

Article 6

Processing of the results of the data collection

Member States shall process the statistical information collected pursuant to Article 3, in order to obtain comparable statistics, with the standard of accuracy referred to in Article 5.

Article 7

Transmission of the results of the data collection

1 Member States shall transmit the results of the data collection referred to in Article 3 to the Commission (Eurostat), including the data declared confidential by the Member States pursuant to domestic legislation or practice concerning statistical confidentiality, in accordance with Regulation (EC) No 223/2009 of the European Parliament and of the Council of 11 March 2009 on European statistics⁽⁵⁾.

2 The results shall be transmitted in accordance with the structure of the statistical data sets defined in Annex VIII. The technical details for transmission of the results shall be specified in accordance with the management procedure referred to in Article 10(2).

3 The transmission of the results shall take place within five months of the end of the period of observation for data of quarterly periodicity and within eight months for data of annual periodicity.

The first transmission shall cover the first quarter of 1997.

Article 8

Reports

Member States shall provide the Commission (Eurostat) with all relevant information on the methods used in compiling the data. They shall also forward details of substantial changes in the methods used to collect the data.

Article 9

Dissemination of statistical data

The Commission (Eurostat) shall disseminate appropriate statistical data with a periodicity comparable to that of the results transmitted.

The arrangements for publication or dissemination of the statistical data by the Commission (Eurostat) shall be adopted in accordance with the management procedure referred to in Article 10(2).

Article 10

Committee procedure

1 The Commission shall be assisted by the European Statistical System Committee set up by Regulation (EC) No 223/2009.

2 Where reference is made to this paragraph, Articles 4 and 7 of Decision 1999/468/EC shall apply, having regard to the provisions of Article 8 thereof.

The period laid down in Article 4(3) of Decision 1999/468/EC shall be set at three months.

3 Where reference is made to this paragraph, Article 5a(1) to (4) and Article 7 of Decision 1999/468/EC shall apply, having regard to the provisions of Article 8 thereof.

STRUCTURE FOR STATISTICAL DATA SETS

The data sets specified in this Annex define the periodicity for the maritime transport statistics required by the Community. Each data set defines a cross-classification of a limited set of dimensions at different levels of the nomenclatures, aggregated across all other dimensions, for which statistics of good quality are required.

The conditions for collecting data set B1 shall be decided by the Council on a proposal from the Commission in the light of the results of the pilot study carried out during a three-year transitional period, as provided for in Article 10 of Directive 95/64/EC and concerning the feasibility and the cost to Member States and to the respondents of collecting those items of information.

SUMMARY AND DETAILED STATISTICS

- The data sets to be provided for selected ports for goods and passengers are A1, A2, B1, C1, D1, E1, F1 and/or F2,
