ANNEX **U.K.**PART A **U.K.****INDUSTRIAL POLLUTION CONTROL AND RISK MANAGEMENT**

Directive 2001/81/EC is amended as follows:

- (1) Annex I is replaced by the following:

‘ANNEX NATIONAL EMISSION CEILINGS FOR SO<sub>2</sub>, NO<sub>x</sub>, VOC AND NH<sub>3</sub>, TO BE ATTAINED BY 2010

These national emission ceilings are designed with the aim of broadly meeting the interim environmental objectives set out in Article 5. Meeting those objectives is expected to result in a reduction of soil eutrophication to such an extent that the area of the Union with depositions of nutrient nitrogen in excess of the critical loads will be reduced by about 30 % compared with the situation in 1990. These national emission ceilings are temporary and are without prejudice to the review according to Article 10 of this Directive, which is to be completed in 2008. The national emission ceilings for Croatia are to be attained by the date of its accession to the Union.’

(b) Annex II is replaced by the following:

‘ANNEX II U.K.

**ANIMAL AND PLANT SPECIES OF COMMUNITY  
INTEREST WHOSE CONSERVATION REQUIRES THE  
DESIGNATION OF SPECIAL AREAS OF CONSERVATION**

**Interpretation**

- (a) Annex II follows on from Annex I for the establishment of a consistent network of special areas of conservation.
- (b) The species listed in this Annex are indicated:
- by the name of the species or subspecies, or
  - by all the species belonging to a higher taxon or to a designated part of that taxon.

The abbreviation “spp.” after the name of a family or genus designates all the species belonging to that family or genus.

- (c) Symbols U.K.

An asterisk (\*) before the name of a species indicates that it is a priority species.

Most species listed in this Annex are also listed in Annex IV.
