COMMISSION REGULATION (EC) No 482/96

of 19 March 1996

amending Regulation (EEC) No 2454/93 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code⁽¹⁾, as last amended by the Act of Accession of Austria, Finland and Sweden, and in particular Article 249 thereof,

Whereas it is necessary to define specifically the cases where certain documents need not be required to accompany the customs declarations;

Whereas where the declarant refuses to be present at the taking of samples or to designate a representative, or else fails to render the customs authorities all necessary assistance, the customs authorities should have the option of deeming the declaration invalid;

Whereas Articles 325 to 340 of Commission Regulation (EEC) No 2454/93⁽²⁾, as last amended by Regulation (EC) No 1762/95⁽³⁾, establish a special method of administrative cooperation for the purpose of proving the Community status of products of sea-fishing caught by Member States' vessels and of goods obtained on board such vessels from the products caught;

Whereas, in view of the particular way in which such products are caught, in which the goods are obtained and in which both are routed to the Community, a separate section setting out the specific conditions applying to such products and goods should be added to Part II, Title II, Chapter 3 — Community status of goods — of Regulation (EEC) No 2454/93;

Whereas the Community status of such products and goods should be assessed independently of their tariff treatment and classification, the nationality and means of transport used or the Member State through which they enter the Community;

Whereas fishing vessels and Community factory ships should be strictly defined;

Whereas to avoid excessive paperwork, customs authorities may allow exceptions to the procedure for landing such products and goods from fishing vessels;

Whereas, to improve checks on the way the procedure is used, T2M forms should be endorsed by the authority responsible for registering the vessels for which the forms were issued; whereas any certification by a third party should be included in the forms and the customs authority which issued them should be informed of how they have been used;

Changes to legislation: Commission Regulation (EC) No 482/96 is up to date with all changes known to be in force on or before 02 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. Whereas because of a continuous problem of fraudulent operations under the Community transit procedure, provisions should be introduced which allow for the prescription of binding itineraries and prohibit the change of an office of destination as regards, in particular, the movement of goods for which the comprehensive guarantee is suspended; whereas it is necessary to strengthen the system for the use of the comprehensive guarantee and to introduce further flexibility in the provisions for suspension of the comprehensive guarantee by amending these provisions; whereas, for reasons of clarity, Articles 360, 361 and 362 of Regulation (EEC) No 2454/93 need to be rearranged; whereas it is necessary to align the corresponding provisions of Article 368 and Article 376 of the abovementioned Regulation;

Whereas it is appropriate to introduce more flexibility in supplying alternative proof permitting the discharge of Community transit operations in the case of non-return of Copy 5 of the single administrative document;

Whereas the Community customs territory constitutes a single territory for the purposes of the rules governing the use of the TIR carnet;

Whereas the increasing incidence of fraud related to the transport of goods under the TIR procedure can lead the competent authorities to adopt, on the basis of Article 38 of the TIR Convention, exclusion measures;

Whereas the rules governing the application of Article 38 of the TIR Convention should be harmonized at Community level;

Whereas, the economic conditions that are provided for in the context of the inward processing procedure should be applied uniformly throughout the Community;

Whereas it has become apparent that the customs offices of the Member States have difficulties in authorizing temporary importation of goods referred to in Article 684 of Regulation (EEC) No 2454/93; whereas when a high amount is involved they must ask for a written declaration making the provision of a security equal to the precise amount of the customs debt in question obligatory; whereas this leads in many cases to the undesirable obstruction of travellers at the frontiers of the Community or, on the other hand, to the authorization of temporary importation without security though a high of amount of duties is involved; whereas a pertinent solution of these difficulties requires that, in such cases, the authorization of temporary importation and the entry of goods referred to in Article 684 for the procedure can be accomplished by an oral customs declaration; whereas this requires the adaption of the corresponding rules;

Whereas where import goods previously entered for the procedure of temporary importation are released for free circulation, compensatory interest is levied; whereas for reasons of equality of treatment, compensatory interest should also be levied where a customs debt is incurred for other reasons than because of release for free circulation; whereas customs debts incurred through the placing of goods under the temporary importation procedure with partial relief from import duties should be exempted herefrom, because no financial advantage is acquired; whereas the same reasons prevail where a security is provided by a cash deposit equal to one of the amounts of customs debt set out in Article 192 (1) of Regulation (EEC) No 2913/93; whereas to achieve a greater level of legal certainty it is necessary to strive for maximum coherence in the legal provisions concerning the levying of compensatory interest; whereas this requires a

modification of Article 709 of Regulation (EEC) No 2454/92 and its adaption to the provisions of Article 589; whereas in the course of this modification and adaption it is appropriate to carry out some editorial corrections to Article 709;

Whereas the single administrative document must be adopted to take account of the provisions of Council Regulation (EC) No 1172/95 of 22 May 1995 on the statistics relating to the trading in goods by the Community and its Member States with non-member countries⁽⁴⁾ and any regulation laying down provisions for its application;

Whereas it is appropriate to align the provisions for the completion of box 33 of the control copy T5, copy T5 a and the column entitled 'Commodity' of the T5 loading list with the provisions relating to the single administrative document;

Whereas the list of compensating products in the framework of the inward processing procedure to which specific duties may apply should be extended;

Whereas for economic reasons it appears appropriate to extend the list contained in Annex 87 of Regulation (EEC) No 2454/93;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Customs Code Committee,

HAS ADOPTED THIS REGULATION:

Article 1

2. Article 243 (2) is replaced by the following:
 2. Where the declarant refuses to be present at the taking of samples or to designate a person to attend, or where he fails to render the customs authorities all the assistance needed to facilitate the operation, the provisions of the second sentence of Article 241 (1) and of Article 241 (2), (3) and (4) shall apply.

ANNEX IV

ANNEX 44

NOTES

(to be added to the booklet containing the T2M forms)

I. General considerations

1. The purpose of a T2M form is to prove the Community status, upon entry into Community customs territory, of a catch made by a Community fishing vessel outside the territorial waters of a country or territory not forming part of Community customs territory and/or of goods obtained from such catches by processing carried out on board the Community fishing vessel which made the catch, another Community fishing vessel, or a Community factory ship.
2. The Community fishing vessel is a vessel which is registered and listed in a part of a Member State's territory forming part of Community customs territory, flies the flag of a Member State, makes the catch and may process it on board. The Community factory ship is a vessel, similarly registered or listed, which processes only transhipped catches.
3. This booklet contains 10 forms, each consisting of an original and a copy. The copies must not be separated from the booklet.
4. The booklet must be produced whenever the customs authorities so require.
5. It must be returned to the customs authorities by which it was issued when the vessel for which it was issued ceases to fulfil the conditions laid down, when all the forms contained in the booklet have been used or when the period of validity of the booklet expires.

II. Authentication of T2M forms

6. The forms must be completed in typescript or legibly by hand; if the latter, in ink and in printed characters. No erasures or alterations may be made. Amendments must be made by striking out the incorrect particulars and adding those required where appropriate. Any such amendments must be initialled by the person who signed the declaration containing them.
7. Boxes 1 to 3 of the form must be completed by the person indicated, in the language in which the form is printed. Boxes 4 to 12 of the form must be completed in one of the official Community languages.
8. The validity of the T2M forms contained in a booklet is guaranteed by the presence, in box A of both originals and copies, of an endorsement by the authority responsible for registering the Community fishing vessel for which the booklet was issued. The booklet is valid for two years from the date shown on page 2 of its cover.

III. Use of T2M forms

9. The master of the Community fishing vessel must complete boxes 4, 5 and/or boxes 6, 7, 8 and complete and sign the declaration in box 9, of the original and the copy of a T2M form whenever:

Changes to legislation: Commission Regulation (EC) No 482/96 is up to date with all changes known to be in force on or before 02 April 2024. - a catch and/or the goods resulting from on-board processing of a catch are landed either in a port in Community customs territory, or in another part from which they will leave for that territory,
 - the catch and/or goods are transhipped onto another Community fishing vessel, a Community factory ship — where the catch undergoes on-board processing — or any other vessel which transports the catch and/or goods without processing them, either directly to a port within Community customs territory or to a port not in Community customs territory from where they will leave for that territory. In this case the master of the Community fishing vessel and the master of the vessel onto which the catch and/or goods are transhipped must complete and sign box 10 of the original and the copy.
10. Where appropriate, the master of the vessel onto which a Community fishing vessel's catch has been transhipped to undergo on-board processing must complete boxes 6, 7 and 8, and complete and sign the declaration in box 11 of the original whenever:
- goods resulting from on-board processing are landed either in a port in Community customs territory, or in a port not in Community customs territory from which they will leave for that territory,
 - the goods are transhipped onto any other vessel which transports them without processing, either directly to a port in Community customs territory or to a port not in Community customs territory from where they will leave for that territory. In this case, the master of the processing vessel and the master of the vessel onto which the goods are transhipped must complete and sign box 12 of the original.
11. Where catch or goods have gone to a country or territory not forming part of Community customs territory before being shipped to Community customs territory, box 13 of the form must be completed and signed by the customs authorities of the country or territory. If a part of the catch or goods does not go to Community customs territory, the name, kind, gross mass and treatment or use assigned to the consignments concerned must be entered in the “Remarks” box of the form.
12. Whenever catch and/or goods are transhipped for carriage to Community customs territory, they must be accompanied by the original of a T2M form.

IV. Use of “Extracts” of T2M forms

Where catch and/or goods have been transported to a country or territory not forming part of Community customs territory for later reconsignment to that territory in split consignments:

13. A number of original T2M forms equal to the number of split consignments must be taken from the booklet issued to the fishing vessel which made the catch and/or processed it into goods, and clearly marked with the word “Extract” and particulars of the T2M form for the initial consignment. This information must also be entered in the copies of the “Extracts” which must remain in the booklet.
14. For each split consignment:
- boxes 4, 5 and/or 6, 7, 8 of the T2M “Extract” form must be completed, stating the quantities of catch and/or goods consigned,
 - box 13 of the original of the “Extract” form must be completed, endorsed and signed by the customs authorities of the country or territory concerned,
 - the number and kind of packages, the gross mass, the treatment or use assigned to the consignment and the number and date of the “Extract” form must be entered in the “Remarks” box of the initial T2M form,
 - the “Extract” form must accompany the consignment of catch and/or goods.

Changes to legislation: Commission Regulation (EC) No 482/96 is up to date with all changes known to be in force on or before 02 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

15. When all the catch and/or goods covered by the initial T2M form have been shipped to Community customs territory, box 13 of the form must be completed, endorsed and signed by the customs authorities of the country or territory concerned. This form must be sent to the office which issued the T2M booklet. If a part of the catch or goods does not go to Community customs territory, the name, kind and gross mass of the consignments concerned, and the treatment or use assigned, must be entered in the “Remarks” box on the form.

V. Discharge of T2M forms

16. All original T2M forms (initial or “Extract”) must be presented to the customs office where the catch or goods to which it refers have been brought into Community customs territory. However, where such catch or goods are brought into Community customs territory under a transit procedure and the corresponding operation began outside that territory, the T2M forms must be presented to the customs office of destination for that procedure.
