

Council Regulation (EC) No 2173/2005 of 20 December 2005 on the establishment of a FLEGT licensing scheme for imports of timber into the European Community

COUNCIL REGULATION (EC) No 2173/2005

of 20 December 2005

on the establishment of a FLEGT licensing scheme for imports of timber into the European Community

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 133 thereof,

Having regard to the proposal from the Commission,

Whereas:

- (1) The Council and the European Parliament welcomed the Communication from the Commission to the Council and the European Parliament on an EU Action Plan for Forest Law Enforcement, Governance and Trade (FLEGT) as a first step towards tackling the urgent issue of illegal logging and associated trade.
- (2) The Action Plan puts emphasis on governance reforms and capacity building, supported by actions aimed at developing multilateral cooperation and complementary demand-side measures designed to reduce the consumption of illegally harvested timber and contributing to the wider objective of sustainable forest management in timber-producing countries.
- (3) The Action Plan identifies the setting up of a licensing scheme as a measure to ensure that only timber products that have been legally produced in accordance with the national legislation of the producing country may enter the Community, and emphasises that that licensing scheme should not impede legitimate trade.
- (4) Implementation of the licensing scheme requires that imports of relevant timber products into the Community be made subject to a system of checks and controls seeking to guarantee the legality of such products.
- (5) To this end the Community should conclude voluntary Partnership Agreements with countries and regional organisations, which are to place a legally binding obligation on a partner country or regional organisation to implement the licensing scheme within the schedule stipulated in each Partnership Agreement.
- (6) Under the licensing scheme, certain timber products exported from a partner country and entering the Community at any customs point designated for release for free circulation should be covered by a licence issued by the partner country, stating that the timber products have been produced from domestic timber that was legally harvested or from timber that was legally imported into a partner country in accordance with national

laws as set out in the respective Partnership Agreement. Compliance with those rules should be subject to third-party monitoring.

- (7) The competent authorities of the Member States should verify that each shipment is covered by a valid licence prior to releasing the shipment covered by that licence for free circulation in the Community.
- (8) Each Member State should determine the penalties applicable in the event of infringements of this Regulation.
- (9) The licensing scheme should initially cover a limited range of timber products. When agreed, the range of products could be extended to other product categories.
- (10) It is important to revise the Annexes specifying the countries and products covered by the licensing scheme promptly. Those revisions should take into account the progress in implementation of Partnership Agreements. A partner country may be added to Annex I after it has notified the Commission and the Commission has confirmed that this partner country has put in place all the controls needed to be able to issue licences for all the products listed in Annex II. A partner country may be removed from Annex I either when it has given one year's notice of its intention to terminate its Partnership Agreement or with immediate effect, in the case of suspension of its Partnership Agreement.
- (11) Annex II may be amended after the Commission and all partner countries have agreed to such amendment. Annex III may be amended after the Commission and the partner country concerned have agreed to such amendment.
- (12) The amendments to Annexes I, II and III would be implementing measures of technical nature and in order to simplify and expedite the procedure, their adoption should be entrusted to the Commission. Such amendments should comprise commodity codes, at four-digit heading level or six-digit subheading level of the current version of Annex I to the Harmonised Commodity Description and Coding System.
- (13) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission⁽¹⁾ with a distinction being made between those measures which are subject to the regulatory committee procedure and those which are subject to the management committee procedure, the management committee procedure being in certain cases, with a view to increased efficiency, the more appropriate,

HAS ADOPTED THIS REGULATION:

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 11(3).]

The schemes approved by the Commission may form the basis of a FLEGT licence.

- 3 Timber products of species listed in Annexes A, B and C to Council Regulation (EC) No 338/97⁽⁴⁾ shall be exempt from the requirement laid down in paragraph 1 of this Article.

The Commission shall review that exemption, taking into account market developments and the experience gained in the implementation of this Regulation, shall report on its findings to the European Parliament and to the Council and, if necessary, shall come forward with appropriate legislative proposals.]
