

Council Regulation (EC) No 27/2005 of 22 December 2004 fixing for 2005 the fishing opportunities and associated conditions for certain fish stocks and groups of fish stocks, applicable in Community waters and, for Community vessels, in waters where catch limitations are required

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

ANNEX I

**FISHING OPPORTUNITIES APPLICABLE TO COMMUNITY FISHING
VESSELS IN AREAS WHERE CATCH LIMITATIONS EXIST AND FOR
THIRD COUNTRIES VESSELS IN EC WATERS, BY SPECIES AND BY AREA
(IN TONNES LIVE WEIGHT, EXCEPT WHERE OTHERWISE SPECIFIED)**

All catch limitations set out in this Annex shall be considered as quotas for the purposes of Article 9 of this Regulation, and shall, therefore, be subject to the rules set out in Regulation (EC) No 2847/93, and in particular Articles 14 and 15 thereof.

Within each area, fish stocks are referred to following the alphabetical order of the Latin names of the species. The following table of correspondences of common names and Latin names is given for the purposes of this Regulation:

<i>Common name</i>	<i>Alpha-3 code</i>	<i>Scientific name</i>
Albacore	ALB	<i>Thunnus alalunga</i>
Alfonsinos	ALF	<i>Beryx</i> spp.
American plaice	PLA	<i>Hippoglossoides platessoides</i>
Anchovy	ANE	<i>Engraulis encrasicolus</i>
Anglerfish	ANF	<i>Lophiidae</i>
Antarctic icefish	ANI	<i>Champscephalus gunnari</i>
Antarctic toothfish	TOP	<i>Dissostichus eleginoides</i>
Atlantic catfish	CAT	<i>Anarhichas lupus</i>
Atlantic halibut	HAL	<i>Hippoglossus hippoglossus</i>
Atlantic salmon	SAL	<i>Salmo salar</i>
Basking shark	BSK	<i>Cetorhinus maximus</i>
Bigeye tuna	BET	<i>Thunnus obesus</i>
Birdbeak dogfish	DCA	<i>Deania calcea</i>
Black scabbardfish	BSF	<i>Aphanopus carbo</i>
Blackfin icefish	SSI	<i>Chaenocephalus aceratus</i>
Blue ling	BLI	<i>Molva dypterygia</i>
Blue marlin	BUM	<i>Makaira nigricans</i>
Blue whiting	WHB	<i>Micromesistius poutassou</i>
Bluefin tuna	BFT	<i>Thunnus thynnus</i>
Cod	COD	<i>Gadus morhua</i>
Common sole	SOL	<i>Solea solea</i>
Crab	PAI	<i>Paralomis</i> spp.
Dab	DAB	<i>Limanda limanda</i>
Flatfish	FLX	<i>Pleuronectiformes</i>

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Flounder	FLX	<i>Platichthys flesus</i>
Forkbeards	FOX	<i>Phycis</i> spp.
Greater silver smelt	ARU	<i>Argentina silus</i>
Greenland halibut	GHL	<i>Reinhardtius hippoglossoides</i>
Grenadier	GRV	<i>Macrourus</i> spp.
Great lantern shark	ETR	<i>Etmopterus princeps</i>
Grey rockcod	NOS	<i>Lepidonotothen squamifrons</i>
Haddock	HAD	<i>Melanogrammus aeglefinus</i>
Hake	HKE	<i>Merluccius merluccius</i>
Herring	HER	<i>Clupea harengus</i>
Horse mackerel	JAX	<i>Trachurus</i> spp.
Humped rockcod	NOG	<i>Gobionotothen gibberifrons</i>
Kitefin shark	SCK	<i>Dalatias licha</i>
Krill	KRI	<i>Euphausia superba</i>
Lantern fish	LAC	<i>Lampanyctus achirus</i>
Leafscale gulper shark	GUQ	<i>Centrophorus squamosus</i>
Lemon sole	LEM	<i>Microstomus kitt</i>
Ling	LIN	<i>Molva molva</i>
Mackerel	MAC	<i>Scomber scombrus</i>
Marbled rockcod	NOR	<i>Notothenia rossii</i>
Megrim	LEZ	<i>Lepidorhombus</i> spp.
Northern prawn	PRA	<i>Pandalus borealis</i>
Norway lobster	NEP	<i>Nephrops norvegicus</i>
Norway pout	NOP	<i>Trisopterus esmarki</i>
Orange roughy	ORY	<i>Hoplostethus atlanticus</i>
'Penaeus' shrimps	PEN	<i>Penaeus</i> spp.
Plaice	PLE	<i>Pleuronectes platessa</i>
Polar cod	POC	<i>Boreogadus saida</i>
Pollack	POL	<i>Pollachius pollachius</i>
Porbeagle	POR	<i>Lamna nasus</i>
Portuguese dogfish	CYO	<i>Centroscymnus coelolepis</i>
Redfish	RED	<i>Sebastes</i> spp.
Red Seabream	SBR	<i>Pagellus bogaraveo</i>
Roughead grenadier	RHG	<i>Macrourus berglax</i>

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Roundnose grenadier	RNG	<i>Coryphaenoides rupestris</i>
Saithe	POK	<i>Pollachius virens</i>
Sandeel	SAN	<i>Ammodytidae</i>
Short fin squid	SQI	<i>Illex illecebrosus</i>
Skates and rays	SRX-RAJ	<i>Rajidae</i>
Smooth lantern shark	ETP	<i>Etmopterus pusillus</i>
Snow crab	PCR	<i>Chionoecetes</i> spp.
South Georgian icefish	SGI	<i>Pseudochaenichthys georgianus</i>
Spanish ling	SLI	<i>Molva macrophthalmus</i>
Sprat	SPR	<i>Sprattus sprattus</i>
Spurdog	DGS	<i>Squalus acanthias</i>
Swordfish	SWO	<i>Xiphias gladius</i>
Tope shark	GAG	<i>Galeorhinus galeus</i>
Turbot	TUR	<i>Psetta maxima</i>
Tusk	USK	<i>Brosme brosme</i>
Unicorn icefish	LIC	<i>Channichthys rhinoceratus</i>
Velvet belly	ETX	<i>Etmopterus spinax</i>
White hake	HKW	<i>Urophycis tenuis</i>
White marlin	WHM	<i>Tetrapturus alba</i>
Whiting	WHG	<i>Merlangius merlangus</i>
Witch flounder	WIT	<i>Glyptocephalus cynoglossus</i>
Yellowfin tuna	YFT	<i>Thunnus albacares</i>
Yellowtail flounder	YEL	<i>Limanda ferruginea</i>

ANNEX IA

BALTIC SEA

All TACs in this area, except for plaice and cod in Sub-divisions 25-32, are adopted in the framework of IBSFC.

EC	0 ^{ab}	
TAC	15 000	

a Despite having access to a shared quota of 76 tonnes for the Community, it is decided to set this amount to 0. There will be no directed fishing on this species, which will be caught only as by-catches within the rules set out in Article 28.

b Catches taken by vessels under this quota shall be reported to the Flag Member State and forwarded to the Executive Secretary of NAFO via the Commission at 48 hour intervals.

Species Capelin <i>Mallotus villosus</i>		Zone NAFO 3NOCAP/ N3NO.
EC	0 ^a	
TAC	0 ^a	

a There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 28.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Species Northern prawn <i>Pandalus borealis</i>		Zone NAFO 3L^aPRA/N3L.
Estonia	144 ^b	
Latvia	144 ^b	
Lithuania	144 ^b	
Poland	144 ^b	
EC	144 ^{bc}	
TAC	13 000	Articles 3 and 4 of Regulation (EC) No 847/96 do not apply.

a Not including the box bounded by the following coordinates:

Point No	Latitude N	Longitude W
1	47°20'0	46°40'0
2	47°20'0	46°30'0
3	46°00'0	46°30'0
4	46°00'0	46°40'0

b To be fished from 1 January to 31 March, 1 July to 14 September and 1 December to 31 December.

c All Member States except Estonia, Latvia, Lithuania and Poland.

Species Northern prawn <i>Pandalus borealis</i>		Zone NAFO 3M^aPRA/N3M.
TAC	b	

a Vessels may also fish this stock in Division 3L in the box bounded by the following coordinates:

Point No	Latitude N	Longitude W
1	47°20'0	46°40'0
2	47°20'0	46°30'0
3	46°00'0	46°30'0
4	46°00'0	46°40'0

When conducting a fishery for shrimp in this box, vessels shall, whether or not crossing the line separating NAFO Divisions 3L and 3M, report in accordance with point 1.3 of the Annex to Council Regulation (EEC) No 189/92 of 27 January 1992 adopting provisions for the application of control measures adopted by the Northwest Atlantic Fisheries Organization (OJ L 21, 30.1.1992, p. 4. Regulation as last amended by Regulation (EC) No 1048/97 (OJ L 154, 12.6.1997, p. 1)).

Moreover, fishing for shrimp shall be prohibited from 1 June to 31 December 2005 in the area bounded by the following coordinates:

Point No	Latitude N	Longitude W
1	47°55'0	45°00'0
2	47°30'0	44°15'0
3	46°55'0	44°15'0
4	46°35'0	44°30'0
5	46°35'0	45°40'0
6	47°30'0	45°40'0

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

7	47°55'0	45°00'0
---	---------	---------

- b** Not relevant. Fishery managed by limitations in fishing effort. The Member States concerned shall issue special fishing permits for their fishing vessels engaging in this fishery, and shall notify those permits to the Commission prior to the commencement of the vessel's activity, in accordance with Regulation (EC) No 1627/94. By way of derogation from Article 8 of that Regulation, permits will only become valid if the Commission has not objected within five working days following the notification.
 The maximum number of vessels and fishing time allowed shall be:

Member State	Maximum number of vessels	Maximum number of fishing days
Denmark	2	131
Estonia	8	1 667
Spain	10	257
Latvia	4	490
Lithuania	7	579
Poland	1	100
Portugal	1	69

Each Member State shall, within 25 days following the calendar month in which the catches are made, report monthly to the Commission the fishing days spent in Division 3M and in the area defined in footnote (1) above.

Species Greenland halibut <i>Reinhardtius hippoglossoides</i>		Zone NAFO 3LMNOGHL/N3LMNO
Estonia	380	
Germany	388	
Latvia	54	
Lithuania	27	
Spain	5 208	
Portugal	2 197	
EC	8 254	
TAC	14 079	Articles 3 and 4 of Regulation (EC) No 847/96 do not apply.

Species Skates <i>Rajidae</i>		Zone NAFO 3LNOSRX/N3LNO.
Spain	6 561	
Portugal	1 274	
Estonia	546	
Lithuania	119	
EC	8 500	
TAC	13 500	Articles 3 and 4 of Regulation (EC) No 847/96 do not apply.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Species Redfish <i>Sebastes</i> spp.		Zone NAFO 3LNRED/N3LN.
EC	0 ^a	
TAC	0 ^a	

a There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 28.

Species Redfish <i>Sebastes</i> spp.		Zone NAFO 3MRED/N3M.
Estonia	1 571 ^a	
Germany	513 ^a	
Spain	233 ^a	
Latvia	1 571 ^a	
Lithuania	1 571 ^a	
Portugal	2 354 ^a	
EC	7 813 ^a	
TAC	5 000 ^a	Articles 3 and 4 of Regulation (EC) No 847/96 do not apply.

a This quota is subject to compliance with the TAC of 5 000 tonnes established for this stock. Upon exhaustion of the TAC, the directed fishery for this stock shall be stopped irrespective of the level of catches.

Species Redfish <i>Sebastes</i> spp.		Zone NAFO 3ORED/N3O.
Spain	1 771	
Portugal	5 229	
EC	7 000	
TAC	20 000	Articles 3 and 4 of Regulation (EC) No 847/96 do not apply.

[^{F3} Species White hake <i>Urophycis tenuis</i>		Zone NAFO 3NOHKW/N3NO
Spain	2 165	
Portugal	2 835	
EC	5 000	
TAC	8 500	Articles 3 and 4 of Regulation (EC) No 847/96 do not apply.]

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

ANNEX IE

HIGHLY MIGRATORY FISH All Areas

TACS in this area are adopted in the framework of international fisheries organisations on tuna fisheries, such as ICCAT and IATTC.

Species Bluefin tuna <i>Thunnus thynnus</i>		Zone Atlantic Ocean, east of longitude 45° W, and Mediterranean BFT/AE045W
Cyprus	^a	
Greece	323,4	
Spain	6 276,7	
France	6 192,7	
Italy	4 888	
Malta	^a	
Portugal	590,2	
All Member States	60 ^b	
EC	18 331	
TAC	32 000	Articles 3 and 4 of Regulation (EC) No 847/96 do not apply.

^a Cyprus and Malta may fish under the ICCAT 'Others' quota in accordance with the ICCAT Compliance Tables adopted at 2003 ICCAT Annual Meeting.

^b Except Cyprus, Greece, Spain, France, Italy, Malta and Portugal, and only as by-catch.

Species Swordfish <i>Xiphias gladius</i>		Zone Atlantic Ocean, north of latitude 5° NS WO/AN05N
Spain	6 541,5	
Portugal	1 010,4	
All Member States	148,5 ^a	
EC	7 700,4	
TAC	14 000	Articles 3 and 4 of Regulation (EC) No 847/96 do not apply.

^a Except Spain and Portugal, and only as by-catch.

Species Swordfish <i>Xiphias gladius</i>		Zone Atlantic Ocean, south of latitude 5° NS WO/AS05N
---	--	---

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Spain	6 595,6	
Portugal	371,1	
EC	6 966,7	
TAC	15 956	Articles 3 and 4 of Regulation (EC) No 847/96 do not apply.

SpeciesNorthern Albacore<i>Germo alalunga</i>		ZoneAtlantic Ocean, north of latitude 5° NALB/AN05N

TAC	Not relevant	

ANNEX IF

ANTARCTIC Area of CCAMLR

These TACs, adopted by CCAMLR, are not allocated to the members of CCAMLR and hence the Community share is undetermined. Catches are monitored by the Secretariat of CCAMLR, who will communicate when fishing must cease due to TAC exhaustion.

Species Blackfin icefish <i>Chaenocephalus aceratus</i>		Zone FAO 48.3 Antarctic SSI/F483.
TAC	2 200 ^a	
<p>a TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery shall be closed.</p>		
Species Unicorn icefish <i>Channichthys rhinoceratus</i>		Zone FAO 58.5.2 Antarctic LIC/F5852.
TAC	150 ^a	
<p>a TAC to cover by-catches in the fisheries for <i>Dissostichus eleginoides</i> and <i>Champscephalus gunnari</i>. Wherever this by-catch TAC is exhausted, the corresponding fisheries shall be closed.</p>		

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Species Antarctic icefish <i>Champscephalus gunnari</i>		Zone FAO 48.3 Antarctic ANI/F483.
TAC	3 574 ^a	
<p>a This TAC is applicable for the period 15 November 2004 to 14 November 2005. Fishing for this stock during the period 1 March to 31 May 2005 shall be limited to 894 tonnes.</p>		

Species Antarctic icefish <i>Champscephalus gunnari</i>		Zone FAO 58.5.2 Antarctic^b ANI/F5852.
TAC	1 864 ^a	
<p>a This TAC shall be applicable for the period 1 December 2004 to 30 November 2005.</p> <p>b For the purpose of this TAC, the area open to the fishery is defined as that portion of FAO statistical division 58.5.2 that lies within the area enclosed by a line:</p> <p>(a) starting at the point where the meridian of longitude 72°15'E intersects the Australia–France Maritime Delimitation Agreement Boundary then south along the meridian to its intersection with the parallel of latitude 53°25'S;</p> <p>(b) then east along that parallel to its intersection with the meridian of longitude 74°E;</p> <p>(c) then northeasterly along the geodesic to the intersection of the parallel of latitude 52°40'S and the meridian of longitude 76°E;</p> <p>(d) then north along the meridian to its intersection with the parallel of latitude 52°S;</p> <p>(e) then northwesterly along the geodesic to the intersection of the parallel of latitude 51°S with the meridian of longitude 74°30'E; and</p> <p>(f) then southwesterly along the geodesic to the point of commencement.</p>		

Species Antarctic toothfish <i>Dissostichus eleginoides</i>		Zone FAO 48.3 Antarctic TOP/F483.
TAC	3 050 ^{ab}	
<p>a This TAC shall be applicable for long-line fishery in the period 1 May to 31 August 2005 and for pot fishery 1 December 2004 to 30 November 2005.</p> <p>b Including 152 tonnes of skates and rays and 152 tonnes of <i>Macrurus</i> spp. as by-catch.</p>		

Special conditions:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the sub-areas specified:

Management Area A: 48°W to 43°30'W – 52°30'S to 56°S (TOP/*F483A)	0
Management Area B: 43°30'W to 40°W – 52°30'S to 56°S (TOP/*F483B)	915
Management Area C: 40°W to 33°30'W – 52°30'S to 56°S (TOP/*F483C)	2 135

Species Antarctic toothfish <i>Dissostichus eleginoides</i>		Zone FAO 48.4 Antarctic TOP/F484.
TAC	28 ^{ab}	
<p>a To be fished only with long-lines.</p> <p>b This TAC shall be applicable during a fishing season defined as that applied in Sub-area 48.3, or until the catch limit for <i>Dissostichus eleginoides</i> in Sub-area 48.4 is reached, or until the catch limit for <i>Dissostichus eleginoides</i> in Sub-area 48.3, as specified above, is reached, whichever is sooner.</p>		

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Species Antarctic toothfish <i>Dissostichus eleginoides</i>		Zone FAO 58.5.2 Antarctic TOP/F5852.								
TAC	2 787 ^{ab}									
<p>a This TAC shall be applicable for the trawl fishery in the period 1 December 2004 to 30 November 2005 and for the long-line fishery in the period 1 May to 31 August 2005.</p> <p>b This TAC is applicable for West of 79°20'E only. Fishing east of this meridian within this zone is prohibited (see Annex XV).</p>										
Species Krill <i>Euphausia superba</i>		Zone FAO 48 KRI/F48.								
TAC	4 000 000 ^a									
<p>a This TAC shall be applicable for the period 1 December 2004 to 30 November 2005.</p> <p>Special conditions:</p> <p>Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the sub-areas specified:</p> <table border="1"> <tr> <td>Sub-area 48.1 (KRI/*F481.)</td> <td>1 008 000</td> </tr> <tr> <td>Sub-area 48.2 (KRI/*F482.)</td> <td>1 104 000</td> </tr> <tr> <td>Sub-area 48.3 (KRI/*F483.)</td> <td>1 056 000</td> </tr> <tr> <td>Sub-area 48.4 (KRI/*F484.)</td> <td>832 000</td> </tr> </table>			Sub-area 48.1 (KRI/*F481.)	1 008 000	Sub-area 48.2 (KRI/*F482.)	1 104 000	Sub-area 48.3 (KRI/*F483.)	1 056 000	Sub-area 48.4 (KRI/*F484.)	832 000
Sub-area 48.1 (KRI/*F481.)	1 008 000									
Sub-area 48.2 (KRI/*F482.)	1 104 000									
Sub-area 48.3 (KRI/*F483.)	1 056 000									
Sub-area 48.4 (KRI/*F484.)	832 000									
Species Krill <i>Euphausia superba</i>		Zone FAO 58.4.1 Antarctic KRI/F5841.								
TAC	440 000 ⁰									
<p>a This TAC shall be applicable for the period 1 December 2004 to 30 November 2005.</p> <p>Special conditions:</p> <p>Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the areas specified:</p> <table border="1"> <tr> <td>Division 58.4.1 West of 115° E (KRI/*F-41W)</td> <td>277 000</td> </tr> <tr> <td>Division 58.4.1 East of 115° E (KRI/*F-41E)</td> <td>163 000</td> </tr> </table>			Division 58.4.1 West of 115° E (KRI/*F-41W)	277 000	Division 58.4.1 East of 115° E (KRI/*F-41E)	163 000				
Division 58.4.1 West of 115° E (KRI/*F-41W)	277 000									
Division 58.4.1 East of 115° E (KRI/*F-41E)	163 000									
Species Krill <i>Euphausia superba</i>		Zone FAO 58.4.2 Antarctic KRI/F5842.								
TAC	450 000 ^a									
<p>a This TAC shall be applicable for the period 1 December 2004 to 30 November 2005.</p>										
Species Humped rockcod <i>Gobionotothen gibberifrons</i>		Zone FAO 48.3 Antarctic NOG/F483.								
TAC	1 470 ^a									
<p>a TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery shall be closed.</p>										
Species Grey rockcod <i>Lepidonotothen squamifrons</i>		Zone FAO 48.3 Antarctic NOS/F483.								
<p>a TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery shall be closed.</p>										

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

TAC	300 ^a	
<p>a TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery shall be closed.</p>		
Species Grey rockcod <i>Lepidonotothen squamifrons</i>		Zone FAO 58.5.2 Antarctic NOS/F5852.
TAC	80 ^a	
<p>a TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery shall be closed.</p>		
Species Marbled rockcod <i>Notothenia rossii</i>		Zone FAO 48.3 Antarctic NOR/F483.
TAC	300 ^a	
<p>a TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery shall be closed.</p>		
Species Crab <i>Paralomis</i> spp.		Zone FAO 48.3 Antarctic PAI/F483.
TAC	1 600 ^a	
<p>a This TAC shall be applicable for the period 1 December 2004 to 30 November 2005.</p>		
Species South Georgia icefish <i>Pseudochaenichthus georgianus</i>		Zone FAO 48.3 Antarctic SGI/F483.
TAC	300 ^a	
<p>a TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery shall be closed.</p>		
Species Grenadier <i>Macrourus</i> spp.		Zone FAO 58.5.2 Antarctic GRV/F5852.
TAC	360 ^a	
<p>a TAC to cover by-catches in the fisheries for <i>Dissostichus eleginoides</i> and <i>Champscephalus gunnari</i>. Wherever this by-catch TAC is exhausted, the corresponding fisheries shall be closed.</p>		
Species Other species		Zone FAO 58.5.2 Antarctic OTH/F5852.
TAC	50 ^a	
<p>a TAC to cover by-catches in the fisheries for <i>Dissostichus eleginoides</i> and <i>Champscephalus gunnari</i>. Wherever this by-catch TAC is exhausted, the corresponding fisheries shall be closed.</p>		
Species Skates and rays <i>Rajae</i>		Zone FAO 58.5.2 Antarctic SRX/F5852.
TAC	120 ^{ab}	
<p>a TAC to cover by-catches in the fisheries for <i>Dissostichus eleginoides</i> and <i>Champscephalus gunnari</i>. Wherever this by-catch TAC is exhausted, the corresponding fisheries shall be closed.</p>		
<p>b For the purposes of this TAC, skates and rays to be counted as one single species.</p>		

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Species Squid <i>Martialia hyadesi</i>		Zone FAO 48.3 Antarctic SQS/F483.
TAC	2 500 ^a	
a This TAC is applicable for the period 1 December 2004 to 30 November 2005.		

ANNEX II

SPECIAL MEASURES CONCERNING UNSORTED LANDINGS IN SUB-AREAS IIa (EC WATERS), III, IV AND VII d

1. It shall be prohibited to land catches which are unsorted.
2. Member States shall ensure that an adequate sampling programme is in place which allow an efficient monitoring of the landings by species when landings are unsorted. The Member States shall not later than 1 March 2005 provide the Commission with a detailed description of the sampling programmes and a list of ports and landing sites where the sampling systems are in operation.
3. By way of derogation from point 1), it shall be permitted to land catches which are unsorted in ports and landing sites where a sampling programme referred to in point 2 is in operation.

ANNEX III

TRANSITIONAL TECHNICAL AND CONTROL MEASURES

PART A

BALTIC SEA

Section 1

Cod fishery

1. Conditions for certain gears authorised for cod fishery in the Baltic Sea
 - 1.1. Towed nets
 - 1.1.1. Without exit windows

Towed nets without an exit window shall be prohibited.

- 1.1.2. With exit windows

By way of derogation from the provisions of special selectivity devices in Annex V to Regulation (EC) No 88/98, the provisions in Appendix 1 to this Annex shall apply.

- 1.1.3. One net rule

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

When a towed net with exit windows is used, no other type of gear shall be kept on board.

1.2. Gillnets

By way of derogation from the provisions of Annex IV to Regulation (EC) No 88/98, the minimum mesh size for gillnets shall be 110 mm.

The nets shall not exceed a maximum length of 12 km for vessels with an overall length of up to and including 12 m.

The nets shall not exceed a maximum length of 24 km for vessels with an overall length of more than 12 m.

The soaking time of the nets shall not exceed 48 hours counting from the time the nets are first put in the water to the time when the nets are fully recovered on board the fishing vessel.

2. By-catch of cod in the Baltic Sea

2.1. By way of derogation from the provisions of Article 3(4) of Regulation (EC) No 88/98, no undersized cod may be kept on board, except in the case set out in point 2.2.

2.2. However, by way of derogation from the provisions of Article 3(5) of Regulation (EC) No 88/98, the by-catch of cod taken when fishing for herring and sprat with mesh sizes of 32 mm or smaller shall not exceed 3 % by weight. Of this by-catch, no more than 5 % of undersized cod shall be kept on board.

2.3. By-catches of cod may not exceed 10 % when fishing for other species than herring and sprat with trawls and Danish seines other than those referred to in point 1.1.2.

3. Minimum size for cod in the Baltic Sea

By way of derogation from the provisions laid down in Annex III to Regulation (EC) No 88/98, the minimum size for cod shall be 38 cm.

4. Summer ban for Baltic cod

Fishing for cod shall be prohibited in Sub-divisions 22-24 from 1 March 2005 to 30 April 2005 inclusive, and in Sub-divisions 25-32 from 1 May 2005 to 15 September 2005 inclusive.

5. Restrictions for fishing for cod in the Baltic Sea

It shall be prohibited to conduct any fishing activity within the areas enclosed by sequentially joining with rhumb lines the following positions, which shall be measured according to the WGS84 coordinate system:

Area 1:

- 55°45'N, 15°30'E
- 55°45'N, 16°30'E
- 55°00'N, 16°30'E
- 55°00'N, 16°00'E
- 55°15'N, 16°00'E
- 55°15'N, 15°30'E
- 55°45'N, 15°30'E

Area 2:

- 55°00'N, 19°14'E
- 54°48'N, 19°20'E

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

— 54°45'N, 19°19'E

— 54°45'N, 18°55'E

— 55°00'N, 19°14'E

Area 3:

— 56°13'N, 18°27'E

— 56°13'N, 19°31'E

— 55°59'N, 19°13'E

— 56°03'N, 19°06'E

— 56°00'N, 18°51'E

— 55°47'N, 18°57'E

— 55°30'N, 18°34'E

— 56°13'N, 18°27'E

6. Interim and additional conditions for monitoring, inspection and surveillance in the context of recovery of cod stocks in the Baltic Sea

6.1. General provisions

6.1.1. The monitoring inspection and surveillance programme for cod stocks in the Baltic Sea shall consist of the following elements:

Special conditions for fishing for cod in the Baltic Sea.

National control action programmes to be drawn up by Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland, and Sweden.

Additional measures for monitoring, control and inspection.

Joint surveillance and exchange of inspectors.

6.1.2. The National control action programme for cod stocks may be revised, at the initiative of the Commission or following a request by a Member State.

6.2. Special Conditions for fishing for cod in the Baltic Sea

6.2.1. All vessels of overall length equal to or greater than 8 metres carrying on board or using any gear authorised for fishing for cod in the Baltic Sea shall hold a special permit for fishing for cod in the Baltic Sea.

6.2.2. Each Member State shall establish a list of vessels holding a special permit for fishing for cod in the Baltic Sea.

6.2.3. The master of a fishing vessel, or his representative, to which a Member State has issued a special permit for fishing for cod in the Baltic Sea shall comply with the conditions in Appendix 2.

6.3. National Control Action programmes

6.3.1. Each Member State concerned shall define a national control action programme for the Baltic Sea.

6.3.2. The Commission shall convene at least once in 2005 a meeting of the Committee for Fisheries and Aquaculture to evaluate the compliance with and results of the national control action programme for cod stocks in the Baltic Sea.

6.4. Monitoring, inspection and surveillance to be adopted by Member States

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- 6.4.1. Each Member State concerned shall transmit to the Commission within 30 days of the date of entry into force of this Regulation a list of designated ports and the national control programme referred to in point 6.3.1. and an implementation schedule. The Commission shall transmit this information to all the relevant Member States.
- 6.4.2. Notwithstanding Article 6(4) of Regulation (EEC) No 2847/93, the masters of Community fishing vessels holding a special fishing permit for fishing for cod in the Baltic Sea in accordance with point 6.2.1 shall keep a logbook of their operations in accordance with the provisions laid down in Article 6 of Regulation (EEC) No 2847/93.
- 6.4.3. By way of derogation from Article 5 of Regulation (EEC) No 2807/83, the permitted margin of tolerance in estimates of the quantities, in kilograms, of fish subject to a TAC that are retained on board shall be 8 %.
- 6.4.4. For cod landed in a designated port, representative samples, amounting to at least 20 % of the landings, shall be weighed in the presence of controllers authorised by the Member States before they are offered for first sale and sold. To this end, the Member States shall submit to the Commission, within one month of the date of entry into force of this Regulation, details of the sampling regime to be employed.
- 6.4.5. Notwithstanding Article 19a 1a) of Regulation (EEC) No 2847/93, Articles 19e, 19f, 19g, 19h and 19i of that Regulation shall apply to Community fishing vessels holding a special fishing permit for fishing for cod in the Baltic Sea in accordance with point 6.2.1.
- 6.4.6. In accordance with the provisions of Article 13 of Regulation (EC) No 2244/2003 Member States shall ensure that the VMS data received pursuant to Article 8, Article 10(1) and Article 11(1) of that Regulation of vessels holding a special permit for fishing for cod in the Baltic Sea are used:
- (a) to record each entry into, and exit from port in a computer readable form;
 - (b) to record each entry into, and exit from areas closed for cod fishing in the Baltic Sea.
- 6.4.7. Member States may implement alternative control measures to ensure compliance with reporting obligations referred in point 6.4.5 which are as effective and transparent as these reporting obligations. Such alternative measures shall be notified to the Commission before being implemented.
- 6.4.8. By way of derogation from Article 13 of Regulation (EEC) No 2847/93, quantities greater than 50 kg of cod which are transported to a place other than that of landing or import shall be accompanied by a copy of one of the declarations provided for in Article 8(1) of Regulation (EEC) No 2847/93 pertaining to the quantities of these species transported. The exemption provided for in Article 13(4)(b) of Regulation (EEC) No 2847/93 shall not apply.
- 6.4.9. By way of derogation from Article 34(c)(1) of Regulation (EEC) No 2847/93, the specific monitoring programme for cod in the Baltic Sea may last more than two years from their date of entry into force.
- 6.5. Joint Surveillance and Exchange of inspectors
- 6.5.1. The Member States concerned shall undertake joint inspection and surveillance activities and shall establish to that effect joint operational procedures applicable to their surveillance crafts.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- 6.5.2. A meeting of the competent national inspection authorities shall be convened by the Presidency within 30 days of the date of entry into force of this Regulation to coordinate the joint inspection and surveillance programme.
- 6.5.3. The Member States concerned shall ensure that inspectors from other Member States concerned are invited to participate at least in their joint inspections activities.
- 6.5.4. Inspectors from the Commission may participate in these exchanges and may participate in joint inspections.

Section 2

Gulf of Riga

- 7. Specific provisions for the Gulf of Riga
 - 7.1. Special fishing permit
 - 7.1.1. In order to exercise fishing activities in the Gulf of Riga vessels shall hold a special fishing permit issued in accordance with Article 7 of Regulation (EC) No 1627/94.
 - 7.1.2. Member States shall ensure that vessels to which a special fishing permit referred to in paragraph 1 has been issued are included in a list containing their name and internal registration number to be provided to the Commission by each Member State.

Vessels included in the list shall satisfy the following conditions:

- (a) the total engine power (kW) of the vessels within the lists must not exceed that observed for each Member State in the years 2000-2001 in the Gulf of Riga;
- (b) the engine power of a vessel must not exceed 221 kilowatts (kW) at any time.
- 7.2. Replacement of vessels or engines
 - 7.2.1. Any individual vessel on the list referred to in point 7.1.2 may be replaced by another vessel or vessels, provided that:
 - (a) such replacement will not lead to an increase in the total engine power as indicated in point 7.1.2 (a) in the Member State concerned, and
 - (b) the engine power of any replacement vessel does not exceed 221 kW at any time.
 - 7.2.2. An engine of any individual vessel included in the list referred to in point 7.1.2 may be replaced, provided that:
 - (a) the replacement of an engine does not lead to the vessel's engine power exceeding 221 kW at any time, and
 - (b) the power of the replacement engine is not such that replacement will lead to an increase in the total engine power as indicated in point 7.1.2 (a) for the Member State concerned.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

PART B

SKAGERRAK AND KATTEGAT

8. Technical conservation measures in the Skagerrak and in the Kattegat

By way of derogation from the provisions set out in Annex IV of Regulation (EC) No 850/98, the provisions in Appendix 3 to this Annex shall apply.

PART C

ICES SUB-AREAS I TO VII

- [^{F29}] Landing and weighing procedures for herring, mackerel and horse mackerel
- 9.1. Scope
- 9.1.1. The following procedures shall apply to landings in the European Community by Community and third country vessels of quantities per landing exceeding 10 tonnes of herring, mackerel, and horse mackerel, or a combination thereof, taken in:
- (a) for herring, ICES Sub-areas I, II, IV, VI and VII and Divisions IIIa and Vb;
 - (b) for mackerel and horse mackerel, in ICES Sub-areas III, IV, VI and VII and Division IIa.
- 9.2. Designated ports
- 9.2.1. Landings referred to in point 9.1 are only permitted in designated ports.
- 9.2.2. Each Member State concerned shall transmit to the Commission changes in the list, transmitted in 2004, of designated ports in which landings of herring, mackerel and horse mackerel may take place and, changes in inspection and surveillance procedures for those ports including the terms and conditions for recording and reporting the quantities of any of the species and stocks referred to in point 9.1.1 within each landing. Those changes shall be transmitted at least 15 days before they enter into force. The Commission shall transmit this information as well as ports designated by third countries to all Member States concerned.
- 9.3. Entry to port
- 9.3.1. The master of a fishing vessel referred to in point 9.1.1 or his agent shall inform the competent authorities of the Member State in which the landing is to be made, at least four hours in advance of entry to port of landing of the Member State concerned of the following:
- (a) the port he intends to enter, the name of the vessel and its registration number;
 - (b) the estimated time of arrival at that port;
 - (c) the quantities in kilograms live weight by species retained on board;
 - (d) the management area in accordance with Annex I to this Regulation where the catch was taken.
- 9.4. Discharge

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

9.4.1. The competent authorities of the Member State concerned shall require that the discharge does not commence until authorised to do so.

9.5. Logbook

9.5.1. By way of derogation from the provisions of point 4.2 of Annex IV to Regulation (EEC) No 2807/83, the master of a fishing vessel shall submit, immediately upon arrival to port, the relevant page or pages of the logbook as demanded by the competent authority at the port of landing.

The quantities retained on board, notified prior to landing as referred to in point 9.3.1(c), shall be equal to the quantities recorded in the logbook after its completion.

By way of derogation from the provisions of Article 5(2) of Regulation (EEC) No 2807/83 the permitted margin of tolerance in estimates recorded into the logbook of the quantities in kilograms of fish retained on board of vessels shall be 8 %.

9.6. Weighing of fresh fish

9.6.1. All buyers purchasing fresh fish shall ensure that all quantities received are weighed on systems approved by the competent authorities. The weighing shall be carried out prior to the fish being sorted, processed, held in storage and transported from the port of landing or resold. The figure resulting from the weighing shall be used for the completion of landing declarations and sales notes.

9.6.2. When determining the weight any deduction for water shall not exceed 2 %.

9.7. Weighing of fresh fish after transport

9.7.1. By way of derogation from point 9.6.1, Member States may permit fresh fish to be weighed after transport from the port of landing provided that the fish is transported to a destination on the territory of the Member State no more than 60 kilometres from the port of landing and that:

(a) the tanker in which the fish is transported is accompanied by an inspector from the place of landing to the place where the fish is weighed; or

(b) approval is given by the competent authorities at the place of landing to transport the fish subject to the following provisions:

(i) immediately prior to the tanker leaving the port of landing, the buyer or his agent shall provide to the competent authorities a written declaration giving the species of the fish and name of the vessel from which it is to be discharged, the unique identity number of the tanker and details of the destination where the fish will be weighed as well as the estimated time of arrival of the tanker at the destination,

(ii) a copy of the declaration provided for in (i) shall be kept by the driver during the transport of the fish and handed over to the receiver of the fish at the destination.

9.8. Invoice

9.8.1. In addition to the obligations set out in Article 9(1) and (2) of Regulation (EC) No 2847/93 the processor or buyer of the quantities of fresh fish landed shall submit to the competent authorities of the Member State concerned a copy of the invoice or a document replacing it, as referred to in Article 22(3) of the Sixth Council Directive

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

77/388/EEC of 17 May 1977 on the harmonisation of the laws of the Member States relating to turnover taxes — Common system of value added tax: uniform basis of assessment⁽¹⁾.

9.8.2. Any such invoice or document shall include the information required by Article 9(3) of Regulation (EC) No 2847/93 as well as the name and registration number of the vessel from which the fish has been landed. This invoice or document shall be submitted on demand or within 12 hours of the completion on the weighing.

9.9. Weighing of frozen fish

9.9.1. All buyers or holders of frozen fish shall ensure that the quantities landed are weighed prior to the fish being processed, held in storage, transported from the port of landing or resold. Any tare weight equal to the weight of boxes, plastic or other containers in which the fish to be weighed is packed may be deducted from the weight of any quantities landed.

9.9.2. Alternatively, the weight of frozen fish packed in boxes may be determined by multiplying the average weight of a representative sample based on weighing the contents removed from the box and without plastic packaging whether or not after the thawing of any ice on the surface of the fish. Member States shall notify to the Commission for approval any changes in their sampling methodology approved by the Commission during 2004. Changes shall be approved by the Commission. The figure resulting from the weighing shall be used for the completion of landing declarations and sales notes.

9.10. Weighing facilities

9.10.1. In cases where publicly operated weighing facilities are used the party weighing the fish shall issue to the buyer a weighing slip indicating the date and time of the weighing and the identity number of the tanker. A copy of the weighing slip shall be attached to the invoice submitted to the competent authorities as provided for in point 9.8.

9.10.2. In cases where privately operated weighing facilities are used the system shall be approved, calibrated and sealed by the competent authorities and be subject to the following provisions:

- (a) the party weighing the fish shall keep a paginated weighing logbook indicating:
 - (i) the name and registration number of the vessel from which the fish has been landed,
 - (ii) the identity number of the tankers in cases where fish has been transported from the port of landing before weighing,
 - (iii) the species of fish,
 - (iv) the weight of each landing,
 - (v) the date and time of the beginning and end of the weighing;
- (b) where the weighing is carried out on a conveyor belt system a visible counter shall be fitted that records the cumulative total of the weight. Such cumulative total shall be recorded in the paginated logbook referred to in point (a);
- (c) the weighing logbook and the copies of written declarations provided for in point 9.7.1(b)(ii) shall be kept for three years.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

9.11. Access by competent authorities

The competent authorities shall have full access at all times to the weighing system, the weighing logbooks, written declarations and all premises where the fish is processed and kept.

9.12. Cross-checks

9.12.1. The competent authorities shall carry out administrative cross-checks on all landings between the following:

- (a) quantities by species indicated in the prior notice of landing, referred to in point 9.3.1 and the quantities recorded in the vessel's logbook;
- (b) quantities by species recorded in the vessel's logbook and the landing declaration or invoice or equivalent document referred to in point 9.8;
- (c) quantities by species recorded on the landing declaration and invoice or equivalent document referred to in point 9.8.

9.13. Full inspection

9.13.1. The competent authorities of a Member State shall ensure that at least 15 % of the quantities of fish landed and at least 10 % of the landings of fish are subject to full inspections which shall include at least the following:

- (a) monitoring of the weighing of the catch from the vessel, by species. In the case of vessels pumping catch ashore the weighing of the entire discharge from the vessels selected for inspection shall be monitored. In the case of freezer trawlers, all boxes shall be counted. A representative sample of boxes/pallets shall be weighed in order to arrive at an average weight for the boxes/pallets. Sampling of boxes shall also be undertaken according to an approved methodology in order to arrive at an average net weight for the fish (without packing, ice);
 - (b) in addition to the cross-checks referred to in point 9.12 cross-verification between the following:
 - (i) quantities by species recorded in the weighing logbook and the quantities by species recorded in the invoice or equivalent document referred to in point 9.8,
 - (ii) the written declarations received by the competent authorities pursuant to point 9.7.1(b)(i) and the written declarations held by the receiver of the fish pursuant to point 9.7.1(b)(ii),
 - (iii) identity numbers of tankers that appear in the written declarations provided for in point 9.7.1(b)(i) and the weighing logbooks;
 - (c) if the discharge is interrupted, permission shall be required before the discharge can recommence;
 - (d) verification that the vessel is empty of all fish, once the discharge has been completed.
- 9.13.2. All inspection activities covered by point 9 shall be documented. Such documentation shall be kept for 3 years.]

10. Fishing for herring in area IIa (EC waters)

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

It shall be prohibited to land or retain on board herring caught in Division IIa (EC waters) in the periods 1 January to 28 February and 16 May to 31 December.

11. Conditions for landing of herring for industrial purposes

Conditions for landing of herring for industrial purposes By way of derogation from the provisions of Article 2(1) of Regulation (EC) No 1434/98 the following provisions shall apply:

Herring caught when fishing outside ICES Sub-areas III and IV with nets of minimum mesh size less than 32 mm may not be retained on board or landed unless such catches consist of a mixture of herring and other species, are not sorted and the herring does not exceed 10 % by weight of the total combined weight of herring and other species.

12. Restrictions on fishing for Cod

(a) West of Scotland: Until 31 December 2005, it shall be prohibited to conduct any fishing activity within the areas enclosed by sequentially joining with rumb lines the following positions:

59°05'N, 06°45'W
 59°30'N, 06°00'W
 59°40'N, 05°00'W
 60°00'N, 04°00'W
 59°30'N, 04°00'W
 59°05'N, 06°45'W.

(b) Celtic Sea: Until 31 March 2005, it shall be prohibited to conduct any fishing activity within that part of ICES Division VII included in the following ICES rectangles: 30E4, 31E4, 32E3. This prohibition shall not apply to Beam trawlers in the month of March.

(c) By way of derogation from (a) and from (b), it shall be permitted to conduct fishing activities using pots and creels within the specified areas and time periods, provided that:

- (i) no fishing gear other than pots and creels are carried on board, and
- (ii) no fish other than shellfish and crustacea are retained on board;

(d) By way of derogation from point (a) and from point (b), it shall be permitted to conduct fishing activities within the areas referred to in those points using nets of mesh size less than 55 mm, provided that:

- (i) no net of mesh size greater than or equal to 55 mm is carried on board, and
- (ii) no fish other than herring, mackerel, pilchard/sardines, sardinelles, horse mackerel, sprat, blue whiting and argentines are retained on board.

13. Closure of an area for sandeel fisheries

It shall be prohibited to land or retain on board sandeels caught within the geographical area bounded by the east coast of England and Scotland, and enclosed by sequentially joining with rhumb lines the following positions:

- the east coast of England at latitude 55°30'N,
- latitude 55°30'N, longitude 1°00'W,
- latitude 58°00'N, longitude 1°00'W,
- latitude 58°00'N, longitude 2°00'W,
- the east coast of Scotland at longitude 2°00'W.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

However, a limited fishery shall be allowed in order to monitor the sandeel stock in the area and the effects of the closure.

14. Rockall Haddock box

All fishing, except with longlines, shall be prohibited in the areas enclosed by sequentially joining with rhumb lines the following positions:

Point No	Latitude	Longitude
1	57°00'N	15°00'W
2	57°00'N	14°00'W
3	56°30'N	14°00'W
4	56°30'N	15°00'W

15. Technical conservation measures in the Irish Sea

The technical conservation measures referred to in Articles 2, 3 and 4 of Council Regulation (EC) No 254/2002 of 12 February 2002 establishing measures to be applicable in 2002 for the recovery of the stock of cod in the Irish Sea (ICES division VIIa)⁽²⁾ shall temporarily apply in 2005.

PART D

ICES SUB-AREAS VIII, IX AND X

16. Trawling ban in waters around the Azores, the Canary Islands and Madeira

Vessels shall be prohibited from using any bottom trawl or similar towed nets operating in contact with the bottom of the sea in waters under the sovereignty or the jurisdiction of Member States within the areas bounded by a line joining the following coordinates:

(a) *Azores*

Latitude 36°00'N, longitude 23°00'W

Latitude 42°00'N, longitude 23°00'W

Latitude 42°00'N, longitude 34°00'W

Latitude 36°00'N, longitude 34°00'W

Latitude 36°00'N, longitude 23°00'W

(b) *Canary Islands and Madeira*

Latitude 27°00'N, longitude 19°00'W

Latitude 26°00'N, longitude 15°00'W

Latitude 29°00'N, longitude 13°00'W

Latitude 36°00'N, longitude 13°00'W

Latitude 36°00'N, longitude 19°00'W

Latitude 27°00'N, longitude 19°00'W

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

PART E

MEDITERRANEAN

17. Technical conservation measures in the Mediterranean

The fisheries currently operating under the derogations, provided for in Article 3(1) and (1a) and Article 6(1) and (1a) of Regulation (EC) No 1626/94, may temporarily continue their activity in 2005.

PART F

EASTERN PACIFIC OCEAN

18. Purse seines in the Eastern Pacific Ocean (Regulatory Area of the Inter-American Tropical Tuna Commission (IATTC))

The fishing by purse-seine vessels for Yellowfin Tuna (*Thunnus albacares*), Bigeye Tuna (*Thunnus obesus*) and Skipjack Tunas (*Katsuwonus pelamis*) shall be prohibited from either, 1 August to 11 September 2005, or, 20 November to 31 December 2005 in the area defined by the following limits:

- the Pacific coastlines of the Americas,
- longitude 150° W,
- latitude 40° N,
- latitude 40° S.

The Member States concerned shall notify the Commission of the selected period of closure before 1 July 2005. All the purse seine vessels of the Member States concerned must stop purse-seine fishing in the defined area during the period selected.

As of the date of entry into force of this Regulation purse seiners fishing for tuna in the Regulatory Area of the Inter-American Tropical Tuna Commission shall retain on board and then land all bigeye, skipjack and yellowfin tuna caught, except fish considered unfit for human consumption for reasons other than size. A single exception shall be the final set of a trip, when there may be insufficient well space remaining to accommodate all the tuna caught in that set.

Purse seine vessels shall promptly release unharmed, to the extent practicable, all sea turtles, sharks, billfishes, rays, dorado, and other non-target species. Fishermen shall be encouraged to develop and use techniques and equipment to facilitate the rapid and safe release of any such animals.

The following specific measures to encircled or entangled sea turtles shall apply:

- (a) whenever a sea turtle is sighted in the net, all reasonable efforts shall be made to rescue the turtle before it becomes entangled in the net, including, if necessary, the deployment of a speedboat,
- (b) if a turtle is entangled in the net, net roll should stop as soon as the turtle comes out of the water and should not start again until the turtle has been disentangled and released,
- (c) if a turtle is brought on board a vessel, all appropriate methods to assist in the recovery of the turtle should be made before returning it to the water,
- (d) tuna-fishing vessels shall be prohibited from disposing of salt bags or any other type of plastic rubbish at sea,

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- (e) the release, when practicable, of sea turtles entangled in Fish Aggregating Devices (FADs) and other fishing gear is encouraged,
- (f) the recovery of Fish Aggregating Devices (FADs) which are not being used in the fishery is also encouraged.

PART G

EASTERN ATLANTIC AND MEDITERRANEAN SEAS

19. Minimum size for bluefin tuna in the East Atlantic and Mediterranean Sea

By way of derogation from the provisions laid down in Article 6 and Annex IV of Regulation (EC) No 973/2001, the minimum size for bluefin tuna in the Mediterranean Sea shall be 10 kg or 80 cm.

By way of derogation from the provisions laid down in Article 7(1) of Regulation (EC) No 973/2001, no tolerance limit shall be granted for bluefin tuna fished in the East Atlantic and in the Mediterranean Sea.

20. Minimum size for bigeye tuna

By way of derogation from the provisions of Article 6 and Annex IV of Regulation (EC) No 973/2001, the minimum size of bigeye tuna is abolished.

21. Restrictions on the use of certain types of vessels and gears

1. In order to protect the bigeye stock, in particular juvenile fish, fishing by purse seiners and baitboats shall be prohibited during the period and in the area specified in point (a) and (b) below;

- (a) The area is the following:

Southern limit	:	parallel 0° South latitude
Northern limit	:	parallel 5° North latitude
Western limit	:	meridian 20° West longitude
Eastern limit	:	meridian 10° West longitude

- (b) The period covered by the prohibition shall be from 1 November to 30 November of each year.

2. By way of derogation from the provisions of Article 3 of Regulation (EC) No 973/2001, Community fishing vessels shall be authorised to fish without restriction on the use of certain types of vessels and gears in the area referred to in Article 3(2) and during the period specified in Article 3(1).

22. Measures concerning sport and recreational fishing activities in the Mediterranean Sea

1. Each Member State shall take the necessary measures to forbid the use, within the framework of sport and recreational fishing of towed nets, encircling nets, seine sliding, dredger, gillnets, trammel nets and longline to fish for tuna and tuna-like species, notably bluefin tuna, in the Mediterranean Sea.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

2. Each Member State shall ensure that catches of tuna and tuna-like species carried out in the Mediterranean Sea as a result from sport and recreational fishing are not marketed.

23. Sampling plan for bluefin Tuna

By way of derogation from the provisions laid down in Article 5a of Regulation (EC) No 973/2001, each Member State shall establish a sampling programme for the estimation of the numbers-at-size of the bluefin tuna caught; this requires notably that size sampling at cages must be done on one sample (= 100 specimen) for every 100 tonnes of live fish. Size sample will be collected during harvesting⁽³⁾ at the farm, in accordance with the ICCAT methodology for reporting Task II. The sampling should be conducted during any harvesting, covering all cages. Data must be transmitted to ICCAT by 31 July for the sampling conducted the previous year.

24. Interim measures for the protection of vulnerable deep-water habitats

It shall be prohibited to conduct bottom trawling and fishing with static gear, including bottom gill-nets and long-lines, within the areas enclosed by sequentially joining with rhumb lines the following positions, which shall be measured according to the WGS84 coordinate system:

The Hecate Seamounts:

- 52°21.2866'N, 31°09.2688'W
- 52°20.8167'N, 30°51.5258'W
- 52°12.0777'N, 30°54.3824'W
- 52°12.4144'N, 31°14.8168'W
- 52°21.2866'N, 31°09.2688'W

The Faraday Seamounts:

- 50°01.7968'N, 29°37.8077'W
- 49°59.1490'N, 29°29.4580'W
- 49°52.6429'N, 29°30.2820'W
- 49°44.3831'N, 29°02.8711'W
- 49°44.4186'N, 28°52.4340'W
- 49°36.4557'N, 28°39.4703'W
- 49°29.9701'N, 28°45.0183'W
- 49°49.4197'N, 29°42.0923'W
- 50°01.7968'N, 29°37.8077'W

Part of the Reykjanes Ridge:

- 55°04.5327'N, 36°49.0135'W
- 55°05.4804'N, 35°58.9784'W
- 54°58.9914'N, 34°41.3634'W
- 54°41.1841'N, 34°00.0514'W
- 54°00.0'N, 34°00.0'W
- 53°54.6406'N, 34°49.9842'W

PART H

DEEP-SEA SPECIES

By way of derogation from Regulation (EC) No 2347/2002, the following shall apply in 2005:

Member States shall ensure that fishing activities which lead to catches and retention on board of more than 10 tonnes each calendar year of deep-sea species and of Greenland halibut by vessels flying their flag and registered in their territory shall be subject to a deep-sea fishing permit.

It shall however be prohibited to catch and retain on board, tranship or to land any aggregate quantity of the deep sea species and of Greenland halibut in excess of 100 kg in each sea trip, unless the vessel in question holds a deep-sea permit.

[^{F5}PART I

NORTH-EAST ATLANTIC

Vessels engaged in illegal, unreported and unregulated fisheries

Vessels that have been placed by the North-East Atlantic Fisheries Commission (NEAFC) on the list of vessels that have been confirmed as having engaged in illegal, unreported and unregulated fisheries (IUU vessels) are listed in Appendix 5. The following measures shall apply to these vessels:

- (a) IUU vessels that enter ports are not authorised to land or tranship therein and shall be inspected by the competent authorities. Such inspections shall include the vessel's documents, log books, fishing gear, catch onboard and any other matter relating to the vessel's activities in the Regulatory Area of NEAFC. Information on the result of the inspections shall immediately be transmitted to the Commission;
- (b) fishing vessels, support vessels, refuel vessels, mother-ships and cargo vessels flying the flag of a Member State shall not in any way assist IUU vessels or participate in any transhipment or joint fishing operations with vessels on that list;
- (c) IUU vessels shall not be supplied in ports with provisions, fuel or other services;
- (d) IUU vessels shall not be authorised to fish in Community waters and be prohibited to be chartered;

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- (e) imports of fish coming from IUU vessels shall be prohibited;
- (f) Member States shall refuse the granting of their flag to IUU vessels and encourage importers, transporters and other sectors concerned to refrain from negotiating and from transshipping of fish caught by such vessels.

The Commission shall amend the list to be in accordance with the NEAFC list as soon as NEAFC adopts a new list.]

Textual Amendments

- F5** Inserted by Council Regulation (EC) No 1300/2005 of 3 August 2005 amending Regulation (EC) No 27/2005, as concerns herring, mackerel, horse mackerel, sole and vessels engaged in illegal fisheries.

[^{F6}PART J

CECAF

The minimum size for octopus (*Octopus vulgaris*) in the maritime waters under the sovereignty or jurisdiction of third countries and situated in the CECAF region shall be 450g (gutted). Octopus under the minimum size of 450g (gutted) shall not be retained on board or be transhipped, landed, transported, stored, sold, displayed or offered for sale, but shall be returned immediately to the sea.]

Textual Amendments

- F6** Inserted by Council Regulation (EC) No 1936/2005 of 21 November 2005 amending Regulation (EC) No 27/2005, as concerns herring, Greenland halibut and octopus.

Appendix 1 to Annex III

Specifications of top window codend 'BACOMA'

Specification of 110 mm, measured as inner diameter opening, square mesh window in a codend with a 105 mm or larger mesh size in trawls, Danish seines or similar towed nets.

The window shall be a rectangular section of netting in the codend. There shall be only one window. The window shall not be obstructed in any way by either internal or external attachments.

Size of the codend, extension piece and the rear end of the trawl

The codend shall be constructed of two panels of equal size, joined together by selvages one on each side.

The carrying on board of a net having more than 100 open diamond meshes in any circumference of the codend, excluding the joining or the selvages shall be prohibited.

The number of open diamond meshes, excluding those in the selvages, at any point on any circumference of any extension or lengthening piece shall not be less or more than the maximum number of meshes on the circumference of the front end of the codend *stricto sensu* and the rear end of the tapered section of the trawl excluding meshes in the selvages (*Figure 1*).

Location of the window

The window shall be inserted into the top panel of the codend. The window shall terminate not more than 4 meshes from the codline, inclusive of the hand braided row of meshes through which the codline is passed (*Figure 2*).

Size of the window

The width of the window, expressed in number of mesh bars, shall be equal to the number of open diamond meshes in the top panel divided by two. If necessary, it may be allowed to maintain at the most 20 % of the number of open diamond meshes in the top panel divided evenly on the both sides of the window panel (*Figure 3*).

Length of the window shall be at least 3,5 metres.

The netting of the window

The meshes shall have a minimum mesh opening of 110 millimetres. The meshes shall be square meshes i.e. all four sides of the window netting shall be cut all bars. The netting shall be mounted such that the bars run parallel and perpendicular to the length of the codend. The netting shall be knotless braided single twine or a netting with similar proven selective properties. The diameter of the single yarn shall be at least 4,9 millimetres.

Other specification

The mounting specifications are defined in Figures 4a, 4b and 4c. The length of the lifting strap shall not be less than 4 m.

Figure 1

Trawl gear can be divided into three different sections according to shape and function.

The trawl body is always a tapered section often between 10 and 40 m long. The extension piece is an untapered section normally manufactured of either one or two pieces of 49,5 mesh long nets giving a stretched length between 6 or 12 m. The codend is also an untapered section often made of double twine in order to have a better resistance against heavy wearing. The codend length is often 49,5 meshes i.e. *circa* 6 metres although shorter codends (2-4) exists in smaller vessels. The part below the lifting strap is called a lifting bag.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Figure 2

The distance of the window panel from the codline shall be 4 meshes. There are 3,5 diamond meshes in the upper panel and one 0,5 mesh deep hand-braided 'codline' row.

Figure 3

Twenty percent of diamond meshes in the upper panel along a perpendicular row running from one selvedge to another may be maintained. For example (as in figure 3) if the upper panel were 30 open meshes wide, 20 % of that would be 6 meshes. Then three open meshes are divided on both sides of the window panel. Consequently the width of the window panel then becomes 12 mesh bars (30 – 6 = 24 diamond meshes divided by two is 12 mesh bars).

Figure Lower panel
4a

Showing the construction of lower panel made of 49,5 meshes deep netting

Figure Upper panel(without diamond meshes between selvedge and square mesh panel)
4b

The construction of upper panel, size and position of the window panel in case when the escape panel runs from selvedge to selvedge

Figure Upper panel(with diamond meshes between selvedge and square mesh panel)
4c

The construction of upper panel in case 20 % of diamond meshes in the upper panel are maintained and equally divided on both sides of the window

Appendix 2 to Annex III

Special Conditions for fishing for Cod in the Baltic Sea

1. Only vessels holding a special fishing permit are authorised to land cod from the Baltic Sea.
2. The competent authorities of a Member State in which a landing requiring pre-notification is to be made may require that the discharge of catch retained on board does not commence until authorised by those authorities.
3. The master of a fishing vessel, or his representative, to which a Member State has issued a special permit for fishing for cod in the Baltic Sea shall comply with the following conditions:
 - (i) a copy of the special permit for fishing for cod in the Baltic Sea shall be kept on board the fishing vessel;
 - (ii) before leaving or entering the Baltic Sea area, notify the authorities of the flag Member State of the date, time and place of exit or entry, and not commence any new fishing trip until all catches have been landed;
 - (iii) not trans-ship any fish at sea;
 - (iv) not transit within the areas closed for cod fishing unless the fishing gear on board is securely lashed and stowed;
 - (v) when retaining more than 300 kg of cod on board, inform the relevant authorities at least two hours in advance of any entry to a port or landing location of a Member State of the name of the port or landing location, the estimated time of arrival at that port or landing location, and the quantities in kilogrammes live weight of cod;
 - (vi) make landings of cod exclusively at designated ports when retaining more than 750 kg of cod live weight on board;
 - (vii) notwithstanding Article 8 of Regulation (EEC) No 2847/93, submit the relevant logbook sheet(s) to the national authorities prior to the commencement of the discharge of the catches retained on board.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Appendix 3 to Annex III

Towed Gears: Skagerrak and Kattegat

Mesh size ranges, target species and required catch percentages applicable to the use of a single mesh size range

Species	Mesh size range (millimetres)							
	< 16	16-31	32-69		35-69	70-89 ^e	≥ 90	
	Minimum percentage of target species

All other marine organisms								X

a Only within four miles from the baselines.

b Outside four miles from the baselines.

c From 1 March to 31 October in Skagerrak and from 1 March to 31 July in Kattegat.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

-
- d** From 1 November to the last day of February in Skagerrak and from 1 August to the last day of February in Kattegat.
-
- e** When applying this mesh size range the codend and the extension piece shall be constructed of square meshed netting with a sorting grid.
-
- f** The catch retained on board shall consist of no more than 10 % of any mixture of cod, haddock, hake, plaice, witch, lemon sole, sole, turbot, brill, flounder, mackerel, megrim, whiting, dab, saithe, Norway lobster and lobster.
-
- g** The catch retained on board shall consist of no more than 50 % of any mixture of cod, haddock, hake, plaice, witch, lemon sole, sole, turbot, brill, flounder, herring, mackerel, megrim, whiting, dab, saithe, Norway lobster and lobster.
-
- h** The catch retained on board shall consist of no more than 60 % of any mixture of cod, haddock, hake, plaice, witch, lemon sole, sole, turbot, brill, flounder, megrim, whiting, dab, saithe and lobster.
-

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Appendix 4 to Annex III

Shrimp trawl toggle chains: NAFO area

Toggle chains are chains, ropes, or a combination of both, which attach the footrope to the fishing line or bolchline at varying intervals. The terms 'fishing line' and 'bolchline' are interchangeable. Some vessels use one line only; others use both a fishing line and a bolchline as shown in the sketch. The toggle chain length shall be measured from the center of the chain or wire running through the footrope (center of footrope) to the underside of the fishing line.

The attached sketch shows how to measure the toggle chain length.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

[^{F5}Appendix 5 to Annex III

List of vessels that have been confirmed by NEAFC as having engaged in illegal, unreported and unregulated fisheries

Vessel's name	Flag State
FONTENOVA	Panama
IANNIS	Panama
LANNIS I	Panama
LISA	Commonwealth of Dominica
KERGUELEN	Togo
OKHOTINO	Commonwealth of Dominica
OLCHAN	Commonwealth of Dominica
OSTROE	Commonwealth of Dominica
OSTROVETS	Commonwealth of Dominica
OYRA	Commonwealth of Dominica
OZHERELYE	Commonwealth of Dominica]

ANNEX IVa

FISHING EFFORT FOR VESSELS IN THE CONTEXT
OF THE RECOVERY OF CERTAIN STOCKS

General provisions

1. The conditions laid down in this Annex shall apply to Community fishing vessels of length overall equal to or greater than 10 metres.
2. For the purposes of this Annex, the following geographical area shall apply:
Kattegat (ICES Division IIIa south),
Skagerrak and North Sea, (ICES Divisions IVa,b,c, IIIa north and IIa EC),
West of Scotland (ICES Division VIa),
Eastern Channel (ICES Divisions VIId),
Irish Sea (ICES Division VIIa).

For vessels notified to the Commission as being equipped with vessel monitoring systems in accordance with Articles 5 and 6 of Regulation (EC) No 2244/2003, the following definition for the area West of Scotland shall apply:

ICES Division VIa excluding that part which lies to the west of a line drawn by sequentially joining with straight lines the following geographical coordinates:

60°00'N, 04°00'W
59°45'N, 05°00'W
59°30'N, 06°00'W
59°00'N, 07°00'W
58°30'N, 08°00'W

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

58°00'N, 08°00'W
 58°00'N, 08°30'W
 56°00'N, 08°30'W
 56°00'N, 09°00'W
 55°00'N, 09°00'W
 55°00'N, 10°00'W
 54°30'N, 10°00'W.

3. For the purposes of this Annex, a day present within the area and absent from port shall be:
- (a) the 24-hour period between 00:00 hours of a calendar day and 24:00 hours of the same calendar day or any part of such a period during which a vessel is present within the area defined in point 2 and absent from port, or
 - (b) any continuous period of 24 hours as recorded in the EC logbook during which a vessel is present within the area defined in point 2 and absent from port or any part of any such time period.

A Member State which wishes to employ the definition of a day present within the area and absent from port laid down under point (b) shall notify the Commission before 1 February 2005 of the means of monitoring the activities of a vessel to ensure compliance with the conditions laid down in point (b).

4. For the purpose of this Annex, the following groupings of fishing gears shall apply:
- (a) demersal trawls, seines or similar towed gears of mesh size equal to or greater than 100 mm except beam trawls for all areas except Kattegat and Skagerrak where this mesh size shall be equal to or greater than 90mm;
 - (b) beam trawls of mesh size equal to or greater than 80 mm;
 - (c) static demersal nets including gill nets, trammel nets and tangle nets;
 - (d) demersal longlines;
 - (e) demersal trawls, seines or similar towed gears of mesh size between 70 mm and 99 mm except beam trawls with mesh size between 80 mm and 99 mm for all areas except Kattegat and Skagerrak where this mesh size shall be between 70 mm and 89 mm;
 - (f) demersal trawls, seines or similar towed gears of mesh size between 16 mm and 31 mm except beam trawls.

Fishing effort

5. Each Member State shall ensure that, when carrying on board any of the fishing gears referred to in point 4, fishing vessels flying its flag and registered in the Community shall be present within the area and absent from port for no more than the number of days set out in point 6.
- 6.
- (a) The maximum number of days in any calendar month for which a vessel may be present within the area and absent from port having carried on board any one of the fishing gears referred to in point 4 is shown in Table I.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

A day spent absent from port and present within the area defined in point 2 of this Annex shall also count against the total number of days allowable for the area defined in point 2 of Annex IVc for a vessel operating with the same gear categories.

Where a vessel crosses between two areas on a fishing trip the day shall be counted against the area in which the largest proportion of time was spent during that day.

Table I — Maximum days present within the area and absent from port by fishing gear

Area defined in point 2:	Grouping of fishing gears referred to in point:					
	4a	4b	4c	4d	4e	4f
Kattegat, North Sea and Skagerrak, Eastern Channel, West of Scotland and Irish Sea	9	13	13	16	21	19

However the maximum number of days in any calendar month for which a vessel may be present within any of the following sub-areas and absent from port having carried on board the fishing gear referred to in point 4(a) shall be:

- (i) West of Scotland: 8;
 - (ii) Irish Sea: 10.
- (b) A Member State may aggregate the days present within the area and absent from port in Table I within management periods of up to eleven calendar months.
- (c) An additional number of days on which a vessel may be present within the area and absent from port when carrying on board any of the gears referred to in point 4 may be allocated to Member States by the Commission on the basis of permanent cessations of fishing activities that have taken place since 1 January 2002 in accordance with Article 7 of Council Regulation (EC) No 2792/1999 of 17 December 1999 laying down the detailed rules and arrangements regarding Community structural assistance in the fisheries sector⁽⁴⁾. The additional number of days allocated to vessels in a given gear category will be directly proportional to the fishing effort expended in 2001 measured in kilowatt days of the withdrawn vessels using the gear in question compared to the comparable level of effort expended by all vessels using that gear during 2001. Any part of a day resulting from this calculation shall be rounded to the nearest whole day.

Member States wishing to benefit from such allocations shall submit a request to the Commission with reports containing the details of the permanent cessations of fishing activities in question.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

On the basis of such a request the Commission may amend the number of days defined in point (a) for that Member State in accordance with the procedure laid down in Article 30 of Regulation (EC) No 2371/2002.

The additional number of days allocated by the Commission to a Member State in 2004 in accordance with point 6(c) of Annex V of Regulation (EC) No 2287/2003 remain allocated in 2005.

- (d) Derogations from the number of days present within the area and absent from port shown in Table I may be allocated to vessels by Member States under the conditions shown in Table II.

Member States wishing to apply that higher allocation of days shall notify the Commission with details of the vessels that will benefit and with details of their track records at least two weeks before the higher allocation of days are to be granted.

^{F3}Table II — Derogations from days present within the area and absent from port in Table I and associated conditions

Area	Gear defined in point 4	2002 vessel track record ^a	Days
Area defined in point 2	4(a), 4(e)	Less than 5 % of each of cod, sole and plaice	No days restriction ^b
Area defined in point 2	4(a), 4(b)	Less than 5 % cod	100 to < 120 mm up to 13 ≥ 120 mm up to 14
Kattegatt and North Sea	4(c) gear of mesh size equal to or greater than 220 mm	Less than 5 % cod and more than 5 % of turbot and lumpfish	Up to 15 days
Kattegatt and Skagerrak	4(a) gear with 120 mm square mesh window ^c	n/a	12 days
Eastern Channel	4(c) trammel nets of mesh size equal to or less than 110 mm	Vessels absent from port for no more than 24 hours	19 days

a As verified by the EC logbook — average annual landing in live weight.

b The vessel may be present within the area for the number of days in the month concerned.

c Vessels subject to this derogation shall comply with the conditions laid down in Appendix 1 to this Annex.]

If that higher allocation of days is given to a vessel, as a result of its low percentage track record of catch of certain species, that vessel shall not at any time retain more than the percentage of those species on board as shown in Table II nor shall they tranship any fish at sea [^{X1}to another vessel.] When either of these conditions are not met by a vessel, that vessel shall with immediate effect no longer be entitled to the additional days.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- (e) One additional day on which a vessel may be present within the area and absent from port when carrying on board fishing gears referred to in point 4(a) of mesh size greater than 120 mm may be allocated to a Member State by the Commission, on the basis of a request from that Member State, on the condition that the Member State concerned has developed a system of automatic suspensions of fishing licences in respect of infringements. During a management period when a vessel is making use of this provision, that vessel may not at any time carry on board any fishing gear of mesh size less than or equal to 120 mm.
- (f) In recognition of the area closure in the Irish Sea for the protection of spawning fish and the assumed reduction in fishing mortality on cod, an additional one day will be granted for vessels in groupings of fishing gears 4(a) and 4(b) which spend more than half their allocated days in a given management period fishing in the Irish Sea.

Editorial Information

- X1** Substituted by [Corrigendum to Council Regulation \(EC\) No 27/2005 of 22 December 2004 fixing for 2005 the fishing opportunities and associated conditions for certain fish stocks and groups of fish stocks, applicable in Community waters and, for Community vessels, in waters where catch limitations are required \(Official Journal of the European Union L 12 of 14 January 2005\)](#).

7. Before the first day of each management period the master of a vessel or his representative shall notify to the authorities of the flag Member State which gear or gears he intends to use during the forthcoming management period. Until such notification is provided the vessel shall not be entitled to fish within the areas defined in point 2 with any of the gears referred to in point 4.

Where the master of a vessel or his representative notifies the use of two of the groupings of fishing gears defined under point 4, the total number of days available during the forthcoming management period shall be no more than half the sum of the days to which the vessel is eligible for each gear, rounded down to the nearest whole day. It shall not be permitted to deploy either of the gears concerned for more days than the number of days laid down for that gear in Table I or in the third subparagraph of point 6(a) for the sub-area concerned.

The option to use two gears shall only be available if the following additional monitoring arrangements are met:

- during a given trip the fishing vessel may carry on board only one of the fishing gears referred to in point 4;
- before any trip the master of a vessel or his representative shall give prior notice to the competent authorities of the type of fishing gear that is to be carried on board unless the type of fishing gear has not changed from the one notified for the previous trip.

Inspection and surveillance at sea and in port by the competent authorities shall be undertaken for verification of compliance with the above two requirements. Any vessel found to be not complying with these requirements shall with immediate effect no longer be permitted to use two groupings of fishing gears.

A vessel wishing to combine the use of one or more of the fishing gears referred to in point 4 (regulated gears) with any other fishing gears not referred to in point 4 (unregulated gears) shall not be restricted in their use of the unregulated gear. Such vessels must pre-notify when the regulated gear is to be used. When no such notification has been given no gear referred to in point 4 may be carried on board. Such vessels must be authorised and equipped to undertake the alternative fishing activity.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

8. A vessel which is present within any of the areas defined in point 2 and carrying on board any one of the fishing gears referred to in point 4 may not simultaneously carry on board any of the other gears referred to in point 4.
9.
 - (a) In any given management period a vessel that has used the number of days present within the area and absent from port for which it is eligible shall remain in port or out of any area referred to in point 2 for the remainder of the management period unless using only unregulated gear as described in point 7.
 - (b) In any given management period a vessel may undertake non-fishing related activities, without that time being counted against its days allocated under point 6, provided that the vessel first notifies its flag Member State of its intention to do so, the nature of its activity and that it surrenders its fishing licence for that time. Such vessels shall not carry any fishing gear or fish on board during that time.
10.
 - (a) A Member State may permit any of its fishing vessels to transfer days present within the area and absent from port for which it is eligible to another of its vessels for the same management period and within the same area provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel multiplied by the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the Community fishing fleet register.
 - (b) The total number of days present within the area and absent from port transferred under point (a) multiplied by the engine power in kilowatts of the donor vessel shall not be higher than the donor vessel's average annual days track record in that area as verified by the EC logbook in the years 2001, 2002 and 2003, multiplied by the engine power in kilowatts of that vessel. When a donor vessel uses the alternative area definition of the West of Scotland as defined in point 2 its track record calculation will be based on this alternative area definition.
 - (c) The transfer of days as described in sub-point (a) shall only be permitted between vessels operating within the same gear grouping and area categories referred to in point 6(a) and during the same management period. A Member State may allow a transfer of days when a licensed donor vessel has temporarily ceased its activity without public aid.
 - (d) No transfer of days from vessels benefiting from the allocation referred to in points 6(d) and 7 is permitted.
 - (e) On request from the Commission, Member States shall provide reports on the transfers that have taken place.
11. A vessel with no track record of fishing in one of the areas defined in point 2 shall be allowed to transit across these areas provided that it has first notified its authorities of its intention to do so. While that vessel is within any of the areas defined in point 2 any fishing gears carried on board must be lashed and stowed in accordance with conditions laid down in Article 20(1) of Regulation (EEC) No 2847/93.
12. A Member State shall not permit fishing with a gear defined in point 4 in any area defined in point 2 by any of its vessels which have no record of such fishing activity

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

in the years 2001, 2002, 2003 or 2004 in that area unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the area in question.

However, a vessel with a track record of using a gear defined in point 4 may be authorised to use a different gear defined in point 4, provided that the number of days allocated to this latter gear is greater than or equal to the number of days allocated to the first gear.

13. A Member State shall not count against the days allocated to any of its vessels under this Annex either any days when the vessel has been absent from port but unable to fish because it was assisting another vessel in need of emergency aid or any days when a vessel has been absent from port but unable to fish because it is transporting an injured crew member for emergency medical aid. The Member State shall provide justification to the Commission within one month of any decisions taken on this basis with associated evidence of the emergency from the competent authorities.

Reporting obligations

14. Member States, on the basis of information used for the management of fishing days absent from port and present within the areas as set out in this Annex, shall communicate, for each calendar year within one month of the expiry of that calendar year, to the Commission the information about effort deployed by vessels using different types of gear in the areas concerned by this Annex as laid out in Table IV.
15. Member States shall communicate the data referred in point 14 to the Commission in Spread Sheet format by sending it to the appropriate mailbox address which shall be communicated to the Member States by the Commission.

Table IV — Reporting format

Country	CFR	External marking	Area	fished	Length of management period	Gear type/ types notified	Days eligible using this gear/ gears	Days spent with gear type 1	Days spent with gear type 2	Transfers of days
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	

Table V — Data format

Name of zone	Max. number of characters/digits	Definition and comments
(1) Country	3	Member State (Alpha-3 ISO code) in which vessel is registered for fishing under Regulation (EC) No 2371/2002. Always the reporting country.
(2) CFR	12	(Community Fleet Register Number). Unique identification number of a fishing vessel. Member State (Alpha-3 ISO code) followed by an identifying series (9

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Appendix 1 to Annex IVa

1. Any vessel using this gear type shall hold a special fishing permit in accordance with Article 7 of Regulation (EC) No 1627/94.
2. A copy of the special permits referred to in point 1 shall be kept on board the fishing vessel.
3. When holding the special fishing permit the vessel shall only keep on board and use a towed net with an exit window as specified point 4. The gear shall be approved by the national inspectors before commencing fishing.
4.
 - (a) The window shall be inserted in the untapered section with a minimum of 80 open meshes in the circumference. [^{F3}The window shall be inserted into the top panel.] There shall be no more than two open diamond meshes between the posterior row of meshes in the side of the window and the adjacent selvedge. The window shall terminate no more than 6 metres from the cod-line. The joining rate shall be two diamond meshes to one square mesh.
 - (b) [^{X1}The window shall be at least three metres in length.] The meshes shall have a minimum opening of 120 mm. The meshes shall be square meshes i.e. all four sides of the window netting will be cut all bars. The netting shall be mounted such that the bars run parallel and perpendicular to the length of the cod-end.
 - (c) The netting of square-meshed panel shall be knotless single twine. The window shall be inserted in such a way that the meshes remain fully open at all times when fishing. The window shall not be obstructed in any way by either internal or external attachments.

ANNEX IVb

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF THE RECOVERY OF CERTAIN SOUTHERN HAKE AND NEPHROPS STOCK

General provisions

1. The conditions laid down in this Annex shall apply to Community fishing vessels of length overall equal to or greater than 10 metres.
2. For the purposes of this Annex, the following geographical area shall apply:
Iberian Peninsula, Atlantic coast (ICES Divisions VIIIc and IXa) with the exception of Gulf of Cadiz.
3. For the purposes of this Annex, a day present within the area and absent from port shall be:
 - (a) the 24-hour period between 00:00 hours of a calendar day and 24:00 hours of the same calendar day or any part of such a period during which a vessel is present within the area defined in point 2 and absent from port, or
 - (b) any continuous period of 24 hours as recorded in the EC logbook during which a vessel is present within the area defined in point 2 and absent from port or any part of any such time period.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

A Member State which wishes to employ the definition of a day present within the area and absent from port laid down under point (b) shall notify the Commission before 1 February 2005 of the means of monitoring the activities of a vessel to ensure compliance with the conditions laid down in point (b).

4. For the purpose of this Annex, the following groupings of fishing gears shall apply:

- (a) Bottom trawl of mesh size > 55 mm;
- (b) Bottom long-lines;
- (c) Gill-nets of mesh size > 60 mm;
- (d) Gill-nets of mesh size equal to or greater than 80 mm;
- (e) Trawl of mesh size between 31 mm and 54 mm.

Fishing effort

5. Each Member State shall ensure that, when carrying on board any of the fishing gears referred to in point 4, fishing vessels flying its flag and registered in the Community shall be present within the area and absent from port for no more than the number of days specified in point 6.

6.

- (a) The maximum number of days in any calendar month for which a vessel may be present within the area and absent from port having carried on board any one of the fishing gears referred to in point 4 is shown in Table I.

Table I — Maximum days present within the area and absent from port by fishing gear

Area defined in point:	Grouping of fishing gears referred to in point:					
	4a	4b	4c	4d	4e	4f
2 Iberian Peninsula, Atlantic coast (ICES Divisions VIIIc and IXa)	22	22	22	22	22	22

- (b) A Member State may aggregate the days present within the area and absent from port in Table I within management periods of up to eleven calendar months.

- (c) An additional number of days on which a vessel may be present within the area and absent from port when carrying on board any of the gears referred to in point 4 may be allocated to Member States by the Commission on the basis of permanent cessations of fishing activities that have taken place since 1 January 2004 in accordance with Article 7 of Council Regulation (EC) No 2792/1999. Any vessels that can be shown to have been definitively withdrawn from the area specified in point 2 may also be considered. The additional number of days allocated to vessels in a given gear category will be directly proportional to the fishing effort expended in 2003 measured in kilowatt days

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

of the withdrawn vessels using the gear in question compared to the comparable level of effort expended by all vessels using that gear during 2003. Any part of a day resulting from this calculation shall be rounded to the nearest whole day.

Member States wishing to benefit from such allocations shall submit a request to the Commission with reports containing the details of permanent cessations of fishing activities in question.

On the basis of such a request the Commission may amend the number of days defined in point (a) for that Member State in accordance with the procedure laid down in Article 30 of Regulation (EC) No 2371/2002.

- (d) Derogations from the number of days present within the area and absent from port shown in Table I may be allocated to vessels by Member States under the conditions shown in Table II.

Member States wishing to apply this higher allocation of days shall notify the Commission with details of the vessels that will benefit and with details of their track records at least two weeks before the higher allocation of days are to be granted.

Table II — Derogations from days present within the area and absent from port in Table I and associated conditions

Area Defined in point 2	Gear defined in point 4	2001, 2002 and 2003 vessel track record ^a	Days
2	4(a) to 4(f)	Less than 5 tonnes of hake in all years	no days restriction ^b

^a As verified by the EC logbook — average annual landing in live weight.

^b The vessel may be present within the area for the number of days in the month concerned.

If this higher allocation of days is given to a vessel, as a result of its low hake track record, that vessel's landing shall not in 2005 exceed 5 tonnes live weight of hake nor shall they tranship any fish at sea to another vessels. When either of these conditions are not met by a vessel, that vessel shall with immediate effect no longer be entitled to the additional days.

7. Before the first day of each management period the master of a vessel or his representative shall notify to the authorities of the flag Member State which gear or gears he intends to use during the forthcoming management period. Until such notification is provided the vessel will not be entitled to fish within the area defined in point 2 with any of the gears referred to in point 4.

A vessel wishing to combine the use of one or more of the fishing gears referred to in point 4 (regulated gears) with any other fishing gears not referred to in point 4 (unregulated gears) will not be restricted in their use of the unregulated gear. Such vessels must pre-notify when the regulated gear is to be used. When no such notification has been given no gear referred to in point 4 may be carried on board. Such vessels must be authorised and equipped to undertake the alternative fishing activity.

8.

- (a) In any given management period a vessel that has used the number of days present within the area and absent from port for which it is eligible shall remain in port or out

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

of the area referred to in point 2 for the remainder of the management period unless using unregulated gear as described in point 7.

- (b) In any given management period a vessel may undertake non-fishing related activities, without that time being counted against its days allocated under point 6, provided that the vessel first notifies its flag Member State of its intention to do so, the nature of its activity and that it surrenders its fishing licence for this time. Such vessels shall not carry any fishing gear or fish on board during that time.

9.

- (a) A Member State may permit any of its fishing vessels to transfer days present within the area and absent from port for which it is eligible to another of its vessels for the same management period and within the area provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel multiplied by the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the Community fishing fleet register.
- (b) The total number of days present within the area and absent from port transferred under sub-point (a) multiplied by the engine power in kilowatts of the donor vessel shall not be higher than the donor vessel's average annual days track record in the area as verified by the EC logbook in the years 2001, 2002 and 2003, multiplied by the engine power in kilowatts of that vessel.
- (c) The transfer of days as described in sub-point (a) shall only be permitted between vessels operating within the same gear grouping referred to in point 6(a) and during the same management period.
- (d) No transfer of days from vessels benefiting from the allocation referred to in points 6(d) is permitted.
- (e) On request from the Commission, Member States shall provide reports on the transfers that have taken place.

10. A vessel with no track record of fishing in the area defined in point 2 is allowed to transit across the area provided that it has no fishing permit to operate in the area or that it has first notified its authorities of its intention to do so. While that vessel is within the area defined in point 2 any fishing gears carried on board must be lashed and stowed in accordance with conditions laid down in Article 20(1) of Regulation (EEC) No 2847/93.

11. A Member State shall not permit fishing with a gear defined in point 4 in the area defined in point 2 by any of its vessels which have no record of such fishing activity in the years 2002, 2003 or 2004 in that area unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the regulated area.

However, a vessel with a track record of using a gear defined in point 4 may be authorised to use a different gear defined in point 4, provided that the number of days allocated to this latter gear is greater than or equal to the number of days allocated to the first gear.

12. A Member State shall not count against the days allocated to any of its vessels under this Annex either any days when the vessel has been absent from port but unable to fish because it was assisting another vessel in need of emergency aid or any days when a vessel has been absent from port but unable to fish because it is transporting an injured crew member for emergency medical aid. The Member State shall provide

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

justification to the Commission within one month of any decisions taken on this basis with associated evidence of the emergency from the competent authorities.

However, a vessel with a track record of using a gear defined in point 4 may be authorised to use a different gear defined in point 4, provided that the number of days allocated to this latter gear is greater than or equal to the number of days allocated to the first gear.

Monitoring, inspection and surveillance

13. Notwithstanding Article 19a of Regulation (EEC) No 2847/93, Articles 19b, 19c, 19d, 19e and 19k of that Regulation shall apply to vessels carrying on board the fishing gears defined in point 4 and operating in the area defined in point 2. Vessels equipped with vessel monitoring systems in accordance with Articles 5 and 6 of Regulation (EC) No 2244/2003 or those operating under the definition of a day as defined in point 3(a) shall be excluded from these hailing requirements.
14. Member States may implement alternative control measures to ensure compliance with the obligations referred in point 13 of this Annex which are as effective and transparent as these reporting obligations. Such alternative measures shall be notified to the Commission before being implemented.
15. The master of a Community fishing vessel or his representative wishing to tranship any quantity retained on board or to land in a port or landing location of a third country shall inform the competent authorities of the flag Member State at least 24 hours prior to transhipping or to landing in a third country the information referred to in Article 19b of Regulation (EEC) No 2847/93.
16. By way of derogation from Article 5(2) of Commission Regulation (EEC) No 2807/83, the permitted margin of tolerance, when estimating quantities, in kilograms retained on board of vessels referred to in point 14 shall be 8 % of the logbook figure. In the event that no conversion factors are laid down in Community legislation, the conversion factors adopted by the Member states whose flag the vessel is flying shall apply.
17. The competent authorities of a Member State shall ensure that any quantity of Southern hake exceeding 300 kg and/or 150 kg of Norway lobster caught in the area referred in point 2 shall be weighed using auction room scales before sale.
18. When quantities of hake greater than 50 kg are stowed on board a vessel, it shall be prohibited to retain on board a fishing vessel in any container any quantity of Southern hake or Norway lobster mixed with any other species of marine organism. The masters of Community fishing vessels shall give inspectors of Member States such assistance as will enable the quantities declared in the logbook and the catches of Southern hake and Norway lobster retained on board to be cross-checked.
19. The competent authorities of a Member State may require that any quantity of Southern hake exceeding 300 kg or Norway lobster exceeding 150 kg caught in the area specified in point 2 and first landed in that Member State is weighed in the presence of controllers before being transported from the port of first landing.
20. By way of derogation from Article 13 of Regulation (EEC) No 2847/93, quantities greater than 50 kg of any species in fisheries referred to in Article 12 of this Regulation which are transported to a place other than that of landing or import shall be accompanied by a copy of one of the declarations provided for in Article 8(1) of Regulation (EEC) No 2847/93 pertaining to the quantities of these species transported. The exemption provided for in Article 13(4)(b) of Regulation (EEC) No 2847/93 shall not apply.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

[^{XI}21. By way of derogation from Article 34c(1) of Regulation (EEC) No 2847/93, the specific monitoring programme for Southern hake or Norway lobster in fisheries referred to in this Annex may last more than two years from its date of entry into force.]

Reporting obligations

22. Member States, on the basis of information used for the management of fishing days absent from port and present within the area as set out in this Annex, shall communicate, for each calendar year within one month of the expiry of that calendar year, to the Commission the information about effort deployed by vessels using different types of gear in the area concerned by this Annex as laid out in Table IV.
23. Member States shall communicate the data referred in point 22 to the Commission in spreadsheet format by sending it to the appropriate mailbox address which shall be communicated to the Member States by the Commission.

TABLE IV — REPORTING FORMAT

Country	CFR	External marking	Area fished	Length of management period	Gear type/ types notified	Days eligible using this gear	Days spent with this gear type	Transfers of days
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)

TABLE V — DATA FORMAT

Name of zone	Max. number of characters/digits	Definition and comments
(1) Country	3	Member State (Alpha-3 ISO code) in which vessel is registered for fishing under Council Regulation (EC) No 2371/2002. Always the reporting country.
(2) CFR	12	(Community Fleet Register Number). Unique identification number of a fishing vessel. Member State (Alpha-3 ISO code) followed by an identifying series (9 characters). Where a series has fewer than 9 characters additional zeros must be inserted on the left hand side.
(3) External marking	14	Under Commission Regulation (EEC) No 1381/87

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

(4) Area	1	Indicate if the vessel has been fishing in Area 2(a) or 2(b) of this Annex
(5) Length of management period	2	Indication from 1-12 of the length of each management period allocated to the vessel concerned. Separate management periods in which the same gear grouping or combination of gear groupings have been notified, in accordance with point 7 of this Annex, may be aggregated.
(6) Gear type/types notified	2	Indication from 4(a) through to 4(g) of the gear types notified in accordance with point 4 of this Annex.
(7) Days eligible using this gear	3	Number of days for which the vessel is eligible under this Annex for the choice of gears and length of management period notified.
(8) Days spent with this gear type	3	Number of days for which the vessel actually spent absent from port and present within the area according to this Annex.
(9) Transfers of days	3	For days transferred indicate ‘– number of days transferred’ and for days received indicate ‘+ number of days transferred’

ANNEX IVc

FISHING EFFORT FOR VESSELS IN THE CONTEXT OF
THE RECOVERY OF WESTERN CHANNEL SOLE STOCKS

General provisions

1. The conditions laid down in this Annex shall apply to Community fishing vessels of length overall equal to or greater than 10 metres.
2. For the purposes of this Annex, the following geographical area shall apply:
Western Channel (ICES Division VIIe).
3. For the purposes of this Annex, a day present within the area and absent from port shall be:

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- (a) the 24-hour period between 00:00 hours of a calendar day and 24:00 hours of the same calendar day or any part of such a period during which a vessel is present within the area defined in point 2 and absent from port, or
- (b) any continuous period of 24 hours as recorded in the EC logbook during which a vessel is present within the area defined in point 2 and absent from port or any part of any such time period.

A Member State which wishes to employ the definition of a day present within the area and absent from port laid down under point (b) shall notify the Commission before 1 February 2005 of the means of monitoring the activities of a vessel to ensure compliance with the conditions laid down in point (b).

4. For the purpose of this Annex, the following groupings of fishing gears shall apply:

- (a) beam trawls of mesh size equal to or greater than 80 mm;
- (b) static demersal nets including gill nets, trammel nets and tangle nets.

Fishing effort

5. Each Member State shall ensure that, when carrying on board any of the fishing gears referred to in point 4, fishing vessels flying its flag and registered in the Community shall be present within the area and absent from port for no more than the number of days set out in point 6.

6.

- (a) ^[F3]The maximum number of days in any calendar month for which a vessel may be present within the area and absent from port having carried on board any one of the fishing gears referred to in point 4 is shown in Table I.

Where a vessel crosses between two areas on a fishing trip the day shall be counted against the area in which the largest proportion of time was spent during that day.

The number of days in which a vessel is present within the global area constituted by the areas defined in point 2 of this Annex and in point 2 of Annex IVa shall not exceed the number shown in Table I of this Annex. However the number of days in which the vessel is present in the areas defined in point 2 of Annex IVa shall comply with the maximum number fixed in accordance with Annex IVa.

Table I — Maximum days present within the area and absent from port by fishing gear

Area defined in point 2:	Grouping of fishing gears referred to in point:	
	4a	4b
2. Western Channel (ICES Division VIIe)	20	20]

- (b) A Member State may aggregate the days present within the area and absent from port in Table I within management periods of up to eleven calendar months.
- (c) An additional number of days on which a vessel may be present within the area and absent from port when carrying on board any of the gears referred to in point 4 may be allocated to Member States by the Commission on the basis of permanent cessations of fishing activities that have taken place since 1 January 2004 in accordance with

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Article 7 of Regulation (EC) No 2792/1999. The additional number of days allocated to vessels in a given gear category will be directly proportional to the fishing effort expended in 2003 measured in kilowatt days of the withdrawn vessels using the gear in question compared to the comparable level of effort expended by all vessels using that gear during 2003. Any part of a day resulting from this calculation shall be rounded to the nearest whole day.

[^{X1}Member States wishing to benefit from such allocations shall submit a request to the Commission with reports containing the details of the permanent cessations of fishing activities in question.]

On the basis of such a request the Commission may amend the number of days defined in point (a) for that Member State in accordance with the procedure laid down in Article 30 of Regulation (EC) No 2371/2002.

7. Before the first day of each management period the master of a vessel or his representative shall notify to the authorities of the flag Member State which gear or gears he intends to use during the forthcoming management period. Until such notification is provided the vessel shall not be entitled to fish within the area defined in point 2 with any of the gears referred to in point 4.

[^{X1}8.

- (a) In any given management period a vessel that has used the number of days present within the area and absent from port for which it is eligible shall remain in port or out of the area referred to in point 2 for the remainder of the management period unless using a different grouping of fishing gear (unregulated gear) than the ones described in point 4.]
- (b) In any given management period a vessel may undertake non-fishing related activities, without that time being counted against its days allocated under point 6, provided that the vessel first notifies its flag Member State of its intention to do so, the nature of its activity and that it surrenders its fishing licence for that time. Such vessels shall not carry any fishing gear or fish on board during that time.

9.

- (a) A Member State may permit any of its fishing vessels to transfer days present within the area and absent from port for which it is eligible to another of its vessels for the same management period and within the area provided that the product of the days received by a vessel multiplied by its engine power in kilowatts (kilowatt days) is equal to or less than the product of the days transferred by the donor vessel multiplied by the engine power in kilowatts of that vessel. The engine power in kilowatts of the vessels shall be that recorded for each vessel in the Community fishing fleet register.
- (b) The total number of days present within the area and absent from port transferred under point (a) multiplied by the engine power in kilowatts of the donor vessel shall not be higher than the donor vessel's average annual days track record in the area as verified by the EC logbook in the years 2001, 2002 and 2003, multiplied by the engine power in kilowatts of that vessel.
- (c) The transfer of days as described in sub-point (a) shall only be permitted between vessels operating within the same gear grouping referred to in point 6(a) and during the same management period.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- (d) On request from the Commission, Member States shall provide reports on the transfers that have taken place.
10. A vessel with no track record of fishing in the area defined in point 2 shall be allowed to transit across the area provided that it has first notified its authorities of its intention to do so. While that vessel is within the area defined in point 2 any fishing gears carried on board must be lashed and stowed in accordance with conditions laid down in Article 20(1) of Regulation (EEC) No 2847/93.
11. A Member State shall not permit fishing with a gear defined in point 4 in the area defined in point 2 by any of its vessels which have no record of such fishing activity in the years 2002, 2003 and 2004 in that area unless it ensures that equivalent capacity, measured in kilowatts, is prevented from fishing in the regulated area.

However, a vessel with a track record of using a gear defined in point 4 may be authorised to use a different gear defined in point 4, provided that the number of days allocated to this latter gear is greater than or equal to the number of days allocated to the first gear.

12. A Member State shall not count against the days allocated to any of its vessels under this Annex either any days when the vessel has been absent from port but unable to fish because it was assisting another vessel in need of emergency aid or any days when a vessel has been absent from port but unable to fish because it is transporting an injured crew member for emergency medical aid. The Member State shall provide justification to the Commission within one month of any decisions taken on this basis with associated evidence of the emergency from the competent authorities.

Monitoring, inspection and surveillance

13. Notwithstanding Article 19a of Regulation (EEC) No 2847/93, Articles 19b, 19c, 19d, 19e and 19k of that Regulation shall apply to vessels carrying on board the fishing gears defined in point 4 and operating in the area defined in point 2. Vessels equipped with vessel monitoring systems in accordance with Articles 5 and 6 of Regulation (EC) No 2244/2003 or those operating under the definition of a day as defined in point 3(a) shall be excluded from these hailing requirements.
- [^{X1}14. Member States may implement alternative control measures to ensure compliance with the obligations referred to in point 13 of this Annex which are as effective and transparent as these reporting obligations. Such alternative measures shall be notified to the Commission before being implemented.]
15. The master of a Community fishing vessel or his representative wishing to tranship any quantity retained on board or to land in a port or landing location of a third country shall inform the competent authorities of the flag Member State at least 24 hours prior to transhipping or to landing in a third country the information referred to in Article 19b of Regulation (EEC) No 2847/93.
16. By way of derogation from Article 5(2) of Commission Regulation (EEC) No 2807/83, the permitted margin of tolerance, when estimating quantities, in kilograms retained on board of vessels referred to in point 13 shall be 8 % of the logbook figure. In the event that no conversion factors are laid down in Community legislation, the conversion factors adopted by the Member states whose flag the vessel is flying shall apply.
17. When quantities of sole greater than 50 kg are stowed on board a vessel, it shall be prohibited to retain on board a fishing vessel in any container any quantity of [^{X1}sole mixed with any other species of marine organism. The masters of Community fishing vessels shall give inspectors of Member States such assistance as will enable the

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

quantities declared in the logbook and the catches of sole retained on board to be cross checked.

18. The competent authorities of a Member State shall ensure that any quantity of sole exceeding 300 kg caught in the areas defined in point 2 shall be weighed using auction room scales before sale.
19. The competent authorities of a Member State may require that any quantity of sole] exceeding 300 kg caught in the area specified in point 2 and first landed in that Member State is weighed in the presence of controllers before being transported from the port of first landing.
20. By way of derogation from Article 13 of Regulation (EEC) No 2847/93, quantities greater than 50 kg of any species in fisheries referred to in Article 12 of this Regulation which are transported to a place other than that of landing or import shall be accompanied by a copy of one of the declarations provided for in Article 8(1) of Regulation (EEC) No 2847/93 pertaining to the quantities of these species transported. The exemption provided for in Article 13(4)(b) of Regulation (EEC) No 2847/93 shall not apply.
- [^{XI}21. By way of derogation from Article 34c(1) of Regulation (EEC) No 2847/93, the specific monitoring programme for sole in fisheries referred to in this Annex may last more than two years from its date of entry into force.]

Reporting obligations

- [^{XI}22. Member States, on the basis of information used for the management of fishing days absent from port and present within the area as set out in this Annex, shall communicate to the Commission, for each calendar year within one month of the expiry of that calendar year, the information about effort deployed by vessels using different types of gear in the area concerned by this Annex as laid out in Table IV.]
23. Member States shall communicate the data referred in point 22 to the Commission in Spread Sheet format by sending it to the appropriate mailbox address which shall be communicated to the Member States by the Commission.

TABLE IV — REPORTING FORMAT

Country	CFR	External marking	Area fished	Length of management period	Gear type/ types notified	Days eligible using this gear	Days spent with this gear type	Transfers of days
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)

TABLE V — DATA FORMAT

Name of zone	Max. number of characters/digits	Definition and comments
(1) Country	3	Member State (Alpha-3 ISO code) in which vessel is registered for fishing under Regulation (EC) No 2371/2002.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

		Always the reporting country.
(2) CFR	12	(Community Fleet Register Number). Unique identification number of a fishing vessel. Member State (Alpha-3 ISO code) followed by an identifying series (9 characters). Where a series has fewer than 9 characters additional zeros must be inserted on the left hand side.
(3) External marking	14	Under Commission Regulation (EEC) No 1381/87
(4) Area	1	Indicate if the vessel has been fishing in Area 2(a) or 2(b) of this Annex
(5) Length of management period	2	Indication from 1-12 of the length of each management period allocated to the vessel concerned. Separate management periods in which the same gear grouping or combination of gear groupings have been notified, in accordance with point 7 of this Annex, may be aggregated.
(6) Gear type/types notified	2	Indication from 4(a) through to 4 (g) of the gear types notified in accordance with point 4 of this Annex.
(7) Days eligible using this gear	3	Number of days for which this vessel is eligible under this Annex for the choice of gears and length of management period notified.
(8) Days spent with this gear type	3	Number of days for which the vessel actually spent absent from port and present within the area according to this Annex.
(9) Transfers of days	3	For days transferred indicate ‘– number of days transferred’ and for days received indicate ‘+ number of days transferred’

ANNEX V

FISHING EFFORT FOR VESSELS FISHING FOR
SANDEEL IN THE NORTH SEA AND THE SKAGERRAK

1. From 1 January to 31 December 2005, the conditions laid down in this Annex shall apply to Community fishing vessels fishing in the North Sea and the Skagerrak with demersal trawl, seine or similar towed gears with a mesh size of less than 16 mm.
2. For the purposes of this Annex a day absent from port shall be:
 - (a) the 24-hour period between 00:00 hours of a calendar day and 24:00 hours of the same calendar day or any part of such a period, or
 - (b) any continuous period of 24 hours as recorded in the EC logbook between the date and time of departure and the date and time of arrival or any part of any such time period.
3. Each Member State concerned shall, not later than 1 March 2005, establish a data base containing for the North Sea and Skagerrak, for each of the years 2002, 2003 and 2004 and for each vessel flying its flag or registered within the Community which have been fishing with demersal trawl, seine or similar towed gears with a mesh size of less than 16mm, the following information:
 - (a) the name and internal registration number of the vessel;
 - (b) the installed engine power of the vessel in kilowatts measured in accordance with Article 5 of Regulation (EEC) No 2930/86;
 - (c) the number of days absent from port when fishing with demersal trawl, seine or similar towed gear with a mesh size of less than 16 mm;
 - (d) the kilowatt-days as the product of the number of days absent from port and the installed engine power in kilowatts.
4. The following quantities shall be calculated by each Member State:
 - (a) the total kilowatt-days for each year as the sum of the kilowatt-days calculated in paragraph 3(d);
 - (b) the average kilowatt-days for the period 2002 to 2004.
5. Each Member State shall ensure that the number of kilowatt-days in 2005 for vessels flying its flag or registered in the Community does not exceed 40 % of the number in 2004 as calculated in point 4(a).
6. The maximum number of kilowatt-days referred to in point 5 shall be revised by the Commission as early as possible and not later than 15 May 2005, based on advice from the STECF on the size of the 2004 year class of North Sea sandeel, in accordance with the following rules:
 - (a) where STECF estimates the size of the 2004 year class of North Sea sandeel to be at or above 500 000 million individuals at age 0, no restrictions in kilowatt-days shall apply for the remaining of 2005;
 - (b) where STECF estimates the size of the 2004 year class of North Sea sandeel to be between 300 000 million and 500 000 million individuals at age 0, the number of kilowatt-days shall not exceed the level in 2003 as calculated in point 4(a);

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- (c) where STECF estimates the size of the 2004 year class of North Sea sandeel to be below 300 000 million individuals at age 0, fishing with demersal trawl, seine or similar towed gears with a mesh size of less than 16 mm shall be prohibited for the remaining of 2005. However, a limited fishery will be allowed in order to monitor the sandeel stocks in the North Sea and the Skagerrak and the effects of the closure. To this end the Member States concerned shall in cooperation with the Commission develop a plan for the monitoring fishery.

ANNEX VI

[^{F3}PART I

**QUANTITATIVE LIMITATIONS OF LICENCES AND FISHING PERMITS
FOR COMMUNITY VESSELS FISHING IN THIRD COUNTRY WATERS**

Area of fishing	Fishery	Number of licences	Repartition of licences amongst Member States	Maximum number of vessels present at any time
Norwegian waters and fishery zone around Jan Mayen	Herring, North of 62° 00' N	75	DK: 26, DE: 5, FR: 1, IRL: 7, NL: 9, SW: 10, UK: 17	55
	Demersal species, North of 62° 00' N	80	FR: 18, PT: 9, DE: 16, ES: 20, UK: 14, IRL: 1	50
	Mackerel, South of 62° 00' N, purse seine fishery	11	DE: 1 ^a , DK: 26 ^a , FR: 2 ^a , NL: 1 ^a	not relevant
	Mackerel, South of 62° 00' N, trawl fishery	19		not relevant
	Mackerel, North of 62° 00' N, purse seine fishery	11 ^b	DK: 11	not relevant

a This allocation is valid for purse and trawl fisheries.

b To be selected from the 11 licences for purse seine fishery for mackerel South of 62° 00' N.

c Following the Agreed Record of 1999, the figures for the Directed fishing for cod and haddock are included in the figures for 'All trawl fisheries with vessels of not more than 180 feet in the zone between 12 and 21 miles from the Faroese baselines'.

d These figures refer to the maximum number of vessels present at any time.

e These figures are included in the figures for 'Trawling outside 21 miles from the Faroese baselines'.

f Applies only to vessels flying the flag of Latvia.]

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

	Industrial species, South of 62° 00' N	480	DK: 450, UK: 30	150
Waters of the Faroe Islands	All trawl fisheries with vessels of not more than 180 feet in the zone between 12 and 21 miles from the Faroese baselines	26	BE: 0, DE: 4, FR: 4, UK: 18	13
	Directed fishing for cod and haddock with a minimum mesh of 135 mm, restricted to the area south of 62° 28' N and east of 6° 30' W	8 ^c		4
	Trawling outside 21 miles from the Faroese baseline. In the periods 1 March to 31 May and 1 October to 31 December, these vessels may operate in the area between 61° 20' N and 62° 00' N and between 12 and 21 miles from the baselines.	70	BE: 0, DE: 10, FR: 40, UK: 20	26
	Trawl fisheries for blue ling with a minimum mesh of 100 mm	70	DE: 8 ^d , FR: 12 ^d , UK: 0 ^d	20 ^e

a This allocation is valid for purse and trawl fisheries.

b To be selected from the 11 licences for purse seine fishery for mackerel South of 62° 00' N.

	unavoidable by-catches of blue whiting)		
	Ling and tusk	20	10
	Blue whiting, VIa (north of 56°30'N), VIb, VII (west of 12°00'W)	20	20
	Blue ling	16	16
	Porbeagle (all zones except NAFO 3PS)	3	3
Russian Federation	Herring, IIIId (Swedish waters)	pm	pm
	Herring, IIIId (Swedish waters, non-fishing mother ships)	pm	pm
	Sprat	4 ^a	pm
Barbados	<i>Penaeus</i> shrimps ^b (French Guyana waters)	5	pm ^c
	Snappers ^d (French Guyana waters)	5	pm
Guyana	<i>Penaeus</i> shrimps ^e (French Guyana waters)	pm	pm ^f
Surinam	<i>Penaeus</i> shrimps ^e (French Guyana waters)	5	pm ^g
Trinidad and Tobago	<i>Penaeus</i> shrimps ^e (French Guyana waters)	8	pm ^h
Japan	Tuna ⁱ (French Guyana waters)	pm	
Korea	Tuna ⁱ (French Guyana waters)	pm	pm ^e
Venezuela	Snappers ^e (French Guyana waters)	41	pm
	Sharks ^e (French Guyana waters)	4	pm

a Applies only to the Latvian zone of EC waters.

b The licences concerning fishing for shrimp in the waters of the French Department of Guyana shall be issued on the basis of a fishing plan submitted by the authorities of the third country concerned, approved by the Commission. The period

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

of validity of each of these licences shall be limited to the fishing period provided for in the fishing plan on the basis of which the licence was issued.

-
- c** The annual number of days at sea is limited to 200.
-
- d** To be fished exclusively with long lines or traps (snappers) or long lines or mesh nets having a minimum mesh of 100 mm, at depths greater than 30 m (sharks). To issue these licences, proof must be produced that a valid contract exists between the ship owner applying for the licence and a processing undertaking situated in the French Department of Guyana, and that it includes an obligation to land at least 75 % of all snapper catches, or 50 % of all shark catches from the vessel concerned in that department so that they may be processed in that undertaking's plant. The contract referred to above must be endorsed by the French authorities, which shall ensure that it is consistent both with the actual capacity of the contracting processing undertaking and with the objectives for the development of the Guyanese economy. A copy of the duly endorsed contract shall be appended to the licence application. Where the endorsement referred to above is refused, the French authorities shall give notification of this refusal and state their reasons for it to the party concerned and to the Commission.
-
- e** Applicable from 1 January to 30 April 2005.
-
- f** Pending the conclusion of fisheries consultations with Norway for 2005.
-
- g** The annual number of days at sea is limited to pm.
-
- h** The annual number of days at sea is limited to 350.
-
- i** To be fished exclusively with longlines.
-
- j** Of which at any given time a maximum of 10 for vessels fishing cod with gillnets.
-

PART III

DECLARATION PURSUANT TO ARTICLE 15 (2)

ANNEX VII

PART I

INFORMATION TO BE RECORDED IN THE LOGBOOK

When fishing is carried out within the 200-nautical-mile zone off the coasts of the Member States of the Community which is covered by Community rules on fisheries, the following details are to be entered in the log-book immediately after the following events:

After each haul:

- 1.1. the quantity (in kilograms live-weight) of each species caught;
- 1.2. the date and the time of the haul;
- 1.3. the geographical position in which the catches were made;
- 1.4. the fishing method used.

After each trans-shipment to or from another vessel:

- 2.1. the indication 'received from' or 'transferred to';
- 2.2. the quantity (in kilograms live-weight) of each species trans-shipped;
- 2.3. the name, external identifications letters and numbers of the vessel to or from which the trans-shipment occurred;

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

2.4. trans-shipment of cod is not allowed.
After each landing in a port of the Community:

3.1. name of the port;

3.2. the quantity (in kilograms live-weight) of each species landed.

After each transmission of information to the Commission of the European Communities:

4.1. date and time of the transmission;

4.2. type of message: IN, OUT, ICES, WKL or 2 WKL;

4.3. in the case of radio transmission: name of the radio station.

PART II

LOG-BOOK MODEL

ANNEX VIII

CONTENT AND MODALITIES OF THE TRANSMISSION OF INFORMATION TO THE COMMISSION

The information to be transmitted to the Commission of the European Communities and the timetable for its transmission are as follows:

1.1. On each occasion the vessel enters the 200-nautical-mile zone off the coasts of the Member States of the Community which is covered by Community rules on fisheries:

(a) the information specified under 1.5;

(b) the quantity (in kilograms) of each species of fish in the hold;

(c) the date and ICES division within which the master intends to commence fishing.

Where the fishing operations necessitate more than one entry into these zones on a given day, one communication shall suffice on first entry.

1.2. On each occasion the vessel leaves the zone referred to under 1.1:

(a) the information specified under 1.5;

(b) the quantity (in kilograms live-weight) of each species of fish in the hold;

(c) the quantity (in kilograms live-weight) of each species caught since the previous transmission;

(d) the ICES division in which the catches were taken;

(e) the quantity (in kilograms live-weight) of each species transferred to and/or from other vessels since the vessel entered the zone and the identification of the vessel to which the transfer was made;

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- (f) the quantity (in kilograms live-weight) of each species landed in a port of the Community since the vessel entered the zone.

Where the fishing operations necessitate more than one entry into the zones referred to under 1.1 on a given day, one single communication on the last exit will be sufficient.

- 1.3. At three-day intervals, commencing on the third day after the vessel first enters the zones referred to under 1.1 when fishing for herring and mackerel, and at weekly intervals, commencing on the seventh day after the vessel first enters the zones referred to under 1.1 when fishing for all species other than herring and mackerel:

- (a) the information specified under 1.5;
- (b) the quantity (in kilograms live-weight) of each species caught since the previous transmission;
- (c) the ICES division in which the catches were made.

- 1.4. On each occasion the vessel moves from one ICES division to another:

- (a) the information specified under 1.5;
- (b) the quantity (in kilograms live-weight) of each species caught since the previous transmission;
- (c) the ICES division in which the catches have been taken.

- 1.5.

- (a) the name, call sign, external identification letters and numbers of the vessel and the name of its master;
- (b) the licence number if the vessel is under licence;
- (c) the serial number of the message for the voyage concerned;
- (d) identification of the type of message;
- (e) the date, the time and the geographical position of the vessel.

- 2.1. The information specified under point 1 shall be transmitted to the Commission of the European Communities in Brussels by telex (SAT COM C 420599543 FISH), electronic mail (FISHERIES-telecom@cec.eu.int) or via one of the radio stations listed under point 3 below and in the form specified under point 4.

- 2.2. If it is impossible for reasons of force majeure for the message to be transmitted by the vessel, it may be transmitted on the vessel's behalf by another vessel.

<i>Name of radio station</i>	<i>Call sign of radio station</i>
Lyngby	OXZ
Land's End	GLD
Valentia	EJK
Malin Head	EJM
Torshavn	OXJ
Bergen	LGN

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Farsund	LGZ
Florø	LGL
Rogaland	LGQ
Tjøme	LGT
Ålesund	LGA
Ørlandet	LFO
Bodø	LPG
Svalbard	LGS
Blåvand	AXB
Gryt	GRYT RADIO
Göteborg	SOG
Turku	OFK

4. Form of the communications

The information specified under point 1 shall contain the following particulars, which shall be given in the following order:

- name of vessel;
- call sign;
- external identification letters and numbers;
- serial number of the message for the voyage in question;
- indication of the type of message according to the following code:
 - message when entering one of the zones referred to under 1.1: 'IN',
 - message when leaving one of the zones referred to under 1.1: 'OUT',
 - message when moving from one ICES division to another: 'ICES',
 - weekly message: 'WKL',
 - three-day message: '2 WKL';
- the date, the time and the geographical position;
- the ICES divisions/sub-areas in which fishing is expected to commence;
- the date on which fishing is expected to commence;
- the quantity (in kilograms live-weight) of each species of fish in the hold using the code mentioned in point 5;
- the quantity (in kilograms live-weight) of each species of fish caught since the previous transmission using the code mentioned in point 5;
- the ICES divisions/sub-areas in which the catches were made;
- the quantity (in kilograms live-weight) of each species transferred to and/or from other vessels since the previous transmission;
- the name and call sign of the vessel to and/or from which the transfer was made;
- the quantity (in kilograms live-weight) of each species landed in a port of the Community since the previous transmission;
- the name of the master.

5. Code to be used to indicate the species on board as mentioned in 1.4 above:

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Alfonsinos (<i>Beryx</i> spp.)	ALF

ANNEX X

AUTHORISED TOPSIDE CHAFERS

1. ICNAF-type topside chafer

The ICNAF-type topside chafer is a rectangular piece of netting to be attached to the upper side of the codend of the trawl net to reduce and prevent damage so long as such netting conforms to the following conditions:

- (a) this netting shall have a mesh size not less than that specified for the codend in Article 10;
- (b) this netting may be fastened to the codend only along the forward and lateral edges of the netting and at no other place in it, and shall be fastened in such a manner that it extends forward of the splitting strap no more than four meshes and ends not less than four meshes in front of the cod line mesh; where a splitting strap is not used, the netting shall not extend to more than one-third of the codend measured from not less than four meshes in front of the cod line mesh;

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- (c) the width of this netting shall be at least one and a half times the width of the area of the codend which is covered, such widths to be measured at right angles to the long axis of the codend.

2. Multiple flap-type topside chafer

The multiple flap-type topside chafer is defined as pieces of netting having in all their parts meshes the size of which, whether the pieces of netting are wet or dry, is not less than that of the codend, provided that:

- (i) each piece of netting
- (a) is fastened by its forward edge only across the codend at right angles to its long axis;
 - (b) is of a width of at least the width of the codend (such width being measured at right angles to the long axis of the codend at the point of attachment); and
 - (c) is not more than ten meshes long; and
- (ii) the aggregate length of all the pieces of netting so attached does not exceed two-thirds of the length of the codend.

POLISH CHAFER

3. Large-mesh (modified Polish-type) topside chafer

The large-mesh topside chafer consists of a rectangular piece of netting made of the same twine material as the codend, or of a single, thick, knotless twine material, attached to the rear portion of the upper side of the codend and extending over all or any part of the upper side of the codend and having in all its parts a mesh size twice that of the codend when measured wet and fastened to the codend along the forward, lateral and rear edges only of the netting in such a way that each mesh of the netting coincides with four meshes of the codend.

ANNEX XI

MINIMUM FISH SIZE⁰

Species	Gilled and gutted fish whether or not skinned; fresh or chilled, frozen, or salted			
	Whole	Head off	Head and Tail Off	Head Off and Split
Atlantic Cod	41 cm	27 cm	22 cm	27/25 cm ^b
Greenland halibut	30 cm	N/A	N/A	N/A

a Fish size refers to fork length for Atlantic cod; whole length for other species.

b Lower size for green salted fish.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

American plaice	25 cm	19 cm	15 cm	N/A
Yellowtail flounder	25 cm	19 cm	15 cm	N/A

a Fish size refers to fork length for Atlantic cod; whole length for other species.

b Lower size for green salted fish.

ANNEX XII

RECORDING OF CATCH (LOGBOOK ENTRIES) FISHING LOGBOOK ENTRIES

Item of information	Standard code
Vessel name	01
Vessel nationality	02
Vessel registration number	03
Registration port	04
Types of gear used (separate record for different gear types)	10
Type of gear	
Date	
— day	20
— month	21
— year	22
Position	
— latitude	31
— longitude	32
— statistical area	33
Number of hauls during the 24-hour period ^a	40
Number of hours gear fished during the 24-hour period ^a	41
Species names (Annex II)	
Daily catch of each species (metric tons round fresh weight)	50
Daily catch of each species for human consumption in the form of fish	61
Daily catch of each species for reduction	62

a When two or more types of gear are used in the same 24-hour period, records should be separate for the different types.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

Daily discard of each species	63
Place(s) of transshipment	70
Date(s) of transshipment	71
Master's signature	80

a When two or more types of gear are used in the same 24-hour period, records should be separate for the different types.

GEAR CODES

Gear categories	Standard abbreviation code
Surrounding nets	
With purse lines (purse seines)	PS
— One boat operated purse seines	PS1
— Two boat operated purse seines	PS2
Without purse lines (lampara)	LA

	FAO 58.7 Antarctic ^a	
<i>Lepidonotothen squamifrons</i>	FAO 58.4.4 ^a	All year
All species except <i>Champscephalus gunnari</i> and <i>Dissostichus eleginoides</i>	FAO 58.5.2 Antarctic	1.12.2004 to 30.11.2005
<i>Dissostichus mawsoni</i>	FAO 48.4 Antarctic ^a	All year
a	Except for scientific research purposes.	
b	Excluding waters subject to national jurisdiction (EEZs).	

ANNEX XV

CATCH AND BY-CATCH LIMITS FOR NEW AND EXPLORATORY FISHERIES IN THE AREA OF CCAMLR IN 2004/2005

Sub-area/division	Region	Season	SSRU	<i>Dissostichus</i> spp. Catch Limit (tonnes)	By-catch Catch Limit (tonnes)		
					Skates and rays	<i>Macrourus</i> spp.	Other species
58.4.1	All Division	1.12.2004 to 30.11.2005	A	0	All Division: 50	All Division: 96	All Division: 20
			B	0			
			C	200			
			D	0			
			E	200			
			F	0			
			G	200			
			H	0			

a Rules for catch limits for by-catch species per SSRU, applicable within total by-catch limits per Sub-area:

— Skates and rays	5 % of the catch limit for <i>Dissostichus</i> spp. or 50 tonnes, whichever is greatest.
— <i>Macrourus</i> spp.	16 % of the catch limit for <i>Dissostichus</i> spp.
— Other species	20 tonnes per SSRU.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

			Total Subarea	600			
58.4.2	All Division	1.12.2004 to 30.11.2005	A	260	All Division: 50	All Division: 124	All Division: 20

a Rules for catch limits for by-catch species per SSRU, applicable within total by-catch limits per Sub-area:

— Skates and rays

— *Macrourus* spp.

— Other species

5 % of the catch limit for *Dissostichus* spp. or 50 tonnes, whichever is greatest.

16 % of the catch limit for *Dissostichus* spp.

20 tonnes per SSRU.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

			Total Subarea	3 250	163	520	
a	Rules for catch limits for by-catch species per SSRU, applicable within total by-catch limits per Sub-area:						
	— Skates and rays	5 % of the catch limit for <i>Dissostichus</i> spp. or 50 tonnes, whichever is greatest.					
	— <i>Macrourus</i> spp.	16 % of the catch limit for <i>Dissostichus</i> spp.					
	— Other species	20 tonnes per SSRU.					

In Annex I, page 57, after the table for ‘Species: Common sole/*Solea solea*’, ‘Zone: VIIb,c’, the following two tables shall be inserted:

Species	Common sole <i>Solea solea</i>	Zone	VIIId SOL/07D.
Belgium	1 535		
France	3 069		
United Kingdom	1 096		
EC	5 700		
TAC	5 700		Analytical TAC where Articles 3 and 4 of Regulation (EC) No 847/96 apply.

Species	Common sole <i>Solea solea</i>	Zone	VIIe SOL/07E.
Belgium	31		
France	326		
United Kingdom	508		
EC	865		
TAC	865		Analytical TAC where Articles 3 and 4 of Regulation (EC) No 847/96 apply.

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005. (See end of Document for details)

- (1) [^{F2}OJ L 145, 13.6.1977, p. 1. Directive as last amended by Directive 2004/66/EC (OJ L 168, 1.5.2004, p. 35).]
- (2) OJ L 41, 13.2.2002, p. 1.
- (3) For fish farmed more than 1 year, other additional sampling methods should be established.
- (4) OJ L 337, 30.12.1999, p. 10.

Textual Amendments

- F2** Substituted by Council Regulation (EC) No 1300/2005 of 3 August 2005 amending Regulation (EC) No 27/2005, as concerns herring, mackerel, horse mackerel, sole and vessels engaged in illegal fisheries.

Changes to legislation:

There are currently no known outstanding effects for the Council Regulation (EC) No 27/2005.
