

Commission Implementing Regulation (EU) No 947/2012 of 12 October 2012 amending Council Regulation (EC) No 2368/2002 implementing the Kimberley Process certification scheme for the international trade in rough diamonds

COMMISSION IMPLEMENTING REGULATION (EU) No 947/2012

of 12 October 2012

amending Council Regulation (EC) No 2368/2002 implementing the Kimberley Process certification scheme for the international trade in rough diamonds

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 2368/2002 of 20 December 2002 implementing the Kimberley Process certification scheme for the international trade in rough diamonds⁽¹⁾, and in particular Articles 19(6) and 20 thereof,

Whereas:

- (1) Following a provisional acceptance at the Washington Intersessional meeting in June 2012, Kimberley Process Participants approved, by written procedure, the addition of Cameroon to the list of KP Participants. That approval was confirmed by a KP Chair notice on 14 August 2012.
- (2) By virtue of the Treaty of Lisbon, which entered into force on 1 December 2009, the European Union replaced and succeeded the European Community. In order to improve the functionality of the certificate as defined in Article 2(g) of Regulation (EC) No 2368/2002, certain characteristics laid out in Annex IV to that Regulation should be amended to reflect this change. However, it is necessary to provide a realistic time frame for the competent authorities of the Union to adapt to this change taking into account the time needed to ensure the availability of the new certificate.
- (3) Furthermore, the addresses of the European Union and the Swiss contact points in Annex II, the list of Member States' competent authorities in Annex III, and the list of diamond organisations in Annex V should be updated.
- (4) Annexes II, III, IV and V to Regulation (EC) No 2368/2002 should be amended accordingly.
- (5) The measures provided for in this Regulation are in accordance with the opinion of the committee referred to in Article 22 of Regulation 2368/2002,

HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 2368/2002 is amended as follows:

- (1) Annex II is replaced by the text set out in Annex I to this Regulation.

Changes to legislation: There are currently no known outstanding effects for the
Commission Implementing Regulation (EU) No 947/2012. (See end of Document for details)

- (2) Annex III is replaced by the text set out in Annex II to this Regulation.
- (3) Annex IV is replaced by the text set out in Annex III to this Regulation.
- (4) Annex V is replaced by the text set out in Annex IV to this Regulation.

Article 2

This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*

However, point 3 of Article 1 shall apply from 1 January 2013.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 12 October 2012.

For the Commission

Catherine ASHTON

Vice-President

ANNEX III

ANNEX IV

Community certificate as referred to in Article 2

In accordance with the changes enacted by the Treaty of Lisbon, whereby the European Union replaced and succeeded the European Community, the term 'EU certificate' shall refer to the Community certificate as defined in Article 2(g) of this Regulation.

The EU Certificate shall have the following features. Member States shall ensure that the Certificates they issue shall be identical. To this end they shall submit to the Commission specimens of the Certificates to be issued.

Member States shall be responsible for having the EU Certificates printed. The EU Certificates may be printed by printers appointed by the Member State in which they are established. In the latter case, reference to the appointment by the Member State must appear on each EU Certificate. Each EU Certificate shall bear an indication of the printer's name and address or a mark enabling the printer to be identified. The printer should be a High Security Banknote

Changes to legislation: There are currently no known outstanding effects for the Commission Implementing Regulation (EU) No 947/2012. (See end of Document for details)

Printer. The printer should provide suitable references from governmental and commercial customers.

The European Commission shall make specimens of original EU Certificates available to EU authorities.

Materials

- Dimensions: A4 (210 mm × 297 mm);
- Watermarked with invisible (yellow/red) UV fibres;
- Solvent sensitive;
- UV dull (features in the document stand out clearly when highlighted under a Ultra-violet lamp);
- 95 g/m² paper.

Printing

- Rainbow background tint (solvent sensitive);
- The ‘rainbow’ effect has a security background that will not visualise when photocopied.
- The inks used must be ‘solvent sensitive’ to protect the document against attack from chemicals used to alter infilled text, such as bleach.
- 1 Colour background tint (permanent and light fast);
- Ensure that a secondary ‘Rainbow’ is printed to prevent the Certificates from exposure to sunlight.
- UV invisible working (stars of the EU Flag);
- The security printer should apply the correct weight of ink to ensure that the UV feature is invisible in normal light.
- EU Flag: Printed gold and European blue;
- Intaglio Border;
- Tactile Intaglio ink is one of the most important features in the document.
- Extra Small Print line reading ‘Kimberley Process Certificate’;
- Latent image: KP;
- Micro-text reading ‘KPCS’;
- The document design must incorporate anticopy (‘Medallion’) features into the background fine-line printing.

Numbering

- Each EU Certificate shall have a unique serial number, preceded by the code: EU.
- The Commission shall attribute the serial numbers to the Member States that intend to issue EU Certificates.
- There should be two types of matching numbering — visible and invisible:
- First = 8 digit sequential, once on all parts of the document, printed black
- The printer should hold all responsibility for numbering every Certificate.
- The printer should also keep a database of all numbering.
- Second = 8 digit sequential invisible printed numbering (matching above), fluorescing under UV light.

Language

English and, where relevant, the language(s) of the Member State concerned.

Lay out and finishing

Obligatory features

Slot perforated in 1 position, cut to singles A4 size, at 100 mm from right edge
