CHAPTER 2

Section 4

Special provisions

Article 28

Where, as a result of their communication to the Commission, unpublished applications for patents or utility models, or patents or utility models classified for defence reasons, are improperly used or come to the knowledge of an unauthorised person, the Community shall make good the damage suffered by the party concerned.

Without prejudice to its own rights against the person responsible for the damage, the Community shall, to the extent that it has made good such damage, acquire any rights of action enjoyed by those concerned against third parties. This shall not affect the right of the Community to take action against the person responsible for the damage in accordance with the general provisions in force.

Article 29

Where an agreement or contract for the exchange of scientific or industrial information in the nuclear field between a Member State, a person or an undertaking on the one hand, and a third State, an international organisation or a national of a third State on the other, requires, on either part, the signature of a State acting in its sovereign capacity, it shall be concluded by the Commission.

Subject to the provisions of Articles 103 and 104, the Commission may, however, on such conditions as it considers appropriate, authorise a Member State, a person or an undertaking to conclude such agreements.
