- 3 Levels are measured on fat, except in the case of foods with a fat content of 10% or less by weight. In these cases the residue is related to the total weight of the boned foodstuff and the MRL is one tenth of the value given in the table, but must be no less than 0.01 mg/kg.
- 4 These levels are for fresh raw cow's milk and fresh whole cream cow's milk expressed on the whole milk.
- 5 For preserved, concentrated or sweetened cow's milk; for raw milk and whole cream milk of another animal origin; and for butter, cheese or curd whether made from cow's milk or other milk or a combination, the following levels apply: — if the fat content is less than 2% by weight, the MRL is taken as half that set for raw milk and whole cream milk; — if the fat content is 2% or more by weight, the MRL is expressed in mg/kg of fat and is set at 25 times that set for raw milk and whole cream milk.
- 6 Birds' eggs in shell (other than eggs for hatching) and whole egg products and egg yolk products (whether fresh, dried or otherwise prepared).
- 7 Poultry meat only.
- 8 Other than poultry meat.
- 9 Meat of cattle, sheep and goats.
- 10 Other than meat or liver of cattle, sheep and goats, and poultry meat.
- 11 Liver of cattle, sheep and goats. The residue definition for this MRL is: 1,1-bis-(parachlorophenol)-2,2-dichloroethanol (PP'-FW152), expressed as dicofol.
- 12 Fat, liver and kidney.
- 13 Other than fat, liver and kidney.
- 14 The residues definition for these MRLs is: sum of propyzamide and all metabolites containing the 3,5-dichlorobenzoic acid fraction expressed as propyzamide.
- 15 Footnotes 3, 5 and 6 do not apply in cases where the lower limit of analytical determination is indicated.

Regulations (Northern Ireland) 1995 (“the principal Regulations”) (S.R. 1995 No. 33, amended by S.R. 1995 No. 461 and S.R. 1996 No. 527).

The Regulations specify maximum levels of pesticides residues which may be left in crops, food and feeding stuffs in implementation of Council Directives 96/32/EC (O.J. No. L144, 18.6.96, p. 12) and 96/33/EC (O.J. Maximum levels in these Regulations which are followed by * will, when inserted into Schedule 2 to the principal Regulations, connect with the explanation of that symbol given there.
