**Assessment and review duty in respect of dangerous substances**

**6.** Where a dangerous substance is or is liable to be present in the relevant premises, the matters which must be taken into account when a person carries out an assessment or a review under section 53 or 54 are–

- (a) the hazardous properties of the substance;
- (b) information on safety provided by the supplier, including information contained in any relevant safety data sheet;
- (c) the circumstances of the work including–
  - (i) the special, technical and organisational measures and the substances used and their possible interactions;
  - (ii) the amount of the substance involved;
  - (iii) where the work will involve more than one dangerous substance, the risk presented by such substances in combination; and
  - (iv) the arrangements for the safe handling, storage and transport of dangerous substances and of waste containing dangerous substances;
- (d) activities, such as maintenance, where there is the potential for a high level of risk;
- (e) the effect of measures which have been or will be taken pursuant to the 2005 Act and to these Regulations;
- (f) the likelihood that an explosive atmosphere will occur and its persistence;
- (g) the likelihood that ignition sources, including electrostatic discharges, will be present and become active and effective;
- (h) the scale of the anticipated effects;
- (i) any places which are, or can be connected via openings to, places in which explosive atmospheres may occur; and
- (j) such additional safety information as the person with duties under section 53 or 54 may need in order to complete the assessment or review.

---
