EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the Official Controls (Extension of Transitional Periods) Regulations 2021 (“the 2021 Regulations”), the Trade in Animals and Related Products (Scotland) Regulations 2012 (“the 2012 Regulations”), Regulation (EU) 2017/625, and the Plant Health (Amendment etc.) (EU Exit) Regulations 2020 (“the 2020 Regulations”). The amendments relate to the transitional staging period provided for by Annex 6 to Regulation (EU) 2017/625 for official controls on imports of animals, animal products, plants, plant products and other objects which originate from certain third countries.

Regulation 2 amends regulation 2 of the 2021 Regulations, which appointed the end date for the transitional staging period as 31 December 2021 in respect of certain checks for plants, plant products and other objects and 28 February 2022 in all other cases. Regulation 2 of the 2021 Regulations is substituted to appoint 30 June 2022 as the end date for the transitional staging period in all cases.

Regulations 3 to 5 amend provisions in the 2012 Regulations, Regulation (EU) 2017/625 and the 2020 Regulations which were made in exercise of powers conferred by the European Union (Withdrawal) Act 2018 in order to address failures of retained EU law to operate effectively and other deficiencies arising from the withdrawal of the UK from the European Union, and which make provision regarding the importation of animals, animal products, plants, plant products and other objects during the transitional staging period.

Regulation 3 amends paragraph 4 of schedule 5 of the 2012 Regulations to require, from 1 January 2022, pre-notification of the import of animal by-products which are not already subject to pre-notification requirements.

Regulation 4 amends paragraph 13 of Annex 6 to Regulation (EU) 2017/625 to provide that the requirement, from 1 January 2022, for operators to give prior notification of the arrival of products of animal origin intended for human consumption, plants, plant products and other objects does not apply to goods which form part of passengers’ personal luggage and are intended for personal consumption or use, and which are exempt, during the transitional staging period, from official controls at border control posts, or to small consignments of such goods sent to natural persons and which are not intended to be placed on the market.

Regulation 5 amends regulation 52 of the 2020 Regulations to extend, from 31 December 2021 to the end of the transitional staging period, transitional provision which dis-applies requirements for phytosanitary certificates for the introduction into Great Britain of certain plants, plant products and other objects.

A Business and Regulatory Impact Assessment has not been produced for this instrument as no, or no significant, impact on the private, voluntary or public sector is foreseen.
