These Regulations authorise the placing on the market of nine food and feed products containing, consisting of, or produced from genetically modified organisms.

Regulation 3 and schedules 1-9 provide for the authorisation of the nine products—

Authorisations granted by these Regulations are valid for a period of ten years in accordance with Articles 7(4) and 19(4) of Regulation (EC) 1829/2003 (subject to Articles 11(4) and 23(4) of that Regulation, which provide for an extension of the authorisation period in certain circumstances where an application for renewal has been submitted).

Paragraphs (a) to (d) of regulation 4 revoke, in relation to Scotland, Decisions which form part of retained EU law that contain the previous authorisations (which have expired) for the products now authorised by Schedules 1, 6, 8 and 9.

Paragraph (e) of regulation 4 revokes retained Commission Implementing Decision (EU) 2018/2011, which contains the existing authorisation for four of the sub-combinations of the product now authorised by schedule 3. Those existing authorisations are consolidated within schedule 3.

An impact assessment has not been produced for this instrument as no, or no significant, impact on the public, private or voluntary sector is foreseen.
