- (1) If within the period of 14 days beginning with the day on which a patient has been admitted to a hospital in pursuance of an application for admission for assessment or for treatment the application, or any medical recommendation given for the purposes of the application, is found to be in any respect incorrect or defective, the application or recommendation may, within that period and with the consent of the managers of the hospital, be amended by the person by whom it was signed; and upon such amendment being made the application or recommendation shall have effect and shall be deemed to have had effect as if it had been originally made as so amended.
