- (1) The Secretary of State may designate a sensitive catchment area as a catchment permitting area.
- (2) In determining whether to make a designation under [subsection \(1\)](#) or to revoke such a designation under section [96H\(3\)\(c\)](#), the Secretary of State may take into account, in particular, advice from, or guidance published by, the Environment Agency or Natural England.
- (3) Where the Secretary of State makes a designation under [subsection \(1\)](#), the Environment Agency must—
 - (a) review the environmental permits for the plants that discharge treated effluent into the catchment permitting area that are—
 - (i) nutrient significant plants, and
 - (ii) such other plants that the Environment Agency considers appropriate (including such plants within an area that may be determined by the Environment Agency), and

 - (b) relate to any or all of the plants mentioned in subsection (3)(a), including the concentration of nutrients in treated effluent discharged by those plants.
- (6) In subsection (4)—
 - (a) the “applicable date” means—
 - (i) where the designation under section 96C(1) or (2) of the area that is the catchment permitting area takes effect during the initial period, 1 April 2030, or
 - (ii) where that designation takes effect after the initial period, the date specified under section 96C(4)(d) in that designation;

 - (a) paragraph (a) were omitted, and
 - (b) in paragraph (b)—

100 Calculation of “relevant deficit” for the purposes of section 99.

- [^{F77}(1) For the purposes of section 99 above the relevant deficit for any year on a public sewer is the amount (if any) by which the drainage charges payable for the use during that year of that sewer are exceeded by the annual borrowing costs of a loan of the amount required for the provision of that sewer.
- (2) The annual borrowing costs of a loan of the amount required for the provision of a public sewer is the aggregate amount which would fall to be paid in any year by way of payments of interest and repayments of capital if an amount equal to so much of the costs reasonably incurred in providing that sewer as were not incurred in the provision of additional capacity had been borrowed, by the sewerage undertaker providing the sewer, on terms—
- requiring interest to be paid and capital to be repaid in twelve equal annual instalments; and
 - providing for the amount of the interest to be calculated at such rate, and in accordance with such other provision, as may have been determined for the purposes of this subsection.
- (3) A determination for the purposes of subsection (2) above shall be made either—
- by the undertaker with the approval of the Director; or
 - in default of such a determination, by the Director.
- (4) For the purposes of this section the costs reasonably incurred in providing a public sewer (“the new sewer”) shall include—
- the costs reasonably incurred in providing such other public sewers and such pumping stations as it is necessary to provide in consequence of the provision of the new sewer; and
 - such proportion (if any) as is reasonable of the costs reasonably incurred in providing any such additional capacity in an earlier public sewer as falls to be used in consequence of the provision of the new sewer.
- (5) In subsection (4) above the reference to an earlier public sewer, in relation to the new sewer, is a reference to any public sewer which—
- has been provided in the period of twelve years immediately before the provision of the new sewer; and
 - was so provided in pursuance of a public sewer requisition.
- (6) Any reference in this section to the provision of additional capacity in a public sewer provided in pursuance of a requirement under any enactment is a reference to such works carried out or other things done in connection with the provision of that sewer as are carried out or done for the purpose of enabling that sewer to be used for purposes
