239 Energy smart regulations

- (1) The Secretary of State may by regulations make provision about energy smart appliances that are—
 - (a) capable of being used in connection with any of the purposes specified in [subsection \(2\)](#), or

- (2) The specified purposes are—
 - (a) refrigeration;
 - (b) cleaning tableware;
 - (c) washing or drying textiles;
 - (d) storing energy that—
 - (i) was converted from electricity, and
 - (ii) is stored for the purpose of its future reconversion into electricity;

- (3) In making such regulations, the Secretary of State must, in particular, have regard to the desirability of ensuring that—
 - (a) the energy smart function or compatibility with that function is incorporated into appliances in a manner that is compliant with the regulations,

Status: This is the original version (as it was originally enacted).

- (b) the energy smart function does not undermine the delivery of a consistent and stable supply of electricity,
 - (c) the energy smart function in any energy smart appliance is capable of operating in response to load control signals from any person carrying out load control, and
 - (d) communications, software, systems and personal and other data used in connection with energy smart appliances are secure or otherwise protected, for purposes including the protection of end-users.
- (4) Such regulations may, in particular—
- (a) make provision about all energy smart appliances or any description of energy smart appliances;
 - (b) impose technical or other requirements in relation to such appliances, including requirements to display or otherwise provide information about appliances;
