Works for protection and accommodation of lands

And with respect to works for the accommodation of lands adjoining the railway, be it enacted as follows:

68 Gates, bridges, &c.

The company shall make and at all times thereafter maintain the following works for the accommodation of the owners and occupiers of lands adjoining the railway; (that is to say,)

Such and so many convenient gates, bridges, arches, culverts, and passages, over, under, or by the sides of or leading to or from the railway, as shall be necessary for the purpose of making good any interruptions caused by the railway to the use of the lands through which the railway shall be made; and such works shall be made forthwith after the part of the railway passing over such lands shall have been laid out or formed, or during the formation thereof;

Also sufficient posts, rails, hedges, ditches, mounds, or other fences, for separating the land taken for the use of the railway from the adjoining lands not taken, and protecting such lands from trespass, or the cattle of the owners or occupiers thereof from straying thereout, by reason of the railway, together with all necessary gates, made to open towards such adjoining lands, and not towards the railway, and all necessary stiles; and such posts, rails, and other fences shall be made forthwith after the taking of any such lands, if the owners thereof shall so require, and the said other works as soon as conveniently may be:

Also all necessary arches, tunnels, culverts, drains, or other passages, either over or under or by the sides of the railway, of such dimensions as will be sufficient at all times to convey the water as clearly from the lands lying near or affected by the railway as before the making of the railway, or as nearly so as may be; and such works shall be made from time to time as the railway works proceed:

Also proper watering places for cattle where by reason of the railway the cattle of any person occupying any lands lying near thereto shall be deprived of access to their former watering places; and such watering places shall be so made as to be at all times as sufficiently supplied with water as theretofore, and as if the railway had not been made, or as nearly so as may be; and the company shall make all necessary watercourses and drains for the purpose of conveying water to the said watering places:

Provided always, that the company shall not be required to make such accommodation works in such a manner as would prevent or obstruct the working or using of the railway, nor to make any accommodation works with respect to which the owners and occupiers of the lands shall have agreed to receive and shall have been paid compensation instead of the making them.

78A Compensation for leaving minerals unworked.

- (1) The compensation payable by the company to the mine owner and the royalty owner respectively for the loss caused by the specified minerals being left unworked shall, in default of agreement, be determined by arbitration:

Provided that so far as such compensation is payable in respect of the value of specified minerals—

- (i) the compensation payable to the mine owner and to the royalty owner shall be separately assessed;
 - (ii) the compensation payable to the mine owner shall be a sum for each ton of the specified minerals, the rate per ton in the case of minerals lying under the outer area of protection being one-third of the rate which is or would be awarded in the case of minerals lying under the inner area of protection;
 - (iii) the compensation payable to the royalty owner shall be based on the amount which would have been received from time to time by way of royalty in respect of the specified minerals if they had been worked out in the ordinary course, and the royalties payable had been—
 - (a) in the case of such of the specified minerals as lie under the inner area of protection, the same as those reserved by and payable under the lease comprising the minerals and subsisting at the date of the counter-notice; and
 - (b) in the case of such of the specified minerals as lie under the outer area of protection, one-third of the royalties so reserved and payable with the addition to such one-third of one penny per ton;
 - (iv) in every case the arbitrator shall state in his award the tonnage of the specified minerals on which his award is based.
- (2) The mine owner shall also be entitled to be paid by the company the amount of any increase in the cost of working any part of his minerals (other than the specified minerals) which may have been caused by the failure of the company to give the counter-notice within such a reasonable time as would have enabled the mine owner to avoid such increase in cost, and, in default of agreement, the amount so payable by the company shall be determined by arbitration.

79 Power to work minerals not affected by a counter-notice.

- (1) If within thirty days from the service by a mine owner on the company of a notice of intention to work any minerals no counter-notice is served by the company, the mine owner may, after the expiration of those thirty days, and until a counter-notice is served, work any minerals to which the notice relates, so, nevertheless, that the same be done in the manner proper and necessary for the beneficial working thereof, and according to the usual manner of working such minerals in the district where the same shall be situated.

Status: Point in time view as at 28/04/2003.

Changes to legislation: There are currently no known outstanding effects for the Railways Clauses Consolidation Act 1845. (See end of Document for details)

Where a counter-notice is served, whether before or after the expiration of the said thirty days, and the counter-notice does not require the mine owner to leave unworked the whole of the minerals to which the notice relates, the foregoing provisions shall apply to any minerals to which the notice relates which are not specified minerals in like manner as if no such counter-notice had been served.

- (2) If any damage or obstruction is occasioned to the railway or works by any improper working of such minerals, the same shall be forthwith repaired or removed (as the case may require) and such damage made good by the mine owner at his own expence; and if such repair or removal is not forthwith done, or, if the company think fit, without waiting for the same to be done by the mine owner, they may execute the same and recover from the mine owner the expence occasioned thereby by action.

79A Liability in respect of authorised workings.

- (1) If a mine owner works any minerals lying under any part of the area of protection in the manner authorised by this Act, he shall nevertheless become liable on demand by the company (subject as hereinafter provided) to contribute towards the expenses properly incurred, or to be incurred, by the company from time to time thereafter in making good any damage caused by such working to the railway or works of the company (not being protected works comprised in any counter-notice relating to such area of protection) the appropriate percentage (if any) of those expenses, the appropriate percentage being such as is specified in the First Schedule to this Act according to the depth of the minerals being so worked.

- (2) The liability of a mine owner under this section in respect of any part of the railway or works on which such expenditure has been incurred shall not exceed an aggregate sum equivalent to [^{F28}2½p] for each ton of the commercially workable minerals, gotten or ungotten, in such part of any seams as lies under the area ascertained as respects the several seams in accordance with the rules contained in the Second Schedule to this Act, being seams which have been or are being worked under such area as aforesaid:

Provided that, in ascertaining such aggregate sum as aforesaid, minerals gotten more than six years before the date on which a contribution shall have been demanded by the company under this section shall not be reckoned.

- (3) Any mine owner making a contribution under this section, who is a lessee, shall be entitled to deduct from any royalties then or thereafter becoming due from him to the royalty owner under the lease, one-third part of the amount which he has so contributed as aforesaid, subject, however, to this limitation: that if the royalty payable by the mine owner under his lease is at the rate of less than [^{F28}2½p] per ton, the amount deducted shall not exceed the amount produced by multiplying one-third of such rate per ton by the tonnage of the minerals with reference to the aggregate amount of which the maximum liability of the mine owner is to be so calculated as aforesaid; and, where the mine owner is entitled to make such a deduction, the sum reserved by and payable under the lease shall be deemed to be the next amount arrived at after making the deduction:

Provided that no such deduction shall be allowed when the liability of the mine owner to the company is a liability arising out of an arrangement between the mine owner and the company with respect to the working of minerals under or near the railway or works.

- (4) The liability of a mine owner under this section shall be subject to the following further limitation as respects damage done by workings in any single mine, that is to say, that when the aggregate of the sums paid by the mine owner in satisfaction of such liability amounts to a sum equivalent to [^{F28}2½p] for each ton of commercially workable minerals, gotten or ungotten, in such part of any seams as lies within the

mines and under an area extending laterally on both sides of the railway or works to a distance ascertained in accordance with Rule 1 of the said Second Schedule and extending longitudinally to a distance co-extensive with the portion of the railway lying over or adjacent to the mine, being seams which have been or are being worked under such area as aforesaid, the mine owner shall not be liable to make any further contribution under this section towards the expenses of making good any damage caused to any part of the railway or works by the working of such seams as aforesaid in that mine.

For the purposes of this provision, all the minerals which the mine owner is entitled to work, and which have been, or would in the ordinary course of events and in accordance with good mining practice be, worked from the same shafts or adits shall be deemed to be a single mine.

Where the liability of a mine owner under subsection (2) of this section is reduced by the operation of this subsection, the right of the mine owner under subsection (3) thereof to make deductions from royalties shall be proportionately reduced.

- (5) Where a single mine, as hereinbefore defined, is held under leases granted by more than one lessor, any deductions which the mine owner is authorised under this section to make shall be made from the royalties payable to such one or more of such lessors, and in the latter case in such proportions, as in default of agreement may, on the application of the mine owner or any of the royalty owners, be determined by arbitration.
- (6) If any dispute arises as to the amount of the expenses towards which a mine owner is liable to contribute under this section, or the amount of his contribution, or the amount to be deducted as between a mine owner and a royalty owner, it shall be settled by arbitration, and, where any such arbitration between a company and a mine owner is to be held, the royalty owner (if any) shall be entitled to have notice of the intended arbitration, and to appear and be heard at the arbitration proceedings.

81 Additional expenses for severance.

- (1) Where a counter-notice has been given by the company to a mine owner, the company shall from time to time pay to the mine owner the appropriate percentage (if any) of all such additional expenses and losses as may be incurred by such mine owner in consequence of such counter-notice by reason of—

- (1) Nothing in this Act shall affect any agreement between the mine owner and the royalty owner for the payment of any rent or royalty:

Provided that—

- (i) the payment of compensation by the company to the royalty owner in respect of any minerals shall extinguish any liability by the mine owner to pay any royalty in respect of the same minerals;
- (ii) the mine owner shall be entitled to make such deductions as are authorised by sub-section (3) of section 79A of this Act notwithstanding anything in any agreement between him and the royalty owner entered into before the first day of August, nineteen hundred and twenty-three unless the agreement was made after the first day of November, nineteen hundred and twelve, and expressly or by necessary implication provided for the payment of royalties in respect of the minerals supporting the railway or works in the event of the mine owner working them in virtue of a right acquired by agreement or statute or otherwise, or for the payment of royalties in respect of such minerals whether they are or are not worked;
- (iii) if the exercise by the company of powers conferred upon them by the foregoing provisions of this Act as to minerals in the area of protection will prevent the mine owner from working such quantity of minerals as at the royalties reserved will produce the sum total of the fixed or minimum rent remaining payable under the lease, or otherwise occasions serious hardship having regard to the obligation of the mine owner to pay such rent, or owing to any provision in the lease restricting the time within which a deficiency due to previous short working may be made good, such adjustment shall be made between the royalty owner and the mine owner as, failing agreement, may be determined by arbitration, and any question whether the circumstances are such as to give rise to such a right of adjustment shall be similarly determined.

Where at the time of the exercise by the company of such power as aforesaid any deficiency due to previous short working which may be made good in a subsequent period exists, the amount of such deficiency shall be treated for the purposes of this proviso as if it formed part of the sum total of the fixed or minimum rent remaining payable under the lease.

Status: Point in time view as at 28/04/2003.

Changes to legislation: There are currently no known outstanding effects for the Railways Clauses Consolidation Act 1845. (See end of Document for details)

- (2) Nothing in this Act shall alter, diminish or affect any right to let down the surface, either unconditionally or subject to payment of compensation, or to any other condition, which a mine owner or royalty owner may possess, whether by statute grant lease agreement or otherwise, derived from a title antecedent to the acquisition by the company of their interest in the surface, or conferred on him by a reservation contained in the grant to the company, and a mine owner having such a title and having served a notice in accordance with this Act with respect to the working of any minerals, shall be free to work any such minerals, as to which a counter-notice shall not have been received, discharged from all the restrictions and provisions of this Act, other than those contained in subsection (2) of section seventy-nine of the Act but, if a counter-notice is served, the minerals to which such counter-notice relates, shall, for the purposes of the assessment of compensation payable to the mine owner or royalty owner under this Act for leaving the same unworked, be deemed to be minerals lying wholly under the inner area of protection, and the appropriate percentage for the purpose of section eighty-one of this Act shall be one hundred.
