
STATUTORY INSTRUMENTS

1963 No. 1710

The Weights and Measures Regulations 1963

PART III

LIQUID CAPACITY MEASURES

Materials and principles of construction

21. Publicans' measures made of metal, glass, or earthenware may be provided with a spout or projecting mouth; they may also have a bottom rim but, in the case of measures of a maximum purported value not exceeding 1 pint, such rim shall not project more than half an inch below the bottom of the measure.
