EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations, which extend to Great Britain, further amend the Seed Potatoes Regulations 1984.

The main changes are—

- (i) in the case of seed potatoes produced in Great Britain, the reduction of the tolerance for stated size from 3% to 2% by weight above or below the stated size range (regulation 3).
- (ii) the reduction from one quarter to one eighth for the surface area tolerance in relation to the pests and diseases specified in Group III of Part I and Group V of Part II of Schedule 5 (regulation 4).
- (iii) the removal of the references to Classes FS1 and FS2 from the requirements in the course of classification of seed potatoes as basic seed potatoes (regulation 5).
- (iv) tighter tuber health tolerances for all classes of seed potatoes produced in Great Britain (regulation 6 and Schedule).
