EXPLANATORY NOTE

(This note is not part of the Order)

This Order amends the Town and Country Planning General Development Order 1988.

The main change is the introduction into Schedule 2 to the 1988 Order of permitted development rights relating to building operations consisting of the demolition of a building. The Town and Country Planning (Demolition — Description of Buildings) Direction 1992 specifies descriptions of buildings the demolition of which does not involve development.

Conditions are attached where—

- (a) demolition is urgently necessary in the interests of safety and health, and
- (b) demolition is not on land which is the subject of a planning permission for redevelopment, or is not required or permitted by or under any other enactment, or by virtue of a planning obligation.

In the case of demolition falling within (b) there is a requirement for the developer to apply for a determination as to whether the prior approval of the local planning authority is required to the method of the proposed development and any proposed restoration of the site (article 4).
