(b) either—

(i) that admission to the premises has been or is likely to be refused and that notice of intention to apply for a warrant under this sub-paragraph has been given to the occupier; or

(ii) that an application for admission, or the giving of such a notice, would defeat the object of the entry or that the premises are unoccupied or that the occupier is temporarily absent and it might defeat the object of the entry to await his return,

the justice may by warrant under his hand, which shall continue in force for a period of one month, authorise an officer of an enforcement authority to enter the premises, if need be by force.

(5) An officer entering any premises by authority of a warrant granted under sub-paragraph (4) shall, if the occupier is present, give to the occupier or, if the occupier is temporarily absent, leave in a prominent place on the premises or appropriate part of the premises a notice in writing—

(b) explaining that compensation may be payable for damage caused in entering premises and seizing and removing regulated household electric ovens and records therefrom, and giving the address to which an application for compensation should be directed; and

(c) indicating at which office of the enforcement authority and between which hours a copy of these Regulations is available to be consulted.

(6) An officer entering any premises by virtue of this paragraph may take with him such other persons and such equipment as may appear to him necessary; and on leaving any premises which he has entered by virtue of a warrant he shall, if the premises are unoccupied or the occupier is temporarily absent, leave them as effectively secured against trespassers as he found them.

(7) An officer exercising any power of seizure and detention under this paragraph shall as soon as practicable give to the person against whom the power has been exercised a written notice—

(a) stating precisely what has been so seized and detained; and

(b) explaining where, within what period and on what grounds an appeal against such detention may be brought under paragraph 9 (appeals against detention), and whether the things detained would be released while an appeal were pending.

(8) A person who is not a duly authorised officer of an enforcement authority shall not purport to act as such under this paragraph.

(9) In the application of this paragraph to Scotland, the reference in sub-paragraph (4) to a justice of the peace shall include a reference to a sheriff and the references to written information on oath shall be construed as references to evidence on oath.

(10) In the application of this paragraph to Northern Ireland, the references in sub-paragraph (4) to any information on oath shall be construed as references to any complaint on oath.

- (a) in England and Wales, to the Crown Court;
- (b) in Northern Ireland, to a county court;

and an order so made may contain such provision as appears to the court to be appropriate for delaying the coming into force of the order pending the making and determination of any appeal (including any application under section 111 of the Magistrates' Court Act 1980⁽¹³⁾ or article 146 of the Magistrates' Courts (Northern Ireland) Order 1981 (statement of case)⁽¹⁴⁾).

Compensation for loss etc. of regulated household electric ovens or records seized

10.—(1) Where a duly authorised officer of an enforcement authority exercises any powers under paragraph 8 to seize and detain any regulated household electric oven or records, the enforcement authority shall be liable to pay compensation to any person having an interest in the regulated household electric oven or records in respect of any loss or damage caused by the exercise of the power if—

- (a) there has been no contravention of any provision of these Regulations in relation to the regulated household electric ovens or records; and

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations implement Council Directive 92/75/EEC (on the indication by labelling and standard product information of the consumption of energy and other resources by household appliances) and Commission Directive 2002/40/EC (implementing Council Directive 92/75/EEC with regard to energy labelling of household electric ovens).

Electric ovens to which these Regulations apply are those specified in regulation 3 subject to the exclusions specified in regulation 4.

Suppliers, as defined in regulation 2, must supply labels (which comply with Schedules 1 and 4) and information notices (which comply with Schedules 2 and 4) about the energy consumption of those regulated household electric ovens (regulations 7 and 8). Suppliers are deemed to consent to the publication of the information given on a label or in an information notice (regulation 9). They are responsible for the accuracy of the information (regulation 10) and are required to establish, before the electric oven is placed on the Community market, technical documentation to enable the accuracy of the information to be assessed (regulation 6).

Dealers, as defined in regulation 2, must attach a label to a regulated household electric oven displayed to end-users (regulation 11).

Where a regulated household electric oven is for sale by communication (as defined in regulation 2), the dealer is required by regulation 12 to provide relevant information as set out in Schedules 3 and 4.

Regulation 14 prohibits the display of misleading information about the energy consumption of regulated household electric ovens. Regulation 15 provides for the presumption of compliance. Regulation 16 and Schedule 6 contain provisions on offences, penalties and other matters of enforcement.

Regulation 17 makes transitional provision; until 30th June 2003 the Regulations do not apply unless a regulated household electric oven is offered for sale or displayed with a label or information notice or is the subject of a communication.

Where a supplier is required to provide labels in another Community language, Schedule 5 sets out the equivalent terms to the terms in English in Schedules 1, 2 and 3.
