is used for trade in circumstances where—

(4) If a notice given under paragraph (3) is not complied with, the inspector shall affix a disqualification sticker to the capacity serving measure.

that person or his authorised agent, enforcement officer or approved verifier shall not be guilty of an offence under paragraph (1)(b).

- (b) any document or goods which he has reason to believe may be required as evidence in proceedings for an offence under these Regulations.

(3) If a justice of the peace, on written information on oath—

- (a) is satisfied that there are reasonable grounds to believe that any capacity serving measure or document as is mentioned in paragraph (1) or (2) is on any premises, or that an offence under these Regulations has been, is being or is about to be committed on any premises; and
- (b) is also satisfied either that—
 - (i) admission to the premises has been or is likely to be refused, and that notice of intention to apply for a warrant has been given to the occupier; or
 - (ii) an application for admission, or the giving of such a notice would defeat the object of the entry, or that the case is one of urgency, or that the premises are unoccupied or the occupier is temporarily absent,

the justice may by warrant under his hand, which shall continue in force for a period of one month, authorise the enforcement officer to enter the premises, if need be by force.

(4) In the application of paragraph (3) to Scotland, “justice of the peace” includes a sheriff and references to written information on oath shall be construed as references to evidence on oath.

(5) An enforcement officer entering any premises by virtue of this regulation may take such other persons and such equipment as may appear to him necessary, and on leaving such premises which he has entered by virtue of a warrant under paragraph (3), being premises which are unoccupied or the occupier of which is temporarily absent, he shall leave them as effectively secured against a trespasser as he found them.

(6) If an enforcement officer or other person who enters any work-place by virtue of this regulation discloses to any person any information obtained by him in the work-place with regard to any secret manufacturing process or trade secret, he shall, unless the disclosure was made in the performance of his duty, be guilty of an offence.

(7) It shall not be an offence under paragraph (6) for a person to disclose information in circumstances where—

- (a) the person from whom the information was received has consented to its disclosure; or
- (b) the information is disclosed more than 50 years after it was received.

(8) Nothing in this regulation shall authorise any person to stop any vehicle on a highway.

(9) In this regulation, “credentials” means evidence of appointment or designation as an enforcement officer.

Defence of due diligence

26.—(1) Subject to the following provisions of this regulation, in proceedings against a person for an offence under these Regulations, it shall be a defence for that person to show that he took all reasonable steps and exercised all due diligence to avoid committing the offence.

(2) Where in proceedings against a person for such an offence the defence provided by paragraph (1) involves an allegation that the commission of the offence was due to—

- (a) the act or default of another; or
- (b) reliance on information given by another,

that person shall not, without the leave of the court, be entitled to rely on the defence, unless, not less than seven clear days before the hearing of the proceedings, (or, in Scotland, the trial diet), he has served a notice in accordance with paragraph (3) on the person bringing the proceedings.

(3) A notice under this paragraph shall give such information identifying or assisting in the identification of the person who committed the act or default or gave the information as is in the possession of the person serving the notice at the time he serves it.

(4) A person shall not be entitled to rely on the defence provided by paragraph (1) by reason of his reliance on information supplied by another, unless he shows it was reasonable in all the circumstances for him to have relied on the information, having regard in particular to—

- (a) the steps which he took, and those which might reasonably have been taken, for the purpose of verifying the information; and
- (b) whether he had any reason to disbelieve the information.

Liability of persons other than the principal offender

27.—(1) Where the commission by a person of an offence under these Regulations is due to the act or default of another person in the course of any business of his, that other person shall be guilty of the offence and may be proceeded against and punished, whether or not proceedings are taken against the first person.

(2) Where a body corporate commits an offence and it is proved that the offence was committed—

- (a) with the consent or connivance of an officer of the body corporate; or
- (b) as a result of the negligence of an officer of the body corporate,

the officer, as well as the body, shall be guilty of the offence.

(3) In paragraph (2) a reference to an officer of a body corporate includes a reference to—

- (a) a director, manager, secretary or other similar officer of the body corporate;

Savings for certain privileges

29.—(1) Nothing in these Regulations shall be taken as requiring a person to produce any documents or records if he would be entitled to refuse to produce those documents or records in any proceedings in any court on the grounds that they are the subject of legal professional privilege or, in Scotland, that they contain a confidential communication made by or to an advocate or solicitor in that capacity, or as authorising a person to take possession of any documents or records which are in the possession of a person who would be so entitled.

(2) Nothing in these Regulations shall be construed as requiring a person to answer any question or give any information if to do so would incriminate that person or that person's spouse or civil partner.

SCHEDULE 1

Regulations 2(1) and 14(1)

ESSENTIAL REQUIREMENTS

1. The essential requirements are the relevant requirements relating to capacity serving measures contained in Annex I and MI-008, set out in this Schedule.

Definitions

2. In this Schedule—

“influence quantity” means the quantity that is not the measurand but that affects the result of measurement;

“measurand” means the particular quantity subject to measurement; and

“rated operating conditions” means the values for the measurand and influence quantities making up the normal working conditions of a capacity serving measure.

Allowable Errors

3.—(1) Under rated operating conditions, the error of measurement shall not exceed the maximum permissible error (MPE) value set out in paragraph 12.

(2) Unless stated otherwise, MPE is expressed as a bilateral value of the deviation from the true measurement value.

Reproducibility

4. The application of the same measurand in a different location or by a different user, all other conditions being the same, shall result in the close agreement of successive measurements. The difference between the measurement results shall be small when compared with the MPE.

Repeatability

5. The application of the same measurand under the same conditions of measurement shall result in the close agreement of successive measurements. The difference between the measurement results shall be small when compared with the MPE.

Durability

6. A capacity serving measure shall be designed to maintain an adequate stability of its metrological characteristics over a period of time estimated by the manufacturer, provided that it is properly maintained and used according to the manufacturer’s instruction when in the environmental conditions for which it is intended.

Reliability

7. A capacity serving measure shall be designed to reduce as far as possible the effect of a defect that would lead to an inaccurate measurement result, unless the presence of such a defect is obvious.

Suitability

8.—(1) A capacity serving measure shall have no feature likely to facilitate fraudulent use whereas possibilities for unintentional misuse shall be minimal.

(2) A capacity serving measure shall be robust and its materials of construction shall be suitable for the conditions in which it is intended to be used.

Status: This is the original version (as it was originally made).

Information to be borne by and to accompany the capacity serving measure

9.—(1) A capacity serving measure shall bear the following inscriptions:

- (a) manufacturer’s mark or name;
- (b) information in respect of its accuracy;
- (c) measuring capacity;

plus, when applicable:

- (d) identity marking;
- (e) number of the EC-type examination certificate;

(2) The units of measurement used and their symbols shall be in accordance with the provisions of Community legislation on units of measurement and their symbols.

(3) All marks and inscriptions required under any requirement shall be clear, non-erasable, unambiguous and non-transferable.

Conformity evaluation

10. A capacity serving measure shall be designed so as to allow ready evaluation of its conformity with the appropriate requirements of these Regulations.

Reference Conditions

11.—(1) Temperature: the reference temperature for measurement of capacity is 20 °C.

(2) Position for correct indication: free standing on a level surface.

MPE

12. MPE

Materials

13. A capacity serving measure shall be made of material which is sufficiently rigid and dimensionally stable to maintain capacity within the MPE.

Shape

14.—(1) A transfer measure shall be designed so that a change of contents equal to the MPE causes a change in level of at least 2 mm at the brim or filling mark.

(2) A transfer measure shall be designed so that the complete discharge of the liquid being measured will not be impeded.

Marking

15.—(1) The nominal capacity declared shall be clearly and indelibly marked on the capacity serving measure.

(2) A capacity serving measure may also be marked with up to three clearly distinguishable capacities, none of which shall lead to confusion one to the other.

(3) All filling marks shall be sufficiently clear and durable to ensure that MPEs are not exceeded in use.

SCHEDULE 2

Regulations 2(1) and 8

NOTIFIED BODIES

PART 1

NOTIFIED BODY CRITERIA FOR DESIGNATION

1. The body, its director and staff involved in conformity assessment tasks shall not be the designer, manufacturer, supplier, installer or user of the capacity serving measure that they inspect, nor the authorised representative of any of them. In addition, they may not be directly involved in the design, manufacture, marketing or maintenance of the measures, nor represent the parties engaged in these activities. The preceding criterion does not, however, preclude in any way the possibility of exchanges of technical information between the manufacturer and the body for the purposes of conformity assessment.

2. The body, its director and staff involved in conformity assessment tasks shall be free from all pressures and inducements, in particular financial inducements, that might influence their judgement or the results of their conformity assessment, especially from persons or groups of persons with an interest in the results of the assessments.

3. The conformity assessment shall be carried out with the highest degree of professional integrity and requisite competence in the field of metrology. Should the body sub-contract specific tasks, it shall first ensure that the sub-contractor meets the requirements of these Regulations, and in particular of this Schedule. The body shall keep the relevant documents assessing the sub-contractor's qualifications and the work carried out by him under these Regulations at the disposal of the Secretary of State.

4. The body shall be capable of carrying out all the conformity assessment tasks for which it has been designated, whether those tasks are carried out by the body itself or on its behalf and under its responsibility. It shall have at its disposal the necessary staff and shall have access to the

necessary facilities for carrying out in a proper manner the technical and administrative tasks entailed in conformity assessment.

5. The body's staff shall have—
 - (a) sound technical and vocational training, covering all conformity assessment tasks for which the body was designated;
 - (b) satisfactory knowledge of the rules governing the tasks which it carries out, and adequate experience of such tasks; and
 - (c) the requisite ability to draw up the certificates, records and reports demonstrating that the tasks have been carried out.
6. The impartiality of the body, its director and staff shall be guaranteed. The remuneration of the body shall not depend on the results of the tasks it carries out. The remuneration of the body's director and staff shall not depend on the number of tasks carried out or on the results of such tasks.
7. The body shall satisfy the Secretary of State that it has adequate civil liability insurance.
8. The body's director and staff shall be bound to observe professional secrecy with regard to all information obtained in the performance of their duties pursuant to these Regulations, except vis-à-vis the Secretary of State.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations implement Directive 2004/22/EC of the European Parliament and of the Council on measuring instruments (OJNo. L 135, 30.4.04, p1) “the Directive” in relation to capacity serving measures covered by the Directive in so far as they are prescribed.

Part I provides that these Regulations apply, with certain exceptions, to capacity serving measures for use for trade set out in Schedule 3 which are first placed on the market or put into use on or after the 30th October 2006.

Part II deals with the requirements for placing on the market and putting into use. These are that capacity serving measures are compliant with the essential requirements, that the manufacturer has demonstrated such compliance with the essential requirements and that the measures have the CE marking, the M marking and the identification number of the relevant notified body affixed to them (regulation 4(1)). It is an offence under regulation 4(2) to place on the market and put it into use a capacity serving measure without first complying with the requirements of regulation 4(1). The essential requirements are set out in Schedule 1. Compliance with the essential requirements can be demonstrated in accordance with the provisions in regulation 5. Regulation 6 sets out the different conformity assessment procedures available to a manufacturer to demonstrate compliance. The technical documentation required is set out in Schedule 4.

Regulations 7 to 11 and Schedule 2 contain provisions relating to the eligibility and designation of persons to be notified bodies and with the administrative procedures relating to their appointment, functions and fees. Requirements relating to the marking of capacity serving measures are set out in regulation 12 and Schedule 5. Regulation 13 provides for a presumption of conformity with other applicable directives conferred by the CE marking.

Part III of these Regulations deals with requirements relating to the use for trade of capacity serving measures (regulations 14 and 15) pursuant to section 15(1) of the Weights and Measures Act 1985. Failure to comply with these requirements is an offence under section 15(3) of that Act.

Part IV deals with enforcement of these Regulations. Regulation 16 provides that the Regulations shall be enforced by every local weights and measures authority within its area: the Secretary of State may act as an enforcement authority in relation to Part II and may for that purpose appoint any person to act on his behalf. Regulation 17 (compliance notice procedure) and regulation 18 (immediate enforcement action) confer powers on the enforcement authorities to take action in respect of non-compliant capacity serving measures. Regulation 19 permits a review by the Secretary of State of notices issued by other enforcement authorities under regulations 17 and 18. Regulation 20 provides for disqualification of capacity serving measures and it is an offence to use a capacity serving measure which has been disqualified unless it has been re-qualified in accordance with regulation 21.

Regulations 22 details the offences in relation to unauthorised application of authorised marks. Regulation 23 provides powers of entry and inspection for enforcement officers. Regulation 24 provides for offences relating to the obstruction of an enforcement officer. A person guilty of an offence under Part II or Part IV is liable on summary conviction to a fine not exceeding level 5 on the standard scale (which is currently £5,000) (regulation 25). A defence of due diligence in relation to any offence under the Regulations is provided for in regulation 26 and the liability of persons other than the principal offender is set out in regulation 27.

Part V (regulations 28 to 30) deals with miscellaneous matters including the application of the Regulations to Northern Ireland to the extent set out in Schedule 6 (regulation 30).

These Regulations have been notified to the European Commission and the other member States in accordance with Directive [98/34/EC](#) of the European Parliament and of the Council (OJ No. L204, 21.7.98, p.37), as amended by Directive [98/48/EC](#) of the European Parliament and of the Council (OJ No. L217, 5.8.98, p.18).

A Regulatory Impact Assessment (RIA) in respect of these Regulations is available and a copy can be obtained from the National Weights and Measures Laboratory (NWML), Stanton Avenue, Teddington, Middlesex TW11 OJZ or from its website at www.nwml.gov.uk. As these Regulations transpose the Directive, a transposition note (TN) setting out how the Government has transposed the Directive in the United Kingdom has been prepared. Copies of the RIA and TN are available from NWML as above. Copies of these documents have been placed in the libraries of both Houses of Parliament.
