EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the Motor Cycles Etc. (EC Type Approval) Regulations 1999 (“the principal Regulations”) to implement Commission Directive [2005/30/EC](#) of 22nd April 2005 amending, for the purposes of their adaptation to technical progress, Directives [97/24/EC](#) and [2002/24/EC](#) of the European Parliament and of the Council, relating to the type-approval of two or three-wheel motor vehicles (OJNo. L 106, 27.4.2005, p.17).

Directive [2005/30/EC](#) introduces technical measures for the type approval, as separate technical units, of replacement catalytic converters to regulate emissions performance.

Regulation 2(2) amends the definition of “the Framework Directive” to provide that this expression means Directive [2002/24/EC](#) of the European Parliament and of the Council of 18th March 2002 relating to the type approval of two or three-wheel motor vehicles and repealing Council Directive 92/61 as amended up to and including the amendments made by Directive [2005/30/EC](#).

Directive [97/24/EC](#) of the European Parliament and of the Council of 17th June 1997 on certain components and characteristics of two or three-wheel motor vehicles is a “separate Directive” specified in Schedule 1 to the principal Regulations. *Regulation 2(3)* amends Schedule 1 to provide that, as such a separate Directive, Directive [97/24/EC](#) is amended by Directive [2005/30/EC](#).

Regulation 2(4) corrects an error in the principal Regulations by placing Schedule 1A after Schedule 1.

A full regulatory impact assessment has not been prepared for this instrument as it has no impact on the costs of business.

This Explanatory Note incorporates the Transposition Note that would otherwise have been provided separately. Copies of the Directives referred to in these Regulations may be obtained from the Stationery Office.
