EXPLANATORY NOTE

(This note is not part of the Order)

This Order brings into operation on 1st May 2010 the revision of Code E (audio recording of interviews with suspects) to permit recording by secure digital network as an alternative to removable media format (audio tape). This follows on from a six month pilot scheme in the Eastern Division of Lancashire Constabulary (introduced by [S.I. 2008/167](#)) to trial use of this digital technology in interviews with suspects.

The Order also brings into operation on the same date parallel revisions to Code F (visual recording with sound of interviews with suspects), to enable visual recordings of interviews with suspects to be made by digital recording. Visual recording of interviews is not required, so that Code F provides guidance, but compliance with Code E, whether by way of removable media or digital secure network, is mandatory. Both revised codes are laid before Parliament with this Order.
