

SCHEDULE 1

Article 3

AUTHORISED DEVELOPMENT

In the County of Suffolk and the District of Mid Suffolk—

A nationally significant infrastructure project as defined in sections 14(1)(a) and 15 of the 2008 Act comprising—

Work No. 1 – a simple cycle gas fired peaking power generating station on the site of the former Eye airfields in Eye, Mid Suffolk with a gross electrical output of up to 299MWe comprising—

- (1) **Work No. 1A**—
 - (a) up to 5 gas turbine generators; and
 - (b) up to 5 exhaust gas emission flue stacks,
- (2) **Work No. 1B**—
 - (a) an administration building;
 - (b) a store;
 - (c) a control room/office/workshop;
 - (d) telemetry apparatus;
 - (e) a black start diesel generator;
 - (f) a raw/fire water tank and demineralised water storage tank;
 - (g) a natural gas receiving station and gas treatment compound containing—
 - (i) a pipeline inspection gauge (PIG) receiving facility;
 - (ii) isolation valves, metering, heating, filtering, compression, pressure regulation equipment;
 - (iii) electricity supply kiosk; and
 - (iv) control and instrumentation kiosks,
- (3) **Work No. 1C** – a switchyard / banking compound containing up to seven transformers, switchgear building and other plant required to manage the transmission of electricity,
- (4) **Work No. 1D**—
 - (a) security infrastructure, including cameras, perimeter fencing and a gatehouse;
 - (b) site lighting infrastructure, including perimeter lighting columns;
 - (c) internal roadways, car parking, pedestrian network, cycle parking, hardstanding and water treatment trailers;
 - (d) site drainage, attenuation pond and waste management infrastructure;
 - (e) electricity, water, wastewater and telecommunications and other services;
 - (f) landscaping including tree planting, fencing and other boundary treatments and ecological mitigation;
 - (g) high voltage and low voltage cabling, equipment and controls and associated telemetry and electrical protection auxiliary cabling;
 - (h) underground gas pipeline connection, associated telemetry and cathodic protection test / transformer rectifier unit;
 - (i) other ancillary equipment; and

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (j) new means of accesses from Potash Lane including permanent road surface, drainage, gates and fencing,

Work No. 2—

- (a) a maintenance compound including new hardstanding,
- (b) landscaping including tree planting, fencing and other boundary treatments; and
- (c) site drainage,

Associated development within the meaning of section 115(2) of the 2008 Act in connection with the nationally significant infrastructure project referred to in Work No. 1 comprising—

Work No. 3A—

- (a) an above ground installation (also referred to as a minimum offtake connection compound) containing—
 - (i) a minimum offtake connection comprising remotely operable valves, control and instrumentation kiosks and electrical supply kiosks;
 - (ii) a pipeline inspection gauge (PIG) facility, comprising a PIG launching facility, emergency control valves, isolation valves, control and instrumentation kiosks, and electricity supply kiosks;
- (b) security infrastructure, including cameras, lighting (including perimeter lighting columns) and perimeter fencing;
- (c) site drainage and waste management infrastructure;
- (d) electricity and telecommunications connections and other services;
- (e) below ground sacrificial anode pit; and
- (f) landscaping including tree planting, fencing and other boundary treatments and ecological mitigation,

Work No. 3B – new means of access between Potash Lane and numbered work 3A, including signing and road markings works, permanent road surface, gates, fencing, drainage, infilling, landscaping and tree and hedge removal and other incidental works,

Work No. 4—

- (a) a new underground gas pipeline connection and telemetry cabling, approximately 1.7 km in length connecting the natural gas receiving station and gas treatment compound in Work No. 1B to Work No. 3A;
- (b) pipeline field marker posts and cathodic protection test/ transformer rectifier unit;
- (c) below ground drainage works;
- (d) tree and hedge removal; and

landscaping including tree planting, fencing and other boundary treatments and ecological mitigation.

Work No. 5—

- (a) 400 kV substation and site office and welfare accommodation;
- (b) 400 kV cable sealing end compound;
- (c) underground high voltage electrical cables and associated telemetry and electrical protection auxiliary cabling;
- (d) security infrastructure including perimeter fencing with gates, security cameras and site lighting;

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (e) landscaping including bunds, tree planting, fencing and other boundary treatments and ecological mitigation;
- (f) site drainage and waste management infrastructure; and
- (g) internal roadways, car parking, pedestrian network and hardstanding for planned maintenance.

Work No. 6—

- (a) an underground 400 kV electrical cable circuit and associated telemetry and electrical protection auxiliary cabling, approximately 1.6 km in length; and
- (b) joint bays in relation to Work No. 6a.

Work No. 7 – new means of access between Work No. 5 and the A140 including road widening, new turning lane, signing and road markings works, permanent road surface, gates, fencing, drainage, infilling, landscaping and tree and hedge removal and other incidental works,

In connection with Works No. 1 to 7, and to the extent that they do not otherwise form part of any such works, further associated development comprising such other works or operations as may be necessary or expedient for the purposes of or in connection with the construction, operation and maintenance of the works in this Schedule whether or not shown on the plans referred to in the Requirements falling within the scope of the works assessed in the environmental statement.

SCHEDULE 2

Article 3

REQUIREMENTS

Time limits

1. The authorised development shall commence no later than the expiration of 5 years from the date this Order comes into force.

Numbered Works

2. Where these Requirements refer to numbered work 1 or numbered work 3, such reference is to be taken to mean numbered works 1A to 1D (inclusive) and numbered works 3A and 3B respectively.

Detailed Design

3.—(1) The authorised development must be carried out in accordance with the approved plans in Table 1, inclusive of any limits of deviation, bearing the references listed below and any other plans, drawings, documents, details, schemes, statements or strategies which are approved by the relevant planning authority pursuant to any Requirement (as the same may be amended by approval of the relevant planning authority pursuant to Requirement 22(1)).

(2) In this paragraph “AOD” means above ordnance datum;

Table 1

Works Plans
Rights of Way, Streets and Access Plan

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(3) The authorised development must be carried out in accordance with the parameters specified in Table 2 below (as the same may be amended by approval of the relevant planning authority pursuant to Requirement 22(1)).

Table 2

<i>Building or structure</i>	<i>Maximum height (metres above existing site level of approximately 48.5 metres AOD)</i>	<i>Minimum height (metres above existing site level of approximately 48.5 metres AOD)</i>	<i>Maximum length (metres)</i>	<i>Minimum length (metres)</i>	<i>Maximum width (metres)</i>	<i>Minimum width (metres)</i>
Each gas turbine generator (where one or two gas turbine generators are constructed) (part of numbered work 1A)	19.0	–	30.0	–	30.0	–
Each gas turbine generator (where three, four or five gas turbine generators are constructed) (part of numbered work 1A)	10.0	–	36.0	–	23.0	–
Each exhaust gas emission flue stack (where one or two gas turbine generators are constructed) (part of numbered work 1A)	30.0	25.0	–	–	8.4	–
Each exhaust gas emission flue stack (where three, four or five	30.0	25.0	–	–	6.0	–

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Building or structure</i>	<i>Maximum height (metres above existing site level of approximately 48.5 metres AOD)</i>	<i>Minimum height (metres above existing site level of approximately 48.5 metres AOD)</i>	<i>Maximum length (metres)</i>	<i>Minimum length (metres)</i>	<i>Maximum width (metres)</i>	<i>Minimum width (metres)</i>
gas turbine generators are constructed) (part of numbered work 1A)						
Control room/ office/ workshop (part of numbered work 1B)	6.0	–	29.0	–	23.0	–
Black start diesel generator (part of numbered work 1B)	5.0	–	13.0	–	5.0	–
Raw/fire water tank (part of numbered work 1B)	11.0	–	11.0	–	11.0	–
Demineralised water tank (part of numbered work 1B)	2.0	–	2.0	–	2.0	–
Gas receiving station (part of numbered work 1B)	3.0	–	50.0	–	46.0	–
Switchyard / banking compound (numbered work 1C)	11.3	–	60	–	60	–
Switchgear Building (part of numbered work 1C)	11.3	–	21.0	–	15.0	–

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Building or structure</i>	<i>Maximum height (metres above existing site level of approximately 48.5 metres AOD)</i>	<i>Minimum height (metres above existing site level of approximately 48.5 metres AOD)</i>	<i>Maximum length (metres)</i>	<i>Minimum length (metres)</i>	<i>Maximum width (metres)</i>	<i>Minimum width (metres)</i>
Gatehouse (part of numbered work 1D)	4.5	–	9.0	–	8.0	–
Above ground installation (numbered work 3A)	3.0	–	72.0	–	52.0	–
Pipeline inspection gauge facility (part of numbered work 3A)	2.0	–	36.0	–	27.0	–
Minimum offtake connection (part of numbered work 3A)	2.0	–	36.0	–	25.0	–
Sealing end compound (part of numbered work 5)	12	–	22.0	–	45.0	–
Substation: (gas insulated substation) – (maximum compound size) (part of numbered work 5)	12	–	80.0	–	100.0	–
(gas insulated substation) – (indoor switchgear hall) (part	12	–	21.0	–	62.0	–

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Building or structure</i>	<i>Maximum height (metres above existing site level of approximately 48.5 metres AOD)</i>	<i>Minimum height (metres above existing site level of approximately 48.5 metres AOD)</i>	<i>Maximum length (metres)</i>	<i>Minimum length (metres)</i>	<i>Maximum width (metres)</i>	<i>Minimum width (metres)</i>
of numbered work 5)						

(4) To the extent that design principles for any numbered work are set out in the design principles statement, that numbered work must be designed in accordance with the relevant design principle set out therein.

(5) Except to the extent approved pursuant to Requirement 6, numbered works 1, 2, 3 and 5 shall not commence until, for that numbered work, details of the layout, scale and external appearance of the numbered work have been submitted to and approved by the relevant planning authority.

(6) In respect of numbered work 6a, the undertaker must utilise horizontal directional drilling as the installation method where the numbered work crosses the A140.

(7) No part of numbered work 6a must commence until a method statement detailing measures to protect the integrity of the A140 from horizontal directional drilling or activities associated therewith has been submitted to and approved by the highway authority. The method statement must be implemented as approved.

Provision of landscaping

4. No part of the authorised development shall commence until a written landscaping plan for each numbered work has been submitted to and approved by the relevant planning authority. The landscaping plan must include details of all proposed hard and soft landscaping works and be substantially in accordance with the landscaping mitigation proposals set out in the outline landscaping plans and the landscape mitigation strategy, and include details of—

- (a) location, number, species, size and planting density of any proposed planting including details of any proposed tree planting and the proposed times of such planting, and details of protection measures including guards, stakes and deer fencing;
- (b) cultivation, importing of materials and other operations to ensure plant establishment;
- (c) bunds and proposed finished ground levels;
- (d) hard surfacing materials;
- (e) vehicular and pedestrian access, parking and circulation areas;
- (f) minor structures, such as furniture, refuse or other storage units, signs and lighting;
- (g) measures for the management of the ecological resources that will remain within the Order land on completion of the authorised development;
- (h) implementation timetables for all landscaping works; and
- (i) a scheme of landscape maintenance for the life of the authorised development (to include an aftercare protocol providing for joint annual inspections by the relevant planning authority and the undertaker for a period of ten years from the implementation dates as agreed pursuant to Requirement 5(2)).

Implementation and maintenance of landscaping

5.—(1) All landscaping works must be carried out in accordance with the landscaping plan approved under Requirement 4 in accordance with the relevant recommendations of appropriate British Standards or other recognised codes of good practice.

(2) The landscaping works must be implemented in accordance with implementation timetables approved in the landscaping plan under regulation 4.

(3) Any tree or shrub planted as part of an approved landscaping scheme that, within a period of five years (save in relation to numbered works 1 and 5 which is to be seven years) after planting, is removed, dies or becomes, in the opinion of the relevant planning authority, seriously damaged or diseased, must be replaced in the first available planting season with a specimen of the same species and size as that originally planted, unless otherwise approved by the relevant planning authority.

Highway accesses

6.—(1) No authorised development comprised in numbered works 1, 3 and 7 shall commence until for that numbered work, written details of the siting, design and layout (to the extent either not provided as part of or differing from, the details contained in Schedule 1, the works plans or the rights of way, streets and access plan) of any new permanent or temporary means of access to a highway to be used by vehicular traffic (including those identified in Schedule 3), or any alteration to an existing means of access to a highway used by vehicular traffic has been submitted to and approved by the relevant planning authority (in consultation with the highway authority).

(2) The highway accesses must be constructed in accordance with the approved details and in accordance with the drawing at Appendix A and Appendix B to the outline construction traffic management plan.

(3) Prior to the date of final commissioning, a reinstatement plan for those elements of numbered work 7 which enable connectivity between Old Norwich Road and the A140 must be submitted to and approved by the relevant planning authority, in consultation with the highway authority. The reinstatement plan must include—

- (a) measures to reinstate the A140 carriageway to its pre-construction condition; and
- (b) a landscaping plan showing how the land outside the A140 carriageway will be reinstated.

(4) The reinstatement plan must be implemented as approved.

Fencing and other means of enclosure

7.—(1) No authorised development comprised in numbered works 1, 3 and 5 shall be commenced until written details of all proposed permanent and temporary fences, walls or other means of enclosure for that numbered work have been submitted to and approved by the relevant planning authority.

(2) Any construction sites must remain securely fenced at all times during construction of the authorised development.

(3) Any temporary fencing must be removed within three months of the completion of the authorised development.

(4) The details approved pursuant to this requirement must be implemented.

Surface and foul water drainage

8.—(1) No authorised development comprised in numbered works 1, 2, 3, 5 and 7 shall be commenced until, for each numbered work, written details of the surface and foul water drainage strategy (including means of pollution control and measures designed to control surface water during

construction) for construction and operational phases of the project have been submitted to and approved by the relevant planning authority, in consultation with the Environment Agency, such strategy to be in accordance with the principles set out in Section 5 of the flood risk assessment.

(2) The surface and foul water drainage system must be constructed in accordance with the approved details before the operational phase of that part of the authorised development commences.

Archaeology

9.—(1) No part of the authorised development shall be commenced until for each numbered work a written scheme of archaeological investigation covering that numbered work has been submitted to and approved in writing by the relevant planning authority, in consultation with Suffolk County Council. The written scheme of archaeological investigation must be in accordance with the stage 2 written scheme of archaeological investigation.

(2) Following completion of the investigations set out in the approved written scheme of archaeological investigation and prior to the commencement of each of numbered works 1 to 7, a written scheme regarding archaeological mitigation measures for that numbered work must be submitted to and approved in writing by the relevant planning authority, in consultation with Suffolk County Council and must include the following—

- (a) an archaeological and historical background;
- (b) the rationale, programme and methodology of site investigation and recording;
- (c) the programme for post-investigation interpretation;
- (d) provision to be made for publication and dissemination of the results of the site investigation, including for public benefit and understanding, should the nature of the archaeology warrant it;
- (e) provision to be made for the deposition of the finds assemblage and the site archive;
- (f) provision to be made for a programme of excavation fieldwork and post-excavation assessment should significant archaeological remains be encountered, and where warranted post-excavation analysis; and
- (g) nomination of a competent person or persons/organisation with appropriate local / regional expertise to undertake the works set out within the written scheme of investigation.

(3) Any archaeological works must be carried out in accordance with the schemes approved pursuant to sub-paragraphs (1) and (2).

(4) Any site investigation and post-investigation interpretation must be completed for the relevant numbered works in accordance with the programme set out in the schemes approved pursuant to sub-paragraphs (1) and (2).

Ecological management plan

10.—(1) No part of the authorised development is to commence until, for that numbered work, a written ecological management plan substantially reflecting the ecological mitigation and enhancement measures and surveys set out in the ecological management strategy has been submitted to and approved by the relevant planning authority, in consultation with Natural England.

(2) The ecological management plan must include an implementation timetable and must be carried out as approved.

Construction Environment Management Plan

11.—(1) No part of the authorised development shall be commenced until a construction environment management plan covering that numbered work has been submitted to and approved by

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

the relevant planning authority, in consultation with the Environment Agency. The final construction environment management plan must be in accordance with the outline construction environment management plan and must include the following—

- (a) complaints procedures;
- (b) provision for setting up a Community Liaison Group;
- (c) nuisance management including measures to avoid or minimise the impacts of construction works (covering dust, noise and vibration);
- (d) waste management;
- (e) an assessment of the site specific risks to and mitigation measures designed to protect controlled waters (surface and groundwaters) including pollution incident control;
- (f) landscape and visual impact mitigation (specifically the protection of trees and hedgerows to be retained in accordance with BS 5837: 2012 (or its updates) and a scheme to minimise visual intrusion of the construction works);
- (g) security measures;
- (h) protocol in relation to unexploded ordnance;
- (i) save in respect of numbered work 1, a protocol in the event that unexpected contaminated land is identified during ground investigation or construction;
- (j) restoration of site following completion of construction;
- (k) the requirement for completion of a soil resources survey, details of methods for soil handling, storage and replacement during construction and details of the aftercare programme; and
- (l) a scheme of artificial lighting.

(2) All construction works must be undertaken in accordance with the approved construction environment management plan.

Land contamination

12.—(1) No part of authorised development comprised in numbered work 1 may commence until a written scheme (which may be included in the construction environment management plan) to deal with the contamination of any land, including groundwater, within the Order limits which is likely to cause significant harm to persons or significant pollution of controlled waters or ground waters or the environment has been submitted to and approved by the relevant planning authority in consultation with the Environment Agency.

(2) The scheme must include an investigation and assessment report, prepared by a specialist consultant approved by the relevant planning authority, to identify the extent of any contamination and a remediation strategy identifying the remedial measures to be taken, if required, to render the land fit for its intended purpose, together with a management plan (as necessary) which sets out long-term measures with respect to any contaminants remaining on the site and a verification plan outlining how achieving the remedial objectives will be demonstrated.

(3) Remediation, if required, must be carried out in accordance with the scheme approved under sub-paragraph (1).

(4) A verification report demonstrating completion of any remediation works and the effectiveness of the remediation must be submitted to and approved, in writing, by the local planning authority in consultation with the Environment Agency.

Construction traffic

13.—(1) No part of the authorised development may commence until a construction traffic management plan has been submitted to and approved by the relevant planning authority in consultation with the highway authority. The construction traffic management plan must be in accordance with the outline construction traffic management plan and must include the following—

- (a) construction vehicle routing plans;
- (b) details of a vehicle tracking system;
- (c) evidence of appropriate trial runs that demonstrate the suitability of the route from point of entry onto the trunk road network to the site for the proposed types of abnormal indivisible loads;
- (d) site access plans;
- (e) proposals for the management of junctions to and crossings of highways and other public rights of way;
- (f) proposals for the scheduling and timing of movements of delivery vehicles including details of abnormal indivisible loads;
- (g) details of escorts for abnormal indivisible loads;
- (h) proposals for temporary warning signs and banksman and escort details;
- (i) proposals for assessing the existing condition of affected highways;
- (j) details of any temporary or permanent improvements to highways;
- (k) proposals for the making good of any incidental damage to highways by construction traffic associated with the authorised development including street furniture, structures, drainage features, highway verge and carriageway surfaces; and
- (l) proposals for traffic management controls (such as temporary signals), diversion routes and signage required during any of the activities, operations or works associated with the creation or upgrading of any permanent or temporary means of access pursuant to this Order.

(2) The construction traffic management plan must be implemented as approved.

(3) During the operation or decommissioning of the generating station comprised in numbered work 1 no abnormal indivisible loads may be transported into or out of the site without the prior written approval of the relevant planning authority in consultation the highway authority.

Construction Travel Plan

14.—(1) No part of the authorised development may commence until a construction worker travel plan has been submitted to and approved by the relevant planning authority in consultation with the highway authority. The construction worker travel plan must be in accordance with the travel plan (other than the measures which relate to the operational phase).

(2) The construction worker travel plan must be carried out as approved.

Travel plan during operational phase

15.—(1) Prior to the date of final commissioning a written operational travel plan must be submitted to and approved by the relevant planning authority. The operational travel plan must be in accordance with the outline measures to propose sustainable transport during the operational phase set out in the travel plan (other than the measures which relate to the construction phase).

(2) The operational travel plan must be carried out as approved.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Construction hours

16.—(1) Subject to sub-paragraph (2) no construction work, or the delivery or removal of materials, may take place on any Sunday or public holiday and no construction work, or the delivery or removal of materials, may take place outside the hours of—

- (a) 0700 and 1900 hours on weekdays; and
- (b) 0700 and 1300 hours on Saturdays.

(2) Sub-paragraph (1) does not prevent construction works, or the delivery or removal of materials, being carried out on public holidays or outside the hours set out in sub-paragraph (1) with the prior written approval of the relevant planning authority.

(3) Nothing in sub-paragraph (1) precludes a start-up period from 0630 to 0700 and a shut down period from 1900 to 1930 on weekdays (excluding public holidays) and start-up period from 0630 to 0700 and a shut down period from 1300 to 1330 on a Saturday.

Control of noise during operational phase

17.—(1) Following the date of final commissioning of numbered work 1, site-attributable noise attributable to numbered work 1 during the operational phase must be limited to the noise levels set out below measured at the coordinates set out below—

Noise Limit Sound Pressure Level, LAeq, 5mins dB	Coordinates	
	X	Y
57	613272.4	275205.6
55	613214.4	275014.8
52	613131.2	275156.8

(2) Noise measurements at each of the identified locations must be undertaken in accordance with the equipment specifications, measurement procedures and monitoring equipment positioning guidelines outlined in sections 4, 5 and 6 (save for 6.3.5 and 6.3.6 which are not applicable) of BS 4142:1997. Measurements should be undertaken with the power plant running at base load. A single LAeq 5min measurement will be required at each identified location during the day, evening and night time periods identified as follows: daytime (0700hrs to 1900hrs), evening (1900hrs to 2300hrs) and night time (2300hrs to 0700hrs).

(3) Within three months of the date of final commissioning of numbered work 1, the undertaker must submit measurements to the relevant planning authority taken in the vicinity of the relevant locations specified at sub-paragraph (1) of this requirement, including details of any remedial works and a programme of implementation should the emissions exceed the levels specified at sub-paragraph (1) of this requirement.

Control of artificial light emissions during operational phase

18.—(1) Each of numbered works 1, 3 and 5 must not commence until, after consultation with the relevant planning authority, a written scheme for the management and mitigation of artificial light emissions for that numbered work which is in accordance with the outline lighting strategy has been submitted to and approved by the relevant planning authority.

(2) The approved scheme for the management and mitigation of artificial light emissions must be implemented before and maintained during the operation of the relevant numbered work.

European protected species

19.—(1) No part of the authorised development shall commence until further supplemental survey work identified in the ecological management strategy and ecological management plan for European protected species has been carried out covering that numbered work to establish whether European protected species are present.

(2) Where a European protected species is shown to be present, no authorised development of that numbered work may be begun until, after consultation with Natural England, a scheme of protection and mitigation measures has been submitted to and approved by the relevant planning authority and the authorised development must be carried out in accordance with the approved scheme.

(3) “European protected species” has the same meaning as in regulations 40 and 44 of the Conservation of Habitats and Species Regulations 2010(1).

Operation of the authorised development

20.—(1) In any calendar year the operation of the gas turbine generators comprised in numbered work 1A shall not exceed 1500 hours in total.

(2) Within three months of the end of a calendar year, the undertaker must submit a written report to the relevant planning authority detailing the actual total number of hours of operation of the gas turbine generators comprised in numbered work 1A.

(3) For the purposes of this requirement, “operation of the gas turbine generators” means the duration in which any energy is exported at the settlement metering point, being the point at which a supply to the transmission system from the authorised development is measured.

Decommissioning strategy

21.—(1) Subject to obtaining the necessary consents, unless otherwise agreed with the relevant planning authority, within twenty four months of the site ceasing to be used for the purposes of electricity generation (either actively generating electricity or being available to generate electricity on a standby basis), a scheme for the demolition and removal of numbered works 1, 2, 3, 5 and any other un-numbered works carried out as necessary or expedient for the purposes of those numbered works must be submitted to the relevant planning authority.

(2) The demolition and removal of works must be implemented in accordance with the approved scheme.

(3) On the one year anniversary of the site ceasing to be used for the purposes of electricity generation (either actively generating electricity or being available to generate electricity on a standby basis) the undertaker must notify the relevant planning authority of the same.

Amendments to approved details

22.—(1) With respect to the approved plans specified in Requirement 3(1), the parameters specified in Requirement 3(3) and any other plans, details or schemes which require approval by the relevant planning authority pursuant to any other Requirement (the “Approved Plans, Parameters, Details or Schemes”), the undertaker may submit to the relevant planning authority for approval any amendments to the Approved Plans, Parameters, Details or Schemes and following any such approval by the relevant planning authority the Approved Plans, Parameters, Details or Schemes are to be taken to include the amendments approved pursuant to this sub-paragraph.

(2) Approval under sub-paragraph (1) for amendments to the parameters identified in Requirement 3(3) above must not be given except where it has been demonstrated to the satisfaction of the relevant planning authority that the subject-matter of the approval sought does not give rise to

(1) [S.I. 2010/490](#). There are amendments to these Regulations which are not relevant to this Order.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

any materially new or materially different environmental effects in comparison with the authorised development as approved (as identified in the environmental statement).

Date of final commissioning and cessation

23.—(1) The undertaker must notify the relevant planning authority of the date of final commissioning as soon as reasonably practicable and in any event within three months after the occurrence of that date.

(2) The undertaker must notify the relevant planning authority of the date the authorised development permanently ceases to generate power on a commercial basis as soon as reasonably practicable and in any event within three months after the occurrence of that date.

SCHEDULE 3

Articles 9 and 13

STREETS SUBJECT TO PERMANENT AND TEMPORARY ALTERATION OF LAYOUT

PART 1

PERMANENT ALTERATION OF LAYOUT

<i>(1)</i> Area	<i>(2)</i> Street subject to alteration of layout	<i>(3)</i> Description of alteration
In the District of Mid Suffolk	Potash Lane	The lowering of the levels of the kerb between the points marked A and B on the rights of way, streets and access plan to provide permanent access to numbered work 3A.
In the District of Mid Suffolk	Old Norwich Road	Creation of new access comprising part of numbered work 7 including the lowering of the levels of the kerb between the points marked M and N on the rights of way, streets and access plan to provide permanent access to numbered work 5.
In the District of Mid Suffolk	Access Road Serving Yaxley Lake	Upgrading of the existing access comprising part of numbered work 7 between the points marked O1 and P on the rights of way, streets and access plan to provide permanent access to numbered work 5.
In the District of Mid Suffolk	Leys Lane	Works to facilitate the creation of a new access comprising part of numbered work 7 between the points marked Q and R on the rights of way, streets and access plan to provide permanent access to numbered work 5.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

PART 2

TEMPORARY ALTERATION OF LAYOUT

<i>(1)</i> <i>Area</i>	<i>(2)</i> <i>Street subject to alteration of layout</i>	<i>(3)</i> <i>Description of alteration</i>
In the District of Mid Suffolk	Potash Lane	The lowering of the levels of the kerb between the points marked B and C on the rights of way, streets and access plan to provide temporary access to numbered work 3 during construction.
In the District of Mid Suffolk	A140	Creation of new access comprising part of numbered work 7 including the lowering of the levels of the kerb between the points marked K and L on the rights of way, streets and access plan to provide temporary access to numbered work 5 during construction.

SCHEDULE 4

Article 10

STREETS SUBJECT TO STREET WORKS

<i>(1)</i> <i>Area</i>	<i>(2)</i> <i>Street subject to street works</i>	<i>(3)</i> <i>Description of the street works</i>
In the District of Mid Suffolk	Potash Lane	Works for numbered work 3B including installation of drainage between the points marked A and B on the rights of way, streets and access plan.
In the District of Mid Suffolk	Part of disused runway complex	Works for numbered work 4 to be installed within that part of the disused runway complex between the points marked D and E on the rights of way, streets and access plan.
In the District of Mid Suffolk	Part of disused runway complex	Works for numbered works 4 and/or 6 to be installed within that part of the disused runway complex between the points marked H and I on the rights of way, streets and access plan.
In the District of Mid Suffolk	A140	Works for the provision of a new temporary access during construction comprising part of numbered work 7 between the points marked K and L on the rights of way, streets and access plan.
In the District of Mid Suffolk	Old Norwich Road	Works for the provision of a new permanent access comprising part of numbered work 7 between the points marked M and N on the rights of way, streets and access plan.
In the District of Mid Suffolk	Access Road Serving Yaxley Lake	Works for the provision of a new permanent access comprising part of numbered work 7 between the points

		marked O1 and P on the rights of way, streets and access plan.
In the District of Mid Suffolk	Leys Lane	Works for numbered work 6 to be installed in the street between the points marked Q and R on the rights of way, streets and access plan.
In the District of Mid Suffolk	Potash Lane	Works for numbered works 4 and 6 to be installed in the street between the points marked T and U on the rights of way, streets and access plan.
In the District of Mid Suffolk	Footpaths numbered W-583/009/0 and W 239/015/0	Works for numbered works 4 and 6 to be installed in the street between the points marked V and W on the rights of way, streets and access plan.

SCHEDULE 5

Article 12

TEMPORARY PROHIBITION OR RESTRICTION OF THE USE OF STREETS

<i>(1) Area</i>	<i>(2) Street subject to temporary prohibition or restriction of use</i>	<i>(3) Extent of temporary prohibition or restriction of use of streets</i>
In the District of Mid Suffolk	Potash Lane	Prohibition/Restriction: From the points marked A to B on the rights of way, streets and access plan, being approximately 30 metres. Purpose of the Prohibition/Restriction: Temporary closure of part of the street to cover numbered work 3B providing access to 3A.
In the District of Mid Suffolk	Potash Lane	Prohibition/Restriction: From the points marked B to C on the rights of way, streets and access plan, being approximately 56 metres. Purpose of the Prohibition/Restriction: Temporary closure of part of the street to provide a temporary access to numbered work 3.
In the District of Mid Suffolk	Part of disused runway complex	Prohibition/Restriction:

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>(1)</i> Area	<i>(2)</i> Street subject to temporary prohibition or restriction of use	<i>(3)</i> Extent of temporary prohibition or restriction of use of streets
		<p>From the points marked D to F on the rights of way, streets and access plan being approximately 51 metres.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>Temporary closure of part of the street to cover numbered work 4 crossing and being installed.</p>
In the District of Mid Suffolk	Potash Lane	<p>Prohibition/Restriction:</p> <p>From the points marked G to J1 on the rights of way, streets and access plan being approximately 96 metres.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>Temporary closure of part of the street to cover numbered works 4 and 6 crossing and being installed.</p>
In the District of Mid Suffolk	Part of disused runway complex	<p>Prohibition/Restriction:</p> <p>From the points marked J1 to J2 on the rights of way, streets and access plan being approximately metres.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>Temporary closure of part of the street to cover numbered works 4 and 6 crossing and being installed.</p>
In the District of Mid Suffolk	A140	<p>Prohibition/Restriction:</p> <p>From the points marked K to L on the rights of way, streets and access plan being approximately 598 metres.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>Temporary closure of part of the street to cover part of numbered work 7 providing access to numbered work 5.</p>
In the District of Mid Suffolk	A140	<p>Prohibition/Restriction:</p> <p>From the points marked K to L on the rights of way, streets and access plan being approximately 598 metres.</p> <p>Purpose of the Prohibition/Restriction:</p>

<i>(1)</i> Area	<i>(2)</i> Street subject to temporary prohibition or restriction of use	<i>(3)</i> Extent of temporary prohibition or restriction of use of streets
		Temporary closure of part of the street to cover the reinstatement of part of numbered work 7 providing access to numbered work 5.
In the District of Mid Suffolk	Old Norwich Road	<p>Prohibition/Restriction:</p> <p>From the points marked M to N on the rights of way, streets and access plan being approximately 143 metres.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>Temporary closure of part of the street to cover part of numbered work 7 providing access to numbered work 5.</p>
In the District of Mid Suffolk	Access Road Serving Yaxley Lake	<p>Prohibition/Restriction:</p> <p>From the points marked O1 to P on the rights of way, streets and access plan being approximately 190 metres.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>Temporary closure of part of the street to cover part of numbered work 7 providing access to numbered work 5.</p>
In the District of Mid Suffolk	Leys Lane	<p>Prohibition/Restriction:</p> <p>From the points marked Q to R on the rights of way, streets and access plan being approximately 20 metres.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>Temporary closure of part of the street to cover numbered work 6 being installed in the street.</p>
In the District of Mid Suffolk	Potash Lane	<p>Prohibition/Restriction:</p> <p>From the points marked S to T on the rights of way, streets and access plan being approximately 23 metres.</p> <p>Purpose of the Prohibition/Restriction:</p>

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>(1)</i> Area	<i>(2)</i> Street subject to temporary prohibition or restriction of use	<i>(3)</i> Extent of temporary prohibition or restriction of use of streets
		Temporary closure of part of the street for temporary works associated with numbered works 4 and 6 being installed in the street.
In the District of Mid Suffolk	Potash Lane	<p>Prohibition/Restriction:</p> <p>From the points marked T to U on the rights of way, streets and access plan being approximately 227 metres.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>Temporary closure of part of the street to cover numbered works 4 and 6 being installed in the street.</p>
In the District of Mid Suffolk	Footpaths numbered W-583/009/0 and W 239/015/0	<p>Prohibition/Restriction:</p> <p>From the points marked V to W on the rights of way, streets and access plan being approximately 77 metres.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>Partially restrict the footpath to cover numbered works 4 and 6 being installed in the street and to facilitate the creation of numbered work 2.</p>
In the District of Mid Suffolk	Castleton Way	<p>Prohibition/Restriction:</p> <p>At a distance of no greater than 30 metres along Castleton Way and no more than 15 metres along Potash Lane at the Castleton Way/Potash Lane junction.</p> <p>Purpose of the Prohibition/Restriction:</p> <p>To manage articulated vehicles, with the use of 4 banksmen, during construction from accessing and exiting Potash Lane.</p>

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

SCHEDULE 6

Article 11

ACCESS

PART 1

THOSE PARTS OF THE ACCESSES TO BE
MAINTAINED AT THE PUBLIC EXPENSE

<i>(1)</i> <i>Location</i>	<i>(2)</i> <i>Street</i>	<i>(3)</i> <i>Description of relevant part of access</i>
In the District of Mid Suffolk	A140	The new access constituting part of numbered work 7 and shown on the rights of way, streets and access plan hatched blue between points K and L.
In the District of Mid Suffolk	A140	The reinstated access pursuant to requirement 6(3) and shown on the rights of way, streets and access plan hatched blue between points K and L.
In the District of Mid Suffolk	Old Norwich Road	The new access constituting part of numbered work 7 and shown on the rights of way, streets and access plan hatched blue between points M and N.

PART 2

THOSE PARTS OF THE ACCESSES TO BE
MAINTAINED BY THE STREET AUTHORITY

<i>(1)</i> <i>Location</i>	<i>(2)</i> <i>Street</i>	<i>(3)</i> <i>Description of access</i>
In the District of Mid Suffolk	Potash Lane	The new access constituting numbered work 3B and shown on the rights of way, streets and access plan hatched red between points A and B.
In the District of Mid Suffolk	A140	The new access constituting part of numbered work 7 and shown on the rights of way, streets and access plan hatched red between points K and L.
In the District of Mid Suffolk	Old Norwich Road	The new access constituting part of numbered work 7 and shown on the rights of way, streets and access plan hatched red between points M and N.
In the District of Mid Suffolk	Access Road Serving Yaxley Lake	The new access constituting part of numbered work 7 and shown on the rights of way, streets and access plan hatched red between points O1 and P.
In the District of Mid Suffolk	Means of access	The new access constituting part of numbered work 7 and shown on the rights of way, streets and access plan hatched red between points P and O2.

PART 3
THOSE WORKS TO RESTORE TEMPORARY ACCESSES
WHICH WILL BE MAINTAINED BY THE STREET AUTHORITY

<i>(1)</i> <i>Location</i>	<i>(2)</i> <i>Street</i>	<i>(3)</i> <i>Description of relevant part of access</i>
In the District of Mid Suffolk	Potash Lane	Those areas between the points marked B and C on the rights of way, streets and access plan hatched red.

SCHEDULE 7

Article 21

**MODIFICATION OF COMPENSATION AND COMPULSORY
PURCHASE ENACTMENTS FOR CREATION OF NEW RIGHTS**

Compensation enactments

1. The enactments for the time being in force with respect to compensation for the compulsory purchase of land apply, with the necessary modifications as respects compensation, in the case of a compulsory acquisition under this Order of a right by the creation of a new right as they apply as respects compensation on the compulsory purchase of land and interests in land.

2.—(1) Without prejudice to the generality of paragraph 1, the Land Compensation Act 1973(2) has effect subject to the modifications set out in sub-paragraph (2) and (3).

(2) In section 44(1) (compensation for injurious affection), as it applies to compensation for injurious affection under section 7 of the 1965 Act as substituted by paragraph 4—

- (a) for the words “land is acquired or taken” there are substituted the words “a right or restrictive covenant over land is purchased from or imposed on”; and
- (b) for the words “acquired or taken from him” there are substituted the words “over which the right is exercisable or the restrictive covenant enforceable”.

(3) In section 58(1) (determination of material detriment where part of house etc. proposed for compulsory acquisition), as it applies to determinations under section 8 of the 1965 Act as substituted by paragraph 5—

- (a) for the word “part” in paragraphs (a) and (b) there are substituted the words “a right over or restrictive covenant affecting land consisting”;
- (b) for the word “severance” there are substituted the words “right or restrictive covenant over or affecting the whole of the park or garden”;
- (c) for the words “part proposed” there are substituted the words “right or restrictive covenant proposed”; and
- (d) for the words “part is” there are substituted the words “right or restrictive covenant is”.

Application of the 1965 Act

3.—(1) The 1965 Act has effect with the modifications necessary to make it apply to the compulsory acquisition under this Order of a right by the creation of a new right, or to the imposition

(2) 1973 c.26.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

under this Order of a restrictive covenant, as it applies to the compulsory acquisition under this Order of land, so that, in appropriate contexts, references in that Act to land are read (according to the requirements of the particular context) as referring to, or as including references to—

- (a) the right acquired or to be acquired; or
- (b) the land over which the right is or is to be exercisable.

(2) Without prejudice to the generality of sub-paragraph (1), Part 1 of the 1965 Act applies in relation to the compulsory acquisition under this Order of a right by the creation of a new right with the modifications specified in the following provisions of this Schedule.

4. For section 7 of the 1965 Act (measure of compensation) there is substituted the following section—

“7. In assessing the compensation to be paid by the acquiring authority under this Act, regard must be had not only to the extent (if any) to which the value of the land over which the right is to be acquired or the restrictive covenant is to be imposed is depreciated by the acquisition of the right or the imposition of the covenant but also to the damage (if any) to be sustained by the owner of the land by reason of its severance from other land of the owner, or injuriously affecting that other land by the exercise of the powers conferred by this or the special Act.”

5. For section 8 of the 1965 Act (provisions as to divided land) there is substituted the following section—

“8.—(1) Where in consequence of the service on a person under section 5 of this Act of a notice to treat in respect of a right over land consisting of a house, building or manufactory or of a park or garden belonging to a house (“the relevant land”)—

- (a) a question of disputed compensation in respect of the purchase of the right or the imposition of the restrictive covenant would apart from this section fall to be determined by the Upper Tribunal (“the tribunal”); and
- (b) before the tribunal has determined that question the tribunal is satisfied that the person has an interest in the whole of the relevant land and is able and willing to sell that land and—
 - (i) where that land consists of a house, building or manufactory, that the right cannot be purchased or the restrictive covenant imposed without material detriment to that land; or
 - (ii) where the land consists of such a park or garden, that the right cannot be purchased or the restrictive covenant imposed without seriously affecting the amenity or convenience of the house to which that land belongs,

the Progress Power (Gas Fired Power Station) Order 2015 (“the Order”) ceases, in relation to that person, to authorise the purchase of the right and be deemed to authorise the purchase of that person’s interest in the whole of the relevant land including, where the land consists of such a park or garden, the house to which it belongs, and the notice is deemed to authorise the purchase of that person’s interest in the whole of the relevant land including, where the land consists of such a park or garden, the house to which it belongs, and the notice is deemed to have been served in respect of that interest on such date as the tribunal directs.

(2) Any question as to the extent of the land in which the Order is deemed to authorise the purchase of an interest by virtue of subsection (1) of this section must be determined by the tribunal.

(3) Where in consequence of a determination of the tribunal that it is satisfied as mentioned in subsection (1) of this section the Order is deemed by virtue of that subsection to authorise the purchase of an interest in land, the acquiring authority may, at any time

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

within the period of 6 weeks beginning with the date of the determination, withdraw the notice to treat in consequence of which the determination was made; but nothing in this subsection prejudices any other power of the authority to withdraw the notice.”.

6. The following provisions of the 1965 Act (which state the effect of a deed poll executed in various circumstances where there is no conveyance by persons with interests in the land), that is to say—

- (a) section 9(4) (failure by owners to convey);
- (b) paragraph 10(3) of Schedule 1 (owners under incapacity);
- (c) paragraph 2(3) of Schedule 2 (absent and untraced owners); and
- (d) paragraphs 2(3) and 7(2) of Schedule 4 (common land),

are so modified as to secure that, as against persons with interests in the land which are expressed to be overridden by the deed, the right which is to be compulsorily acquired or the restrictive covenant which is to be imposed is vested absolutely in the acquiring authority.

7. Section 11 of the 1965 Act (powers of entry) is modified as to secure that, as from the date on which the acquiring authority has served notice to treat in respect of any right it has power, exercisable in equivalent circumstances and subject to equivalent conditions, to enter for the purpose of exercising that right or enforcing that restrictive covenant (which is deemed for this purpose to have been created on that date of service of the notice); and sections 12 (penalty for unauthorised entry) and 13 (entry on warrant in the event of obstruction) of the 1965 Act are modified correspondingly.

8. Section 20 of the 1965 Act (protection for interests of tenants at will, etc.) applies with the modifications necessary to secure that persons with such interests in land as are mentioned in that section are compensated in a manner corresponding to that in which they would be compensated on a compulsory acquisition under this Order of that land, but taking into account only the extent (if any) of such interference with such an interest as is actually caused, or likely to be caused, by the exercise of the right or the enforcement of the restrictive covenant in question.

9. Section 22 of the 1965 Act (protection of acquiring authority’s possession where by inadvertence an estate, right or interest has not been got in) is modified as to enable the acquiring authority, in circumstances corresponding to those referred to in that section, to continue to be entitled to exercise the right acquired, subject to compliance with that section as respects compensation.

SCHEDULE 9

Article 36

PROTECTIVE PROVISIONS

PART 1

FOR THE PROTECTION OF NATIONAL GRID

Application

1. For the protection of National Grid as referred to in this Part of this Schedule the following provisions shall, unless otherwise agreed in writing between the undertaker and National Grid, have effect.

Interpretation

2. In this Part of this Schedule—

“alternative apparatus” means appropriate alternative apparatus to the satisfaction of National Grid to enable National Grid to fulfil its statutory functions in a manner no less efficient than previously;

“apparatus” means—

- (a) electric lines or electrical plant as defined in the Electricity Act 1989(3), belonging to or maintained by National Grid;
- (b) mains, pipes or other apparatus belonging to or maintained by National Grid for the purposes of gas supply;

(3) 1989 c.29.

“authorised development” has the same meaning as in article 2 (interpretation) of this Order and (unless otherwise specified) for the purposes of this Schedule shall include the use and maintenance of the authorised development;

“commence” has the same meaning as under section 56 of the 1990 Act and means the earliest date on which any material operation comprised in the authorised development begins to be carried out and commencement shall be construed to have the same meaning;

“functions” includes powers and duties;

“in” in a context referring to apparatus or alternative apparatus in land includes a reference to apparatus or alternative apparatus under, over, across, along or upon such land;

“National Grid” means either—

(a) National Grid Electricity Transmission PLC (Company No. 2366977) whose registered office is at 1-3 Strand, London, WC2N 5EH; or

(b) National Grid Gas PLC (Company No. 200600) whose registered office is at 1-3 Strand, London, WC2N 5EH,

as the context shall require;

“plan” or “plans” include all designs, drawings, specifications, method statements, soil reports, programmes, calculations, risk assessments and other documents that are reasonably necessary properly and sufficiently to describe and assess the works to be executed.

3. Except for paragraphs 4 (apparatus in streets subject to temporary prohibition or restriction), 8, 9 (retained apparatus: protection), 10 (expenses) and 11 (indemnity) this Schedule does not apply to apparatus in respect of which the relations between the undertaker and National Grid are regulated by the provisions of Part 3 of the 1991 Act.

Apparatus of National Grid in streets subject to temporary prohibition or restriction

4. Notwithstanding the temporary prohibition or restriction under the powers of article 12 (temporary prohibition or restriction of use of streets), National Grid shall be at liberty at all times to take all necessary access across any such street and/or to execute and do all such works and things in, upon or under any such street as may be reasonably necessary or desirable to enable it to maintain any apparatus which at the time of the prohibition or restriction was in that street.

Acquisition of land

5.—(1) Regardless of any provision in this Order or anything shown on the land plans or contained in the book of reference to the Order the undertaker must not acquire any land interest or apparatus or override any easement or other interest of National Grid otherwise than by agreement (such agreement not to be unreasonably withheld).

(2) The undertaker and National Grid agree that where there is any inconsistency or duplication between the provisions set out in this Schedule relating to the relocation and/or removal of apparatus (including but not limited to the payment of costs and expenses relating to such relocation and/or removal of apparatus) and the provisions of any existing easement, rights, agreements and licences granted, used, enjoyed or exercised by National Grid as of right or other use in relation to the apparatus then the provisions in this Schedule shall prevail.

Removal of apparatus

6.—(1) If, in the exercise of the agreement reached in accordance with sub-paragraph (5) or in any other authorised manner, the undertaker acquires any interest in any land in which any apparatus is placed, that apparatus must not be removed under this Part of this Schedule and any right of National Grid to maintain that apparatus in that land shall not be extinguished until alternative apparatus has

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

been constructed, and is in operation to the reasonable satisfaction of National Grid in accordance with sub-paragraphs (2) to (5) inclusive.

(2) If, for the purpose of executing any works comprised in the authorised development in, on, under or over any land purchased, held, appropriated or used under this Order, the undertaker requires the removal of any apparatus placed in that land, it must give to National Grid 56 days' advance written notice of that requirement, together with a plan of the work proposed, and of the proposed position of the alternative apparatus to be provided or constructed and in that case (or if in consequence of the exercise of any of the powers conferred by this Order National Grid reasonably needs to remove any of its apparatus) the undertaker shall, subject to sub-paragraph (3), afford to National Grid to their satisfaction (taking into account paragraph 7 sub-paragraph (1) below) the necessary facilities and rights for—

- (a) the construction of alternative apparatus in other land of the undertaker; and
- (b) subsequently for the maintenance of that apparatus.

(3) If alternative apparatus or any part of such apparatus is to be constructed elsewhere than in other land of the undertaker, or the undertaker is unable to afford such facilities and rights as are mentioned in sub-paragraph (2), in the land in which the alternative apparatus or part of such apparatus is to be constructed, National Grid must, on receipt of a written notice to that effect from the undertaker, take such steps as are reasonable in the circumstances in an endeavour to obtain the necessary facilities and rights in the land in which the alternative apparatus is to be constructed save that this obligation shall not extend to the requirement for National Grid to use its compulsory purchase powers to this end unless it elects to so do.

(4) Any alternative apparatus to be constructed in land of the undertaker under this Part of this Schedule shall be constructed in such manner and in such line or situation as may be agreed between National Grid and the undertaker.

(5) National Grid must, after the alternative apparatus to be provided or constructed has been agreed, and subject to the grant to National Grid of any such facilities and rights as are referred to in sub-paragraph (2) or (3), proceed without unnecessary delay to construct and bring into operation the alternative apparatus and subsequently to remove any apparatus required by the undertaker to be removed under the provisions of this Part of this Schedule.

Facilities and rights for alternative apparatus

7.—(1) Where, in accordance with the provisions of this Part of this Schedule, the undertaker affords to National Grid facilities and rights for the construction and maintenance in land of the undertaker of alternative apparatus in substitution for apparatus to be removed, those facilities and rights shall be granted upon such terms and conditions as may be agreed between the undertaker and National Grid and must be no less favourable on the whole to National Grid than the facilities and rights enjoyed by it in respect of the apparatus to be removed unless agreed by National Grid.

(2) If the facilities and rights to be afforded by the undertaker and agreed with National Grid under sub-paragraph (1) above in respect of any alternative apparatus, and the terms and conditions subject to which those facilities and rights are to be granted, are less favourable on the whole to National Grid than the facilities and rights enjoyed by it in respect of the apparatus to be removed and the terms and conditions to which those facilities and rights are subject in the matter shall be referred to arbitration and, the arbitrator shall make such provision for the payment of compensation by the undertaker to National Grid as appears to the arbitrator to be reasonable having regard to all the circumstances of the particular case. In respect of the appointment of an arbitrator under this sub-paragraph, article 40 (arbitration) of the Order shall apply.

Retained apparatus: protection of National Grid as Gas Undertaker

8.—(1) Not less than 56 days before the commencement of any authorised development authorised by this Order that involves activities or works specified in National Grid’s “Specification for safe working in the vicinity of National Grid, High pressure Gas pipelines and associated installation requirements for third parties T/SP/SSW22” that are within the proximities described therein to any apparatus the removal of which has not been required by the undertaker under paragraph 6 sub paragraph (2) or otherwise, the undertaker must submit to National Grid a plan.

(2) In relation to works which will be situated on, over, under or within 15 metres measured in any direction of any apparatus to which sub-paragraph (1) applies, or (wherever situated) impose any load directly upon any such apparatus or involve embankment works within 15 metres of any such apparatus, the plan to be submitted to National Grid under sub-paragraph (1) shall show—

- (a) the exact position of the works;
- (b) the level at which these are proposed to be constructed or renewed;
- (c) the manner of their construction or renewal including details of excavation, positioning of plant etc.;
- (d) the position of all apparatus;
- (e) by way of detailed drawings, every alteration proposed to be made to or close to any such apparatus;
- (f) intended maintenance regimes; and
- (g) details of any ground monitoring scheme (if required in accordance with National Grid’s “Specification for safe working in the vicinity of National Grid, High pressure Gas pipelines and associated installation requirements for third parties T/SP/SSW22”).

(3) The undertaker must not commence any works to which sub-paragraph (2) applies until National Grid has given written approval of the plan so submitted.

(4) Any approval of National Grid required under sub-paragraph (3)—

- (a) may be given subject to reasonable conditions for any purpose mentioned in sub-paragraph (5) or (7);
- (b) must not be unreasonably withheld.

(5) In relation to a work to which sub-paragraphs (1) and (2) applies, National Grid may require such modifications to be made to the plans as may be reasonably necessary for the purpose of securing its system against interference or risk of damage or for the purpose of providing or securing proper and convenient means of access to any apparatus.

(6) Works executed under sub-paragraph (1) or (2) shall be executed only in accordance with the plan, submitted under sub-paragraph (1) or as relevant sub-paragraph (2), as amended from time to time by agreement between the undertaker and National Grid and in accordance with such reasonable requirements as may be made in accordance with sub-paragraphs (4), (5), (7) and/or (8) by National Grid for the alteration or otherwise for the protection of the apparatus, or for securing access to it, and National Grid shall be entitled to watch and inspect the execution of those works.

(7) Where National Grid requires protective works to be carried out either themselves or by the undertaker (whether of a temporary or permanent nature) such protective works shall be carried out to National Grid’s satisfaction prior to the commencement of any authorised development (or any relevant part thereof) and National Grid must give 56 days’ notice of such works from the date of submission of a plan in line with sub-paragraph (1) or (2) (except in an emergency).

(8) If National Grid in accordance with sub-paragraph (5) or (7) and in consequence of the works proposed by the undertaker, reasonably requires the removal of any apparatus and gives written notice to the undertaker of that requirement, paragraphs 1 to 3 and 6 to 7 shall apply as if the removal of the apparatus had been required by the undertaker under paragraph 6 sub-paragraph (2).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(9) Nothing in this paragraph shall preclude the undertaker from submitting at any time or from time to time, but in no case less than 56 days before commencing the execution of any works, a new plan, instead of the plan previously submitted, and having done so the provisions of this paragraph shall apply to and in respect of the new plan.

(10) The undertaker shall not be required to comply with sub-paragraph (1) where it needs to carry out emergency works as defined in the 1991 Act but in that case it must give to National Grid notice as soon as is reasonably practicable and a plan of those works and shall—

- (a) comply with sub-paragraphs (5), (6) and (7) insofar as is reasonably practicable in the circumstances; and
- (b) comply with sub-paragraph (11) at all times.

(11) At all times when carrying out any works authorised under the Order comply with National Grid's policies for safe working in proximity to gas apparatus "Specification for safe working in the vicinity of National Grid, High pressure Gas pipelines and associated installation requirements for third parties T/SP/SSW22" and the Health and Safety Executive's "HS(~G)47 Avoiding Danger from underground services".

Retained apparatus: protection of National Grid as Electricity Undertaker

9.—(1) Not less than 56 days before the commencement of any authorised development under this Order that is near to, or will or may affect, any apparatus the removal of which has not been required by the undertaker under paragraph 6 sub-paragraph (2) or otherwise and to which sub-paragraph (2)(i) or (2)(ii) applies, the undertaker must submit to National Grid a plan and seek from National Grid details of the underground extent of their electricity tower foundations.

(2) In relation to works which will or may be situated on, over, under or within (i) 15 metres measured in any direction of any apparatus, or (ii) involve embankment works within 15 metres of any apparatus, the plan to be submitted under sub-paragraph (1) shall show—

- (a) the exact position of the works;
- (b) the level at which these are proposed to be constructed or renewed;
- (c) the manner of their construction or renewal including details of excavation, positioning of plant;
- (d) the position of all apparatus;
- (e) by way of detailed drawings, every alteration proposed to be made to or close to any such apparatus.

(3) In relation to any works which will or may be situated on, over, under or within 10 metres of any part of the foundations of an electricity tower or between any two or more electricity towers, the plan to be submitted under sub-paragraph (1) shall be detailed including a method statement and describing in addition to the matters set out in sub-paragraph (2)—

- (a) details of any cable trench design including route, dimensions, clearance to pylon foundations;
- (b) demonstration that pylon foundations will not be affected prior to, during and post construction;
- (c) details of load bearing capacities of trenches;
- (d) details of cable installation methodology including access arrangements, jointing bays and backfill methodology;
- (e) a written management plan for high voltage hazard during construction and on-going maintenance of the cable route;

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (f) written details of the operations and maintenance regime for the cable, including frequency and method of access;
 - (g) assessment of earth rise potential if reasonably required by National Grid's engineers;
 - (h) evidence that trench bearing capacity is to be designed to 26 tonnes to take the weight of overhead line construction traffic.
- (4) The undertaker must not commence any works to which sub-paragraph (1), (2) or (3) applies until National Grid has given written approval of the plan so submitted.
- (5) Any approval of National Grid required under sub-paragraph (1), (2) or (3)—
- (a) may be given subject to reasonable conditions for any purpose mentioned in this sub-paragraph or sub-paragraph (8);
 - (b) must not be unreasonably withheld.
- (6) In relation to a work to which sub-paragraph (1), (2) or (3) apply, National Grid may require such modifications to be made to the plans as may be reasonably necessary for the purpose of securing its system against interference or risk of damage or for the purpose of providing or securing proper and convenient means of access to any apparatus.
- (7) Works executed under sub-paragraph (1), (2) or (3) must be executed only in accordance with the plan, submitted under sub-paragraph (1) or as relevant sub-paragraph (2), (3) or (5), as amended from time to time by agreement between the undertaker and National Grid and in accordance with such reasonable requirements as may be made in accordance with sub-paragraphs (5), (6), (8) and/or (9) by National Grid for the alteration or otherwise for the protection of the apparatus, or for securing access to it, and National Grid shall be entitled to watch and inspect the execution of those works.
- (8) Where National Grid require any protective works to be carried out either themselves or by the undertaker (whether of a temporary or permanent nature) such protective works must be carried out to the undertakers' satisfaction prior to the commencement of any authorised development (or any relevant part thereof) and National Grid must give 56 days' notice of such works from the date of submission of a plan in line with sub-paragraph (1), (2), (3) or (5) (except in an emergency).
- (9) If National Grid in accordance with sub-paragraph (6) or (8) and in consequence of the works proposed by the undertaker, reasonably requires the removal of any apparatus and gives written notice to the undertaker of that requirement, paragraphs 1 to 3 and 6 to 7 shall apply as if the removal of the apparatus had been required by the undertaker under paragraph 6 sub-paragraph (2).
- (10) Nothing in this paragraph shall preclude the undertaker from submitting at any time or from time to time, but in no case less than 56 days before commencing the execution of any works, a new plan, instead of the plan previously submitted, and having done so the provisions of this paragraph shall apply to and in respect of the new plan.
- (11) The undertaker shall not be required to comply with sub-paragraph (1) where it needs to carry out emergency works as defined in the 1991 Act but in that case it must give to National Grid notice as soon as is reasonably practicable and a plan of those works and shall—
- (a) comply with sub-paragraphs (6), (7) and (8) insofar as is reasonably practicable in the circumstances; and
 - (b) comply with sub-paragraph (12) at all times.
- (12) At all times when carrying out any works authorised under the Order comply with National Grid's policies for development near overhead lines ENATA 43-8 and the Health and Safety Executive's guidance note 6 "Avoidance of Danger from Overhead Lines".

Expenses

10.—(1) Subject to the following provisions of this paragraph, the undertaker shall pay to National Grid on demand all charges, costs and expenses reasonably anticipated or incurred by that

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

undertaker in, or in connection with, the inspection, removal, relaying or replacing, alteration or protection of any apparatus or the construction of any new apparatus which may be required in consequence of the execution of any such works as are referred to in this Schedule including without limitation—

- (a) any costs reasonably incurred or compensation properly paid in connection with the acquisition of rights or the exercise of statutory powers for such apparatus including without limitation in the event that National Grid elects to use compulsory purchase powers to acquire any necessary rights under paragraph 6 sub-paragraph (3) all costs incurred as a result of such action;
- (b) in connection with the cost of the carrying out of any diversion work or the provision of any alternative apparatus;
- (c) the cutting off of any apparatus from any other apparatus or the making safe of redundant apparatus;
- (d) the approval of plans;
- (e) the carrying out of protective works, plus a capitalised sum to cover the cost of maintaining and renewing permanent protective works;
- (f) the survey of any land, apparatus or works, the inspection and monitoring of works or the installation or removal of any temporary works reasonably necessary in consequence of the execution of any such works referred to in this Schedule.

(2) There must be deducted from any sum payable under sub-paragraph (1) the value of any apparatus removed under the provisions of this Schedule and which is not re-used as part of the alternative apparatus, that value being calculated after removal.

(3) If in accordance with the provisions of this Part of this Schedule—

- (a) apparatus of better type, of greater capacity or of greater dimensions is placed in substitution for existing apparatus of worse type, of smaller capacity or of smaller dimensions; or
- (b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was situated,

and the placing of apparatus of that type or capacity or of those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by the undertaker or in default of agreement settled by arbitration in accordance with article 40 (arbitration) of the Order to be necessary, then, if such placing involves cost in the construction of works under this Part of this Schedule exceeding that which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which apart from this sub-paragraph would be payable to National Grid by virtue of sub-paragraph (1) shall be reduced by the amount of that excess save where it is not possible in the circumstances to obtain the existing type of operations, capacity, dimensions or place at the existing depth in which case full costs shall be borne by the undertaker.

(4) For the purposes of sub-paragraph (3)—

- (a) an extension of apparatus to a length greater than the length of existing apparatus shall not be treated as a placing of apparatus of greater dimensions than those of the existing apparatus; and
- (b) where the provision of a joint in a pipe or cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole shall be treated as if it also had been agreed or had been so determined.

(5) An amount which apart from this sub-paragraph would be payable to National Grid in respect of works by virtue of sub-paragraph (1) shall, if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on National

Grid any financial benefit by deferment of the time for renewal of the apparatus in the ordinary course, be reduced by the amount which represents that benefit.

Indemnity

11.—(1) Subject to sub-paragraphs (2) and (3), if by reason or in consequence of the construction of any works authorised by this Schedule or in consequence of the construction, use, maintenance or failure of any of the authorised development by or on behalf of the undertaker or in consequence of any act or default of the undertaker (or any person employed or authorised by him) in the course of carrying out such works (including without limitation works carried out by the undertaker under this Schedule or any subsidence resulting from any of these works), any material damage is caused to any apparatus or alternative apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works) or property of National Grid, or there is any interruption in any service provided, or in the supply of any goods, by National Grid, or National Grid becomes liable to pay any amount to any third party, the undertaker shall—

- (a) bear and pay on demand the cost reasonably incurred by National Grid in making good such damage or restoring the supply; and
- (b) indemnify National Grid for any other expenses, loss, demands, proceedings, damages, claims, penalty or costs incurred by or recovered from National Grid, by reason or in consequence of any such damage or interruption or National Grid becoming liable to any third party as aforesaid.

(2) The fact that any act or thing may have been done by National Grid on behalf of the undertaker or in accordance with a plan approved by National Grid or in accordance with any requirement of National Grid as a consequence of the authorised development or under its supervision shall not (subject to sub-paragraph (3)) excuse the undertaker from liability under the provisions of this sub-paragraph (1) where the undertaker fails to carry out and execute the works properly with due care and attention and in a skilful and workman like manner or in a manner that does not materially accord with the approved plan or as otherwise agreed between the undertaker and National Grid.

(3) Nothing in sub-paragraph (1) shall impose any liability on the undertaker in respect of—

- (a) any damage or interruption to the extent that it is attributable to the neglect or default of National Grid, its officers, servants, contractors or agents; and
- (b) any authorised development and/or any other works authorised by this Schedule carried out by National Grid as an assignee, transferee or lessee of the undertaker with the benefit of the Order pursuant to section 156 of the 2008 Act or under article 6 of the Order subject to the proviso that once such works become apparatus (“new apparatus”), any works yet to be executed and not falling within this sub-paragraph (3)(b), shall be subject to the full terms of this Schedule including this paragraph 11 in respect of such new apparatus.

(4) National Grid must give the undertaker reasonable notice of any such claim or demand and no settlement or compromise shall be made without first consulting the undertaker and considering their representations.

(5) National Grid must use its reasonable endeavours to mitigate in whole or in part and to minimise any costs, expenses, loss, demands, and penalties to which the indemnity under this paragraph applies. If requested to do so by the undertaker, National Grid shall provide an explanation of how the claim has been minimised. The undertaker shall only be liable under this paragraph for claims reasonably incurred by National Grid.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Enactments and agreements

12. Nothing in this Part of this Schedule shall affect the provisions of any enactment or agreement regulating the relations between the undertaker and National Grid in respect of any apparatus laid or erected in land belonging to the undertaker on the date on which this Order is made.

Co-operation

13. National Grid and the undertaker must each use their best endeavours to co-ordinate with the other party on the timing and method of execution of any works carried out under the Order or this Schedule (including, for the avoidance of doubt, pursuant to paragraph 6 sub-paragraph (2) and paragraph 8 or 12) in the interests of safety and the efficient and economic execution of the authorised development and taking into account the need to ensure the safe and efficient operation of the other party's operations.

Access

14. If in consequence of the agreement reached in accordance with paragraph 5 sub-paragraph (1) or the powers granted under this Order the access to any apparatus is materially obstructed, the undertaker shall provide such alternative means of access to such apparatus as will enable National Grid to maintain or use the apparatus no less effectively than was possible before such obstruction.

Arbitration

15. Save for differences or disputes arising under paragraph 6(2), 6(4), 7(1), 8 and 9 any difference or dispute arising between the undertaker and National Grid under this Schedule shall, unless otherwise agreed in writing between the undertaker and National Grid, be determined by arbitration in accordance with article 40 (arbitration) of the Order.

PART 2

FOR THE PROTECTION OF ELECTRICITY, GAS, WATER AND SEWERAGE UNDERTAKERS

16. For the protection of the utility undertakers referred to in this Part of this Schedule (save for National Grid which is protected by Part 1 of this Schedule and Eastern Power Networks which is protected by Part 4 of this Schedule), the following provisions have effect, unless otherwise agreed in writing between the undertaker and the utility undertakers concerned.

17. In this Part of this Schedule—

“alternative apparatus” means alternative apparatus adequate to enable the utility undertaker in question to fulfil its statutory functions in a manner not less efficient than previously;

“apparatus” means—

- (a) in the case of an electricity undertaker, electric lines or electrical plant (as defined in the Electricity Act 1989(4)), belonging to or maintained by that utility undertaker;
- (b) in the case of a gas undertaker, any mains, pipes or other apparatus belonging to or maintained by a gas transporter for the purposes of gas supply;
- (c) in the case of a water undertaker—
 - (i) mains, pipes or other apparatus belonging to or maintained by that utility undertaker for the purposes of water supply; and

(4) 1989 c.29.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (ii) any water mains or service pipes (or part of a water main or service pipe) that is the subject of an agreement to adopt made under section 51A of the Water Industry Act 1991⁽⁵⁾;
- (d) in the case of a sewerage undertaker—
 - (i) any drain or works vested in the utility undertaker under the Water Industry Act 1991; and
 - (ii) any sewer which is so vested or is the subject of a notice of intention to adopt given under section 102(4) of that Act or an agreement to adopt made under section 104 of that Act,

and includes a sludge main, disposal main (within the meaning of section 219 of that Act) or sewer outfall and any manholes, ventilating shafts, pumps or other accessories forming part of any such sewer, drain or works, and includes any structure in which apparatus is or is to be lodged or which gives or will give access to apparatus;

“functions” includes powers and duties;

“in”, in a context referring to apparatus or alternative apparatus in land, includes a reference to apparatus or alternative apparatus under, over or upon land; and

“utility undertaker” means—

- (a) any licence holder within the meaning of Part 1 of the Electricity Act 1989;
- (b) a gas transporter within the meaning of Part 1 of the Gas Act 1986⁽⁶⁾;
- (c) a water undertaker within the meaning of the Water Industry Act 1991; and
- (d) a sewerage undertaker within the meaning of Part 1 of the Water Industry Act 1991,

for the area of the authorised development, and in relation to any apparatus, means the utility undertaker to whom it belongs or by whom it is maintained.

18. This Part of this Schedule does not apply to apparatus in respect of which the relations between the undertaker and the utility undertaker are regulated by the provisions of Part 3 of the 1991 Act.

19. Regardless of the temporary prohibition or restriction of use of streets under the powers conferred by article 12 (temporary prohibition or restriction of use of streets), a utility undertaker is at liberty at all times to take all necessary access across any such street and to execute and do all such works and things in, upon or under any such street as may be reasonably necessary or desirable to enable it to maintain any apparatus which at the time of the prohibition or restriction was in that street.

20. Regardless of any provision in this Order or anything shown on the land plans, the undertaker must not acquire any apparatus otherwise than by agreement.

21.—(1) If, in the exercise of the powers conferred by this Order, the undertaker acquires any interest in any land in which any apparatus is placed or over which access to any apparatus is enjoyed or requires that the utility undertaker’s apparatus is relocated or diverted, that apparatus must not be removed under this Part of this Schedule, and any right of a utility undertaker to maintain that apparatus in that land and to gain access to it must not be extinguished, until alternative apparatus has been constructed and is in operation, and access to it has been provided, to the reasonable satisfaction of the utility undertaker in question in accordance with sub-paragraphs (2) to (7).

⁽⁵⁾ 1991 c.56. Section 51A to the 1991 Act was inserted by section 92(1) of the Water Act 2003 (c.37).

⁽⁶⁾ 1986 c.44. A new section 7 was substituted by section 5 of the Gas Act 1995 (c.45), and was further amended by section 76 of the Utilities Act 2000 (c.27).

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(2) If, for the purpose of executing any works in, on or under any land purchased, held, appropriated or used under this Order, the undertaker requires the removal of any apparatus placed in that land, the undertaker must give to the utility undertaker in question written notice of that requirement, together with a plan and section of the work proposed, and of the proposed position of the alternative apparatus to be provided or constructed and in that case (or if in consequence of the exercise of any of the powers conferred by this Order a utility undertaker reasonably needs to remove any of its apparatus) the undertaker must, subject to sub-paragraph (3), afford to the utility undertaker the necessary facilities and rights for the construction of alternative apparatus in other land of the undertaker and subsequently for the maintenance of that apparatus.

(3) If alternative apparatus or any part of such apparatus is to be constructed elsewhere than in other land of the undertaker, or the undertaker is unable to afford such facilities and rights as are mentioned in sub-paragraph (2), in the land in which the alternative apparatus or part of such apparatus is to be constructed, the utility undertaker in question must, on receipt of a written notice to that effect from the undertaker, as soon as reasonably possible use reasonable endeavours to obtain the necessary facilities and rights in the land in which the alternative apparatus is to be constructed.

(4) Any alternative apparatus to be constructed in land of the undertaker under this Part of this Schedule must be constructed in such manner and in such line or situation as may be agreed between the utility undertaker in question and the undertaker or in default of agreement settled by arbitration in accordance with article 40 (arbitration).

(5) The utility undertaker in question must, after the alternative apparatus to be provided or constructed has been agreed or settled by arbitration in accordance with article 40 (arbitration), and after the grant to the utility undertaker of any such facilities and rights as are referred to in sub-paragraph (2) or (3), proceed without unnecessary delay to construct and bring into operation the alternative apparatus and subsequently to remove any apparatus required by the undertaker to be removed under the provisions of this Part of this Schedule.

(6) Regardless of anything in sub-paragraph (5), if the undertaker gives notice in writing to the utility undertaker in question that it desires itself to execute any work, or part of any work, in connection with the construction or removal of apparatus in any land controlled by the undertaker, that work, instead of being executed by the utility undertaker, must be executed by the undertaker without unnecessary delay under the superintendence, if given, and to the reasonable satisfaction of the utility undertaker.

(7) Nothing in sub-paragraph (6) authorises the undertaker to execute the placing, installation, bedding, packing, removal, connection or disconnection of any apparatus, or execute any filling around the apparatus (where the apparatus is laid in a trench) within 300 millimetres of the apparatus.

22.—(1) Where, in accordance with the provisions of this Part of this Schedule, the undertaker affords to a utility undertaker facilities and rights for the construction and maintenance in land of the undertaker of alternative apparatus in substitution for apparatus to be removed, those facilities and rights must be granted upon such terms and conditions as may be agreed between the undertaker and the utility undertaker in question or in default of agreement settled by arbitration in accordance with article 40 (arbitration).

(2) If the facilities and rights to be afforded by the undertaker in respect of any alternative apparatus, and the terms and conditions subject to which those facilities and rights are to be granted, are in the opinion of the arbitrator less favourable on the whole to the utility undertaker in question than the facilities and rights enjoyed by it in respect of the apparatus to be removed and the terms and conditions to which those facilities and rights are subject, the arbitrator must make such provision for the payment of compensation by the undertaker to that utility undertaker as appears to the arbitrator to be reasonable having regard to all the circumstances of the particular case.

23.—(1) Not less than 28 days before starting the execution of any works in, on or under any land purchased, held, appropriated or used under this Order that are near to, or will or may affect,

any apparatus the removal of which has not been required by the undertaker under paragraph 21(2), the undertaker must submit to the utility undertaker in question a plan, section and description of the works to be executed.

(2) Those works must be executed only in accordance with the plan, section and description submitted under sub-paragraph (1) and in accordance with such reasonable requirements as may be made in accordance with sub-paragraph (3) by the utility undertaker for the alteration or otherwise for the protection of the apparatus, or for securing access to it, and the utility undertaker is entitled to watch and inspect the execution of those works.

(3) Any requirements made by a utility undertaker under sub-paragraph (2) must be made within a period of 21 days beginning with the date on which a plan, section and description under sub-paragraph (1) are submitted to it.

(4) If a utility undertaker in accordance with sub-paragraph (3) and in consequence of the works proposed by the undertaker, reasonably requires the removal of any apparatus and gives written notice to the undertaker of that requirement, paragraphs 16 to 22 apply as if the removal of the apparatus had been required by the undertaker under paragraph 21(2).

(5) Nothing in this paragraph precludes the undertaker from submitting at any time or from time to time, but in no case less than 28 days before commencing the execution of any works, a new plan, section and description instead of the plan, section and description previously submitted, and having done so the provisions of this paragraph apply to and in respect of the new plan, section and description.

(6) The undertaker is not required to comply with sub-paragraph (1) in a case of emergency but in that case it must give to the utility undertaker in question notice as soon as is reasonably practicable and a plan, section and description of those works as soon as reasonably practicable subsequently and must comply with sub-paragraph (2) in so far as is reasonably practicable in the circumstances.

24.—(1) Subject to the following provisions of this paragraph, the undertaker must repay to a utility undertaker the reasonable expenses incurred by that utility undertaker in, or in connection with, the inspection, removal, alteration or protection of any apparatus or the construction of any new apparatus which may be required in consequence of the execution of any such works as are referred to in paragraph 21(2).

(2) There is to be deducted from any sum payable under sub-paragraph (1) the value of any apparatus removed under the provisions of this Part of this Schedule, that value being calculated after removal.

(3) If in accordance with the provisions of this Part of this Schedule—

- (a) apparatus of better type, of greater capacity or of greater dimensions is placed in substitution for existing apparatus of worse type, of smaller capacity or of smaller dimensions; or
- (b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was,

and the placing of apparatus of that type or capacity or of those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by the undertaker or, in default of agreement, is not determined by arbitration in accordance with article 40 (arbitration) to be necessary, then, if such placing involves cost in the construction of works under this Part of this Schedule exceeding that which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which apart from this sub-paragraph would be payable to the utility undertaker in question by virtue of sub-paragraph (1) is to be reduced by the amount of that excess.

(4) For the purposes of sub-paragraph (3)—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) an extension of apparatus to a length greater than the length of existing apparatus is not to be treated as a placing of apparatus of greater dimensions than those of the existing apparatus where such extension is required in consequence of the execution of any such works as are referred to in paragraph 21(2); and
- (b) where the provision of a joint in a cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole is to be treated as if it also had been agreed or had been so determined.

(5) An amount which apart from this sub-paragraph would be payable to a utility undertaker in respect of works by virtue of sub-paragraph (1), if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on the utility undertaker any financial benefit by deferment of the time for renewal of the apparatus in the ordinary course, is to be reduced by the amount which represents that benefit.

25.—(1) Subject to sub-paragraphs (2) and (3), if by reason or in consequence of the construction of any of the works referred to in paragraph 21(2), any damage is caused to any apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works) or property of a utility undertaker, or there is any interruption in any service provided, or in the supply of any goods, by any utility undertaker, the undertaker must—

- (a) bear and pay the cost reasonably incurred by that utility undertaker in making good such damage or restoring the supply; and
- (b) make reasonable compensation to that utility undertaker for any other expenses, loss, damages, penalty or costs incurred by the utility undertaker,

by reason or in consequence of any such damage or interruption.

(2) Nothing in sub-paragraph (1) imposes any liability on the undertaker with respect to any damage or interruption to the extent that it is attributable to the act, neglect or default of a utility undertaker, its officers, servants, contractors or agents.

(3) A utility undertaker must give the undertaker reasonable notice of any such claim or demand and no settlement or compromise is to be made without the consent of the undertaker which, if it withholds such consent, has the sole conduct of any settlement or compromise or of any proceedings necessary to resist the claim or demand.

26. Nothing in this Part of this Schedule affects the provisions of any enactment or agreement regulating the relations between the undertaker and a utility undertaking in respect of any apparatus laid or erected in land belonging to the undertaker on the date on which this Order is made.

PART 3

FOR THE PROTECTION OF OPERATORS OF ELECTRONIC COMMUNICATIONS CODE NETWORKS

27.—(1) For the protection of any operator, the following provisions have effect, unless otherwise agreed in writing between the undertaker and the operator.

(2) In this Part of this Schedule—

“the 2003 Act” means the Communications Act 2003((7));

(7) 2003 c.21.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

“conduit system” has the same meaning as in the electronic communications code and references to providing a conduit system are to be construed in accordance with paragraph 1(3A)(8) of that code;

“electronic communications apparatus” has the same meaning as in the electronic communications code;

“the electronic communications code” has the same meaning as in Chapter 1 of Part 2 of the 2003 Act(9);

“electronic communications code network” means—

- (a) so much of an electronic communications network or conduit system provided by an electronic communications code operator as is not excluded from the application of the electronic communications code by a direction under section 106 of the 2003 Act; and
- (b) an electronic communications network which the Secretary of State is providing or proposing to provide;

“electronic communications code operator” means a person in whose case the electronic communications code is applied by a direction under section 106 of the 2003 Act; and

“operator” means the operator of an electronic communications code network.

28. The exercise of the powers of article 29 (statutory undertakers) is subject to paragraph 23 of Schedule 2 to the Telecommunications Act 1984(10) (undertaker’s works).

29.—(1) Subject to sub-paragraphs (2) to (4), if as the result of the authorised development or its construction, or of any subsidence resulting from any of those works—

- (a) any damage is caused to any electronic communications apparatus belonging to an operator (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works), or other property of an operator; or
- (b) there is any interruption in the supply of the service provided by an operator,

the undertaker must bear and pay the cost reasonably incurred by the operator in making good such damage or restoring the supply and make reasonable compensation to that operator for any other expenses, loss, damages, penalty or costs incurred by it, by reason, or in consequence of, any such damage or interruption.

(2) Nothing in sub-paragraph (1) imposes any liability on the undertaker with respect to any damage or interruption to the extent that it is attributable to the act, neglect or default of an operator, its officers, servants, contractors or agents.

(3) The operator must give the undertaker reasonable notice of any such claim or demand and no settlement or compromise of the claim or demand is to be made without the consent of the undertaker which, if it withholds such consent, has the sole conduct of any settlement or compromise or of any proceedings necessary to resist the claim or demand.

(4) Any difference arising between the undertaker and the operator under this Part of this Schedule must be referred to and settled by arbitration under article 40 (arbitration).

30. This Part of this Schedule does not apply to—

- (a) any apparatus in respect of which the relations between the undertaker and an operator are regulated by the provisions of Part 3 of the 1991 Act; or

(8) Paragraph 1(3A) was inserted by section 106(2) of, and paragraphs 1 and 4 of Schedule 3 to, the Communications Act 2003.

(9) See section 106.

(10) 1984 c.12. Paragraph 23 was amended by section 190 of, and paragraph 68 of Schedule 25 and part 1 of Schedule 27 to, the Water Act 1989 (c.15), section 112(4) of, and Schedule 18 to, the Electricity Act 1989 (c.29) and section 106(2) of, and paragraphs 1, 5(d) and 8 of Schedule 3 to, the Communications Act 2003.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(b) any damage, or any interruption, caused by electro-magnetic interference arising from the construction or use of the authorised development.

31. Nothing in this Part of this Schedule affects the provisions of any enactment or agreement regulating the relations between the undertaker and an operator in respect of any apparatus laid or erected in land belonging to the undertaker on the date on which this Order is made.

PART 4

FOR THE PROTECTION OF EASTERN POWER NETWORKS

32. For the protection of Eastern Power Networks as referred to in this Part of this Schedule the following provisions have effect, unless otherwise agreed in writing between the undertaker and Eastern Power Networks.

33. In this Part of this Schedule—

“alternative apparatus” means alternative apparatus adequate to enable Eastern Power Networks to fulfil its statutory functions in a manner not less efficient than previously;

“apparatus” means electric lines or electrical plant (as defined in the Electricity Act 1989(11)), belonging to or maintained by Eastern Power Networks;

“Eastern Power Networks” means Eastern Power Networks plc (Company No. 2366906) whose registered office is at Newington House, 237 Southwark Bridge Road, London, SE1 6NP;

“functions” includes powers and duties; and

“in”, in a context referring to apparatus or alternative apparatus in land, includes a reference to apparatus or alternative apparatus under, over or upon land.

34. This Part of this Schedule does not apply to apparatus in respect of which the relations between the undertaker and Eastern Power Networks are regulated by the provisions of Part 3 of the 1991 Act.

35. Regardless of the temporary prohibition or restriction of use of streets under the powers conferred by article 12 (temporary prohibition or restriction of use of streets), Eastern Power Networks is at liberty at all times to take all necessary access across any such street and to execute and do all such works and things in, upon or under any such street as may be reasonably necessary or desirable to enable it to maintain any apparatus which at the time of the prohibition or restriction was in that street.

36. Regardless of any provision in this Order or anything shown on the land plans, the undertaker must not acquire any apparatus otherwise than by agreement.

37.—(1) If, in the exercise of the powers conferred by this Order, the undertaker acquires any interest in any land in which any apparatus is placed or over which access to any apparatus is enjoyed or requires that Eastern Power Networks’ apparatus is relocated or diverted, that apparatus must not be removed under this Part of this Schedule, and any right of Eastern Power Networks to maintain that apparatus in that land and to gain access to it must not be extinguished, until alternative apparatus has been constructed and is in operation, and access to it has been provided, to the reasonable satisfaction of Eastern Power Networks in accordance with sub-paragraphs (2) to (7).

(2) If, for the purpose of executing any works in, on or under any land purchased, held, appropriated or used under this Order, the undertaker requires the removal of any apparatus placed in that land, the undertaker must give to Eastern Power Networks written notice of that requirement,

(11) 1989 c.29.

together with a plan and section of the work proposed, and of the proposed position of the alternative apparatus to be provided or constructed and in that case (or if in consequence of the exercise of any of the powers conferred by this Order Eastern Power Networks reasonably needs to remove any of its apparatus) the undertaker must, subject to sub-paragraph (3), afford to Eastern Power Networks the necessary facilities and rights for the construction of alternative apparatus in other land of the undertaker and subsequently for the maintenance of that apparatus.

(3) If alternative apparatus or any part of such apparatus is to be constructed elsewhere than in other land of the undertaker, or the undertaker is unable to afford such facilities and rights as are mentioned in sub-paragraph (2), in the land in which the alternative apparatus or part of such apparatus is to be constructed, Eastern Power Networks must, on receipt of a written notice to that effect from the undertaker, as soon as reasonably possible use reasonable endeavours to obtain the necessary facilities and rights in the land in which the alternative apparatus is to be constructed provided that this obligation shall not require Eastern Power Networks to exercise any power it may have to acquire any land or rights by compulsory purchase order.

(4) Any alternative apparatus to be constructed in land of the undertaker under this Part of this Schedule must be constructed in such manner and in such line or situation as may be agreed between Eastern Power Networks and the undertaker or in default of agreement settled by arbitration in accordance with article 40 (arbitration).

(5) Eastern Power Networks must, after the alternative apparatus to be provided or constructed has been agreed or settled by arbitration in accordance with article 40 (arbitration), and after the grant to Eastern Power Networks of any such facilities and rights as are referred to in sub-paragraph (2) or (3), proceed without unnecessary delay to construct and bring into operation the alternative apparatus and subsequently to remove any apparatus required by the undertaker to be removed under the provisions of this Part of this Schedule.

(6) Regardless of anything in sub-paragraph (5), if the undertaker gives notice in writing to Eastern Power Networks that it desires itself to execute any work, or part of any work, in connection with the construction or removal of apparatus in any land controlled by the undertaker, that work, instead of being executed by Eastern Power Networks, must be executed by the undertaker without unnecessary delay under the superintendence, if given, and to the reasonable satisfaction of Eastern Power Networks.

(7) Nothing in sub-paragraph (6) authorises the undertaker to execute the placing, installation, bedding, packing, removal, connection or disconnection of any apparatus, or execute any filling around the apparatus (where the apparatus is laid in a trench) within 300 millimetres of the apparatus.

38.—(1) Where, in accordance with the provisions of this Part of this Schedule, the undertaker affords to Eastern Power Networks facilities and rights for the construction and maintenance in land of the undertaker of alternative apparatus in substitution for apparatus to be removed, those facilities and rights must be granted upon such terms and conditions as may be agreed between the undertaker and Eastern Power Networks or in default of agreement settled by arbitration in accordance with article 40 (arbitration).

(2) If the facilities and rights to be afforded by the undertaker in respect of any alternative apparatus, and the terms and conditions subject to which those facilities and rights are to be granted, are in the opinion of the arbitrator less favourable on the whole to Eastern Power Networks than the facilities and rights enjoyed by it in respect of the apparatus to be removed and the terms and conditions to which those facilities and rights are subject, the arbitrator must make such provision for the payment of compensation by the undertaker to Eastern Power Networks as appears to the arbitrator to be reasonable having regard to all the circumstances of the particular case.

39.—(1) Not less than 28 days before starting the execution of any works in, on or under any land purchased, held, appropriated or used under this Order that are near to, or will or may affect, any apparatus the removal of which has not been required by the undertaker under paragraph 37(2),

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

the undertaker must submit to Eastern Power Networks a plan, section and description of the works to be executed.

(2) Those works must be executed only in accordance with the plan, section and description submitted under sub-paragraph (1) and in accordance with such reasonable requirements as may be made in accordance with sub-paragraph (3) by Eastern Power Networks for the alteration or otherwise for the protection of the apparatus, or for securing access to it, and Eastern Power Networks is entitled to watch and inspect the execution of those works.

(3) Any requirements made by Eastern Power Networks under sub-paragraph (2) must be made within a period of 21 days beginning with the date on which a plan, section and description under sub-paragraph (1) are submitted to it.

(4) If Eastern Power Networks in accordance with sub-paragraph (3) and in consequence of the works proposed by the undertaker, reasonably requires the removal of any apparatus and gives written notice to the undertaker of that requirement, paragraphs 32 to 38 apply as if the removal of the apparatus had been required by the undertaker under paragraph 37(2).

(5) Nothing in this paragraph precludes the undertaker from submitting at any time or from time to time, but in no case less than 28 days before commencing the execution of any works, a new plan, section and description instead of the plan, section and description previously submitted, and having done so the provisions of this paragraph apply to and in respect of the new plan, section and description.

(6) The undertaker is not required to comply with sub-paragraph (1) in a case of emergency but in that case it must give to Eastern Power Networks notice as soon as is reasonably practicable and a plan, section and description of those works as soon as reasonably practicable subsequently and must comply with sub-paragraph (2) in so far as is reasonably practicable in the circumstances.

40.—(1) Subject to the following provisions of this paragraph, the undertaker must repay to Eastern Power Networks the reasonable expenses incurred by Eastern Power Networks in, or in connection with, the inspection, removal, alteration or protection of any apparatus or the construction of any new apparatus which may be required in consequence of the execution of any such works as are referred to in paragraph 37(2).

(2) There is to be deducted from any sum payable under sub-paragraph (1) the value of any apparatus removed under the provisions of this Part of this Schedule, that value being calculated after removal.

(3) If in accordance with the provisions of this Part of this Schedule—

- (a) apparatus of better type, of greater capacity or of greater dimensions is placed in substitution for existing apparatus of worse type, of smaller capacity or of smaller dimensions; or
- (b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was,

and the placing of apparatus of that type or capacity or of those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by the undertaker or, in default of agreement, is not determined by arbitration in accordance with article 40 (arbitration) to be necessary, then, if such placing involves cost in the construction of works under this Part of this Schedule exceeding that which would have been involved if the apparatus placed had been of the existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which apart from this sub-paragraph would be payable to Eastern Power Networks by virtue of sub-paragraph (1) is to be reduced by the amount of that excess.

(4) For the purposes of sub-paragraph (3)—

- (a) an extension of apparatus to a length greater than the length of existing apparatus is not to be treated as a placing of apparatus of greater dimensions than those of the existing

apparatus where such extension is required in consequence of the execution of any such works as are referred to in paragraph 37(2); and

- (b) where the provision of a joint in a cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole is to be treated as if it also had been agreed or had been so determined.

(5) An amount which apart from this sub-paragraph would be payable to Eastern Power Networks in respect of works by virtue of sub-paragraph (1), if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on Eastern Power Networks any financial benefit by deferment of the time for renewal of the apparatus in the ordinary course, is to be reduced by the amount which represents that benefit.

41.—(1) Subject to sub-paragraphs (2) and (3), if by reason or in consequence of the construction of any of the works referred to in paragraph 37(2), any damage is caused to any apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of those works) or property of Eastern Power Networks, or there is any interruption in any service provided, or in the supply of any goods, by Eastern Power Networks, the undertaker must—

- (a) bear and pay the cost reasonably incurred by Eastern Power Networks in making good such damage or restoring the supply; and
- (b) indemnify Eastern Power Networks for any other expenses, loss, demands, proceedings, damages, claims, penalty or costs incurred by or recovered from Eastern Power Networks,

by reason or in consequence of any such damage or interruption.

(2) Nothing in sub-paragraph (1) imposes any liability on the undertaker with respect to any damage or interruption to the extent that it is attributable to the act, neglect or default of Eastern Power Networks, its officers, servants, contractors or agents.

(3) Eastern Power Networks must give the undertaker reasonable notice of any such claim or demand and no settlement or compromise is to be made without the consent of the undertaker which, if it withholds such consent, has the sole conduct of any settlement or compromise or of any proceedings necessary to resist the claim or demand.

42. Nothing in this Part of this Schedule affects the provisions of any enactment or agreement regulating the relations between the undertaker and Eastern Power Networks in respect of any apparatus laid or erected in land belonging to the undertaker on the date on which this Order is made.

SCHEDULE 10

Article 39

PROCEDURE FOR DISCHARGE OF REQUIREMENTS

Applications made under Requirements

1.—(1) Where an application has been made to the relevant planning authority for any consent, agreement or approval required by a Requirement (including agreement or approval in respect of part of a Requirement) included in this Order the relevant planning authority must give notice to the undertaker of their decision on the application within a period of eight (8) weeks beginning with—

- (a) the day immediately following that on which the application is received by the authority;
- (b) the day immediately following that on which further information has been supplied by the undertaker under paragraph 2; or
- (c) such longer period as may be agreed by the undertaker and the relevant planning authority in writing.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(2) Subject to sub-paragraph (3), in the event that the relevant planning authority does not determine an application within the period set out in sub-paragraph (1), the relevant planning authority is to be taken to have granted all parts of the application (without any condition or qualification) at the end of that period.

(3) Where—

- (a) an application has been made to the relevant planning authority for any consent, agreement or approval required by a requirement included in this Order; and
- (b) the relevant planning authority does not determine such application within the period set out in sub-paragraph (1); and
- (c) such application is accompanied by a report that considers it likely that the subject matter of such application will give rise to any materially new or materially different environmental effects in comparison with the authorised development as approved, then the application is to be taken to have been refused by the relevant planning authority at the end of that period.

Further information

2.—(1) In relation to any part of the application to which this Schedule applies, the relevant planning authority has the right to request such further information from the undertaker as is necessary to enable it to consider the application.

(2) In the event that it considers such further information to be necessary it must, within twenty one (21) business days of receipt of the application, notify the undertaker in writing specifying the further information required and (if applicable) to which part of the application it relates. In the event that the relevant planning authority does not give such notification within this twenty one (21) day period it is deemed to have sufficient information to consider the application and thereafter is not entitled to request further information without the prior agreement of the undertaker.

(3) Where further information is requested under this paragraph in relation to part only of an application, that part is to be treated as separate from the remainder of the application for the purposes of calculating time periods in paragraph 1(1)(b), paragraph 1(3) and this paragraph.

Appeals

3.—(1) The undertaker may appeal in the event that—

- (a) the relevant planning authority refuses (including a deemed refusal pursuant to paragraph 1(3)) an application for any consent, agreement or approval required by a requirement included in this Order or grants it subject to conditions;
- (b) on receipt of a request for further information pursuant to paragraph 2 the undertaker considers that either the whole or part of the specified information requested by the relevant planning authority is not necessary for consideration of the application; or
- (c) on receipt of any further information requested, the relevant planning authority notifies the undertaker that the information provided is inadequate and requests additional information which the undertaker considers is not necessary for consideration of the application.

(2) The appeal process is to be as follows—

- (a) the undertaker must submit the appeal documentation to the Secretary of State and must on the same day provide copies of the appeal documentation to the relevant planning authority and any requirement consultee;
- (b) the Secretary of State must appoint a person within twenty (20) business days of receiving the appeal documentation and must forthwith notify the appeal parties of the identity of

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

the appointed person and the address to which all correspondence for his attention should be sent;

- (c) the relevant planning authority and any requirement consultee must submit written representations to the appointed person in respect of the appeal within twenty (20) business days of the start date and must ensure that copies of their written representations are sent to each other and to the undertaker on the day on which they are submitted to the appointed person;
- (d) the appeal parties must make any counter-submissions to the appointed person within twenty (20) business days of receipt of written representations pursuant to paragraph (c) above; and
- (e) the appointed person must make his decision and notify it to the appeal parties, with reasons, as soon as reasonably practicable and in any event within thirty (30) business days of the deadline for the receipt of counter-submissions pursuant to paragraph (d).

The appointment of the person pursuant to paragraph (b) may be undertaken by a person appointed by the Secretary of State for this purpose instead of by the Secretary of State.

(3) In the event that the appointed person considers that further information is necessary to enable him to consider the appeal he must, within five (5) business days of his appointment, notify the appeal parties in writing specifying the further information required.

(4) Any further information required pursuant to sub-paragraph (3) must be provided by the undertaker to the appointed person, the relevant planning authority and any requirement consultee on the date specified by the appointed person (the “specified date”), and the appointed person must notify the appeal parties of the revised timetable for the appeal on or before that day. The revised timetable for the appeal must require submission of written representations to the appointed person within ten (10) business days of the specified date but must otherwise be in accordance with the process and time limits set out in sub-paragraph (2)(c) to (e).

(5) On an appeal under this paragraph, the appointed person may—

- (a) allow or dismiss the appeal, or
- (b) reverse or vary any part of the decision of the relevant planning authority (whether the appeal relates to that part of it or not),

and may deal with the application as if it had been made to him in the first instance.

(6) The appointed person may proceed to a decision on an appeal taking into account only such written representations as have been sent within the relevant time limits.

(7) The appointed person may proceed to a decision even though no written representations have been made within the relevant time limits, if it appears to him that there is sufficient material to enable a decision to be made on the merits of the case.

(8) The decision of the appointed person on an appeal is to be final and binding on the parties, and a court may entertain proceedings for questioning the decision only if the proceedings are brought by a claim for judicial review.

(9) If an approval is given by the appointed person pursuant to this Schedule, it is deemed to be an approval for the purpose of Schedule 1 to this Order as if it had been given by the relevant planning authority. The relevant planning authority may confirm any determination given by the appointed person in identical form in writing but a failure to give such confirmation (or a failure to give it in identical form) is not to be taken to affect or invalidate the effect of the appointed person’s determination.

(10) The appointed person may or may not be a member of the Planning Inspectorate but must be a qualified town planner of at least ten (10) years’ experience.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(11) Save where a direction is given pursuant to sub-paragraph (12) requiring the costs of the appointed person to be paid by the relevant planning authority, the reasonable costs of the appointed person must be met by the undertaker.

(12) On application by the relevant planning authority or the undertaker, the appointed person may give directions as to the costs of the appeal parties and as to the parties by whom the costs of the appeal are to be paid. In considering whether to make any such direction and the terms on which it is to be made, the appointed person must have regard to Planning Practice Guidance: Appeals (March 2014) or any circular or guidance which may from time to time replace it.

SCHEDULE 11

Article 32

REMOVAL OF IMPORTANT HEDGEROWS

<i>(1)</i> <i>Area</i>	<i>(2)</i> <i>Number of hedgerow shown on important hedgerow plan</i>
Mid Suffolk District Council	Hedgerow 1, as shown between A and B on Sheet 1
Mid Suffolk District Council	Hedgerow 2, as shown between C and D on Sheet 1
Mid Suffolk District Council	Hedgerow 3, as shown between E and F on Sheet 1
Mid Suffolk District Council	Hedgerow 4, as shown between G and H on Sheet 1
Mid Suffolk District Council	Hedgerow 5, as shown between I and J on Sheet 1
Mid Suffolk District Council	Hedgerow 6, as shown between K and L on Sheet 1
Mid Suffolk District Council	Hedgerow 7, as shown between M and N on Sheet 1
Mid Suffolk District Council	Hedgerow 8, as shown between O and P on Sheet 1
Mid Suffolk District Council	Hedgerow 9, as shown between Q and R on Sheet 1
Mid Suffolk District Council	Hedgerow 10, as shown between S and T on Sheet 1
Mid Suffolk District Council	Hedgerow 11, as shown between U and V on Sheet 1
