EXPLANATORY NOTE

(This note is not part of the Order)

This Order designates Switzerland under section 108(2)(b) of the Road Traffic Act 1988 as making satisfactory provision for the issue of certain classes of driving licence. This enables a person holding one of those licences to exchange it for a corresponding British licence. The licences affected are those issued in Switzerland authorising the driving of large goods vehicles and large buses (with or without a trailer). The Order provides that a Swiss licence authorising the driving of vehicles with automatic transmission is exchangeable for a British licence authorising the driving of vehicles with automatic transmission only.

A full regulatory impact assessment has not been produced for this instrument as no impact on the private or voluntary sectors is foreseen. An Explanatory Memorandum has been produced and is available alongside the Order on the UK legislation website, www.legislation.gov.uk.
