**2019 No. 449**

**The Trade Remedies (Increase in Imports Causing Serious Injury to UK Producers) (EU Exit) Regulations 2019**

**PART 2**

**Increased quantities**

**Increased quantities**

4.—(1) The TRA must assess whether the goods concerned have been or are being imported into the United Kingdom in increased quantities by reference to a period of time for which it determines that there is sufficient data available in order for it to make that assessment (the “period of investigation”).

(2) In order to determine whether the goods concerned are imported into the United Kingdom in increased volumes for the purpose of paragraph 1(1)(a) of Schedule 5 to the Act, the TRA must consider whether there has been—

- (a) an absolute increase in the volume of the goods concerned imported into the United Kingdom; or
- (b) a relative increase in the volume of the goods concerned imported into the United Kingdom compared with the total domestic production in the United Kingdom of the like goods and directly competitive goods.

(3) When making a determination under paragraph (2), the TRA may take into account any information it considers relevant.

(4) Unless regulation 44 (other exception) applies, when making a determination under paragraph (2), the TRA must consider imports of the goods concerned from all foreign countries and territories.
