 - (ii) becomes a designated standard under Article 18B(2); and
- (b) before placing the product on the market, an importer:
 - (i) finds that the product does not bear the UK marking;
 - (ii) ensures that the manufacturer has:
 - (aa) carried out the assessment and the verification of constancy of performance required by the EU Construction Products Regulation;
 - (bb) drawn up the technical documentation referred to in the second subparagraph of Article 11(1) of the EU Construction Products Regulation;
 - (cc) drawn up the declaration of performance in accordance with Articles 4 and 6 of the EU Construction Products Regulation; and
 - (dd) complied with Article 11(4) and (5) of this Regulation; and
 - [^{F18}(iii) ensures that the product bears the CE marking, or in the case of a product to which regulation 4(2)(b) of the Construction Products (Amendment etc.) (EU Exit) Regulations 2020 applies, the CE marking accompanied by the UK(NI) indication;
 - (iv) ensures that the product is accompanied by the ‘required documents’ referred to in Article 13(2) of the EU Construction Products Regulation.]

2. Where this paragraph applies:

- (a) the requirements on the importer in the first subparagraph of Article 13(2) are to be treated as satisfied;
- (b) the following provisions of Article 13 have effect subject to the modifications in paragraph 3:
 - (i) the second subparagraph of paragraph 2;
 - (ii) paragraph 5;
 - (iii) paragraphs 7 to 9.

3. The modifications are that:

- (a) any reference to a declaration of performance is to be read as a reference to the declaration of performance drawn up by the manufacturer in accordance with Articles 4 and 6 of the EU Construction Products Regulation;

- (b) any reference to technical documentation is to be read as a reference to the technical documentation referred to in the second subparagraph of Article 11(1) of the EU Construction Products Regulation.

Article 16C

Obligations on a distributor which are met by complying with obligations in the EU Construction Products Regulation

1. Paragraph 2 applies where:

- (a) a construction product is covered by a standard which:
- (i) is designated under Article 18B(1)(b); or
 - (ii) becomes a designated standard under Article 18B(2); and
- (b) before making the product available on the market, a distributor:
- (i) finds that the product does not bear the UK marking; and
 - (ii) ensures that:
 - [^{F19}(aa) the product bears the CE marking, or in the case of a product to which regulation 4(2)(b) of the Construction Products (Amendment etc.) (EU Exit) Regulations 2020 applies, the CE marking accompanied by the UK(NI) indication;]
 - (bb) the product is accompanied by the ‘documents required’ referred to in Article 14(2) of the EU Construction Products Regulation and by instructions and safety information in English;
 - (cc) the manufacturer has complied with Article 11(4) and (5) of this Regulation; and
 - (dd) the importer has complied with Article 13(3) of this Regulation.

2. Where this paragraph applies:

- (a) the requirements on the distributor in the first subparagraph of Article 14(2) are to be treated as satisfied;
- (b) Article 14 has effect as if any reference to a declaration of performance were a reference to the declaration of performance drawn up by the manufacturer in accordance with Articles 4 and 6 of the EU Construction Products Regulation.”.

Standardisation mandate

- 1.** A recognised standardisation body may submit a proposal to develop a standard for the purposes of this Regulation to the Secretary of State.
- 2.** The Secretary of State may issue a standardisation mandate to a recognised standardisation body which is, or is not, based on a proposal submitted under paragraph 1.
- 3.** Where the standardisation mandate is based on a proposal submitted under paragraph 1, the mandate must be issued to the body who submitted the proposal.
- 4.** When developing a standard in response to a standardisation mandate, a recognised standardisation body must consult with such persons as it considers appropriate on the content of the standard.
- 5.** A standard must:
 - (a) provide the methods and the criteria for assessing the performance of the construction products in relation to their essential characteristics;
 - (b) when provided for in the relevant standardisation mandate, refer to an intended use of products to be covered by it;
 - (c) where appropriate and without endangering the accuracy, reliability or stability of the results, provide methods less onerous than testing for assessing the performance of the construction products in relation to their essential characteristics;

- (d) determine the applicable factory production control, which must take into account the specific conditions of the manufacturing process of the construction product concerned;
- (e) include technical details necessary for the implementation of the system of assessment and verification of constancy of performance.

Article 18B

Designated standards

1. The Secretary of State may designate as a designated standard:
 - (a) a standard which is prepared by a recognised standardisation body and satisfies the requirements of Article 18A(5);
 - (b) a harmonised standard which is adopted by a European standardisation body before, or on or after [F20IP completion day], which does not become designated under paragraph 2.
2. Where, immediately before [F20IP completion day] -
 - (a) a reference to a harmonised standard has been published in the Official Journal of the European Union under this Regulation; and
 - (b) a British standard transposing the harmonised standard has been adopted,

the British standard becomes a designated standard on [F20IP completion day]; and the Secretary of State must, as soon as reasonably practicable after [F20IP completion day], publish a reference to that standard.

The coexistence period for the standard is the period established by the European Commission under Article 17(5) as it had effect immediately before [F20IP completion day].

3. Before designating a standard under paragraph 1, the Secretary of State must have regard to whether the standard is consistent with any international standards which the Secretary of State considers to be relevant.

4. The Secretary of State is to designate a standard under paragraph 1 by publishing the reference to the standard and maintaining that publication in such manner as the Secretary of State considers appropriate.

Where the standard is a harmonised standard, the published reference may be the reference to a British standard transposing the harmonised standard.

5. Alongside a reference to a standard designated under paragraph 1, the Secretary of State must publish:

- (a) the references of any superseded harmonised technical specifications;
- (b) the date of the beginning of the coexistence period;
- (c) the date of the end of the coexistence period.

6. The Secretary of State may change the date of the beginning or end of the coexistence period for a designated standard to a later date by publishing the revised date in such manner as the Secretary of State considers appropriate.

7. When considering whether the manner of publication of a reference or a revised date is appropriate, the Secretary of State must have regard to whether the publication will draw the standard or the revised date to the attention of any persons who may have an interest in it.

Changes to legislation: There are currently no known outstanding effects for the The Construction Products (Amendment etc.) (EU Exit) Regulations 2019, SCHEDULE 1. (See end of Document for details)

8. Without prejudice to Articles 36 to 38, from the date of the end of the coexistence period, the designated standard is to be the only means used for drawing up a declaration of performance for a construction product covered by it.

At the end of the coexistence period, any other national standards are to be treated as invalid to the extent that they are inconsistent with the designated standard.

9. Where a designated standard is a harmonised standard:

- (a) the provisions of the harmonised standard which address the EU Construction Products Regulation are to be treated as the provisions of the designated standard which address this Regulation;
- (b) any reference in the harmonised standard to a system of assessment and verification of constancy of performance under the EU Construction Products Regulation is to be treated as a reference to the equivalent system under this Regulation.

Article 18C

Objection to a designated standard

1. Where the Secretary of State considers that a designated standard is no longer appropriate, the Secretary of State may, after consulting with such persons as the Secretary of State considers appropriate, decide to maintain, maintain with restriction or withdraw the reference to the designated standard.

2. Where the standard was prepared by a recognised standardisation body in response to a standardisation mandate, the Secretary of State must inform the recognised standardisation body of the decision under paragraph 1 and may request the revision of the standard.”

2. Where the Secretary of State has established classes of performance in relation to the essential characteristics of construction products, a recognised standardisation body must use those classes in a standard prepared under Article 18A. A responsible TAB must where relevant use those classes in UK Assessment Documents.

Where classes of performance in relation to the essential characteristics of construction products are not established by the Secretary of State, they may be established by a recognised standardisation body in a standard prepared under Article 18A, on the basis of a revised standardisation mandate.

3. When provided for in the relevant standardisation mandate, a recognised standardisation body must establish in a standard prepared under Article 18A threshold levels in relation to essential characteristics and, when appropriate, for intended uses, to be fulfilled by construction products in [^{F21}Great Britain].

4. Where a recognised standardisation body has established classes of performance in a designated standard or a European standardisation body has established such classes in

a harmonised standard which is a designated standard, a responsible TAB must use those classes in the UK Assessment Documents where they are relevant for the construction product.

When deemed appropriate, a responsible TAB may, with the agreement of the Secretary of State and after consulting such persons as it considers appropriate, establish in the UK Assessment Document classes of performance and threshold levels in relation to the essential characteristics of a construction product within its intended use as foreseen by the manufacturer.

5. The Secretary of State may make regulations, in accordance with Article 60, to establish conditions under which a construction product is to be deemed to satisfy a certain level or class of performance without testing or without further testing.

Where such conditions are not established by the Secretary of State, they may be established by a recognised standardisation body in a standard prepared under Article 18A, on the basis of a revised standardisation mandate.

6. When the Secretary of State has established classification systems in accordance with paragraph 1, any person may determine the levels or classes of performance to be respected by construction products in relation to their essential characteristics only in accordance with those classification systems.

7. A recognised standardisation body and a responsible TAB must respect the regulatory needs of [F21Great Britain] when determining threshold levels or classes of performance.”.

“Article 59A

Formal non-compliance in relation to the EU Construction Products Regulation

1. Without prejudice to Article 56, where a market surveillance authority considers an economic operator is seeking to rely on provisions in Article 16A, 16B or 16C in order to comply with the requirements of this Regulation and makes one of the following findings, it must require the relevant economic operator to put an end to the non-compliance concerned:

- [^{F24}(a) the CE marking, or in the case of a product to which regulation 4(2)(b) of the Construction Products (Amendment etc.) (EU Exit) Regulations 2020 applies, the CE marking accompanied by the UK(NI) indication, has not been affixed in accordance with Article 8(2) of the EU Construction Products Regulation;
- (b) the CE marking, or in the case of a product to which that regulation 4(2)(b) applies, the CE marking accompanied by the UK(NI) indication, has been affixed in breach of Article 8 or 9 of the EU Construction Products Regulation;]
- (c) the declaration of performance has not been drawn up in accordance with Articles 4 and 6 of the EU Construction Products Regulation and Article 7 of this Regulation (as modified by Article 16A);
- (d) the technical documentation referred to in the second subparagraph of Article 11(1) of the EU Construction Products Regulation is either not available or not complete.

2. Where the non-compliance referred to in paragraph 1 continues, the market surveillance authority must take all appropriate measures to restrict or prohibit the making available on the market of the construction product or ensure that it is recalled or withdrawn from the market.

Article 59B

Other non-compliance in relation to the EU Construction Products Regulation

1. Paragraph 2 applies where an economic operator:
 - (a) relies on provisions in Article 16A, 16B or 16C in order to comply with this Regulation when making a product available on the market; and
 - (b) after the product is made available on the market:
 - (i) the manufacturer is required, or becomes aware that another person is required, under the EU Construction Products Regulation to take corrective measures in relation to products on the market of the EU, or to withdraw or recall products from that market, and, if the United Kingdom had remained a member State, this requirement would have extended to the product in question; or

- (ii) a certificate in relation to the product is suspended or withdrawn, or restricted to the extent that it is no longer valid for that product, under Article 52(4) or (5) of the EU Construction Products Regulation.
2. Where this paragraph applies:
- (a) the product referred to in paragraph 1(a) is no longer considered to be compliant with this Regulation;
 - (b) the manufacturer must inform a market surveillance authority and any importer or distributor of the product of the action referred to in paragraph 1(b)(i) or 1(b)(ii) which is required, or has been taken, under the EU Construction Products Regulation;
 - (c) the manufacturer and any importer or distributor of the product must take any action required under Article 11(7), Article 13(7) or Article 14(4) respectively;
 - (d) a market surveillance authority may require the manufacturer or any importer or distributor of the product to take corrective measures to bring the product into conformity with this Regulation or to withdraw or recall it from the market.”.

Substitution of Annex 2 **U.K.**

66. For Annex 2 (procedure for adopting a European Assessment Document), substitute—

“ANNEX 2 **U.K.**

PROCEDURE FOR ADOPTING A UK ASSESSMENT DOCUMENT

Request for a UK Technical Assessment

1. When a manufacturer makes a request for a UK Technical Assessment to any TAB for a construction product, and after the manufacturer and the responsible TAB have signed an agreement of commercial secrecy and confidentiality, unless the manufacturer decides otherwise, the manufacturer must submit to the responsible TAB a technical file describing the product, its use as foreseen by the manufacturer and details of the factory production control the manufacturer intends to apply.

Requirements in relation to relevant TABs

2. For construction products referred to in Article 21(1)(c) for which there are other relevant TABs, the responsible TAB must within three weeks of the receipt of the technical file:

Changes to legislation: There are currently no known outstanding effects for the The Construction Products (Amendment etc.) (EU Exit) Regulations 2019, SCHEDULE 1. (See end of Document for details)

- (a) agree a work programme for the development of the UK Assessment Document with the relevant TABs;
- (b) establish a working group of the relevant TABs to develop the UK Assessment Document.

A representative from each relevant TAB must participate in the working group established by the responsible TAB.

Contract

3. For construction products referred to in Article 21(1)(c), within 1 month from the receipt of the technical file, a contract must be concluded between the manufacturer and the responsible TAB for the production of the UK Technical Assessment, defining the work programme for drawing up the UK Assessment Document, including:

- the organisation of work between any relevant TABs,
- if applicable, the composition of the working group referred to in section 2.

Work programme

4. After the conclusion of the contract with the manufacturer, the responsible TAB must inform the Secretary of State of the work programme for drawing up the UK Assessment Document and the schedule for its execution and indicate the assessment programme. This communication must take place within 3 months of receipt of the request for a UK Technical Assessment.

The draft UK Assessment Document

5. The responsible TAB must finalise a draft UK Assessment Document with the working group referred to in section 2 and must share this draft with the parties concerned within 6 months of the date the Secretary of State was informed of the work programme.

Secretary of State participation

6. The Secretary of State may participate, as an observer, in all the parts of the execution of the work programme.

Extension and delay

7. Any delay in relation to the time limits set in sections 1 to 5 in this Annex must be reported by the responsible TAB to the Secretary of State.

If an extension of the time limits for developing the UK Assessment Document can be justified, notably by the absence of a Secretary of State decision on the applicable system of assessment and verification of constancy of performance for the construction product or by the need to develop a new test method, the Secretary of State is to set an extended time limit.

Amendments and adoption of a UK Assessment Document

8. The responsible TAB must communicate the draft UK Assessment Document to the manufacturer. The manufacturer has [^{F25}21 days] to provide representations to the responsible TAB. Thereafter, the responsible TAB must:

Changes to legislation: There are currently no known outstanding effects for the *The Construction Products (Amendment etc.) (EU Exit) Regulations 2019, SCHEDULE 1.* (See end of Document for details)

- (a) consider any representations from the manufacturer with the working group referred to in section 2 and agree any changes to the draft UK Assessment Document with that group;
- (b) if applicable, inform the manufacturer as to how the manufacturer's reactions have been taken into account;
- (c) adopt the draft UK Assessment Document; and
- (d) send a copy to the Secretary of State.

If, within [^{F25}21 days] of receipt, the Secretary of State provides observations to the responsible TAB on the draft UK Assessment Document, the responsible TAB, after it and any relevant TABs have been given the opportunity to comment, must amend the draft accordingly and must send a copy of the adopted UK Assessment Document to the manufacturer and to the Secretary of State.

^{F26}

Final UK Assessment Document to be published

9. As soon as the first UK Technical Assessment is issued by the responsible TAB on the basis of the adopted UK Assessment Document, the responsible TAB must adjust the UK Assessment Document, if appropriate, based on experiences gained and with the agreement of any relevant TABs.

The responsible TAB must adopt the final UK Assessment Document and must send a copy of it to the Secretary of State for publication of its reference.

As soon as the UK mark is affixed to the product, the responsible TAB must inform any relevant TABs and all the relevant TABs (including the responsible TAB) must keep the UK Assessment Document publicly available by electronic means.

Use of final UK Assessment Document

10. Once the reference to the final UK Assessment Document is published by the Secretary of State under Article 22, it may be used by any relevant TAB for the purpose of issuing UK Technical Assessments.”.
