

SCHEDULE 1

REQUIREMENTS RELATING TO PREMISES WHERE A DISEASE IS SUSPECTED OR CONFIRMED

PART 2

Premises on which a designated disease is confirmed

8. The occupier of the premises shall give all reasonable assistance to a veterinary inspector so as to ensure that poultry and such other birds as the veterinary inspector may require on the premises are killed there without delay and that carcasses and eggs are destroyed in such a way as will minimise the risk of spreading disease, in accordance with directions given by a veterinary inspector.

9. The occupier of the premises shall ensure that all other material which may be contaminated is destroyed or treated in such a way as to destroy the disease, in accordance with directions given by a veterinary inspector.

10. The occupier of the premises shall give all reasonable assistance to a veterinary inspector so as to ensure that —

- (a) meat of all poultry slaughtered during the presumed incubation period,
- (b) eggs laid during the presumed incubation period, and
- (c) meat and eggs which are otherwise likely to be contaminated with the disease virus,

are traced and destroyed, except that table eggs need not be destroyed if they have previously been disinfected.

11. The buildings used for housing poultry, their surroundings, the vehicles used for transport and all equipment likely to be contaminated shall, under the supervision of an inspector, be subject to preliminary and final cleaning and disinfecting in accordance with [^{F1}Annex 6 to Council [Directive 2005/94/EC](#)] or Annex II of Council Directive [92/66/EEC](#) as the case may be and to the satisfaction of a veterinary inspector. The occupier of the premises shall not restock the premises until at least 21 days after completion of the cleaning and disinfection.
