The International Travel Regulations also make specific provisions for “regulation 2A travellers”, which includes individuals who have been fully vaccinated in prescribed countries and territories.

Regulation 4 of these Regulations makes an amendment to regulation 6A (requirement to possess notification of a negative test result) of the International Travel Regulations to remove the requirement for pre-departure testing for regulation 2A travellers.

Regulation 5 of these Regulations amends regulation 6AB (requirement to book and undertake tests) of the International Travel Regulations so as to enable regulation 2A travellers to use a lateral flow device (“LFD”) tests for day 2 tests.

Regulation 7 of these Regulations makes amendments to regulation 6E (consequences of a positive test result) of the International Travel Regulations to insert provision requiring a person to undertake a confirmatory polymerase chain reaction (“PCR”) test where they receive a positive test result on a LFD test, as well as containing provision on isolation requirements following test results.

Regulation 8 of these Regulations makes amendments to regulation 6HB (consequences of receiving inconclusive test result: regulation 2A travellers) of the International Travel Regulations to provide that the isolation requirements apply to a regulation 2A traveller that has received an inconclusive test result.

Regulation 9 of these Regulations makes amendments to regulation 9 (isolation requirements: exemptions) to remove the requirement to isolate for children that are under the age of 5 upon arrival in Wales and regulation 2A travellers.

Regulation 10 of these Regulations substitutes regulation 12 (last day of isolation) to provide that the last day of a person’s isolation is the last day of the period of 10 days beginning with the day after the day on which they were last in a non-exempt country or territory.

Regulation 11 of these Regulations makes amendments to regulation 14 (offences) to introduce an offence for failing to undertake a confirmatory PCR test.

Regulation 12 of these Regulations which makes amendments to regulation 16 (fixed penalty notices) in consequence of the introduction of an offence for failing to undertake a confirmatory PCR test.

Regulation 13 of these Regulations makes further provision in Schedule 1C (mandatory testing after arrival in Wales) in relation to the introduction of LFD testing, and to ensure that day 8 tests are taken no earlier than the end of seventh day of a person's isolation.

Part 3 of these Regulations amends the Public Health Information Regulations.

The Public Health Information Regulations impose requirements on operators of international passenger services coming from outside the common travel area to an airport, heliport or seaport in Wales to provide passengers with specific public health information.

Regulation 15 of these Regulations amends the Public Health Information Regulations to update the information that operators are required to provide to passengers travelling to Wales in consequence of the amendments made to the International Travel Regulations.

There has been no regulatory impact assessment in relation to these Regulations due to the need to put them in place urgently to deal with a serious and imminent threat to public health.
