#### **NOTES TO PART 3**

#### INDIVIDUAL SCHOOLS BUDGET—FUNDING FACTORS

1. The numbered notes below refer to the items in the table bearing the corresponding number or letter and number. Where an authority do not intend to make any financial provision for any matter listed in the table a zero should be entered at the appropriate place.

The table must list and include a description of each factor used including the full methodology of the factor. This description should be provided in the table in the relevant box headed "Method".

# PRIMARY AND SECONDARY SCHOOLS

- 2. Include full information relating to the funding of pupils in sixth forms throughout.
- **3.** Enter here a description of the method used to calculate from the pupil numbers taken from the annual school census, the number of pupils to be taken into account in allocating funding through the authority's allocation formula.
  - 4. A general column heading for the type and factor name used to determine school budgets.
- **5.** Enter in this column (5) opposite each factor in column (4) and in ascending order each relevant year, age group, year group, subject taught or band based on assessment of need applicable in accordance with the allocation formula for primary and secondary schools, specifying separately any specific separate categories for pupils in nursery classes or for those funded according to the subject being studied. Where the number of pupils in nursery classes is weighted then the weightings must be shown and a note provided to explain whether numbers are the actual numbers or based on full-time equivalents. Enter also at the appropriate sections of the table the range or levels relating to site specific and school specific factors.

Where individual pupils aged sixteen or more are

- (a) being educated in Year 11 together with pupils aged fifteen or more, or
- (b) attending school solely for the purpose of preparing to repeat examinations,

these should be identified separately as an additional Year 11 line.

- **6.** Enter in this column (6), opposite each entry in column (4), the amount attributed to each pupil in that year, age group, year group, subject taught or band based on assessment of need.
  - 7. Enter in this column (7) opposite each entry in column (4)—
    - (a) the total number of registered pupils in that year, age group or year group at primary and secondary schools taken into account in the allocation formula pursuant to regulation 11 of the 2002 Regulations, but ignoring any weighting in accordance with paragraph (5) of that regulation or any adjustment under paragraph (6) of that regulation; or
    - (b) the number of places, in the case of provision of places in schools which the authority recognise as reserved for children with special educational needs, or for children in nursery classes, or of boarding accommodation at boarding schools other than special schools, pursuant to regulation 14 of the 2002 Regulations.
- **8.** Enter in this column (8), opposite each entry in column (4), the amounts produced by multiplying the amount in column (6) by the number in column (7).
- **9.** Enter in this column (9) the aggregate of the amounts in column (8) expressed as a percentage of the amount referred to in line (32) (total funds excluding transitional funding and School Standards Grant).
- **10.** Enter in this column (10) the particular provision of the 2002 Regulations, which permits the factor entered in column (4) to be used.
- 11. A sub-heading for the factors which allocate the ISB by reference to the numbers of registered pupils at primary and secondary schools and their ages (or age group or year group to which they belong), their attendance at a nursery class, their subjects of study or any special educational needs they may have or are to be treated as having for the purposes of the application of the allocation formula, so that each pupil within a given category attracts equal amounts regardless of the school which he attends.
  - 12. A heading for the entries to be made under the age-weighted funding subsection of the table.

# Continue to include full information relating to the funding of pupils in sixth forms throughout.

- 13. Enter in this column (13) the amounts which represent the weighting given according to age (including key stage or year group), whether a pupil is provided with nursery education, the subject or course of study in the case of pupils in a sixth form, or the number of places made available for pupils in boarding accommodation other than special schools.
- **14.** Enter here a description of the method used to operate the factor, explaining variations in level of provision, which pupils or their schools may attract.
- **15.** Enter here the aggregate of the numbers in column (7), and the aggregate of the amounts in column (8), separately for primary schools and secondary schools and give a total.

# **Pupil-led SEN funding**

- **16.** Enter in this column each factor relating to pupils with statements of special educational needs which allocates the ISB by reference to the numbers of registered pupils at primary and secondary schools and any special educational needs they may have or are to be treated as having for the purposes of applying the allocation formula.
- 17. Enter in this column each factor relating to pupils without statements of special educational needs, which would fall to be entered in column (16) if it related to pupils with statements of special educational needs.

# Place-led SEN funding treated as pupil-led

**18.** Enter in this column each factor (other than those referred to in notes (11) to (17 above) which allocates the ISB on the basis of the relative needs of individual primary and secondary schools to incur expenditure in making special educational provision for places for pupils with special educational needs.
