Transfer report

2.—(1) The trustees or managers of a funded public service defined benefits scheme, or part of such a scheme, may request an actuary to prepare a report (a “transfer report”) if they consider that—

- (a) there may now or in the future be an increased likelihood of payments out of public funds, or of increased payments out of public funds, having to be made into the scheme so that it can meet its liabilities, and
- (b) the increased likelihood may be connected with the exercise or expected future exercise of rights to take a cash equivalent acquired under section 94 (right to cash equivalent) of the 1993 Act.(15)

(2) The trustees or managers of a funded public service defined benefits scheme, or part of such a scheme, which is designated or the designation of which is extended, must request an actuary to prepare a report (a “transfer report”) unless—

- (a) they have already requested a report under paragraph (1) and that report has not been completed; or
- (b) they already have a transfer report for the scheme which remains current.

(3) A transfer report for a scheme remains current if—

- (a) it still has an effective date which is no earlier than the effective date of the most recent report of an actuarial valuation of the scheme;
- (b) the determinations used by the actuary (under paragraph 4(2) of the Schedule) who prepared the report are still the most recent determinations for the scheme as a whole made by the trustees or managers of that scheme under regulation 7A(3) (manner of calculation of initial cash equivalents for salary related benefits) of the 1996 Regulations; and
- (c) the assumptions used by the actuary (under paragraph 5(2) of the Schedule) who prepared the report are still the assumptions for the scheme as a whole most recently determined by the trustees or managers of that scheme under regulation 7B (initial cash equivalents for salary related benefits: assumptions and guidance) of the 1996 Regulations.

(4) Where the trustees or managers make a request under paragraph (2), they must make the request within three working days of—

- (a) the scheme’s being designated or the designation of the scheme being extended, in a case where the trustees or managers are the relevant person; or
- (b) the trustees or managers receiving notice of a designation of the scheme or its extension, in a case where the trustees or managers are not the relevant person.

(5) Where an actuary has been requested to prepare a transfer report and—

- (a) the request was made under paragraph (1), and the scheme is subsequently designated or the designation of the scheme is subsequently extended; or
- (b) the request was made under paragraph (2) following a designation or extension of a designation of the scheme,

the actuary must complete the transfer report within two months of the designation or extension.

(6) The Schedule (transfer report) has effect.

Reduction of cash equivalent

3.—(1) Where, under section 95(1) (ways of taking right to cash equivalent) of the 1993 Act(16), a member of a scheme to which this regulation applies requires the trustees or managers to use a

cash equivalent for acquiring a right or entitlement to flexible benefits under the rules of another pension scheme, the cash equivalent must be reduced by percentage P, unless paragraph (4) applies.

(2) This regulation applies to a scheme which is a funded public service defined benefits scheme, or part of such a scheme, that is designated on the date of the application under section 95(1) of the 1993 Act.

(3) A cash equivalent may be reduced by percentage P under paragraph (1) only to the extent that it relates to benefits which are not money purchase benefits (within the meaning of the 1993 Act) or injury or compensation benefits (within the meaning of the Public Service Pensions Act 2013⁽¹⁷⁾).

(4) This paragraph applies where a scheme ceases to be designated before the date on which the trustees or managers do what is needed to carry out what the member required by making an application under section 95(1) of the 1993 Act.⁽¹⁸⁾

(5) Where paragraph (4) applies, no reduction of the member's cash equivalent is to be made under these Regulations.

(6) The reduction made under this regulation (alone or in conjunction with reductions made under the 1996 Regulations) may produce the result that the amount by which a cash equivalent is to be reduced is such that a member has no right to receive anything.

Percentage P

4. "Percentage P" means—

- (a) the insufficiency percentage stated in the most recent transfer report; or
- (b) where the relevant person has specified a percentage under regulation 5, that percentage.

Specification of amount of reduction by the relevant person

5.—(1) The relevant person may specify a percentage as percentage P, provided that—

- (a) the percentage which the relevant person specifies is lower than the insufficiency percentage stated in the most recent transfer report;
- (b) the actuary who prepared the most recent transfer report has provided written advice regarding whether reducing cash equivalents by a percentage which is lower than the insufficiency percentage stated in the most recent transfer report would be consistent with trying to remove or significantly reduce the likelihood referred to in paragraph (2); and
- (c) the relevant person considers that, having regard in particular to the need to try to remove or significantly reduce the likelihood referred to in paragraph (2), the percentage to be specified is reasonable in all the circumstances.

(2) This paragraph refers to—

- (a) the likelihood of payments out of public funds, or increased payments out of public funds, having to be made into the scheme so that it can meet its liabilities, where
- (b) the likelihood is connected with the exercise or expected future exercise of rights to take a cash equivalent acquired under section 94 (right to cash equivalent) of the 1993 Act.⁽¹⁹⁾

⁽¹⁸⁾ Section 95(1) was substituted by the Pension Schemes Act 2015 c. 8, section 67, Schedule 4, paragraph 9.

⁽¹⁹⁾ Sections 94(1) and (2) were substituted by the Pension Schemes Act 2015 c. 8, section 67, Schedule 4, paragraph 8.

SCHEDULE

Regulation 2

Transfer Report

1. A transfer report must—
 - (a) have an effective date which is no earlier than the effective date of the most recent report of an actuarial valuation of the scheme; and
 - (b) state the percentage by which, as at the effective date of the transfer report, the market value of the scheme’s assets was insufficient to cover the transfer report liabilities of all members of the scheme (“the insufficiency percentage”).
2. The transfer report liabilities are—
 - (a) for active members with vested rights, each member’s cash equivalent calculated—
 - (i) in accordance with paragraphs 3 to 6; and
 - (ii) on the assumption that the member ceases pensionable service under the scheme on the effective date;
 - (b) for deferred members, each member’s cash equivalent calculated in accordance with paragraphs 3 to 6;
 - (c) for pensioner members, each member’s cash equivalent calculated in accordance with paragraphs 3 to 5;
 - (d) for members over normal pension age for the purpose of the scheme and not in receipt of a pension, each member’s cash equivalent calculated—
 - (i) in accordance with paragraphs 3 to 5; and
 - (ii) on the assumption that the member’s pension comes into payment on the effective date of the report;
 - (e) for pension credit members, each member’s cash equivalent calculated in accordance with paragraphs 3 to 6; and
 - (f) for members with unvested rights, an amount for each member—
 - (i) equal to the amount of the member’s unvested contributions; and
 - (ii) calculated on the assumption that the member ceases pensionable service under the scheme on the effective date of the report.
3. Cash equivalents for each member must be calculated by calculating the initial cash equivalent in accordance with paragraphs 4 and 5 and then, except in a case to which paragraph 2(c) or 2(d) applies, making any reduction required by paragraph 6.
- 4.—(1) The initial cash equivalent must be calculated—
 - (a) on the basis that the initial cash equivalent is the amount at the effective date of the report which is required to make provision within the scheme for a member’s accrued benefits, options and discretionary benefits; and
 - (b) using the assumptions provided for in paragraph 5.

(2) For the purposes of sub-paragraph (1)(a), the actuary preparing the report must use the most recent determinations for the scheme as a whole made by the trustees or managers of that scheme under regulation 7A(3) (manner of calculation of initial cash equivalents for salary related benefits) of the 1996 Regulations.
- 5.—(1) Initial cash equivalents must be calculated using the assumptions provided for in this paragraph.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(2) The actuary preparing the report must use the assumptions for the scheme as a whole most recently determined by the trustees or managers of that scheme under regulation 7B (initial cash equivalents for salary related benefits: assumptions and guidance) of the 1996 Regulations.

(3) This sub-paragraph applies to -

- (a) a scheme made under section 7 (superannuation of persons employed in local government service, etc) of the Superannuation Act 1972⁽²⁰⁾, or a part of such a scheme;
- (b) a scheme made under section 1 (schemes for persons in public service) of the Public Service Pensions Act 2013⁽²¹⁾, or which has effect as a scheme made under section 1, for the payment of pensions to or in respect of local government workers, or a part of such a scheme; or
- (c) a scheme established by virtue of paragraph 12 (MPs' pension scheme) or paragraph 16 (Ministers' etc pension scheme) of Schedule 6 (Parliamentary and other pensions) to the Constitutional Reform and Governance Act 2010.⁽²²⁾

(4) In the case of the schemes or parts of schemes to which sub-paragraph (3) applies, the actuary preparing the report must assume that -

- (a) the per annum increase of official pensions required by orders to be made under section 59 of the Social Security Pensions Act 1975 (increase of official pensions)⁽²³⁾ will be-

$$\left(\left(\frac{1.05}{1.03} - 1 \right) \times 100 \right) \%$$

- (b) the per annum increase of that part of guaranteed minimum pensions which is attributable to earnings factors in the period beginning with the tax year 1988-1989 and ending with the tax year 1996-1997 required by orders to be made under section 109 of the 1993 Act (annual increase of guaranteed minimum pensions)⁽²⁴⁾ will be-

$$\left(\left(\frac{1.05}{1.0325} - 1 \right) \times 100 \right) \%$$

- (c) the discount rate is 5%.

6. The actuary must reduce an initial cash equivalent by the amount of the reduction (if any) which the managers or trustees consider that they would make under paragraph 15 of Schedule 1A (reductions in initial cash equivalents) of the 1996 Regulations were the member to leave the scheme.

EXPLANATORY NOTE

(This note is not part of the Regulations)

A funded public service defined benefits scheme can be designated under sections 97A and 97B of the Pension Schemes Act 1993 c. 48 ('the 1993 Act') if a relevant person considers that (a) there is an increased likelihood of payments out of public funds, or of increased payments out of public funds, having to be made into the scheme so that it can meet its liabilities, and (b) the increased likelihood is connected with the exercise or expected future exercise of rights to take a cash equivalent. When a member requires the trustees or managers of a scheme to use a cash equivalent for acquiring a right or entitlement to flexible benefits under the rules of another pension scheme, and the scheme was already designated on the date that the member makes his or her application under section 95(1) of the 1993 Act, these Regulations require the trustees or managers to reduce the cash equivalent. They also set out how the amount of the reduction is to be determined. The reduction must not however be made if the scheme ceases to be designated before the date on which the trustees or managers do what is needed to carry out what the member requires.

An impact assessment has not been produced for this instrument as no impact on the costs of business or the voluntary sector is foreseen.
