

Commission Decision of 15 June 1979 laying down detailed rules for the implementation of Council Decision 77/706/EEC (79/639/EEC) (repealed)

*Article 5*

1 The quantities which are saved and are to be shared out among the Member States pursuant to Article 1 (3) of Decision 77/706/EEC shall be calculated by applying the different rates of reduction in the consumption of the petroleum products for each Member State provided for in Article 1 (2) of the said Decision.

2 A Member State whose rate of reduction in consumption exceeds the Community average shall be required to reallocate a quantity equal to the difference between the level of consumption it could have maintained if a uniform rate of reduction for the Community as a whole had been applied and its consumption as reduced pursuant to Article 1 (2) of Decision 77/706/EEC.

3 A Member State whose rate of reduction in consumption is below the Community average shall be entitled to a reallocation of a quantity equal to the difference between its consumption as reduced pursuant to Article 1 (2) of Decision 77/706/EEC and the level of consumption it could have maintained if a uniform rate of reduction for the Community as a whole had been applied.
