Whereas, following a Community veterinary mission, it appears that the animal health situation in Mexico is excellent, stable and completely controlled by well structured and organized veterinary services, particularly as regards diseases transmissible through meat;

Whereas, in addition, the responsible veterinary authorities of Mexico have confirmed that Mexico has for at least 12 months been free from rinderpest and foot-and-mouth disease and that no vaccinations have been carried out against those diseases during that time;

Whereas the responsible veterinary authorities of Mexico have undertaken to notify the Commission of the European Communities and the Member States, by telex or telegram, within 24 hours at the latest, of the confirmation of the occurrence of any of the above-

mentioned diseases or the adoption of vaccination against any of them;

Whereas animal health conditions and veterinary certification must be adopted according to the animal health situation of the non-member country concerned;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:
