
Status: Point in time view as at 28/03/2018.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)

Commission Decision of 2 February 1993 on animal health conditions
and veterinary certification for the re-entry of registered horses for racing,
competition and cultural events after temporary export (93/195/EEC) (repealed)

COMMISSION DECISION

of 2 February 1993

on animal health conditions and veterinary certification for the re-entry of
registered horses for racing, competition and cultural events after temporary export
(93/195/EEC) (repealed)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 90/426/EEC of 26 June 1990 on animal health conditions governing the movement and import from third countries of equidae⁽¹⁾, as last amended by Directive 92/36/EEC⁽²⁾, and in particular Article 19 (ii) thereof,

Whereas by Council Decision 79/542/EEC⁽³⁾, as last amended by Commission Decision 93/100/EEC⁽⁴⁾, the list of third countries from which the Member States authorize imports of equidae in particular has been established;

Whereas it is also necessary to take into account the regionalization of certain third countries appearing on the abovementioned list, which is the subject of Commission Decision 92/160/EEC⁽⁵⁾, as amended by Decision 92/161/EEC⁽⁶⁾;

Whereas the national veterinary authorities have undertaken to notify the Commission and the Member States, by telegram, telex or telefax, within 24 hours of the confirmation of the occurrence of any infectious or contagious disease in equidae of lists A and B of the International Office of Epizootics (IOE) or of the adoption of vaccination against any of them or, within an appropriate period, of any proposed changes in the national import rules concerning equidae;

Whereas the different categories of horses have their own features and their imports are authorized for different purposes; whereas, consequently, specific health requirements must be established for the re-entry of registered horses for racing, competition and cultural events after temporary export;

Whereas, given the existence of equivalent health situations at racecourses and on premises where competitions or cultural events are held, and given the isolation from equidae of lower health status, it seems advisable to establish a single health certificate for re-entry of registered horses for racing, competition and cultural events after temporary export to third countries;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:

Status: Point in time view as at 28/03/2018.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)

Article 1

Without prejudice to Decision 92/160/EEC Member States shall authorize the re-entry of registered horses for racing, competition and cultural events [^{X1}after temporary export, where such horses:]

- return from third countries appearing in Parts I and II of the special column for equidae in the Annex to Decision 79/542/EEC to which they have been temporarily exported either directly or after transit through other countries of the same group in Annex I to the present Decision,
- comply with the requirements laid down in the specimen animal health certificate set out in Annex II to the present Decision[^{F1},]
- [^{F2}have taken part in specific races, competitions or cultural events in Canada or the United States of America and meet the requirements laid down in a health certificate in accordance with the model health certificate set out in Annex III to this Decision,]
- [^{F3}have taken part in the Dubai Racing World-Cup and meet the requirements laid down in a health certificate in accordance with the model set out in Annex IV to this Decision[^{F4},]
- [^{F5}have taken part in the Melbourne Cup and meet the requirements laid down in a health certificate in accordance with the model set out in Annex V to this Decision[^{F6},]
- [^{F7}have taken part in the Japan Cup and the Hong Kong International Races and meet the requirements laid down in a health certificate in accordance with the model set out in Annex VI to this Decision[^{F8},]
- [^{F9}have taken part in the equestrian events of the Asian Games or the Endurance World Cup, irrespective of in which of the third countries, territories or parts thereof the competition takes place, and from which re-entry into the Union is authorised as provided for by the second indent of Article 3 of Decision 2004/211/EC and indicated in column 7 of Annex I to that Decision, and meet the requirements laid down in the health certificate in accordance with the model set out in Annex VII to this Decision,]
- [^{F10}have taken part in International Group/Grade meetings in Australia, Canada, the United States of America, Hong Kong, Japan, Singapore, the United Arab Emirates or Qatar and meet the requirements laid down in a health certificate in accordance with the model set out in Annex VIII to this Decision,]
- [^{F11}have taken part in equestrian events for the Olympic Games, the preparatory test events or the Paralympics and meet the requirements laid down in a health certificate in accordance with the model health certificate set out in Annex IX to this Decision[^{F12},]
- [^{F13}have taken part in the equestrian events of the LG Global Champions Tour in Shanghai, China, the Metropolitan area of Mexico City, Mexico, or Miami, United States of America, and meet the requirements laid down in a health certificate drawn up in accordance with the model health certificate set out in Annex X to this Decision.]

COUNTRY		Re-entry of a registered horse after temporary export of not more than 30 days	
II. Health information		II.a. Certificate reference number	II.b.
Part II: Certification	II.1. Animal health attestation		
	<p>I, the undersigned, certify that the registered horse described above meets the following requirements:</p> <p>(a) it comes from a country where the following diseases are compulsorily notifiable: African horse sickness, dourine (<i>Trypanosoma equiperdum</i>), glanders (<i>Burkholderia mallei</i>), equine encephalomyelitis (of all types including Venezuelan equine encephalomyelitis), equine infectious anaemia, vesicular stomatitis, rabies, anthrax;</p> <p>(b) it has been examined today and shows no clinical sign of disease (1);</p> <p>(c) it is not intended for slaughter under a national programme of infectious or contagious disease eradication;</p> <p>(d) it has not been outside the European Union for a continuous period of more than 30 days and was imported into the country (2) of dispatch on (3) either from a Member State of the European Union or from a third country appearing in the same group (see Annex I to Decision 93/195/EEC) and since its exit from the European Union it has never been in a third country other than those in the same group; it has been resident on holdings under veterinary supervision, accommodated in separated stables without coming into contact with equidae of lower health status except during racing, competition or cultural events;</p> <p>(e) it does not come from the territory or in case of official regionalisation according to European Union legislation from a part of the territory of a third country in which:</p> <p style="margin-left: 20px;">(i) Venezuelan equine encephalomyelitis has occurred during the last two years;</p> <p style="margin-left: 20px;">(ii) dourine has occurred during the last six months;</p> <p style="margin-left: 20px;">(iii) glanders has occurred during the last six months;</p> <p>(f) it does not come from the territory or from a part of the territory of a third country considered, in accordance with European Union legislation, as infected with African horse sickness;</p> <p>(g) it does not come from a holding which was subject to prohibition for animal health reasons nor had contact with equidae from a holding which was subject to prohibition for animal health reasons:</p> <p style="margin-left: 20px;">(i) during six months in the case of equine encephalomyelitis, beginning on the date on which the equidae suffering from the disease are slaughtered;</p> <p style="margin-left: 20px;">(ii) in the case of equine infectious anaemia, until the date on which, the infected animals having been slaughtered, the remaining animals have shown a negative reaction to two Coggins tests carried out three months apart;</p> <p style="margin-left: 20px;">(iii) during six months in the case of vesicular stomatitis;</p> <p style="margin-left: 20px;">(iv) in the case of an uncastrated male horse, during six months in the case of equine viral arteritis;</p> <p style="margin-left: 20px;">(v) during one month from the last recorded case, in the case of rabies;</p> <p style="margin-left: 20px;">(vi) during 15 days from the last recorded case, in the case of anthrax.</p> <p>If all the animals of species susceptible to the disease located on the holding have been slaughtered and the premises disinfected, the period of prohibition shall be 30 days, beginning on the day on which the animals were destroyed and the premises disinfected, except in the case of anthrax, where the period of prohibition is 15 days;</p> <p>(h) to the best of my knowledge, it has not been in contact with equidae suffering from an infectious or contagious disease in the 15 days prior to this certification.</p>		
	II.2.	The horse will be sent in a vehicle cleansed and disinfected in advance with a disinfectant officially recognised in the country of dispatch and designed in a way droppings, litter or fodder cannot escape during transportation.	
	II.3.	The certificate is valid for 10 days. In the case of transport by ship the time is prolonged by the time of the voyage.	
		The following declaration signed by the owner or representative is part of the certificate.	
	Notes		
	Part I:		
	Box I.8:	Provide the Code of territory as appearing in Annex I to Commission Decision 2004/211/EC of 6 January 2004 establishing the list of third countries and parts of territory thereof from which Member States authorise imports of live equidae and semen, ova and embryos of the equine species, and amending Decisions 93/195/EEC and 94/63/EC (OJ L 73, 11.3.2004, p. 1).	

Status: Point in time view as at 28/03/2018.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)

COUNTRY		Re-entry of a registered horse after temporary export of not more than 30 days	
II. Health information		II.a. Certificate reference number	II.b.
Part II: Certification	Box I.15:	Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship) and information is to be provided. In case of unloading and reloading, the consignor must inform the Border Inspection Post of entry into the European Union.	
	Box I.23:	For containers or boxes, the container number and the seal number (if applicable) should be included.

F2 ANNEX III

HEALTH CERTIFICATE

for re-entry of registered horses after temporary export to Canada or the United States of America for less than 90 days to participate in specific races, competitions or cultural events

Certificate No:

Specific event:

Presentations in the United States of America in 2005 by the Spanish Riding School in Vienna to commemorate the 60th anniversary of General George Patton's rescue of the Austrian Lipizzaner

Exporting third country: (insert name of country)

Responsible ministry: (insert name of ministry)

I. Identification of horse

(a) No of identification document:

(b) Validated by: (name of competent authority)

II. Origin of horse

The horse is to be sent from: (place whence consigned)

to: (place of destination)

by air: (give flight number)

Name and address of consignor:

Name and address of consignee:

III. Health information

I, the undersigned, certify that the horse described above meets the following requirements:

- (a) it comes from a country where the following diseases are compulsorily notifiable: African horse sickness, dourine, glanders, equine encephalomyelitis (of all types including Venezuelan equine encephalomyelitis), equine infectious anaemia, vesicular stomatitis, rabies, anthrax;
(b) it has been examined today and shows no clinical signs of disease (1);
(c) it is not intended for slaughter under a national programme of infectious or contagious disease eradication;
(d) since its entry into the country of dispatch, it has been resident on holdings under veterinary supervision, accommodated in separated stables without coming into contact with equidae of lower health status;

Status: Point in time view as at 28/03/2018.

Changes to legislation: *There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)*

- (e) it comes from the territory or in the case of official regionalisation according to Community legislation from a part of the territory of a third country in which:
- (i) Venezuelan equine encephalomyelitis has not occurred during the last two years,
 - (ii) dourine has not occurred during the last six months,
 - (iii) glanders has not occurred during the last six months;
- (f) it does not come from the territory or from a part of the territory of a third country considered, in accordance with Community legislation, as infected with African horse sickness;
- (g) it does not come from a holding which was subject to a prohibition order for animal health reasons nor had contact with equidae from a holding which was subject to prohibition order for animal health reasons which laid down the following conditions:
- (i) if not all animals of species susceptible to one or more of the diseases referred to hereinafter were removed from the holding, the prohibition lasted for:
 - six months in the case of equine encephalomyelitis, beginning on the date on which the equidae suffering from the disease are slaughtered or removed from the premises,
 - a period required to carry out two Coggins tests three months apart giving negative results on samples taken from the animals remaining after infected animals have been slaughtered, in the case of equine infectious anaemia,
 - one month from the last recorded case, in the case of rabies,
 - 15 days from the last recorded case, in the case of anthrax,
 - (ii) if all the animals of species susceptible to the disease have been slaughtered or removed from the holding, the period of prohibition shall be 30 days, or 15 days in the case of anthrax, beginning on the day on which the premises were cleaned and disinfected following the destruction or removal of the animals;
- (h) it comes from a holding which
- (i) either was not subject to a prohibition order for vesicular stomatitis and the animal had no contact with equidae from a holding which was subject to such prohibition order during the past six months (?),
- or
- (ii) was free of vesicular stomatitis during the 30 days prior to dispatch and on which the animal was protected from vector insects during those 30 days prior to dispatch and where it underwent one of the following health tests carried out on a blood sample taken not earlier than 21 days after the commencement of the vector protection period:
 - a virus neutralisation test giving negative results at a serum dilution of 1 in 12 (?),
- or
- a serological test carried out giving negative results in accordance with Chapter 2.1.2 of the Manual for Diagnostic Tests and Vaccines for Terrestrial Animals of the World Organisation for Animal Health (OIE) (?);
- (i) to the best of my knowledge, it has not been in contact with equidae suffering from an infectious or contagious disease in the 15 days prior to this declaration.

Status: Point in time view as at 28/03/2018.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)

IV. Residence and quarantine information:

- (a) The horse entered the territory of the country of dispatch on (insert date).
- (b) The horse arrived in the country of dispatch from either a Member State of the European Community ⁽²⁾ or from ⁽²⁾ (insert name of country from where the horse arrived in the country of export), the latter being one of the countries in North America listed in Group C in Annex I to Decision 2004/211/EC.
- (c) The horse entered the country of dispatch under animal health conditions at least as strict as those laid down in this certificate.
- (d) As far as can be ascertained and based on the attached declaration (which forms part of the certificate) by the owner ⁽²⁾ or the representative of the owner ⁽²⁾ of the horse, the horse has not been continuously outside the European Community for 90 days or more, including the date of scheduled return in accordance with this certificate, and has not been outside the countries referred to above.

V. The horse will be sent in a vehicle cleaned and disinfected in advance with a disinfectant officially recognised in the country of dispatch and designed in a way that droppings, litter or fodder cannot escape during transportation.

VI. The certificate is valid for 10 days.

Name in block capitals and capacity

(*) The colour of the stamp and the signature must be different from that of the printed model.

Status: Point in time view as at 28/03/2018.

Changes to legislation: *There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)*

DECLARATION

I, the undersigned
(insert name of owner ⁽²⁾ or representative ⁽²⁾ of owner of the horse described above in block letters)

declare:

- the horse will be sent directly from the premises of dispatch to the premises of destination without coming into contact with other equidae not of the same health status,
- the horse is moved only between premises under the supervision of central competent authorities of the country of dispatch,
- the horse was exported from a Member State of the European Union on (insert date).

.....
(Place, date)

.....
(Signature)

⁽¹⁾ The certificate must be issued on the day of loading of the animal for dispatch to the European Union or on the last working day before embarkation.

⁽²⁾ Delete as appropriate.

Status: Point in time view as at 28/03/2018.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)

[^{F3} ANNEX IV

HEALTH CERTIFICATE

for re-entry of registered horses that have taken part in the Dubai Racing World-Cup after temporary export for less than 90 days

Certificate No:

Exporting third country: UNITED ARAB EMIRATES

Responsible ministry: MINISTRY OF AGRICULTURE

I. Identification of horse

(a) No of identification document:

(b) Validated by:

(name of competent authority)

II. Origin of horse

The horse is to be sent from:

(place whence consigned)

to:

(place of destination)

by air:

(give flight number)

Name and address of consignor:

.....

Name and address of consignee:

.....

III. Health information

I, the undersigned, certify that the above horse meets the requirements set out in point III (a), (b), (c), (e), (f), (g) and (h) of Annex II to Decision 93/195/EEC and that it has been kept under official veterinary supervision on approved premises protected from vector insects since entering the territory of the United Arab Emirates on (less than 90 days) and during that period has been kept in separated stabling out of contact with equidae of lower health status, except during the competitions.

IV. The horse will be consigned in a means of transport cleaned and disinfected in advance with a disinfectant officially recognized in the United Arab Emirates.

Status: Point in time view as at 28/03/2018.

Changes to legislation: *There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)*

V. This certificate is valid for 10 days.

Date	Place	Stamp and signature of the official veterinarian (*)
Name in block capitals and capacity:		
(*) The colour of the stamp and the signature must be different to that of the printing

by road transport (¹):
(give licence plate number)

Name and address of consignor:

Name and address of consignee:

III. Health information

I, the undersigned, certify that the horse described above meets the following requirements:

(a) it comes from a third country, territory or, where regionalisation applies in accordance with Article 13(2)(a) of Directive 90/426/EEC, a part of a third country or territory listed in Annex I to Commission Decision 2004/211/EC in which the following diseases are compulsorily notifiable in the entire third country or territory: African horse sickness, dourine, glanders, equine encephalomyelitis (of all types including Venezuelan equine encephalomyelitis), equine infectious anaemia, vesicular stomatitis, rabies, anthrax;

(b) it has been examined today and shows no clinical signs of disease (²);

(c) it is not intended for slaughter under a national programme of infectious or contagious disease eradication;

(d) since its entry into the third country, territory or part thereof of dispatch, it has been resident on holdings under veterinary supervision, accommodated in separated stables without coming into contact with equidae of a lower health status, except during the competitions held in the framework of the equestrian events specified above;

(e) it comes from a third country, territory or, where regionalisation applies in accordance with Article 13(2)(a) of Directive 90/426/EEC, a part of a third country or territory in which:

(i) Venezuelan equine encephalomyelitis has not occurred during the last two years;

(ii) dourine has not occurred during the last six months;

(iii) glanders has not occurred during the last six months;

(f) it does not come from a third country, territory or part thereof considered, in accordance with Article 13(2)(a) of Directive 90/426/EEC, as not being free from African horse sickness;

Status: Point in time view as at 28/03/2018.

Changes to legislation: *There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)*

- (g) it does not come from a holding which was subject to prohibition for animal health reasons nor had contact with equidae from a holding which was subject to a prohibition for animal health reasons:
- (i) during the six months in the case of equine encephalomyelitis, beginning on the date on which the equidae suffering from the disease are slaughtered;
 - (ii) in the case of infectious anaemia, until the date on which, the infected equidae having been slaughtered, the remaining equidae have shown a negative reaction to two Coggins tests carried out three months apart;
 - (iii) during six months in the case of vesicular stomatitis;
 - (iv) during six months in the case of equine viral arteritis;
 - (v) during one month from the last recorded case, in the case of rabies;
 - (vi) during 15 days from the last recorded case, in the case of anthrax.

If all the animals of species susceptible to the disease located on the holding have been slaughtered and the premises disinfected, the period of prohibition shall be 30 days, beginning on the day on which the animals were destroyed and the premises disinfected, except in the case of anthrax, where the period of prohibition shall be 15 days;

- (h) to the best of my knowledge, it has not been in contact with equidae suffering from an infectious or contagious disease in the 15 days prior to the date of this Declaration.

IV. Residence and quarantine information:

- (a) The horse entered the third country, territory or part thereof of dispatch on (insert date).
- (b) The horse arrived in the third country, territory or part thereof of dispatch from either a Member State of the European Union ⁽¹⁾ or from ⁽¹⁾ (insert name of third country, territory or part thereof from where the horse arrived in the third country, territory or part thereof of dispatch), the latter being one of the third countries, territories or parts thereof listed in the same sanitary group in column 5 of Annex I to Commission Decision 2004/211/EC as the third country, territory or part thereof of dispatch.
- (c) The horse entered the third country, territory or part thereof of dispatch under animal health conditions at least as strict as those laid down in this certificate.
- (d) As far as can be ascertained and based on the attached Declaration (which forms part of this Certificate) by the owner ⁽¹⁾ or the representative of the owner ⁽¹⁾ of the horse, the horse has not been continuously outside the European Union for 60 days or more, including the date of scheduled return in accordance with this Certificate, and has not been outside the third countries, territories or parts thereof referred to in point (b).

V. The horse will be sent in a vehicle cleansed and disinfected in advance with a disinfectant officially recognised in the third country, territory or part thereof of dispatch and designed in a way that droppings, litter or fodder cannot escape during transportation.

VI. This Certificate is valid for 10 days.

Date	Place	Stamp and signature of the official veterinarian ⁽¹⁾

Name in block capitals and capacity.

⁽¹⁾ The colour of the stamp and the signature must be different from that of the printed model.

Status: Point in time view as at 28/03/2018.

Changes to legislation: *There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)*

DECLARATION

I, the undersigned
(insert name of owner ⁽¹⁾ or representative ⁽¹⁾ of owner of the horse described above in block letters)

declare:

- the horse will be sent directly from the premises of dispatch to the premises of destination without coming into contact with other equidae of a lower health status;
- during its stay in the third country, territory or part thereof of dispatch the horse has been moved only between premises under the supervision of the competent authorities of the third country of dispatch;
- the horse was exported from a Member State of the European Union on (insert date);
- since the horse left the European Union less than 60 days ago it has only been in third countries, territories or parts thereof assigned to the same sanitary group indicated in column 5 of Annex I to Commission Decision 2004/211/EC as the third country, territory or part thereof of dispatch and was introduced into the country, territory or part thereof of dispatch from (insert name of third country, territory or part thereof).

Name and address of consignee:

III. Health information

I, the undersigned, certify that the horse described above meets the following requirements:

(a) it comes from a third country where the following diseases are compulsorily notifiable: African horse sickness, dourine, glanders, equine encephalomyelitis (of all types including Venezuelan equine encephalomyelitis), equine infectious anaemia, vesicular stomatitis, rabies, anthrax;

(b) it has been examined today and shows no clinical signs of disease ⁽¹⁾;

Status: Point in time view as at 28/03/2018.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)

- (c) it is not intended for slaughter under a national programme of infectious or contagious disease eradication;
- (d) since its entry into the third country or, in the case of official regionalisation according to Union legislation, a part of the territory of the third country ⁽²⁾, it has been resident on holdings under veterinary supervision, accommodated in separated stables without coming into contact with equidae of a lower health status except during competition;
- (e) it comes from the territory or, in the case of official regionalisation according to Union legislation, from a part of a third country in which:
- (i) Venezuelan equine encephalomyelitis has not occurred during the last two years;
 - (ii) dourine has not occurred during the last six months;
 - (iii) glanders has not occurred during the last six months;
- (f) it does not come from the territory or from a part of the territory of a third country considered, in accordance with Union legislation, as infected with African horse sickness;
- (g) it does not come from a holding which was subject to a prohibition order for animal health reasons nor had contact with equidae from a holding which was subject to a prohibition order for animal health reasons which laid down the following conditions:
- (i) if not all animals of species susceptible to one or more of the diseases referred to hereinafter were removed from the holding, the prohibition lasted for:
 - six months in the case of equine encephalomyelitis, beginning on the date on which the equidae suffering from the disease were slaughtered or removed from the premises,
 - a period required to carry out two Coggins tests three months apart giving negative results on samples taken from the animals remaining after infected animals have been slaughtered, in the case of equine infectious anaemia,
 - one month from the last recorded case, in the case of rabies,
 - 15 days from the last recorded case, in the case of anthrax.
 - (ii) if all the animals of species susceptible to the disease have been slaughtered or removed from the holding, the period of prohibition shall be 30 days, or 15 days in the case of anthrax, beginning on the day on which the premises were cleaned and disinfected following the destruction or removal of the animals.
- (h) it comes from a holding which:
- (i) either was not subject to a prohibition order for vesicular stomatitis and the animal had no contact with equidae from a holding which was subject to such a prohibition order during the past six months ⁽³⁾; or
 - (ii) was free of vesicular stomatitis during the 30 days prior to dispatch and on which the animal was protected from vector insects during the 30 days prior to dispatch and where it underwent one of the following health tests carried out on a blood sample taken not earlier than 21 days after the commencement of the vector protection period:
 - a virus neutralisation test giving a negative result at a serum dilution of 1 in 12 ⁽³⁾;
 - a serological test carried out and giving a negative result in accordance with point B(2) of Chapter 2.1.19 of the Manual for Diagnostic Tests and Vaccines for Terrestrial Animals of the World Organisation for Animal Health (OIE) ⁽³⁾;
- (i) to the best of my knowledge, it has not been in contact with equidae suffering from an infectious or contagious disease in the 15 days prior to this Declaration.

Status: Point in time view as at 28/03/2018.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 2 February 1993 on animal health conditions and veterinary certification for the re-entry of registered horses for racing, competition and cultural events after temporary export (93/195/EEC) (repealed). (See end of Document for details)

IV. Residence and quarantine information:

(a) The horse entered the territory of China ⁽³⁾/Mexico ⁽³⁾/the United States of America ⁽³⁾ on ⁽⁴⁾.

(b) The horse

⁽³⁾ either [arrived in China from a Member State of the European Union;]

⁽³⁾ or [arrived in Mexico ⁽³⁾/the United States of America ⁽³⁾ from a Member State of the European Union ⁽³⁾/Mexico ⁽³⁾/the United States of America ⁽³⁾];

(c) As far as can be ascertained, the horse has not been continuously outside the European Union for 30 days or more, including the date of scheduled return in accordance with this certificate, and since exit from the European Union has not been outside

⁽³⁾ either [the part of the territory of China referred to as 'CN-2' in the list of countries in Annex I to Decision 2004/211/EC.]

⁽³⁾ or [the part of the territory of Mexico referred to as 'MX-1' in the list of countries in Annex I to Decision 2004/211/EC, or the United States of America.]

V. The horse will be sent in a vehicle cleaned and disinfected in advance with a disinfectant officially approved in the third country of dispatch and designed in a way that droppings, litter or fodder cannot escape during transportation.

VI. This certificate is valid for 10 days.

Date	Place	Stamp and signature of the official veterinarian ⁽¹⁾

Name in block capitals and capacity.

⁽¹⁾ The colour of the stamp and the signature must be different from that of the printing

⁽¹⁾ This certificate must be issued on the day of loading of the animal for dispatch to the European Union or on the last working day before embarkation.

⁽²⁾ Commission Decision 2004/211/EC of 6 January 2004 establishing the list of third countries and parts of territory thereof from which Member States authorise imports of live equidae and semen, ova and embryos of the equine species, and amending Decisions 93/195/EEC and 94/63/EC (OJ L 73, 11.3.2004, p. 1).
