Whereas the Commission has laid down the special conditions governing imports of live bivalve molluscs, echinoderms, tunicates and marine gastropods for specific third countries;

Whereas the Commission has laid down a standard health certificate for imports of live bivalve molluscs, echinoderms, tunicates and marine gastropods from third countries not yet covered by decisions of this type;

Whereas a list should be drawn up of the countries fulfilling the equivalence conditions referred to in Article 9 (2) of Directive 91/492/EEC and which are thus able to guarantee that the molluscs exported to the Community meet the sanitary conditions laid down to protect the health of consumers;

Whereas this list must include the third countries for which specific decisions have already been laid down and third countries satisfying the conditions of Article 9 (2) for which a provisional list of authorized establishments can be established in accordance with the procedure provided for in Council Decision 95/408/EC of 22 June 1995 on the conditions for drawing up, for an interim period, provisional lists of third country establishments from which Member States are authorized to import certain products of animal origin, fishery products or live bivalve molluscs<sup>(2)</sup>;

Whereas Article 3 (4) (b) of Council Directive 91/493/EEC of 22 July 1991 laying down the health conditions for the production and placing on the market of fishery products<sup>(3)</sup> lays down that processed bivalve molluscs must comply before processing with the provisions of Directive 91/492/EEC; whereas as a consequence the list of third countries fulfilling the conditions laid down by Directive 91/492/EEC should also apply to imports of processed bivalve molluscs, echinoderms, tunicates and marine gastropods;

Whereas this list of third countries is established without prejudice to national or Community provisions to protect animal health or the environment;
