

**Changes to legislation:** There are outstanding changes not yet made to Commission Decision of 9 March 1998 on the procedure for attesting the conformity of construction products pursuant to Article 20(2) of Council Directive 89/106/EEC as regards internal partition kits (Text with EEA relevance) (98/213/EC). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

## [<sup>F1</sup>ANNEX IV

### Textual Amendments

- F1** Inserted by [Commission Implementing Decision of 26 March 2012 amending Decision 98/213/EC on the procedure for attesting the conformity of construction products pursuant to Article 20\(2\) of Council Directive 89/106/EEC as regards internal partition kits \(notified under document C\(2012\) 1866\) \(Text with EEA relevance\) \(2012/201/EU\)](#).

### PRODUCT FAMILY

#### GYPSUM BOARD PARTITION KITS (1/2)

##### Systems of attestation of conformity

For the product(s) and intended use(s) listed below, the European Committee for Standardisation (CEN) is requested to specify the following system of attestation of conformity in the relevant harmonised European standards:

Product(s)	Intended use(s)	Level(s) or class(es)	Attestation of conformity system(s)
Internal partition kits/systems	For all uses not subject to reaction to fire requirements	any	3

System 3: See Annex III(2)(ii) to Directive 89/106/EEC, second possibility.

The specification for the system must be such that it may be implemented even where it is not necessary to determine the performance for a certain characteristic, because at least one Member State has no legal requirement for that characteristic (see Article 2(1) of Directive 89/106/EEC and, where applicable, point 1.2.3 of the interpretative documents). In those cases, the verification of such a characteristic must not be imposed on the manufacturer if it does not wish to declare the performance of the product in that respect.

### PRODUCT FAMILY

#### GYPSUM BOARD PARTITION KITS (2/2)

##### Systems of attestation of conformity

For the product(s) and intended use(s) listed below, CEN is requested to specify the following system(s) of attestation of conformity in the relevant harmonised European standard:

Product(s)	Intended use(s)	Level(s) or class(es)(reaction to fire)	Attestation of conformity system(s)
Internal partition kits/systems		A1 <sup>a</sup> , A2 <sup>a</sup> , B <sup>a</sup> , C <sup>a</sup>	1

**a** Products or materials for which a clearly identifiable stage in the production process results in an improvement of the reaction to fire classification (for example, the addition of fire retardants or the limitation of organic material).

**b** Products or materials not covered by footnote.

**c** Products or materials that are not required to be tested for reaction to fire (for example, products or materials of Class A1 in accordance with Commission Decision 96/603/EC (OJ L 267, 19.10.1996, p. 23)).

System 1: See Annex III(2)(i) to Directive 89/106/EEC, without audit-testing of samples.

System 3: See Annex III(2)(ii) to Directive 89/106/EEC, second possibility.

System 4: See Annex III(2)(ii) to Directive 89/106/EEC, third possibility.

**Changes to legislation:** There are outstanding changes not yet made to Commission Decision of 9 March 1998 on the procedure for attesting the conformity of construction products pursuant to Article 20(2) of Council Directive 89/106/EEC as regards internal partition kits (Text with EEA relevance) (98/213/EC). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

	Uses subject to reaction to fire requirements	A1 <sup>b</sup> , A2 <sup>b</sup> , B <sup>b</sup> , C <sup>b</sup> , D, E	3
		(A1 to E) <sup>c</sup> , F	4
<b>a</b>	Products or materials for which a clearly identifiable stage in the production process results in an improvement of the reaction to fire classification (for example, the addition of fire retardants or the limitation of organic material).		
<b>b</b>	Products or materials not covered by footnote.		
<b>c</b>	Products or materials that are not required to be tested for reaction to fire (for example, products or materials of Class A1 in accordance with Commission Decision 96/603/EC (OJ L 267, 19.10.1996, p. 23)).
