

Commission Decision of 17 July 2003 amending Decisions 92/260/EEC, 93/197/EEC and 97/10/EC as regards the temporary admission and imports into the European Union of registered horses from South Africa (notified under document number C(2003) 1212) (Text with EEA relevance) (2003/541/EC)

COMMISSION DECISION

of 17 July 2003

amending Decisions 92/260/EEC, 93/197/EEC and 97/10/EC as regards the temporary admission and imports into the European Union of registered horses from South Africa

(notified under document number C(2003) 1212)

(Text with EEA relevance)

(2003/541/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 90/426/EEC of 26 June 1990 on animal health conditions governing the movement and imports from third countries of equidae⁽¹⁾, as last amended by Commission Decision 2002/160/EC⁽²⁾, and in particular Article 12(2), Article 13(2), Articles 14, 15, 16 and Article 19(i) thereof,

Whereas:

- (1) Commission Decision 92/260/EEC⁽³⁾, as last amended by Decision 2002/635/EC⁽⁴⁾, lays down the animal health conditions and veterinary certification for temporary admission of registered horses.
- (2) Commission Decision 93/197/EEC⁽⁵⁾, as last amended by Decision 2002/841/EC⁽⁶⁾, lays down the animal health conditions and veterinary certification for imports of registered equidae and equidae for breeding and production.
- (3) Annex I to Commission Decision 97/10/EC of 12 December 1996 amending Council Decision 79/542/EEC and Commission Decisions 92/160/EEC, 92/260/EEC and 93/197/EEC in relation to the temporary admission and imports into the Community of registered horses from South Africa⁽⁷⁾, as last amended by Decision 2001/622/EC⁽⁸⁾, provides for additional guarantees which apply to the regionalisation of South Africa for imports of registered horses into the European Union.
- (4) Those additional guarantees require a specific period of residence of registered horses within the African horse sickness-free zone and lay down conditions under which the registered horses intended for transport by air to the European Union must be transported to the airport situated in the surveillance zone under vector-protected conditions.

Changes to legislation: There are outstanding changes not yet made to Commission Decision of 17 July 2003 amending Decisions 92/260/EEC, 93/197/EEC and 97/10/EC as regards the temporary admission and imports into the European Union of registered horses from South Africa (notified under document number C(2003) 1212) (Text with EEA relevance) (2003/541/EC). Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- (5) Taking into account the required isolation in an approved and vector-protected quarantine station, it appears justified to require the same minimum residence period in the African horse sickness-free zone for registered horses temporarily admitted and imported into the European Union.
- (6) Due to changes in the schedules of airlines, the transport of registered horses in standard cargo aircraft appears to be impossible, leaving the transport of registered horses by sea the only realistic alternative.
- (7) It is necessary to lay down the conditions under which registered horses may be transported without compromising the health status of those animals during the journey by sea from the port of Cape Town situated in the free zone to a harbour in the European Union approved as border inspection post in accordance with Council Directive 91/496/EEC of 15 July 1991 laying down the principles governing the organisation of veterinary checks on animals entering the Community from third countries and amending Directives 89/662/EEC, 90/425/EEC and 90/675/EEC⁽⁹⁾, as last amended by Directive 96/43/EC⁽¹⁰⁾.
- (8) Decisions 92/260/EEC, 93/197/EEC and 97/10/EC should be amended accordingly.
- (9) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

In Annex II to Decision 92/260/EEC the animal health certificate F is replaced by the text in Annex I to this Decision.

Article 2

In Annex II to Decision 93/197/EEC the animal health certificate F is replaced by the text in Annex II to this Decision.

^{F1}Article 3

.....

Textual Amendments

- F1** Deleted by Commission Decision of 8 August 2008 on the temporary admission and imports into the Community of registered horses from South Africa (notified under document number C(2008) 4211) (Text with EEA relevance) (2008/698/EC).

Article 4

This Decision is addressed to the Member States.

Changes to legislation: There are outstanding changes not yet made to Commission Decision of 17 July 2003 amending Decisions 92/260/EEC, 93/197/EEC and 97/10/EC as regards the temporary admission and imports into the European Union of registered horses from South Africa (notified under document number C(2003) 1212) (Text with EEA relevance) (2003/541/EC). ANNEX I

—F—

HEALTH CERTIFICATE

for the temporary admission of registered horses into the European Union from South Africa for a period of less than 90 days

Certificate No:

Third country of dispatch (1):

Ministry responsible:

I. Identification of the horse

(a) Identification document No (passport):

(b) Validated by: (Name of competent authority)

II. Origin and destination of the horse

The horse is to be sent from: (Place of export)

directly to: (Member State and place of destination)

by aircraft (3): (indicate flight number)

or

by vessel (3): (indicate name of vessel)

Name and address of consignor:

Name and address of consignee:

III. Health information

I, the undersigned official veterinarian of (insert name of country)

certify that the horse described above:

(a) comes from a country where the following diseases are compulsorily notifiable: African horse sickness, dourine, glanders, equine encephalomyelitis of all types including Venezuelan equine encephalomyelitis, equine infectious anaemia, vesicular stomatitis, rabies, anthrax;

(b) has been examined today and shows no clinical signs of disease (2);

(c) is not intended for slaughter under a national programme of infectious or contagious disease eradication;

(d) has been resident during the 60 days immediately preceding the exportation on holdings under veterinary supervision:

— on the territory of the European Union or at least as strict as that of the third country concerned

and

has undergone the following tests:

.....

(i) the horse was tested for

or

(ii) the horse has been tested at least 24 hours after submission of the application for the certificate and the application for the certificate is not for horses or imports in

(e) comes from the territory of

(i) Venezuelan equine encephalomyelitis

(ii) dourine has not been detected

(iii) glanders has not been detected

(iv) vesicular stomatitis has not been detected

or

was tested on a neutralization test

(v) in the case of an

(1) either equine infectious anaemia

or

(2) the animal was

— either on a neutralization test

or

— on an

or

(3) the animal was tested under a national veterinary supervision programme
