

COMMISSION DECISION

of 15 December 2003

approving programmes for the purpose of obtaining the status of approved zones and of approved farms in non-approved zones with regard to viral haemorrhagic septicaemia (VHS) and infectious haematopoietic necrosis (IHN) in fish, and amending Annexes I and II to Decision 2003/634/EC*(notified under document number C(2003) 4727)***(Text with EEA relevance)**

(2003/904/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/67/EEC of 28 January 1991 concerning the animal health conditions governing the placing on the market of aquaculture animals and products ⁽¹⁾, and in particular Articles 10(2) and (3) thereof,

Whereas:

(1) Commission Decision 2003/634/EC ⁽²⁾ approves and lists programmes submitted by various Member States. The programmes are designed to enable the Member State subsequently to initiate the procedures for a zone, or a farm situated in a non-approved zone, to obtain the status of approved zone or of approved farm situated in a non-approved zone, as regards one or more of the fish diseases viral haemorrhagic septicaemia (VHS) and infectious haematopoietic necrosis (IHN).

(2) By letter dated 5 September 2002, Italy applied for approval of the programme to be applied in the farm Incubatoio ittico de valle in the region of Piemonte. At the date of application the farm had been under surveillance since January 2000. However, fish had been introduced from farms which, at the time of introduction, were not approved according to Article 5 or Article 6 of Directive 91/67/EEC.

(3) The application submitted has been found to comply with Article 10 of Directive 91/67/EEC and should therefore be approved, and Annex II to Decision 2003/634/EC amended accordingly. Due to introduction of fish from non-approved areas, the programme should run for four years from the date of approval.

(4) By letter dated 20 October 2003, Finland asked for an amendment to the programme listed in Annex I, point 6.2 to Decision 2003/634/EC. Due to an outbreak of VHS in rainbow trout on the west coast of Finland, the authorities have decided to apply eradication measures

in that new area, similar to those measures applied in the areas described in Annex I, point 6.2 to Decision 2003/634/EC. The amendment to the programme should therefore be approved.

(5) Some of the programs approved by Decision 2003/634/EC as regards France and Germany have been finalised. The areas have achieved approved status and been included in Annex I to Commission Decision 2002/308/EC ⁽³⁾. Those areas should therefore be deleted from Annex I to Decision 2003/634/EC.

(6) Decision 2003/634/EC should therefore be amended accordingly.

(7) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

1. The amendments to the programme submitted by Finland under Article 10(1) of Directive 91/67/EEC for the purpose of obtaining approved zone status with regard to one or more of the fish diseases viral haemorrhagic septicaemia (VHS) and infectious haematopoietic necrosis (IHN) are hereby approved.

2. The programme submitted by Italy under Article 10(1) of Directive 91/67/EEC for the purpose of obtaining status as approved farm situated in a non-approved zone with regard to one or more of the fish diseases VHS and IHN is hereby approved.

Article 2

Decision 2003/634/EC is amended as follows:

- Annex I is replaced by Annex I to this Decision.
- Annex II is replaced by Annex II to this Decision.

⁽¹⁾ OJ L 46, 19.2.1991, p. 1. Directive as last amended by Regulation (EC) No 806/2003 (OJ L 122, 16.5.2003 p. 1).

⁽²⁾ OJ L 220, 3.9.2003, p. 8.

⁽³⁾ OJ L 106, 23.4.2002, p. 28. Decision as last amended by Decision 2003/839/EC (OJ L 319, 4.12.2003, p. 21).

Article 3

The Member States concerned shall bring into force the laws, regulations and administrative provisions necessary to comply with the approved programmes.
