THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 2000/258/EC of 20 March 2000 designating a specific institute responsible for establishing the criteria necessary for standardising the serological tests to monitor the effectiveness of rabies vaccines<sup>(1)</sup>, and in particular Article 3 thereof,

- (1) Decision 2000/258/EC designated the laboratory of the Agence française de sécurité sanitaire des aliments de Nancy (the AFSSA Laboratory, Nancy, France) as the institute responsible for establishing the criteria necessary for standardising the serological tests to monitor the effectiveness of rabies vaccines. That Decision also provides for the AFSSA Laboratory of Nancy to send to the Commission the list of Community laboratories to be authorised to carry out those serological tests. Accordingly, the AFSSA Laboratory of Nancy operates the established proficiency testing procedure to appraise laboratories for authorisation to perform the serological tests.
- (2) Commission Decision 2004/233/EC of 4 March 2004 authorising laboratories to check the effectiveness of vaccination against rabies in certain domestic carnivores<sup>(2)</sup>, established a list of approved laboratories in the Member States on the grounds of the results of the proficiency tests communicated by the AFSSA Laboratory of Nancy.
- (3) Five laboratories, respectively in the Czech Republic, Estonia, Latvia, Lithuania and Hungary had been approved by the AFSSA Laboratory of Nancy, in compliance with Decision 2000/258/EC.
- (4) Accordingly, it is appropriate to add those five laboratories to the list of approved laboratories in the Member States as established in the Annex to Decision 2004/233/EC.
- (5) Decision 2004/233/EC should therefore be amended accordingly.
