

Commission Decision of 28 August 2006 laying down a list of third countries from which poultry, hatching eggs, day-old chicks, meat of poultry, ratites and wild game-birds, eggs and egg products and specified pathogen-free eggs may be imported into and transit through the Community and the applicable veterinary certification conditions, and amending Decisions 93/342/EEC, 2000/585/EC and 2003/812/EC (notified under document number C (2006) 3821) (Text with EEA relevance) (2006/696/EC) (repealed)

Status: This is the original version (as it was originally adopted).

ANNEX I

POULTRY, RATITES INCLUDING HATCHING EGGS OF
THESE SPECIES AND SPECIFIED PATHOGEN-FREE EGGS

PART 1

LIST OF THIRD COUNTRIES OR PARTS THEREOF⁰

Country	Code of territory	Description of territory	Veterinary certificate		Specific conditions
			Model(s)	Additional Guarantees	
1	2	3	4	5	6
AR – Argentina	AR-0		SPF		
AU – Australia	AU-0		BPP, DOC, HEP, SPF, SRP		
			BPR	I	
			DOR	II	
			HER	III	
BG – Bulgaria ^b	BG-0		BPP, DOC, HEP, SPF, SRP		
BR – Brazil	BR-0		SPF		
	BR-1	States of Mato Grosso, Paraná, Rio Grande do Sul, Santa Catarina and São Paulo	BPP, DOC, HEP, SRP		
	BR-2	States of Rio Grande do Sul, Santa Catarina, Paraná, São Paulo and Mato Grosso do Sul	BPR, DOR, HEP, HER, SRA		

a Without prejudice to specific certification requirements provided for in Community agreements with third countries.

b Only applicable until this Accessing State becomes a Member State of the European Union.

c Certificates in accordance with the agreement between the European Community and the Swiss Confederation on trade in agricultural products (OJ L 114, 30.4.2002, p. 132).

Status: This is the original version (as it was originally adopted).

BW – Botswana	BW-0		SPF		
			BPR	I	
			DOR	II	
			HER	III	
CA – Canada	CA-0		BPR, BPP, DOC, DOR, HEP, HER, SRA, SPF, SRP		
CH – Switzerland	CH-0		^c		
CL – Chile	CL-0		BPR, BPP, DOC, DOR, HEP, HER, SPF, SRA, SRP		
HR – Croatia	HR-0		BPR, BPP, DOR, DOC, HEP, HER, SPF, SRA, SRP		
GL – Greenland	GL-0		SPF		
IL – Israel	IL-0		BPR, BPP, DOC, DOR, HEP, HER, SPF, SRP		
IS – Iceland	IS-0		SPF		
MG – Madagascar	MG-0		SPF

TR – Turkey	TR-0		SPF		
US – United States	US-0		BPR, BPP, DOC, DOR, HEP, HER, SPF SRA, SRP		
UY – Uruguay	UY-0		SPF		
ZA – South Africa	ZA-0		SPF		
			BPR	I	
			DOR	II	
			HER	III	

a Without prejudice to specific certification requirements provided for in Community agreements with third countries.

b Only applicable until this Acceding State becomes a Member State of the European Union.

c Certificates in accordance with the agreement between the European Community and the Swiss Confederation on trade in agricultural products (OJ L 114, 30.4.2002, p. 132).

PART 2

Model veterinary certificates

Models:

- ‘BPP’ : Model veterinary certificate for breeding or productive poultry other than ratites
- ‘BPR’ : Model veterinary certificate for breeding or productive ratites
- ‘DOC’ : Model veterinary certificate for day-old chicks other than of ratites
- ‘DOR’ : Model veterinary certificate for day-old chicks of ratites
- ‘HEP’ : Model veterinary certificate for hatching eggs of poultry other than ratites
- ‘HER’ : Model veterinary certificate for hatching eggs of ratites
- ‘SPF’ : Model veterinary certificate for specified pathogen-free (SPF) eggs

- ‘SRP’ : Model veterinary certificate for slaughter poultry and poultry for restocking game supplies other than ratites
- ‘SRA’ : Model veterinary certificate for slaughter ratites
- Additional guarantees (AG):
- ‘I’ : Guarantees for breeding and productive ratites coming from regions free from avian influenza but not free from Newcastle disease, certified in accordance with model BPR
- ‘II’ : Guarantees for day-old chicks of ratites coming from regions free from avian influenza but not free from Newcastle disease, certified in accordance with model DOR
- ‘III’ : Guarantees for hatching eggs of ratites coming from third countries free from avian influenza and free or not free from Newcastle disease certified in accordance with model HER

Notes:

- (a) Veterinary certificates based on the models in Part 2 of this Annex or Part 2 of Annex II and following the layout of the model that corresponds to the commodity concerned shall be issued by the exporting third country. They shall contain, in the order appearing in the model, the attestations that are required for any third country and, where applicable, those additional health requirements required for the exporting third country or part thereof.

Where additional guarantees are required by the EU Member State of destination for the commodity concerned, these shall also be entered on the original of the veterinary certificate.

- (b) A separate, single certificate must be presented for each consignment of the commodity concerned, exported to the same destination from a territory appearing in columns 2 and 3 of Part 1 of this Annex or in columns 2 and 3 of Part 1 of Annex II and transported in the same railway wagon, lorry, aircraft or ship.
- (c) The original of certificates shall consist of a single page printed on both sides or, where more text is required, such that all the pages form a whole and cannot be separated.
- (d) The certificate shall be drawn up in at least one official language of the EU Member State where the border inspection takes place and in one official language of the EU Member State of destination. However, those Member States may allow another Community language instead of their own, accompanied, if necessary, by an official translation.
- (e) Where additional pages are attached to the certificate for the purposes of identifying the items making up the consignment, such additional pages shall also be considered to form part of the original of the certificate, provided the signature and stamp of the certifying official veterinarian appear on each page.
- (f) Where the certificate, including any additional pages as provided for in (e), comprises more than one page, each page shall be numbered ‘*x*(page number) of *y*(total number of pages)’ on the bottom and shall bear the code number of the certificate allocated by the competent authority on the top.
- (g) The original of the certificate must be completed and signed by an official veterinarian not more than 24 hours prior to loading of the consignment for export to the Community. To that end, the competent authorities of the exporting country shall ensure that principles of certification equivalent to those laid down in Directive 96/93/EC are followed.

Status: This is the original version (as it was originally adopted).

The colour of the signature shall be different from that of the printing. The same rule shall apply to stamps other than embossed stamps or watermarks.

- (h) The original of the certificate must accompany the consignment as far as the EU border inspection post.
- (i) The certificate shall be valid for 10 days from the date of issue, unless otherwise stated.

In the case of transport by ship, the term of validity shall be extended by the time taken by the voyage. To that end, the original of a declaration by the ship's master, drawn up in accordance with the addendum to Part 3 of this Annex, shall be attached to the veterinary certificate.

- (j) Poultry shall not be transported with other poultry that is either not intended for the European Community or of a lower health status.
- (k) During transport to the European Community, poultry shall not be unloaded in the territory of a third country or part of a third country that is not approved for imports of poultry into the Community.

BPP (breeding or productive poultry other than ratites)

Part II: Certification	II. Health information	II.a. Certificate reference number	II.b.
		<p>II.1. Animal health attestation</p> <p>I, the undersigned official veterinarian, hereby certify that the poultry ⁽¹⁾ described in this certificate:</p> <p>II.1.1. complies with Directive 90/539/EEC;</p> <p>II.1.2. has remained on the territory of code ⁽²⁾ for at least three months or since hatching where it is less than three months old; where it was imported into the country of origin, this took place in accordance with veterinary conditions at least as strict as the relevant requirements of Directive 90/539/EEC and any subsidiary Decisions;</p> <p>II.1.3. comes from the territory of code ⁽²⁾ which, at the date of issue of this certificate, was free from Avian influenza and Newcastle disease as defined in Decision 93/342/EEC;</p> <p>II.1.4. has been examined at the date of issue of this certificate and showed no clinical signs of or grounds for suspecting any disease;</p> <p>II.1.5. has been kept since hatching or for at least six weeks immediately prior to export in the establishment(s) defined in Box I.11 of Part I, officially approved in accordance with requirements which are at least equivalent to those laid down in Annex II to Directive 90/539/EEC.</p> <p>(a) the approval of which has not been suspended or withdrawn;</p> <p>(b) which is (are) not subject to any animal health restriction;</p> <p>(c) within a 25 km radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of Avian influenza or Newcastle disease for at least 30 days;</p> <p>II.1.6. during the period mentioned in II.1.5, has had no contact with poultry not complying with the requirements laid down in this certificate or with wild birds;</p> <p>II.1.7. comes from a flock which:</p> <p>(a) has been examined no more than 24 hours before loading and showed no clinical signs of or grounds for suspecting any disease;</p> <p>(b) underwent a disease surveillance programme for:</p> <p>⁽³⁾ either ((i) <i>Salmonella pullorum</i>, <i>S. gallinarum</i> and <i>Mycoplasma gallisepticum</i> (fowls);)</p> <p>⁽³⁾ and/or ((ii) <i>Salmonella arizonae</i>, <i>S. pullorum</i> and <i>S. gallinarum</i>, <i>Mycoplasma meleagridis</i> and <i>M. gallisepticum</i> (turkeys);)</p> <p>⁽³⁾ and/or ((iii) <i>Salmonella pullorum</i> and <i>S. gallinarum</i> (guinea fowl, quails, pheasants, partridges and ducks))</p> <p>in accordance with Chapter III of Annex II to Directive 90/539/EEC and was not found to be infected, or showed any grounds for suspecting any infection, by these agents;</p> <p>⁽³⁾ either ((c) has not been vaccinated against Newcastle disease;)</p> <p>⁽³⁾ or ((has been vaccinated against Newcastle disease using:</p> <p>.....</p> <p>(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))</p> <p>at the age of weeks)</p> <p>⁽³⁾ ((d) has been vaccinated using officially approved vaccines on</p> <p>..... against (repeat as necessary).)</p> <p>II.2. Additional guarantees</p> <p>I, the undersigned official veterinarian, further certify that:</p> <p>⁽⁶⁾ ((II.2.1. where the consignment is intended for a Member State or region the status of which has been established pursuant to Article 12(2) of Directive 90/539/EEC, the poultry described in this certificate:</p> <p>(a) has not been vaccinated against Newcastle disease;</p> <p>(b) was kept in isolation for fourteen days before consignment at either the holding or a quarantine station under the supervision of an official veterinarian. In this connection, no poultry at the holding of origin or quarantine station, as applicable, was vaccinated against Newcastle disease during the 21 days preceding consignment and no bird which was not intended for consignment entered the holding or quarantine station during that time; in addition, no vaccinations were carried out at the quarantine station;</p>	

	(c) underwent a serological examination for the presence of Newcastle disease antibodies in the 14 days preceding consignment and tested negative;)
II.2.2.	the following additional guarantees laid down by the Member State of destination in accordance with Articles 13 and/or 14 of Directive 90/539/EEC are provided:
(⁴) II.2.3.	((if the Member State of destination is Finland or Sweden, the breeding poultry has tested negative in accordance with the rules laid down in Commission Decision 2003/644/EC;)
(⁴) II.2.4.	((if the Member State of destination is Finland or Sweden, the laying hens (productive poultry reared with a view to producing eggs for consumption) have tested negative in accordance with the rules laid down in Commission Decision 2004/235/EC.)
(⁶) (II.3.	Additional health requirements I, the undersigned official veterinarian, further certify that, although the use of vaccines against Newcastle disease which do not fulfil the specific requirements of Annex B(2) to Decision 93/342/EEC is not prohibited in (²), the poultry described in this certificate: (a) has not been vaccinated for at least twelve months with such vaccines; (b) comes from a flock which underwent a virus isolation test for Newcastle disease, carried out in an official laboratory not more than 14 days preceding consignment on a random sample of cloacal swabs from at least 60 birds in each flock and in which no avian paramyxoviruses with an Intracerebral Pathogenicity Index (ICPI) of more than 0,4 were found; (c) in the 60 days before consignment was not in contact with poultry which does not fulfil the conditions in (a) and (b); (d) was kept in isolation under official surveillance on the holding of origin during the 14 days mentioned in (b).)
II.4.	Animal transport attestation I, the undersigned official veterinarian, further certify, that the poultry is to be transported in crates or cages which: (a) contain only poultry of the same species, category and type coming from the same establishment; (b) bear the approval number of the establishment of origin; (c) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents; (d) in addition to the vehicles in which they are to be transported, are designed to: (i) prevent any excrement escaping and reduce to a minimum any loss of feathers during transport; (ii) allow visual inspection of the poultry; (iii) allow cleaning and disinfection; (e) have been cleaned and disinfected, as have the vehicles in which they are to be transported, before loading in accordance with the instructions of the competent authority.
Notes	
Part I:	
—	Box I.8: provide the code for the region of origin, if necessary, as defined under code of territory in column 2, Part 1 of Annex I of Decision 2006/696/EC ((as last amended).
—	Box I.11: Name, address and approval number of breeding and rearing establishment.
—	Box I.15: Indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and seal numbers, where applicable, should be indicated in box I.23.
—	Box I.19: use the appropriate HS code: 01.05 or 01.06.39.
—	Box I.28 (Category): select one of the following: Pure line/grandparents/parents/laying pullets/others.
Part II:	
(1)	Breeding poultry and productive poultry as defined in Decision 2006/696/EC ((as last amended).
(2)	Code of the territory as it appears in column 2, Part 1 of Annex I of Decision 2006/696/EC ((as last amended).
(3)	Keep as appropriate.
(4)	Complete if appropriate.
(5)	Where the consignment is not intended for such Member States or regions (currently Finland and Sweden), the guarantees given under point II.2.1 must be deleted.
(6)	This guarantee is required only for poultry coming from countries or parts thereof where Article 4(4) of Decision 93/342/EEC applies. It should be deleted in the case of poultry coming from other countries.
This certificate is valid for 10 days.	

Status: This is the original version (as it was originally adopted).

BPR (breeding or productive ratites)

Part II: Certification	II. Health information	II.a. Certificate reference number	II.b.
		<p>II.1. Animal health attestation</p> <p>I, the undersigned official veterinarian, hereby certify that the ratites ⁽¹⁾ described in this certificate:</p> <p>II.1.1. meet the provisions of Directive 90/539/EEC;</p> <p>II.1.2. have remained on the territory of code ⁽²⁾ for at least three months or since hatching where they are less than three months old; where they were imported into the country of origin, this took place in accordance with veterinary conditions at least as strict as the relevant requirements of Directive 90/539/EEC and any subsidiary Decisions;</p> <p>⁽³⁾ (II.1.3. <i>either</i> come from the territory of code ⁽²⁾ which, at the date of issue of this certificate, was free from Avian influenza and Newcastle disease as defined in Decision 93/342/EEC;)</p> <p>⁽³⁾ ⁽⁶⁾ (<i>or</i> come from the territory of code ⁽²⁾ which, at the date of issue of this certificate, was free from Avian influenza disease but not free from Newcastle disease as defined in Decision 93/342/EEC;)</p> <p>II.1.4. have been examined at the date of issue of this certificate and showed no clinical signs of or grounds for suspecting any disease;</p> <p>II.1.5. have been kept since hatching or for at least six weeks immediately prior to export in the establishment(s) defined in Box I.11 of Part I, officially approved in accordance with requirements which are at least equivalent to those laid down in Annex II to Directive 90/539/EEC:</p> <p>(a) the approval of which has not been suspended or withdrawn;</p> <p>(b) which is (are) not subject to any animal health restriction;</p> <p>(c) within a 25 km radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of Avian influenza or Newcastle disease for at least 30 days;</p> <p>II.1.6. have had no contact during the period mentioned in II.1.5 with ratites not meeting the requirements laid down in this certificate or with other poultry;</p> <p>II.1.7. come from a flock which:</p> <p>(a) has been examined at the date of issue of this certificate and showed no clinical signs of or grounds for suspecting any disease;</p> <p>⁽³⁾ ⁽⁶⁾ <i>either</i> ((b) has not been vaccinated against Newcastle disease;)</p> <p>⁽³⁾ <i>or</i> ((b) has been vaccinated against Newcastle disease using:</p> <p>.....</p> <p>(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))</p> <p>at the age of weeks;)</p> <p>⁽³⁾ ((c) has been vaccinated using officially approved vaccines on against (repeat as necessary).)</p> <p>⁽⁴⁾ (II.1.8. where they come from countries in Asia or Africa:)</p> <p>⁽³⁾ <i>either</i> ((a) were kept in isolation in tick-proofed surroundings under an officially approved programme for rodent control for at least 21 days prior to export;)</p> <p>⁽³⁾ <i>or</i> ((b) underwent treatment to ensure that all ticks on them were destroyed before they were moved to the tick-proofed surroundings; specification of the treatment:;)</p> <p>⁽³⁾ <i>or</i> ((c) after spending 14 days in tick-proofed surroundings, underwent the competitive ELISA test for antibodies to Crimean-Congo haemorrhagic fever and all ratites leaving isolation tested negative)</p> <p>⁽⁴⁾ ((II.2. Additional guarantees)</p> <p>I, the undersigned official veterinarian, further certify that:</p> <p>⁽⁵⁾ ((II.2.1. where the consignment is intended for a Member State or region the status of which has been established pursuant to Article 12(2) of Directive 90/539/EEC, the ratites described in this certificate:</p> <p>⁽³⁾ <i>either</i> ((a) have not been vaccinated against Newcastle disease;)</p>	

<p>(³) or ((b))</p> <p>(³) or ((c))</p> <p>II.2.2.</p> <p>.....</p> <p>.....</p> <p>(⁴) II.2.3.</p> <p>(⁴) II.2.4.</p> <p>(⁴) (⁶) (II.3.</p> <p>II.4.</p> <p>II.4.1.</p> <p>II.4.2.</p>	<p>were kept in isolation for 14 days before consignment at either the holding or a quarantine station under the supervision of an official veterinarian. In this connection, no poultry including ratites at the holding of origin or quarantine station, as applicable, was vaccinated against Newcastle disease during the 21 days preceding consignment and no bird which was not intended for consignment entered the holding or quarantine station during that time; in addition, no vaccinations were carried out in the quarantine station;)</p> <p>underwent a serological examination for the presence of Newcastle disease antibodies in the 14 days preceding consignment and tested negative;)</p> <p>the following additional guarantees, laid down by the Member State of destination under Articles 13 and/or 14 of Directive 90/539/EEC are provided:</p> <p>if the Member State of destination is Finland or Sweden, the breeding ratites have tested negative in accordance with the rules laid down in Commission Decision 2003/644/EC;</p> <p>if the Member State of destination is Finland or Sweden, the laying hens (productive ratites reared with a view to producing eggs for consumption) have tested negative in accordance with the rules laid down in Commission Decision 2004/235/EC.</p> <p>Additional health requirements for countries not free from Newcastle disease)</p> <p>I, the undersigned official veterinarian, further certify that the ratites described in this certificate:</p> <p>(a) were placed under official surveillance for at least 21 days prior to export in a quarantine station as defined in Article 2 of Directive 90/539/EEC and approved by the competent authority: (approval number and address of the facility:);</p> <p>(b) underwent a virus isolation test for Newcastle disease, carried out in an official laboratory seven to ten days after their entry into quarantine station on either cloacal swabs or faeces samples from each bird and in which no avian paramyxovirus type 1 isolates with an Intracerebral Pathogenicity Index (I.C.P.I.) of more than 0,4 were found. Favourable results were available from all birds in the consignment before they left the quarantine station for export;</p> <p>(c) come from flocks in which surveillance for Newcastle disease has been carried out under a statistically based sampling plan which produced negative results for at least six months immediately prior to export.)</p> <p>Animal transport attestation</p> <p>I, the undersigned official veterinarian, further certify that the ratites are to be transported:</p> <p>under conditions meeting those laid down in Council Directive 91/628/EEC;</p> <p>in crates or cages which:</p> <p>(a) contain only ratites of the same species, category and type coming from the same establishment;</p> <p>(b) bear the approval number of the establishment of origin;</p> <p>(c) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents;</p> <p>(d) in addition to the vehicles in which they are to be transported, are designed to:</p> <p>(i) prevent any excrement escaping and reduce to a minimum any loss of feathers during transport;</p> <p>(ii) allow visual inspection of the ratites;</p> <p>(iii) allow cleaning and disinfection;</p> <p>(e) have been cleaned and disinfected, as have the vehicles in which they are to be transported, before loading in the instructions of the competent authority.</p>
---	---

Notes

Part I:

— Box I.8: provide the code for the region of origin, if necessary, as defined under code of territory in column 2, Part 1 of Annex I of Decision 2006/696/EC ((as last amended).

— Box I.11: Name, address and approval number of breeding and rearing establishment

Status: This is the original version (as it was originally adopted).

—	Box I.15: Indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and seal numbers, where applicable, should be indicated in box I.23.
—	Box I.28 (Category): select one of the following: Pure line/grandparents/parents/others; (Identification System and Identification Number): Neck-tags and microchips must include the ISO code of the country of origin; microchips must comply with ISO standards.
Part II:	
(1)	'Ratites' means ratites (<i>Struthioniformes</i> , <i>Casuariformes</i> , <i>Rheiformes</i>) reared or kept in captivity for breeding and production.
(2)	Code of the territory as it appears in column 2, Part 1 of Annex I of Decision 2006/696/EC ((as last amended).
(3)	Keep as appropriate.
(4)	Complete if appropriate.
(5)	Where the consignment is not intended for such Member States or regions (currently Finland and Sweden), the guarantees given under point II.2.1. must be deleted.
(6)	This is applicable only to the countries with the entry 'I' in column 5 ('AG') of Part 1 of Annex I to Decision 2006/696/EC (as last amended).
This certificate is valid for 10 days.

DOC (day-old chicks other than of ratites)

Part II: Certification	II. Health information	II.a. Certificate reference number	II.b.
		<p>II.1. Animal health attestation</p> <p>I, the undersigned official veterinarian, hereby certify that the day-old chicks (1) described in this certificate:</p> <p>II.1.1. meet the provisions of Directive 90/539/EEC;</p> <p>II.1.2. have been hatched on the territory of code (2). Where the flocks from which the hatching eggs come were imported into the country of origin, this took place in accordance with veterinary conditions at least as strict as the relevant requirements of Directive 90/539/EEC and any subsidiary Decisions;</p> <p>II.1.3. come from the territory of code (2) which, at the date of issue of this certificate, was free from Avian influenza and Newcastle disease as defined in Decision 93/342/EEC;</p> <p>II.1.4. have been examined at the date of issue of this certificate and showed no clinical signs of or grounds for suspecting any disease;</p> <p>II.1.5. have been hatched in the establishment(s) defined in Box 1.11 of Part I officially approved in accordance with requirements which are at least equivalent to those laid down in Annex II to Directive 90/539/EEC:</p> <p>(a) the approval of which has not been suspended or withdrawn;</p> <p>(b) which, at the time of consignment, was (were) not subject to any animal health restriction;</p> <p>(c) within a 25 km radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of Avian influenza or Newcastle disease for at least 30 days;</p> <p>II.1.6. have had no contact with poultry not meeting the requirements laid down in this certificate or with wild birds;</p> <p>II.1.7. are hatched from eggs coming from flocks which:</p> <p>(a) have been kept for at least six weeks immediately prior to export in officially approved establishments, the approval of which, at the time of consignment of the hatching eggs to the hatchery, had not been suspended or withdrawn;</p> <p>(b) are not located in regions which are not free from Avian influenza or Newcastle disease;</p> <p>(c) present, at the date of issue of this certificate, no clinical signs of or grounds for suspecting any disease;</p> <p>(d) have undergone a disease surveillance programme for:</p> <p>(3) either (<i>Salmonella pullorum</i>, <i>S. gallinarum</i> and <i>Mycoplasma gallisepticum</i> (fowls));</p> <p>(3) and/or (<i>Salmonella arizonae</i>, <i>S. pullorum</i> and <i>S. gallinarum</i>, <i>Mycoplasma meleagridis</i> and <i>M. gallisepticum</i> (turkeys));</p> <p>(3) and/or (<i>Salmonella pullorum</i> and <i>S. gallinarum</i> (guinea fowls, quails, pheasants, partridges and ducks))</p> <p>in accordance with Chapter III of Annex II to Directive 90/539/EEC and have not been found to be infected, or showed any grounds for suspecting infection, by these agents;</p> <p>(3) either ((e) have not been vaccinated against Newcastle disease;)</p> <p>(3) or (have been vaccinated against Newcastle disease using:</p> <p>.....</p> <p>(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))</p> <p>at the age of weeks)</p> <p>(3) ((f) have been vaccinated using officially approved vaccines</p> <p>on against (repeat as necessary))</p> <p>II.1.8. have been hatched from eggs which:</p> <p>(a) prior to consignment to the hatchery, had been marked in accordance with the instructions of the competent authority;</p> <p>(b) had been disinfected in accordance with the instructions of the competent authority.</p> <p>II.1.9. hatched on (dates);</p> <p>II.1.10. have been vaccinated using officially approved vaccines on against (repeat as necessary)</p>	

- II.2. Additional guarantees**
- I, the undersigned official veterinarian, further certify that:
- (⁵) II.2.1. where the consignment is intended for a Member State or region the status of which has been established pursuant to Article 12(2) of Directive 90/539/EEC, the day-old chicks described in this certificate come from hatching eggs coming from flocks which:
- (³) *either* ((i) have not been vaccinated against Newcastle disease;)
 - (³) *or* ((ii) have been vaccinated against Newcastle disease using an inactivated vaccine;)
 - (³) *or* ((iii) were vaccinated against Newcastle disease using a live vaccine at the latest 60 days before the date the eggs were collected.)
- II.2.2. the following additional guarantees, laid down by the Member State of destination under Articles 13 and/or 14 of Directive 90/539/EEC, are provided:
-
- (⁴) II.2.3. if the Member State of destination is Finland or Sweden, the day-old chicks for introduction into flocks of breeding poultry or flocks of productive poultry come from flocks which have tested negative in accordance with the rules laid down in Commission Decision 2003/644/EC.
- (⁶) II.3. **Additional health requirements**
- I, the undersigned official veterinarian, further certify that, although the use of vaccines against Newcastle disease which do not fulfil the specific requirements of Annex B(2) to Decision 93/342/EEC is not prohibited in (²):
- II.3.1. the breeding poultry from which the day-old chicks are derived:
- (a) has not been vaccinated for at least 12 months with such vaccines;
 - (b) comes from a flock which underwent a virus isolation test for Newcastle disease, carried out in an official laboratory not earlier than 14 days preceding consignment on a random sample of cloacal swabs from at least 60 birds in each flock and in which no avian paramyxoviruses with an Intracerebral Pathogenicity Index (ICPI) of more than 0.4 were found;
 - (c) has not been in contact during the last 60 days before consignment with poultry which does not fulfil the conditions in (a) and (b);
 - (d) has been kept in isolation under official surveillance on the holding of origin in the 14-day period mentioned in (b), and
- II.3.2. the hatching eggs from which they hatched have not been in contact in the hatchery or during transport with eggs or poultry which do not fulfil the abovementioned requirements.)
- II.4. Animal transport attestation**
- I, the undersigned official veterinarian, further certify that:
- II.4.1. the day-old chicks described in this certificate are to be transported in disposable boxes used for the first time and:
- (a) contain only day-old chicks of the same species, category and type coming from the same establishment;
 - (b) bear the following information:
 - the name of the country of consignment,
 - the species of poultry concerned,
 - the number of chicks,
 - the category and type of production for which they are intended,
 - the name, address and approval number of the production establishment,
 - the approval number of the establishment of origin,
 - the Member State of destination;
 - (c) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents;
- II.4.2. the containers and vehicles in which the boxes mentioned in II.4.1 have been transported have been cleaned and disinfected before loading in accordance the instructions of the competent authority.

Status: This is the original version (as it was originally adopted).

<i>Notes</i>	
Part I:	
—	Box I.8: provide the code for the region of origin, if necessary, as defined under code of territory in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
—	Box I.11: Name, address and approval number of hatcheries and the breeding establishment.
—	Box I.15: Indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and seal numbers, where applicable, should be indicated in box I.23.
—	Box I.19: use the appropriate HS code: 01.05 or 01.06.39
—	Box I.28: (Category): select one of the following: pure line/grandparents/parents/laying stock/broilers/others
Part II:	
(1)	Day-old chicks as defined in Decision 2006/696/EC (as last amended).
(2)	Code of the territory as it appears in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
(3)	Keep as appropriate.
(4)	Complete if appropriate.
(5)	Where the consignment is not intended for such Member States or regions (currently Finland and Sweden), the guarantees given under point II.2.1 must be deleted.
(6)	This guarantee is required only for poultry coming from countries or parts thereof where Article 4(4) of Decision 93/342/EEC applies. It should be deleted in the case of poultry coming from other countries.
This certificate is valid for 10 days.

Additional guarantees)</p> <p>I, the undersigned official veterinarian, further certify that:</p>		

Status: This is the original version (as it was originally adopted).

- (⁵) II.2.1. where the consignment is intended for a Member State or region the status of which has been established in accordance with Article 12(2) of Directive 90/539/EEC, the day-old chicks described in this certificate come from:
- (a) hatching eggs from flocks which:
 - (³) either (i) have not been vaccinated against Newcastle disease;
 - (³) or (ii) have been vaccinated against Newcastle disease using an inactivated vaccine;
 - (³) or (iii) were vaccinated against Newcastle disease using a live vaccine at the latest 60 days before the date the eggs were collected;
 - (b) a hatchery where working practices ensure that such eggs are incubated at completely separate times and locations from eggs not satisfying the requirements in (a);
- II.2.2. the following additional guarantees, laid down by the Member State of destination pursuant to Articles 13 and/or 14 of Directive 90/539/EEC are provided:
-
- (⁴) II.2.3. if the Member State of destination is Finland or Sweden, the day-old chicks for introduction into flocks of breeding poultry or flocks of productive poultry come from flocks which have tested negative in accordance with the rules laid down in Commission Decision 2003/644/EC.
- (⁶) II.3. **Additional health requirements for countries not free from Newcastle disease**
- I, the undersigned official veterinarian, further certify that:
- II.3.1. the breeding ratites from which the day-old chicks are derived:
- (a) were placed in isolation under official surveillance not less than 30 days before laying the hatching eggs from which the day-old chicks for export are derived;
 - (b) underwent a virus isolation test for Newcastle disease, carried out in an official laboratory seven to ten days after their entry into isolation on either cloacal swabs or faeces samples from each bird and in which no avian paramyxovirus type 1 isolates with an Intracerebral Pathogenicity Index (ICPI) of more than 0,4 were found. Favourable results were available for all tests carried out before the day-old chicks left the hatchery for export;
 - (c) during the last 30 days prior to and during laying of the hatching eggs from which the day-old chicks for export are derived, have not been in contact with poultry (including ratites) which do not fulfil the guarantees mentioned under (a), (b) and (d);
 - (d) come from flocks in which surveillance for Newcastle disease is carried out under a statistically based sampling plan and producing negative results for at least six months immediately prior to export;
- II.3.2. the hatching eggs from which the day-old chicks have hatched and the day-old chicks have not been in contact in the hatchery or during transport with eggs or poultry which do not fulfil the abovementioned requirements.)
- II.4. **Animal transport attestation**
- I, the undersigned official veterinarian, further certify that:
- II.4.1. the day-old chicks described in this certificate are to be transported:
- II.4.1.1. under conditions meeting those laid down in Council Directive 91/628/EEC;
- II.4.1.2. in perfectly clean, disposable boxes used for the first time which:
- (a) contain only day-old chicks of the same species, category and type coming from the same establishment;
 - (b) bear the following information in legible writing and in at least one Community language:
 - the name of the country of consignment,
 - the species of ratites concerned,
 - the number of chicks,
 - the category and type of production for which they are intended,
 - the name, address and approval number of the breeding establishment,
 - the name, address and approval number of the establishment of origin,
 - the date of dispatch,
 - the Member State of destination;

Status: This is the original version (as it was originally adopted).

<p>(c) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents;</p> <p>II.4.2. the containers and vehicles in which the boxes mentioned in II.4.1.2 have been transported have been cleaned and disinfected before loading in accordance the instructions of the competent authority.</p> <p><i>Notes</i></p> <p>Part I:</p> <p>— Box I.8: provide the code for the region of origin, if necessary, as defined under code of territory in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).</p> <p>— Box I.11: names, addresses and approval numbers of hatcheries and breeding establishment.</p> <p>— Box I.15: indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. HEP (hatching eggs of poultry other than ratites)

Part II: Certification	II. Health information	II.a. Certificate reference number	II.b.
		<p>II.1. Animal health attestation</p> <p>I, the undersigned official veterinarian, hereby certify that the hatching eggs ⁽¹⁾ described in this certificate:</p> <p>II.1.1. comply with Directive 90/539/EEC;</p> <p>II.1.2. come from flocks which have remained on the territory of code ⁽²⁾ for at least three months. Where these flocks were imported into the country of origin, this took place in accordance with veterinary conditions that are at least as strict as the relevant requirements of Directive 90/539/EEC and any subsidiary Decisions;</p> <p>II.1.3. come from the territory of code ⁽²⁾ which at the date of issue of this certificate was free from Avian influenza and Newcastle disease as defined in Decision 93/342/EEC;</p> <p>II.1.4. come from flocks which:</p> <p>(a) have been examined at the date of issue of this certificate and showed no clinical signs of or grounds for suspecting any disease;</p> <p>(b) have been kept for at least six weeks immediately prior to export in the establishment(s) defined in Box I.11 of Part I, officially approved in accordance with requirements that are at least equivalent to those laid down in Annex II to Directive 90/539/EEC:</p> <p>— the approval of which has not been suspended or withdrawn,</p> <p>— which is (are) not subject to any animal health restriction,</p> <p>within a 25 km radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of Avian influenza or Newcastle disease for at least 30 days;</p> <p>(c) during the period mentioned in (b), have had no contact with poultry not meeting the requirements laid down in this certificate or with wild birds,</p> <p>(d) have undergone a disease surveillance programme for:</p> <p>⁽³⁾ either (<i>Salmonella pullorum</i>, <i>S. gallinarum</i> and <i>Mycoplasma gallisepticum</i> (fowls);)</p> <p>⁽³⁾ and/or (<i>Salmonella arizonae</i>, <i>S. pullorum</i> and <i>S. gallinarum</i>, <i>Mycoplasma meleagridis</i> and <i>M. gallisepticum</i> (turkeys);)</p> <p>⁽³⁾ and/or (<i>Salmonella pullorum</i> and <i>S. gallinarum</i> (guinea fowls, quails, pheasants, partridges and ducks))</p> <p>in accordance with Chapter III of Annex II to Directive 90/539/EEC and were not found to be infected, or showed any grounds for suspecting infection, by these agents;</p> <p>⁽³⁾ either (e) (have not been vaccinated against Newcastle disease;)</p> <p>⁽³⁾ or (have been vaccinated against Newcastle disease using:</p> <p>.....</p> <p>(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))</p> <p>at the age of weeks;)</p> <p>⁽³⁾ ((f) have been vaccinated using officially approved vaccines</p> <p>on against (repeat as necessary);)</p> <p>II.1.5. have been marked as indicated in point I.28 of the certificate using (colour ink);</p> <p>II.1.6. have been disinfected in accordance with my instructions, using (name of the product and active substance) for (time in minutes);</p> <p>II.1.7. were collected from to (dates).</p> <p>II.2. Additional guarantees</p> <p>I, the undersigned official veterinarian, further certify that:</p> <p>⁽⁴⁾ (II.2.1. where the consignment is intended for a Member State or region the status of which has been established in accordance with Article 12(2) of Directive 90/539/EEC, the hatching eggs described in this certificate are derived from poultry which:</p> <p>⁽³⁾ either (a) have not been vaccinated against Newcastle disease,</p>	

	(³) or (b)	have been vaccinated against Newcastle disease using an inactivated vaccine,
	(³) or (c)	were vaccinated against Newcastle disease using a live vaccine at the latest 60 days before the date mentioned under point II.1.7 above.)
II.2.2.		the following additional guarantees, laid down by the Member State of destination in accordance with Articles 13 and/or 14 of Directive 90/539/EEC, are provided:
(³) II.2.3.		if the Member State of destination is Finland or Sweden, the hatching eggs come from flocks which have tested negative in accordance with the rules laid down in Commission Decision 2003/644/EC.
(⁵) II.3.		Additional health requirements for countries not free from Newcastle disease
		I, the undersigned official veterinarian, further certify that although the use of vaccines against Newcastle disease which do not fulfil the specific requirements of Annex B(2) to Decision 93/342/EEC is not prohibited in (²), the poultry from which the hatching eggs are derived:
	(a)	has not been vaccinated for at least 12 months with such vaccines;
	(b)	comes from a flock that underwent a virus isolation test for Newcastle disease, carried out in an official laboratory not earlier than 14 days preceding consignment on a random sample of cloacal swabs from at least 60 birds in each flock concerned and in which no avian paramyxoviruses with an Intracerebral Pathogenicity Index (ICPI) of more than 0,4 have been found;
	(c)	has not been in contact during the last 60 days before consignment with poultry that does not fulfil the conditions in (a) and (b);
	(d)	has been kept in isolation under official surveillance on the holding of origin in the 14-day period mentioned in (b).)
II.4.		Animal transport attestation
		I, the undersigned official veterinarian, further certify that:
II.4.1.		the hatching eggs are to be transported in perfectly clean disposable boxes used for the first time and which:
	(a)	contain only hatching eggs of the same species, category and type coming from the same establishment;
	(b)	bear the following indications: — the name of the country of consignment, — the species of poultry concerned, — the number of eggs, — the category and type of production for which they are intended, — the name, address and approval number of the production establishment, — the approval number of the establishment of origin, — the Member State of destination;
	(c)	are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents;
II.4.2.		the containers and vehicles in which the boxes mentioned in II.4.1 have been transported have been cleaned and disinfected before loading in accordance with the instructions of the competent authority.
Notes		
Part I:		
—	Box I.8:	provide the code for the region of origin, if necessary, as defined under code of territory in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
—	Box I.11:	name, address and approval number of the breeding establishment
—	Box I.15:	indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total numbers of these and their registration and seal numbers, where applicable, should be indicated in box I.23.
—	Box I.28 (Category):	select one of the following: Pure line/grandparents/parents/laying pullets/eggs of turkeys for consumption/others; (identification system and identification number): introduce the egg mark.

Status: This is the original version (as it was originally adopted).

Part II:

- (1) For hatching eggs of poultry as defined in Decision 2006/696/EC (as last amended) with the exception of ratites.
- (2) Code of the territory as it appears in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
- (3) Keep as appropriate.
- (4) Where the consignment is not intended for such Member States or regions (currently Finland and Sweden), the guarantees given under point II.2.1 must be deleted.
- (5) This guarantee is required only for poultry coming from countries or parts thereof where Article 4(4) of Decision 93/342/EEC applies. It should be deleted in the case of poultry coming from other countries.

This certificate is valid for 10 days.

HER (hatching eggs of ratites)

Part II: Certification	II. Health information	II.a. Certificate reference number	II.b.
		<p>II.1. Animal health attestation</p> <p>I, the undersigned official veterinarian, hereby certify that the hatching eggs ⁽¹⁾ described in this certificate:</p> <p>II.1.1. comply with Directive 90/539/EEC;</p> <p>II.1.2. come from flocks which have remained on the territory of code ⁽²⁾ for at least three months. Where the flocks have been imported into the country of origin, this took place in accordance with veterinary conditions at least as strict as the relevant requirements of Directive 90/539/EEC and any subsidiary Decisions;</p> <p>⁽³⁾ ⁽⁷⁾ II.1.3. <i>either</i> (a) come from the territory of code ⁽²⁾, which at the date of issue of this certificate was free from Avian influenza and Newcastle disease as defined in Decision 93/342/EEC;</p> <p>⁽³⁾ ⁽⁶⁾ <i>or</i> ((b) come from the territory of code , which is free from Avian influenza and not free from Newcastle disease as defined in Decision 93/342/EEC;</p> <p>II.1.4. come from flocks which:</p> <p>(a) have been examined at the date of issue of this certificate and showed no clinical signs of or grounds for suspecting any disease;</p> <p>(b) have been kept for at least six weeks prior to immediate export in the establishment(s) defined in Box I.11 of Part I, officially approved in accordance with requirements which are at least equivalent to those laid down in Annex II to Directive 90/539/EEC:</p> <p>— the approval of which has not been suspended or withdrawn,</p> <p>— which is (are) not subject to any animal health restriction,</p> <p>within a 25 km radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of Avian influenza or Newcastle disease for at least 30 days;</p> <p>(c) during the period mentioned in (b), have had no contact with poultry not meeting the requirements laid down in this certificate;</p> <p>(d) during the period mentioned in (b), have had no contact with ratites or other poultry not meeting the requirements laid down in this certificate;</p> <p>⁽³⁾ <i>(either</i> (e) have not been vaccinated against Newcastle disease;)</p> <p>⁽³⁾ <i>(or</i> have been vaccinated against Newcastle disease using:</p> <p>.....</p> <p>(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))</p> <p>at the age of weeks;)</p> <p>⁽³⁾ (have been vaccinated using officially approved vaccines</p> <p>on..... against (repeat as necessary);)</p> <p>II.1.5. ⁽⁵⁾ have been marked as indicated in point I.28 of the certificate using (colour ink);</p> <p>II.1.6. have been disinfected in accordance with my instructions, using (name of the product and active substance) for (time in minutes);</p> <p>II.1.7. have been collected from to (dates).</p> <p>⁽⁴⁾ II.2. Additional guarantees)</p> <p>I, the undersigned official veterinarian, further certify that:</p> <p>⁽⁸⁾ II.2.1. where the consignment is intended for a Member State or region the status of which has been established in accordance with Article 12(2) of Directive 90/539/EEC, the hatching eggs described in this certificate are derived from ratites which:</p> <p>⁽³⁾ <i>either</i> ((a) have not been vaccinated against Newcastle disease;)</p> <p>⁽³⁾ <i>or</i> ((b) have been vaccinated against Newcastle disease using an inactivated vaccine;)</p> <p>⁽³⁾ <i>or</i> ((c) were vaccinated against Newcastle disease using a live vaccine at the latest 60 days before the initial date mentioned under point II.1.7 above;)</p>	

II.2.2. the following additional guarantees, laid down by the Member State of destination in accordance with Articles 13 and/or 14 of Directive 90/539/EEC are provided:

..... ;

(⁴) II.2.3. if the Member State of destination is Finland or Sweden, the hatching eggs come from flocks which have tested negative in accordance with the rules laid down in Commission Decision 2003/644/EC.

(⁶) (II.3. **Additional health requirements for countries not free from Newcastle disease**

I, the undersigned official veterinarian, further certify that the breeding ratites from which the hatching eggs are derived:

- (a) were placed in isolation under official surveillance not less than 30 days prior to laying the hatching eggs for export;
- (b) underwent a virus isolation test for Newcastle disease, carried out in an official laboratory seven to ten days after their entry into isolation on either cloacal swabs or faeces samples from each bird and in which no avian paramyxovirus type 1 isolates with an Intracerebral Pathogenicity Index (ICPI) of more than 0,4 were found. Favourable results were available from all birds before the eggs left the isolation facility for export;
- (c) during the last 30 days prior to and during the laying of the hatching eggs for export, were not in contact with poultry (including ratites) that does not fulfil the conditions in (a), (b) and (d);
- (d) come from flocks on which surveillance for Newcastle disease is carried out under a statistically based sampling plan and producing negative results for at least six months immediately prior to export.)

II.4. **Animal transport attestation**

I, the undersigned official veterinarian, further certify that:

II.4.1. the hatching eggs are to be transported in perfectly clean, disposable boxes used for the first time and which:

- (a) contain only hatching eggs of the same species, category and type coming from the same establishment;
- (b) bear the following information in legible writing in at least one Community language:
 - the word hatching,
 - the name of the country of consignment,
 - the species of ratites concerned,
 - the number of eggs,
 - the category and type of production for which they are intended,
 - the name, address and approval number of the breeding establishment,
 - the name and address of the establishment of origin,
 - the date of dispatch,
 - the Member State of destination;
- (c) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents.

II.4.2. the containers and vehicles in which the boxes mentioned in II.4.1 have been transported have been cleaned and disinfected before loading in accordance with the instructions of the competent authority.

Notes

Part I:

- Box I.8: provide the code for the region of origin, if necessary, as defined under code of territory in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
- Box I.11: Name, address and approval number of the breeding establishment.
- Box I.15: Indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and seal numbers, where applicable, should be indicated in box I.23.
- Box I.28 (Category): select one of the following: Pure line/grandparents/parents/others; (Identification system & Identification number): introduce the egg mark.

Status: This is the original version (as it was originally adopted).

Part II:

- (1) For hatching eggs of *Ratitae* (*Struthioniformes*, *Casuariformes*, *Rheiformes*).
- (2) Code of the territory as it appears in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
- (3) Keep as appropriate.
- (4) Complete where appropriate.
- (5) At the time of consignment the eggs must be individually marked in accordance with Commission Regulation (EEC) No 1868/77, including the approval number of the breeding establishment, in indelible black ink; such markings must be in legible writing and in at least one Community language.
- (6) Applicable only to the countries with the entry 'III' in column 5 ('AG') of Part 1 of Annex I of Decision 2006/696/EC (as last amended).
- (7) Not applicable to the countries with the entry 'I' in column 5 ('AG') of Part 1 of Annex I of Decision 2006/696/EC (as last amended).
- (8) Where the consignment is not intended for such Member States or regions (currently Finland and Sweden), the guarantees given under point II.2.1 must be deleted.

This certificate is valid for 10 days.

SRP (slaughter poultry and poultry for restocking game supplies other than ratites)

Part II: Certification	II. Health information	II.a. Certificate reference number	II.b.
		<p>II.1. Animal health attestation</p> <p>I, the undersigned official veterinarian, hereby certify that the poultry ⁽¹⁾ described in this certificate:</p> <p>II.1.1. complies with Directive 90/539/EEC;</p> <p>II.1.2. has remained on the territory of code ⁽²⁾ for at least six weeks or since hatching if less than six weeks old prior to export. Where it was imported into the country of origin, this took place in accordance with veterinary conditions at least as strict as the relevant requirements of Directive 90/539/EEC and any subsidiary Decisions;</p> <p>II.1.3. comes from the territory of code ⁽²⁾, which at the date of issue of this certificate was free from Avian influenza and Newcastle disease as defined in Decision 93/342/EEC;</p> <p>II.1.4. has been examined at the date of issue of this certificate and showed s no clinical signs of or grounds for suspecting any disease;</p> <p>II.1.5. has been kept since hatching or for more than 30 days on the holding(s) of origin;</p> <p>(a) which is (are) not subject to any animal health restriction;</p> <p>(b) within a 25 km radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of Avian influenza or Newcastle disease for at least 30 days;</p> <p>II.1.6. during the period mentioned in II.1.5, has had no contact with poultry not meeting the requirements laid down in this certificate or with wild birds;</p> <p>II.1.7. comes from flocks which:</p> <p>(a) have been examined at the date of issue of this certificate and showed no clinical signs of or grounds for suspecting any disease;</p> <p>⁽³⁾ <i>either</i> ((b) have not been vaccinated against Newcastle disease;)</p> <p>⁽³⁾ <i>or</i> (have been vaccinated against Newcastle disease using:</p> <p>.....</p> <p>(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))</p> <p>⁽³⁾ ⁽⁵⁾ (at the age of weeks;)</p> <p>⁽³⁾ ⁽⁶⁾ ((c) have been vaccinated using officially approved vaccines</p> <p>on against (repeat as necessary))</p> <p>II.2. Additional guarantees</p> <p>I, the undersigned official veterinarian, further certify that:</p> <p>⁽⁶⁾ (II.2.1. where the consignment is intended for a Member State or region the status of which has been established in accordance with Article 12(2) of Directive 90/539/EEC, the poultry described in this certificate comes from flocks which:</p> <p>⁽³⁾ <i>either</i> ((a) have not been vaccinated against Newcastle disease and underwent serological examination for the presence of Newcastle disease antibodies in the 14 days preceding consignment and tested negative;)</p> <p>⁽³⁾ <i>or</i> ((b) have been vaccinated against Newcastle disease but not with a live vaccine in the 30 days preceding consignment and underwent a virus isolation test for Newcastle disease in the 14 days preceding consignment on a random sample of cloacal swabs or faeces samples from at least 60 birds and tested negative;)</p> <p>II.2.2. the following additional guarantees, laid down by the Member State of destination in accordance with Articles 13 and/or 14 of Directive 90/539/EEC, are provided:</p> <p>.....;</p> <p>⁽⁴⁾ II.2.3. if the Member State of destination is Finland or Sweden, the poultry:</p> <p>⁽³⁾ <i>either</i> ((underwent a microbiological test by sampling on the holding of origin and tested negative in accordance with Council Decision 95/410/EC;)</p> <p>⁽³⁾ <i>or</i> (comes from a holding subject to a programme recognised by the European Commission as equivalent to the national programme of Finland or Sweden, as appropriate.)</p>	

Status: This is the original version (as it was originally adopted).

(7) II.3. Additional health requirements

I, the undersigned official veterinarian, further certify that although the use of vaccines against Newcastle disease that do not fulfil the specific requirements of Annex B(2) to Decision 93/342/EEC is not prohibited in (2), the poultry described in this certificate:

- (a) has not been vaccinated for at least 12 months with such vaccines;
- (b) comes from a flock which underwent a virus isolation test for Newcastle disease, carried out in an official laboratory not earlier than 14 days preceding consignment on a random sample of cloacal swabs from at least 60 birds in each flock concerned and in which no avian paramyxoviruses with an Intracerebral Pathogenicity Index (ICPI) of more than 0.4 were found;
- (c) during the last 60 days before consignment, has not been in contact with poultry that does not fulfil the conditions in (a) and (b);
- (d) has been kept in isolation under official surveillance on the holding of origin in the 14-day period mentioned in (b).

II.4. Animal transport attestation

I, the undersigned official veterinarian, further certify that the poultry is to be transported in crates or cages which:

- (a) contain only poultry of the same species, category and type coming from the same establishment;
- (b) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents;
- (c) in addition to the vehicles in which they are to be transported, are designed to:
 - (i) prevent any excrement escaping and reduce to a minimum any loss of feathers during transport;
 - (ii) allow visual inspection of the poultry;
 - (iii) allow cleaning and disinfecting;
- (d) in addition to the vehicles in which they are to be transported, have been cleaned and disinfected before loading in accordance with the instructions of the competent authority.

Notes

Part I:

- Box I.8: provide the code for the region of origin, if necessary, as defined under code of territory in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
- Box I.15: Indicate the registration number(s) of railway wagons and lorries and the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and seal numbers, where applicable, should be indicated in box I.23.
- Box I.19: use the appropriate HS code: 01.05 or 01.06.39.
- Box I.28 (Category): select one of the following: Pure line/grandparents/parents/laying stock/broilers/others.

Part II:

- (1) Live poultry as defined in Decision 2006/696/EC (as last amended) with the exception of ratites.
- (2) Code of the territory as it appears in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
- (3) Keep as appropriate.
- (4) Complete if appropriate.
- (5) Only to be completed for restocking game supplies.
- (6) Where the consignment is not intended for such Member States or regions (currently Finland and Sweden), the guarantees given under point II.2.1. must be deleted.
- (7) This guarantee is required only for poultry coming from countries or parts thereof where Article 4(4) of Decision 93/342/EEC applies. It must be deleted in the case of poultry coming from other countries.

This certificate is valid for 10 days.

Additional guarantees)</p> <p>I, the undersigned official veterinarian, further certify that:</p> <p>⁽⁵⁾ (II.2.1. where the consignment is intended for a Member State or region the status of which has been established in accordance with Article 12(2) of Directive 90/539/EEC, the ratites:</p> <p>⁽³⁾ <i>either</i> ((a) have not been vaccinated against Newcastle disease and underwent a serological examination for the presence of Newcastle disease antibodies in the 14 days preceding consignment and tested negative;)</p> <p>⁽³⁾ <i>or</i> ((b) have been vaccinated against Newcastle disease but not with a live vaccine in the 30 days preceding consignment and underwent a virus isolation test for Newcastle disease in the 14 days preceding consignment on a random sample of cloacal swabs or faeces samples from at least 60 birds and tested negative;)</p> <p>II.2.2. The following additional guarantees, laid down by the Member State of destination pursuant to Articles 13 and/or 14 of Directive 90/539/EEC, are provided:</p> <p>.....;</p> <p>⁽⁴⁾ (II.2.3. If the Member State of destination is Finland or Sweden, the ratites:)</p> <p>⁽³⁾ <i>either</i> (have undergone a microbiological test by sampling on the holding of origin and tested negative in accordance with Council Decision 95/410/EC;)</p> <p>⁽³⁾ <i>or</i> (come from a holding subject to a programme recognised by the European Commission as equivalent to the national programme of Finland or Sweden, as appropriate;)</p>	

Status: This is the original version (as it was originally adopted).

(⁶) II.3. Additional health requirements for countries not free from Newcastle disease

I, the undersigned official veterinarian, further certify that the ratites:

- (a) have been kept under official surveillance for at least 21 days prior to export in a quarantine station as defined in Article 2 of Directive 90/539/EEC and approved by the competent authority (approval number and address of the facility:
.....; and
- (b) underwent a virus isolation test for Newcastle disease in an official laboratory seven to ten days after their entry into a quarantine station on either cloacal swabs or faeces samples from each bird and in which no avian paramyxovirus type 1 isolates with an Intracerebral Pathogenicity Index (ICPI) of more than 0,4 were found. Favourable results were available from all birds in the consignment before the birds left the quarantine station for export;
- (c) come from flocks in which surveillance for Newcastle disease has been carried out for at least six months immediately prior to export under a statistically based sampling plan and which tested negative;)

II.4. Animal transport attestation

I, the undersigned official veterinarian, further certify that the ratites are to be transported:

- 1. under conditions complying with those laid down in Council Directive 91/628/EEC;
- 2. in crates or cages which:
 - (a) contain only ratites of the same species, category and type coming from the same establishment;
 - (b) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents;
 - (c) in addition to the vehicles in which they are to be transported, are designed to:
 - (i) prevent any excrement escaping and reduce to a minimum any loss of feathers during transport,
 - (ii) allow visual inspection of the ratites,
 - (iii) allow cleaning and disinfecting;
 - (d) in addition to the vehicles in which they are to be transported, have been cleaned and disinfected before loading in accordance with the instructions of the competent authority.

Notes

Part I:

- Box I.8: provide the code for the region of origin, if necessary, as defined under code of territory in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
- Box I.15: Indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and seal numbers, where applicable, should be indicated in box I.23.

Part II:

- (1) *Ratitae* means ratites (*Struthioniformes*, *Casuariformes*, *Rheiformes*). After import, the ratites must be sent immediately to the slaughterhouse of destination in accordance with Article 15(4)(b) of Council Directive 90/539/EEC.
- (2) Code of the territory as it appears in column 2, Part 1 of Annex I of Decision 2006/696/EC (as last amended).
- (3) Keep as appropriate.
- (4) Complete if appropriate.
- (5) Where the consignment is not intended for such Member States or regions (currently Finland and Sweden), the guarantees given under point II.2.1 must be deleted.
- (6) Applicable only for animals coming from regions free from avian influenza but not free from Newcastle disease.

This certificate is valid for 10 days.

Status: This is the original version (as it was originally adopted).

PART 3

Addendum for transport of poultry by sea

(To be completed and attached to the veterinary certificate where transport to the European Community border includes transport by ship, even for part of the journey.)

Declaration by the master of the ship	
I, the undersigned, master of ship (name), declare that the poultry referred to in attached veterinary certificate No has remained on board the ship during the voyage from in (<i>exporting country</i>) to in the European Community and that the ship did not call at any place outside (<i>exporting country</i>) en route to the European Community other than: (<i>Ports of call en route</i>). Moreover, during the journey, the poultry has not been in contact with other poultry of a lower health status on board.

PART 4

A. Methods for standardisation of materials and procedures for veterinary tests for imports of poultry and hatching eggs

1. Newcastle disease

The sampling and testing methods must comply with the methods described in the Annex to Decision 92/340/EEC on testing of poultry for Newcastle disease prior to movement, in accordance with Article 12 of Directive 90/539/EEC.

2. *Salmonella pullorum*

— The sampling methods must comply with the methods described in Chapter III of Annex II to Directive 90/539/EEC.

- The testing methods must comply with the methods described in the latest version of the *Manual of Diagnostic Tests and Vaccines for Terrestrial Animals*, published by OIE.
3. *Salmonella gallinarum*
- The sampling methods must comply with the methods described in Chapter III of Annex II to Directive 90/539/EEC.
 - The testing methods must comply with the methods described in the latest version of the *Manual of Diagnostic Tests and Vaccines for Terrestrial Animals*, published by OIE.
4. *Salmonella arizonae*
- Serological examination: 60 birds to be sampled at the point of lay. Testing must be carried out in accordance with the methods described in the latest version of the *Manual of Diagnostic Tests and Vaccines for Terrestrial Animals*, published by OIE.
5. *Mycoplasma gallisepticum*
- The sampling methods must comply with the methods described in Chapter III of Annex II to Directive 90/539/EEC.
 - The testing methods must comply with the methods described in the latest version of the *Manual of Diagnostic Tests and Vaccines for Terrestrial Animals*, published by OIE.
6. *Mycoplasma meleagridis*
- The sampling methods must comply with the methods described in Chapter III of Annex II to Directive 90/539/EEC.
- B. Sampling and testing procedures for Newcastle disease and avian influenza after import

During the period referred to in Article 10(1), the official/authorised veterinarian shall take samples from the imported poultry for virological examination, to be tested as follows:

- between the 7th and the 15th day of the isolation period, cloacal swabs must be taken from all birds where the consignment contains fewer than 60 birds, and from 60 birds where consignments contain more than 60 birds,
- testing of samples for avian influenza and Newcastle disease must be carried out in official laboratories designated by the competent authority, using diagnostic procedures in accordance with Annex III to Council Directive 92/66/EEC⁽¹⁾ and Annex III to Council Directive 92/40/EEC⁽²⁾,
- samples may be pooled, subject to a maximum of five samples from individual birds in each pool,
- virus isolates must be sent without delay to the national reference laboratory.
