

Commission Decision of 24 August 2006 amending Decision 2003/56/EC on health certificates for the importation of live animals and animal products from New Zealand (notified under document number C(2006) 3708) (Text with EEA relevance) (2006/854/EC)

COMMISSION DECISION

of 24 August 2006

amending Decision 2003/56/EC on health certificates for the importation of live animals and animal products from New Zealand

(notified under document number C(2006) 3708)

(Text with EEA relevance)

(2006/854/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 97/132/EC of 17 December 1996 on the conclusion of the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products<sup>(1)</sup>, and in particular Article 4 thereof,

Whereas:

- (1) The Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products<sup>(2)</sup> (the Agreement) provided for the possibility of recognising the equivalence of the New Zealand control and certification systems for fresh meat and meat based products and for other animal products.
- (2) Commission Decision 2003/56/EC<sup>(3)</sup> lays down the certification requirements and provides models for official health certificates to be used for the importation from New Zealand of live animals and animal products. In cases where full equivalence of sanitary measures has been determined, simplified certificates may be used, models for which are set out in Annexes II to V to that Decision.
- (3) Account should be taken of recent acknowledgements of equivalence of the disease status and of sanitary measures for trade in live honey bees and bumble bees. Simplified veterinary certification was agreed for this category. An appropriate model certificate should be set out.
- (4) Other certification provisions need to be updated to take account of the changes in relevant Community legislation.
- (5) Decision 2003/56/EC should therefore be amended accordingly.

---

**Changes to legislation:** Commission Decision of 24 August 2006 amending Decision 2003/56/EC on health certificates for the importation of live animals and animal products from New Zealand (notified under document number C(2006) 3708) (Text with EEA relevance) (2006/854/EC) is up to date with all changes known to be in force on or before 18 October 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

- (6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

*Article 1*

The Annexes to Decision 2003/56/EC are amended in accordance with the Annex to this Decision.

*Article 2*

This Decision shall apply from the 20th day following its publication in the *Official Journal of the European Union*.

*Article 3*

This Decision is addressed to the Member States.

Done at Brussels, 24 August 2006.

*For the Commission*

Markos KYPRIANOU

*Member of the Commission*

## ANNEX SECTION 1:

Document Generated: 2023-10-18

**Changes to legislation:** Commission Decision of 24 August 2006 amending Decision 2003/56/EC on health certificates for the importation of live animals and animal products from New Zealand (notified under document number C(2006) 3708) (Text with EEA relevance) (2006/854/EC) is up to date with all changes known to be in force on or before 18 October 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

## ANNEX

The Annexes to Decision 2003/56/EC are replaced by the following:

## ANNEX GLOSSARY

AN	=	Assigned Number (a number which is arbitrarily assigned to a particular commodity and, as such, will appear on the certificate)
Channelling	=	As described in Chapter XI, point 7, of Annex VIII to Regulation (EC) No 1774/2002 of the European Parliament and of the Council <sup>(4)</sup>
N/A	=	Not applicable
Other products	=	As defined in Article 2(b) of Council Directive 77/99/EEC <sup>(5)</sup>
PNHC	=	Prevailing national health conditions of the Member State(s) in accordance with Community law. Pending the adoption of Community rules, national rules shall continue to apply subject to compliance with the general provisions of the Treaty
Date of departure	=	The date the vessel left the final port of New Zealand
Production date	=	Dates of slaughter in the case of chilled or frozen fresh meat (including game), meat preparations, minced meat or raw materials intended for further processing
	=	Dates of manufacturing in the case of further processed products
	=	Dates of packaging in the case of chilled or frozen fish.

## LIST OF ANIMALS AND ANIMAL PRODUCTS

## SECTION 1:

## Germplasm and live animals

Commodity <sup>a</sup> Form <sup>c</sup>	Species <sup>b</sup>	AN	Certification <sup>d</sup>		
			Animal Health	Public Health	Additional conditions
<b>1. Semen</b>					
– Cattle		1.1	Commission Decision 2004/639/EC	N/A	See footnote 1

IV. Health attestation

I the undersigned hereby certify that:

The animals herein described, comply with the relevant New Zealand animal health standards and requirements which have been recognised as equivalent to the European Community standards and requirements as prescribed in Council Decision 97/132/EC, specifically, in accordance with the Biosecurity Act 1993.

Specifically, it is certified that:

The bees/bumble bees, with attendants, referred to above:

- (a) come from a breeding apiary, which is supervised and controlled by the competent authority;
- (b) in the case of honey bees, hives come from an area which is not the subject of any restrictions associated with an occurrence of American foul brood, and where no such occurrence has taken place within at least 30 days prior to the issuance of the present certificate. Where an outbreak of foulbrood has occurred previously, all hives within a radius of three kilometres have been checked by the competent authority and all infected hives burned or treated and inspected to the satisfaction of the said competent authority within 30 days following the last recorded case;
- (c) are from hives or come from hives or colonies (in the case of bumble bees), which were inspected immediately prior to dispatch (normally within 24 hours) and show no clinical signs or suspicion of disease including infestations affecting bees.

The packing material, queen cages, accompanying products and food are new and have not been in contact with diseased bees or brood-combs, and all precautions have been taken to prevent contamination with agents causing diseases or infestations of bees.

Done at ....., on .....

## ANNEX ~~II~~ Exports of Imported Animal Products

In each case, the product shall:

- have originated from a third country eligible to export the item to the European Community;
  - have been derived from establishments eligible to export to the European Community;
- and
- be eligible to be exported to the European Community.

A copy of the import certificate is to be attached to the signed New Zealand health certificate; this copy is to be endorsed ‘certified copy of original’, and be signed by the certifying officer.

The original or a certified copy of the import certificate shall be retained by the certifying officer.

The following additional declaration(s) shall appear on the model certificates prescribed in Annex I. The declarations shall appear in the languages referred to in Article 2 of Commission Decision 2003/56/EC.

### 1. Mixed origin

For animal products which have been imported into New Zealand, and have been stored and processed in EC-listed establishments with product of New Zealand origin (i.e. the consignment is of mixed origin), the following declaration is to appear on the appropriate model certificates noted in Annex I:

The final product described herein was **partly derived** from raw material and/or product which:

- (i) was imported into New Zealand from  
...  
Country of origin<sup>(6)</sup>
- (ii) and was further stored, handled, processed, wrapped and/or packaged in EC-listed New Zealand export establishment(s).

The product originated in a third country/third countries and establishment(s) listed by the European Community and is eligible for export to the European Community.

### 2. Country of origin maintained, not mixed with New Zealand origin product.

For animal products which have been imported into New Zealand and have been stored and processed in New Zealand EC-listed export establishments but **not** mixed with product of New Zealand origin, the following declaration is to appear on the model certificates noted in Annex A:

The final product described herein **was derived** from raw material and/or product which:

- (i) was imported into New Zealand from  
...  
Country of origin<sup>(7)</sup>

## ANNEX

Document Generated: 2023-10-18

---
