

Commission Decision of 14 December 2009 amending Decision 2004/407/
EC as regards authorising imports of photographic gelatine into the Czech
Republic (notified under document C(2009) 9899) (Only the Czech,
Dutch, English, French and German texts are authentic) (2009/960/EU)

ANNEX

Annexes I and III are amended as follows:

1. Annex I is replaced by the following:

ANNEX THIRD COUNTRIES AND PLANTS OF ORIGIN, MEMBER STATES
 I OF DESTINATION, BORDER INSPECTION POSTS OF FIRST
 ENTRY INTO THE UNION AND APPROVED PHOTOGRAPHIC
 FACTORIES
 Third country of origin Plants of origin Member State of
 destination Border inspection post of first entry into the Union Approved

2. Annex III is replaced by the following:

ANNEX III

MODEL HEALTH CERTIFICATES FOR THE IMPORTATION FROM THIRD COUNTRIES OF TECHNICAL GELATINE TO BE USED BY THE PHOTOGRAPHIC INDUSTRY

Notes

- (a) Veterinary certificates for the importation of technical gelatine to be used by the photographic industry shall be produced by the exporting country, based on the model appearing in this Annex III. They shall contain the attestations that are required for any third country and, as the case may be, those supplementary guarantees that are required for the exporting third country or part thereof.
- (b) The original of each certificate shall consist of a single page, both sides, or, where more text is required, it shall be in such a form that all pages needed are part of an integrated whole and indivisible.
- (c) It shall be drawn up in at least one of the official languages of the EU Member State in which the inspection at the EU border inspection post shall be carried out and of the EU Member State of destination. However, these Member States may allow other languages, if necessary, accompanied by an official translation.
- (d) If for reasons of identification of the items of the consignment, additional pages are attached to the certificate, these pages shall also be considered as forming part of the original of the certificate by the application of the signature and stamp of the certifying official veterinarian, in each of the pages.
- (e) When the certificate, including additional schedules referred to in (d), comprises more than one page, each page shall be numbered — (*page number*) of (*total number of pages*) — on its bottom and shall bear the code number of the certificate that has been designated by the competent authority on its top.

Status: This is the original version (as it was originally adopted).

- (f) The original of the certificate must be completed and signed by an official veterinarian. In doing so, the competent authorities of the exporting country shall ensure that the principles of certification equivalent to those laid down in Council Directive 96/93/EC are followed.
- (g) The colour of the signature shall be different to that of the printing. The same rule applies to stamps other than those embossed or watermark.
- (h) The original of the certificate must accompany the consignment at the EU border inspection post until it reaches the photographic factory of destination.

HEALTH CERTIFICATE

for technical gelatine not intended for human consumption to be used by the photographic industry, intended for dispatch to the Union

COUNTRY				Veterinary certificate to EU				
Part I: Details of dispatched consignment	I.1. Consignor Name			I.2. Certificate reference number		I.2.a.

COUNTRY

Technical gelatine not intended for human consumption to be used by the photographic industry

Part II: Certification	II. HEALTH INFORMATION	II.a. Certificate reference number	II.b.
	<p>II.1. Health attestation</p> <p>I, the undersigned official, declare that I have read and understood Regulation (EC) No 1774/2002 ⁽¹⁾ and certify that the photographic gelatine described above:</p> <p>II.1.1. consists exclusively of photographic gelatine for photographic uses and is not intended for any other purpose;</p> <p>II.1.2. has been prepared and stored in a plant approved, validated and supervised by the competent authority in accordance with Article 18 of Regulation (EC) No 1774/2002, which do not produce gelatine for food, feed or other technical uses intended for dispatch to the Union;</p> <p>II.1.3. has been prepared with Category 3 animal by-products and/or bovine vertebral column classified as Category 1 material;</p> <p>II.1.4. has been wrapped, packaged, stored and transported under satisfactory hygiene conditions;</p> <p>II.1.5. has been produced by a process ensuring that the raw material is:</p> <p>(a) treated by Method 1 ⁽²⁾ of Chapter III of Annex V to Regulation (EC) No 1774/2002 or</p> <p>(b) subjected to:</p> <p>(i) treatment with acid for at least two days, washing with water and treatment with an alkaline solution for at least 20 days; the pH must be adjusted and the material purified by means of filtration and sterilised at 138– 140 °C for 4 seconds; or</p> <p>(ii) treatment with alkali for at least two days, washing with water and treatment with an acid solution for 10-12 hours; the pH must be adjusted and the material purified by means of filtration and sterilised at 138– 140 °C for 4 seconds.</p> <p>II.1.6. has been wrapped and packaged in wrappings and packages carrying the words "PHOTOGRAPHIC GELATINE FOR THE PHOTOGRAPHIC INDUSTRY ONLY".</p> <p>Notes</p> <p>Part I:</p> <p>— Box reference 1.5: The intended destination of the photographic gelatine can only be the Czech Republic, Luxembourg, the Netherlands or the United Kingdom.</p> <p>— Box reference 1.9: Country of destination: only applicable for the Czech Republic, Luxembourg, the Netherlands or United Kingdom.</p> <p>— Box reference 1.15: Registration number (railway wagons or container and lorries), flight number— (aircraft) or name (ship); information is to be provided in the event of unloading and reloading.</p> <p>— Box reference 1.23: Identification of container/seal number: only where applicable.</p> <p>Part II:</p> <p>⁽¹⁾ OJ L 273, 10.10.2002, p. 1.</p> <p>⁽²⁾ Method 1 is as follows:</p> <p>"Reduction</p> <p>1. If the particle size of the animal by-products to be processed is more than 50 millimetres, the animal by-products must be reduced in size using appropriate equipment, set so that the particle size after reduction is no greater than 50 millimetres. The effectiveness of the equipment must be checked daily and its condition recorded. If checks disclose the existence of particles larger than 50 millimetres, the process must be stopped and repairs made before the process is resumed.</p> <p>Time, temperature and pressure</p> <p>2. After reduction the animal by-products must be heated to a core temperature of more than 133 °C for at least 20 minutes without interruption at a pressure (absolute) of at least 3 bars produced by saturated steam; the heat treatment may be applied as the sole process or as a pre- or post-process sterilisation phase.</p> <p>3. The processing may be carried out in batch or continuous systems."</p> <p>— The signature and the stamp must be in a different colour to that of the printing.</p> <p>— Note for the person responsible for the load in EU: this certificate is only for veterinary purposes and has to accompany the consignment until it reaches the factory of destination from the border inspection post.</p>		
<p>Official veterinarian of official inspector</p> <p>Name (in capital letters):</p> <p>Date:</p> <p>Stamp'</p> <p>Qualification and title:</p> <p>Signature:</p>
