

Commission Decision of 2 March 2010 recognising in principle the completeness of the dossiers submitted for detailed examination in view of the possible inclusion of *Trichoderma asperelleum* (strain T34) and isopyrazam in Annex I to Council Directive 91/414/EEC (notified under document C(2010) 1099) (Text with EEA relevance) (2010/132/EU)

COMMISSION DECISION

of 2 March 2010

recognising in principle the completeness of the dossiers submitted for detailed examination in view of the possible inclusion of *Trichoderma asperelleum* (strain T34) and isopyrazam in Annex I to Council Directive 91/414/EEC

(notified under document C(2010) 1099)

(Text with EEA relevance)

(2010/132/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of European Union,

Having regard to Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant-protection products on the market<sup>(1)</sup>, and in particular Article 6(3) thereof,

Whereas:

- (1) Directive 91/414/EEC provides for the development of a Community list of active substances authorised for incorporation in plant protection products.
- (2) A dossier for the active substance *Trichoderma asperillum* (strain T34) was submitted by Biocontrol Technologies S.L. to the authorities of the United Kingdom on 22 April 2009 with an application to obtain its inclusion in Annex I to Directive 91/414/EEC. For isopyrazam, a dossier was submitted by Syngenta Crop Protection AG to the authorities of the United Kingdom on 25 November 2008 with an application to obtain its inclusion in Annex I to Directive 91/414/EEC.
- (3) The United Kingdoms authorities have indicated to the Commission that, on preliminary examination, the dossiers for the active substances concerned appear to satisfy the data and information requirements set out in Annex II to Directive 91/414/EEC. The dossiers submitted appear also to satisfy the data and information requirements set out in Annex III to Directive 91/414/EEC in respect of one plant protection product containing the active substance concerned. In accordance with Article 6(2) of Directive 91/414/EEC, the dossiers were subsequently forwarded by the respective applicants to the Commission and other Member States, and were referred to the Standing Committee on the Food Chain and Animal Health.

---

**Status:** Point in time view as at 31/01/2020.

**Changes to legislation:** There are currently no known outstanding effects for the Commission Decision of 2 March 2010 recognising in principle the completeness of the dossiers submitted for detailed examination in view of the possible inclusion of *Trichoderma asperelleum* (strain T34) and isopyrazam in Annex I to Council Directive 91/414/EEC (notified under document C(2010) 1099) (Text with EEA relevance) (2010/132/EU), Introductory Text. (See end of Document for details)

---

- (4) By this Decision it should be formally confirmed at European Union level that the dossiers are considered as satisfying in principle the data and information requirements set out in Annex II and, for at least one plant protection product containing the active substance concerned, the requirements set out in Annex III to Directive 91/414/EEC.
- (5) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

---

**Status:** Point in time view as at 31/01/2020.
