 - 2.3. Selection of the cities or towns to be sampled
 - 2.4. Selection of sample timing
 - 2.5. Selection of the ready-to-eat foods within the three main categories...

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 5 November 2010 concerning a financial contribution from the Union towards a coordinated monitoring programme on the prevalence of *Listeria monocytogenes* in certain ready-to-eat foods to be carried out in the Member States (notified under document C(2010) 7516) (2010/678/EU). (See end of Document for details)

PART B

SAMPLE COLLECTION AND TRANSPORT

1. Type and detail of sample
2. Sample information
3. Transport of samples

PART C

SAMPLE PREPARATION AND ANALYTICAL METHODS

1. Receipt of samples
 - 1.1. General rules
 - 1.2. Special rules concerning smoked and gravad fish
2. Sample preparation and initial suspension preparation
 - 2.1. Detection of *Listeria monocytogenes*
 - 2.2. Enumeration of *Listeria monocytogenes*
3. pH and water activity (aw) analyses of smoked and gravad...
 - 3.1. Determination of the pH
 - 3.2. Determination of the water activity (aw)
4. Storage of isolates

PART D

REPORTING

1. General provisions
2. Information to be included in the overview of the coordinated...
3. Information to be included in the individual detailed data for...

ANNEX II

ANNEX III

ANNEX IV

Certified financial report on the implementation of a coordinated monitoring...

Statement on costs incurred on the coordinated monitoring programme and...
