
Status: Point in time view as at 30/11/2010.

Changes to legislation: Commission Decision of 30 November 2010 amending Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC as regards avian influenza (notified under document C(2010) 8282) (Text with EEA relevance) (2010/734/EU) is up to date with all changes known to be in force on or before 19 November 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

Commission Decision of 30 November 2010 amending Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC as regards avian influenza (notified under document C(2010) 8282) (Text with EEA relevance) (2010/734/EU)

COMMISSION DECISION

of 30 November 2010

amending Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC as regards avian influenza

(notified under document C(2010) 8282)

(Text with EEA relevance)

(2010/734/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market⁽¹⁾, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market⁽²⁾, and in particular Article 10(4) thereof,

Having regard to Council Directive 91/496/EEC of 15 July 1991 laying down the principles governing the organization of veterinary checks on animals entering the Community from third countries and amending Directives 89/662/EEC, 90/425/EEC and 90/675/EEC⁽³⁾, and in particular Article 18(7) thereof,

Having regard to Council Directive 97/78/EC of 18 December 1997 laying down the principles governing the organisation of veterinary checks on products entering the Community from third countries⁽⁴⁾, and in particular Article 22(6) thereof,

Having regard to Regulation (EC) No 998/2003 of the European Parliament and of the Council of 26 May 2003 on the animal health requirements applicable to the non-commercial movement of pet animals and amending Council Directive 92/65/EEC⁽⁵⁾, and in particular Article 18 thereof,

Having regard to Council Directive 2005/94/EC of 20 December 2005 on Community measures for the control of avian influenza and repealing Directive 92/40/EEC⁽⁶⁾, and in particular Article 63(3) thereof,

Whereas:

Status: Point in time view as at 30/11/2010.

Changes to legislation: Commission Decision of 30 November 2010 amending Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC as regards avian influenza (notified under document C(2010) 8282) (Text with EEA relevance) (2010/734/EU) is up to date with all changes known to be in force on or before 19 November 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (1) The Commission adopted several protection measures in relation to avian influenza, following the outbreaks of that disease in south-east Asia which started in December 2003 and was caused by the highly pathogenic avian influenza virus of the subtype H5N1.
- (2) Those measures are laid down, in particular, in Commission Decision 2005/692/EC of 6 October 2005 concerning certain protection measures in relation to avian influenza in several third countries⁽⁷⁾, Commission Decision 2005/734/EC of 19 October 2005 laying down biosecurity measures to reduce the risk of transmission of highly pathogenic avian influenza caused by Influenza virus A subtype H5N1 from birds living in the wild to poultry and other captive birds and providing for an early detection system in areas at particular risk⁽⁸⁾ and in Commission Decision 2009/494/EC of 25 June 2009 concerning certain protection measures in relation to highly pathogenic avian influenza of subtype H5N1 in Croatia and Switzerland⁽⁹⁾.
- (3) The measures laid down in those Decisions are applicable until 31 December 2010. However, outbreaks of highly pathogenic avian influenza in wild birds and in poultry of the subtype H5N1 continue to occur in Member States and in third countries posing a risk to animal and human health.
- (4) Given the epidemiological situation regarding avian influenza, it is appropriate to continue limiting the risks posed by imports of poultry, poultry products, pet birds and other consignments covered by those Decisions, as well as to maintain biosecurity measures, early detection systems and certain protection measures in relation to highly pathogenic avian influenza of the H5N1 subtype.
- (5) The period of application of Decisions 2005/692/EC, 2005/734/EC, and 2009/494/EC should therefore be extended until 30 June 2012.
- (6) In addition, Decision 2005/734/EC prohibits the use of decoy birds during bird-hunting in areas identified as being particularly at risk for the introduction of avian influenza. However, under certain conditions the competent authority may grant derogations for their use during bird-hunting and in the framework of Member States' programmes for avian influenza surveillance as provided for in Commission Decision 2005/732/EC of 17 October 2005 approving the programmes for the implementation of Member States' surveys for avian influenza in poultry and wild birds during 2005 and laying down reporting and eligibility rules for the Community financial contribution to the implementation costs of those programmes⁽¹⁰⁾.
- (7) Experience has shown that decoy birds are not only used during bird-hunting but also in the framework of research projects, ornithological studies and other activities which may pose similar risks in relation to the spread of avian influenza. The biosecurity measures of Decision 2005/734/EC should therefore apply to a wider use of decoy birds provided that the activity has been authorised by the competent authority in accordance to Article 2b(1)(d).
- (8) Decision 2005/734/EC also refers to the use of decoy birds for sampling pursuant to Member States' programmes for avian influenza surveys as provided for in Decision 2005/732/EC. The surveys referred to in Decision 2005/732/EC have been completed

Status: Point in time view as at 30/11/2010.

Changes to legislation: Commission Decision of 30 November 2010 amending Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC as regards avian influenza (notified under document C(2010) 8282) (Text with EEA relevance) (2010/734/EU) is up to date with all changes known to be in force on or before 19 November 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- within the given time period referred to in that Decision. Accordingly, Decision 2005/734/EC should be amended to refer to the surveillance programmes for avian influenza to be carried out by Member States under Directive 2005/94/EC.
- (9) Commission Decision 2006/415/EC of 14 June 2006 concerning certain protection measures in relation to highly pathogenic avian influenza of the subtype H5N1 in poultry in the Community and repealing Decision 2006/135/EC⁽¹¹⁾ lays down certain protection measures to be applied in the event of an outbreak of that disease. Pending a possible review of those measures, the period of application of that Decision should only be extended until 31 December 2011.
 - (10) Commission Decision 2007/25/EC of 22 December 2006 as regards certain protection measures in relation to highly pathogenic avian influenza and movements of pet birds accompanying their owners into the Community⁽¹²⁾ lays down certain rules regarding the authorisation of the movement from third countries of live pet birds and refers to the list of third countries set out in Council Decision 79/542/EEC of 21 December 1976 drawing up a list of third countries or parts of third countries, and laying down animal and public health and veterinary certification conditions, for importation into the Community of certain live animals and their fresh meat⁽¹³⁾.
 - (11) Commission Regulation (EU) No 206/2010 of 12 March 2010 laying down lists of third countries, territories or parts thereof authorised for the introduction into the European Union of certain animals and fresh meat and the veterinary certification requirements⁽¹⁴⁾ replaces and repeals Decision 79/542/EEC. Accordingly, it is appropriate to update Decision 2007/25/EC by referring to Regulation (EU) No 206/2010.
 - (12) In addition, Article 1 of Decision 2007/25/EC and the model veterinary certificate set out in Annex II to that Decision, which refer to Chapter 2.1.14 of the Manual of Diagnostic Tests and Vaccines for Terrestrial Animals of the World Organisation for Animal Health (OIE), are out of date since the adoption of the revised Chapter on avian influenza in May 2009 and should be updated to refer to Chapter 2.3.4 of that manual. It is also necessary to make certain amendments to the owner's declaration set out in Annex III to that Decision in the light of experience. Decision 2007/25/EC should therefore be amended accordingly.
 - (13) Taking into account the animal health situation, it is also appropriate to extend the period of application of Decision 2007/25/EC until 30 June 2012.
 - (14) Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC should therefore be amended accordingly.
 - (15) It is necessary to provide for a transitional period during which consignments of pet birds for which the necessary veterinary certificate and declaration of the owner have been issued in accordance with Decision 2007/25/EC, before the amendments made by this Decision, may continue to be introduced into the Union, in order to give the Member States and the industry time to adjust to the new rules.
 - (16) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

Status: Point in time view as at 30/11/2010.

Changes to legislation: Commission Decision of 30 November 2010 amending Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC as regards avian influenza (notified under document C(2010) 8282) (Text with EEA relevance) (2010/734/EU) is up to date with all changes known to be in force on or before 19 November 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

HAS ADOPTED THIS DECISION:

Article 1

In Article 7 of Decision 2005/692/EC, the date ‘31 December 2010’ is replaced by ‘30 June 2012’.

Article 2

Decision 2005/734/EC is amended as follows:

1. in Article 1, paragraph 4 is replaced by the following:
4. Member States shall regularly review the measures they have taken pursuant to paragraph 1, and in the light of the surveillance programmes that they have carried out in accordance with Article 4 of Council Directive 2005/94/EC⁽¹⁵⁾, in order to adjust to the changing epidemiological and ornithological situation, the areas of their territory that they have identified as being particularly at risk from the introduction of avian influenza.;
2. in Article 2a(1), point (d) is replaced by the following:
 - (d) the use of birds of the orders *Anseriformes* and *Charadriiformes* as decoy birds (decoy birds).;
3. in Article 2b(1), point (d) is amended as follows:
 - (a) the introductory phrase and (i) is replaced by the following:
 - (d) the use of decoy birds:
 - (i) by decoy bird holders registered with the competent authority, under the strict supervision of the competent authority for the attraction of wild birds intended for sampling pursuant to the Member States’ programmes for avian influenza, research projects, ornithological studies or any other activity approved by the competent authority; or;
 - (b) in (ii), the third indent is replaced by the following:
 - the recording and reporting of the health status of decoy birds and laboratory testing for avian influenza in the case of deaths of such birds and at the end of the period of use in the area identified at particular risk for the introduction of avian influenza.;
4. in Article 4, the date ‘31 December 2010’ is replaced by ‘30 June 2012’.

Article 3

In Article 12 of Decision 2006/415/EC, the date ‘31 December 2010’ is replaced by ‘31 December 2011’.

Article 4

Decision 2007/25/EC is amended as follows:

1. in Article 1(1), point (b) is amended as follows:
 - (a) point (i) is replaced by the following:

Status: Point in time view as at 30/11/2010.

Changes to legislation: Commission Decision of 30 November 2010 amending Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC as regards avian influenza (notified under document C(2010) 8282) (Text with EEA relevance) (2010/734/EU) is up to date with all changes known to be in force on or before 19 November 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (i) have undergone isolation for 30 days prior to export at the place of departure in a third country listed in Part 1 of Annex I or Part 1 of Annex II to Commission Regulation (EU) No 206/2010⁽⁴⁶⁾, or;
 - (b) point (iv) is replaced by the following:
 - (iv) have been in isolation for at least 10 days prior to export and have undergone a test to detect the avian influenza H5N1 antigen or genome as laid down in the Chapter on avian influenza of the Manual of Diagnostic tests and Vaccines for Terrestrial Animals, as regularly updated by the OIE, carried out on a sample taken not earlier than the third day of isolation.;
2. in Article 6, the date ‘31 December 2010’ is replaced by ‘30 June 2012’;
 3. Annexes II and III are replaced by the text in the Annex to this Decision.

Article 5

In Article 3 of Decision 2009/494/EC, the date ‘31 December 2010’ is replaced by ‘30 June 2012’.

Article 6

The Member States shall immediately take the necessary measures to comply with this Decision and publish those measures. They shall immediately inform the Commission thereof.

Article 7

For a transitional period until 31 March 2011, pet birds for which the veterinary certificate and declaration of the owner have been issued in accordance with Decision 2007/25/EC, before the amendments made by this Decision, may continue to be introduced into the Union.

Article 8

This Decision is addressed to the Member States.

Done at Brussels, 30 November 2010.

For the Commission

John DALLI

Member of the Commission

Status: Point in time view as at 30/11/2010.

Changes to legislation: Commission Decision of 30 November 2010 amending Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC as regards avian influenza (notified under document C(2010) 8282) (Text with EEA relevance) (2010/734/EU) is up to date with all changes known to be in force on or before 19 November 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

ANNEX

Annexes II and III to Decision 2007/25/EC are replaced by the following:

ANNEX
II

Status: Point in time view as at 30/11/2010.

Changes to legislation: Commission Decision of 30 November 2010 amending Decisions 2005/692/EC, 2005/734/EC, 2006/415/EC, 2007/25/EC and 2009/494/EC as regards avian influenza (notified under document C(2010) 8282) (Text with EEA relevance) (2010/734/EU) is up to date with all changes known to be in force on or before 19 November 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

COUNTRY		Pet birds
Part II: Certification	II. Health information	II.a. Certificate reference number
		II.b.
	I, the undersigned official veterinarian of (insert name of third country) certify that:	
	1. The country of dispatch is a member country of the World Organisation for Animal Health (OIE) and belongs to the OIE Regional Commission for (insert name of Regional Commission).	
	2. The bird(s) described in point I.28 has/have been subjected today, within 48 hours or the last working day prior to the date of dispatch, to a clinical inspection and found free of obvious signs of disease;	
	⁽¹⁾ either [3. The bird(s) complies/comply with at least one of the following conditions:	
	⁽¹⁾ either [it/they comes/come from a third country listed in Part 1 of Annex I or Part 1 of Annex II to Regulation (EU) No 206/2010 and has/have been confined on the premises specified in point I.11 under official supervision for at least 30 days prior to the date of dispatch and effectively protected from contact with any other bird(s);]	
	⁽¹⁾ or [it/they has/have been vaccinated on [dd/mm/yyyy] and at least on one occasion re-vaccinated on [dd/mm/yyyy] within the last 6 months and not later than 60 days prior to the date of dispatch, in accordance with the manufacturer's instructions against avian influenza using an H5 vaccine, which is not a live vaccine and approved for the species concerned in the third country of dispatch or at least in one Member State of the European Union;]	
	⁽¹⁾ or [it/they has/have been isolated for at least 10 days prior to the date of dispatch and have been subjected to a test for the detection of avian influenza H5N1 antigen or genome, as prescribed in the Chapter 2.3.4 on avian influenza in the Manual of Diagnostic Tests and Vaccines for Terrestrial Animals of the OIE, as regularly updated, carried out on a sample taken on [dd/mm/yyyy], not earlier than on the third day of isolation;]	
	⁽¹⁾ or [3. The owner/person responsible for the bird(s) has declared that he/she has made arrangements for the 30 days post-introduction quarantine in an approved quarantine facility or centre in accordance with Article 6 of Regulation (EC) No 318/2007.	
4. The owner or the representative of the owner has declared that:		
4.1. The bird(s) is/are "pet animal(s)" as defined in Article 3(a) of Regulation (EC) No 998/2003 intended for non-commercial movement.		
4.2. During the period between the pre-movement veterinary inspection and the factual departure the bird(s) will remain isolated from any possible contact with any other bird(s).		
⁽¹⁾ either [4.3. The bird(s) has/have been confined on the premises for at least the 30 days immediately prior to the date of dispatch without coming into contact with any other bird(s).]		
⁽¹⁾ or [4.3. The bird(s) has/have undergone the 10 days pre-movement isolation.]		
⁽¹⁾ or [4.3. Arrangements have been made for the 30 days post-introduction quarantine of the bird(s) at the quarantine premises of]		
Notes		
Part I		
— Box reference I.8: Provide the code of territory as appearing in Part 1 of Annex I or in Part 1 of Annex II to Regulation (EU) No 206/2010,		
— Box reference I.15: Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship) is to be provided,		
— Box reference I.19: Use the appropriate HS codes: 01.06.31, 01.06.32, 01.06.39,		
— Box reference I.23: For containers or boxes, the container number and the seal number (if applicable) should be included,		
— Box reference I.28: <i>Identification system:</i> The birds must bear: An individual number which permits tracing of their premises of origin. Specify the identification system (such as clip, leg band, microchip, transponder, tag).		

Status: Point in time view as at 30/11/2010.
