Through Internet based information pages, the Commission shall also make this information available to the public.

5 Where the Commission has evidence from sources other than those referred to in paragraphs 3 and 4 that a place of production listed in the register does not comply with point 1(b) of Section 1(B) of Annex I or that the specified organism has been found on specified plants imported from such a place of production, it shall communicate the information concerning that place of production to the Member States.
