Article 1

In Article 2 of Decision 2006/771/EC, the following point is added:

3. “category of short-range devices” means a group of short-range devices that use spectrum with similar technical spectrum access mechanisms or based on common usage scenarios

Article 2

Article 3 of Decision 2006/771/EC is replaced by the following.

Article 3

1 Member States shall designate and make available, on a non-exclusive, non-interference and non-protected basis, the frequency bands for the categories of short-range devices, subject to the specific conditions and by the implementation deadline, as laid down in the Annex to this Decision.

2 Notwithstanding paragraph 1, Member States may request the benefit of Article 4(5) of the Radio Spectrum Decision.

3 This Decision is without prejudice to the right of Member States to allow the use of the frequency bands under less restrictive conditions or for short-range devices which are not part of the harmonised category provided that this does not prevent or reduce the possibility for short-range devices of such a category to rely on the appropriate set of harmonised technical and operational conditions, as specified in the Annex to this Decision, which allow the shared use of a specific part of the spectrum on a non-exclusive basis and for different purposes by short range devices of the same category.

Article 3

The Annex to Decision 2006/771/EC is replaced by the text in the Annex to this Decision.

Decision 2005/928/EC is repealed.

Article 5

Member States shall report to the Commission on the implementation of this Decision no later than 1 September 2014.
