

Commission Implementing Decision of 26 June 2014 concerning formats for reporting on the national programmes for the implementation of Council Directive 91/271/EEC (notified under document C(2014) 4208) (2014/431/EU)

COMMISSION IMPLEMENTING DECISION

of 26 June 2014

concerning formats for reporting on the national programmes for the implementation of Council Directive 91/271/EEC

(notified under document C(2014) 4208)

(2014/431/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 91/271/EEC of 21 May 1991 concerning urban waste water treatment⁽¹⁾, and in particular Article 17(4) thereof,

Whereas:

- (1) Member States are required to draw up reports concerning their national programmes for the implementation of Directive 91/271/EEC and shall, if necessary, provide the Commission by 30 June every two years with an update of the information on the basis of formats drawn up by the Commission.
- (2) The Union is committed to maximising the benefits of Union environment legislation by improving implementation, including by ensuring that the public has access to clear information showing how it is being implemented. Systems which actively disseminate such information should be put in place at national level, and should be complemented with a Union level overview of individual Member States' performance⁽²⁾.
- (3) The Commission, in its Communication on the European Citizens' Initiative 'Water and sanitation are a human right! Water is a public good, not a commodity'⁽³⁾ committed to making information on urban waste water more accessible for citizens, in particular through streamlined and transparent data management and dissemination.
- (4) The modifications introduced by this Decision build on the pilot exercise establishing a Structured Implementation and Information Framework as part of the Commission's efforts to develop a simple, clear, stable and predictable regulatory framework for businesses, workers and citizens, with the aim to reduce administrative burden and increase transparency⁽⁴⁾.
- (5) The formats adopted by Commission Decision 93/481/EEC⁽⁵⁾ require revision taking into consideration the need for simplification and increased transparency, the reduction of administrative burden and new approaches to data management and reporting. That Decision should therefore be replaced.

- (6) The measures provided for in this Decision are in accordance with the opinion of the Committee established under Article 18 of Directive 91/271/EEC,

HAS ADOPTED THIS DECISION:

Article 1

The formats for reporting on the national programmes for the implementation of Directive 91/271/EEC provided for in the Annex are adopted.

Article 2

Decision 93/481/EEC is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 26 June 2014.

	<p>Has the NP been adopted as a legally binding instrument? If affirmative, which one? How long the NP is intended to run for? ...</p>
Main drivers	<p>What are the main drivers in the NP: reaching compliance, ensuring maintenance and renewal, etc? Is it possible to have a break down of the associated costs for each? ...</p>
Relations with other pieces of EU legislation	<p>To what extent have the actions in the NP been included in the relevant River Basin Management Plans under Directive 2000/60/EC of the European Parliament and of the Council^b? Notwithstanding sensitive areas designated under Directive 91/271/EEC, does the NP include actions triggered by the protected areas referred to by Annex IV to Directive 2000/60/EC (bathing waters, Natura 2000, shellfish, drinking water...)? If yes, please describe these actions. Has the NP been subject to an assessment under Directive 2001/42/EC of the European Parliament and of the Council^c? If yes, please give details. Does the NP have links with progressive reduction of discharges, emissions and losses of priority substances and the cessation or phasing-out of discharges, emissions and losses of the priority hazardous substances (Article 4 of Directive 2000/60/EC)? If yes, describe the actions. Does the NP have links with Directive 2008/56/EC of the European Parliament and of the Council^d (e.g. decrease of marine litter) ? If yes, please give details. Does the NP have links with International Conventions or Commissions ? If yes, please describe the links. Is there any action foreseen to design additional sensitive areas under Annex</p>
